PETE WILSON  
GOVERNOR

State of California  
GOVERNOR'S OFFICE  
SACRAMENTO, CA 95814

January 10, 1991

To the Senate and Assembly of the Legislature of California:

The 1991-92 Governor's Budget is submitted to you in compliance with Article IV, Section 12 of the California Constitution.

This Budget is the framework for my vision of California as we enter the 21st century. We have set our priorities and provided an 18-month plan to achieve budgetary reform and fiscal stability. California cannot afford a crisis management approach to taxing and spending. Budget demands from existing programs are draining our resources and limiting our opportunities. We must achieve structural reform to prevent these budget circumstances from occurring ever again.

As Governor, my first priority is for California to invest in its future -- our children. Our budget problems reinforce the need to strengthen our investment for families. We must avoid future costs to the state for acute medical care, drug rehabilitation, public assistance and incarceration. By investing in California's young people through child development and educational programs, we will more than any other way shape California's future.

Additionally, I am proposing to increase county fiscal capacity and flexibility by realigning the state and local fiscal responsibilities for two major health programs. As a Governor with deep roots in local government, I intend to create a new relationship with local government on which the citizens of California can rely to deliver essential government services.

California has a long agenda of challenges that I am eager to address. The first of these is putting our fiscal house in order. I look forward to a cooperative and productive relationship with the Legislature as we work together on this task.

We all share common goals. California will be competitive and prosperous and our children will be prepared to provide America the confident leadership she will require in the new century. That is my dream. It is our challenge.

Sincerely,

Pete Wilson  
Governor

STATE OF CALIFORNIA

PETE WILSON, Governor

## DEPARTMENT OF FINANCE

OFFICE OF THE DIRECTOR  
STATE CAPITOL, ROOM 1145  
SACRAMENTO, CA 95814-4998

January 10, 1991

The Honorable Pete Wilson  
Governor, State of California  
State Capitol  
Sacramento, California 95814

Dear Governor Wilson:

In developing the 1991-92 Governor's Budget we attempted to prepare a budget which reflects your priorities for the future: A competitive and prosperous California, with a diverse and strong economy producing good jobs and income to support sound public services. Most importantly it is a framework for your priority of making essential investments in the health and education of California's children as the key to California's future.

As you know, the decisions required to present this budget reflect some hard choices which were necessary to meet the state's unprecedented fiscal challenges. Despite these challenges, this Budget is fair and balanced; it provides a prudent reserve and funds essential programs. The Budget funds budgetary demands created by increased school enrollment and other caseload driven programs, but provides no cost-of-living adjustments. With the extraordinary circumstances facing the state, clearly difficult choices were required, but no program or constituency was singled out for drastic cutbacks.

This Budget is a cornerstone of your new Administration -- a plan to assure the long-term fiscal integrity of California State Government.

Finally, I want to thank the men and women of the Department of Finance and their families. They represent the very best State Government has to offer. Without their dedication and professionalism this Budget would not have been possible.

Sincerely,

A handwritten signature in cursive script that reads "Thomas W. Hayes".

THOMAS W. HAYES  
Director of Finance

Legislative,  
Judicial and  
Executive

## 0100 LEGISLATURE

## SUMMARY OF PROGRAM REQUIREMENTS

	1989-90*	1990-91*	1991-92*
10 Senate .....	\$71,274	\$69,043	\$69,043 <sup>1</sup>
20 Assembly .....	105,180	96,647	96,647 <sup>1</sup>
30 Joint Expenses .....	(7,435)	(7,700)	(7,700)
40 Legislature .....	50	-	-
TOTALS, PROGRAM .....	\$176,504	\$165,690	\$165,690

<sup>1</sup> The provisions of Proposition 140 limit expenditures of the Legislature for the compensation of its members and employees and its operating expenses and equipment. Appropriations contained in this Budget reflect last years appropriation levels and will be adjusted in the Spring Revision of the Budget to reflect the appropriate level of funding for these expenditures for the 1991-92 fiscal year in accordance with the provisions of the Proposition 140. Any General Fund savings from a reduction in the Legislature's budget will be part of unidentified savings.

## 0150 CONTRIBUTIONS TO THE LEGISLATORS' RETIREMENT FUND

Established in 1947, the Legislators' Retirement System provides retirement and death benefits for legislators, constitutional officers and legislative statutory officers. Chapter 937, Statutes of 1977, established the State's contribution rate at 18.81 percent of payroll. The system also is financed through member contributions of 4 percent for members enrolled prior to March 4, 1972, and 8 percent for members enrolled thereafter, and through investment earnings. Administration of the system is provided by the Public Employees' Retirement System.

Retirement benefits paid are based upon age, years of service, and compensation. For members of the Legislature and constitutional officers, benefits are modified according to the actual calendar years that the service was performed. Survivors, death, and disability benefits also are provided under specific conditions.

Proposition 140, approved by the electorate on November 6, 1990, prohibits current and future members of the Legislature from earning retirement benefits for legislative service on and after November 7, 1990. The fiscal effects of this change are unknown at this time. In this presentation, however, member contributions have been reduced from an estimated \$435,000 to \$230,000 in 1990-91, and from a projected \$457,000 to \$76,000 in 1991-92, to reflect the termination of accrual of future benefits for current members. The State contribution is shown at the current level to fund the liability of the accrued service. The State's contribution rate will be adjusted after the next actuarial valuation of the System is completed.

## 0155 AUDITOR GENERAL

The objective of the Auditor General's Office is to provide independent audits of the programs and fiscal operations of State government. By performing financial, performance, and investigative audits, and by performing other special studies, the Auditor General provides the Legislature, Governor, and citizens of the State with objective information about the State's financial condition and the performance of the State's many agencies and programs. The Auditor General is in the legislative branch to meet the audit independence requirements of the Federal government and of professional auditing standards.

Chapter 1594, Statutes of 1984, as amended by Chapter 833, Statutes of 1985, established the Auditor General Fund and provided that the costs of audits made by the Auditor General would be supported from the fund. The Auditor General had previously been supported from the Contingent Funds of the Assembly and Senate.

## 0160 LEGISLATIVE COUNSEL BUREAU

The Legislative Counsel Bureau provides legal assistance to the two houses of the Legislature and their Members and Committees in resolving a large volume of complex legal problems arising in connection with the legislative process, all of which must be resolved within a critical time span. The legal services furnished include rendering opinions, drafting bills, counseling, attendance as Counsel at meetings of legislative committees, and representing the Legislature in litigation. The attorney-client relationship is maintained, and all work is confidential.

In addition, the Bureau prepares and provides necessary indices and appropriate tables necessary to identify legislative measures, and compiles and indexes statutes and codes.

The Bureau operates a data center which is used for the legislative information system, the processing of legislative measures, and payroll, personnel, and accounting systems for both houses of the Legislature.

0250 JUDICIAL<sup>1</sup>

Article VI of the Constitution creates the Supreme Court of California and the Courts of Appeal to exercise the judicial power of the state at the appellate level, creates the Judicial Council of California to administer the state's judicial system, and creates the Commission on Judicial Performance to consider complaints against judges.

For the support of the state judiciary, a budget of \$152 million is proposed for 1991-92. This amount represents a net increase of \$11.8 million (or, 8.4%) over current year levels of funding. Requested budget enhancements fall into three broad categories: legislation, caseload, and workload and administrative.

Of the total \$17.2 million requested, 45% is needed to fund the appointed counsel program, 13% for facilities operations, 12.7% for salary savings, and 10.6% is required to respond to mandates contained in enacted legislation.

To implement enacted legislation, \$1.8 million and nine and one-half personnel-years are requested. This component comprises 10.6% of the total increment proposed.

Senate Bill 218, Chapter 1220, Statutes of 1989, requires the Attorney General and the Judicial Council to evaluate and implement the recommendations of the California Child Victim Witness Judicial Advisory Committee through several pilot projects of three-year durations. This activity was deferred in 1990-91 due to budgetary constraints. To implement these provisions, \$184,000 is requested.

Senate Bill 1350, Chapter 1389, Statutes of 1989 provides for the centralized payment of assigned judges; to process the increased level of transactions resulting from centralized payment and to provide requisite program funding, \$521,000 and three personnel-years are requested.

Also being implemented are two pieces of legislation relating to court interpreters. Chapter 1108, Statutes of 1990 (AB 3679) directs the Judicial Council to collect, analyze, publish, comment upon, and report pertinent court interpreter utilization statistics to the Governor and the Legislature not later than January 1, 1992 and every five years thereafter. Chapter 1450, Statutes of 1990, (SB 2046) amends various sections of the Evidence Code relating to interpreting for the deaf or hard-of-hearing in court proceedings. The Judicial Council is required to conduct a study to establish guidelines for designating agencies, organizations, and educational institutions to certify court interpreters for the deaf or hard-of-hearing. The Judicial Council is also required to approve the testing entities as qualified to administer tests. To implement this legislation, two and one-half limited-term positions and \$385,000 is requested.

Chapter 1493, Statutes of 1990 (AB 3974) requires the Judicial Council to report to the Legislature on a system of permanent child support guidelines which will comply with federal law. The Judicial Council is required to consult with a broad cross-section of groups involved in child support issues as specified in the legislation; \$166,000 is requested.

Chapter 621, Statutes of 1990 (SB 2675) revises existing law as it pertains to the definitions of plaintiff, defendant, litigation, and vexatious litigant. The bill also allows a court to prohibit a vexatious litigant from filing any new litigation in California courts. The legislation requires the clerk of the court to provide the Judicial Council a copy of any pre-filing orders issued pursuant to the bill, and would require the Judicial Council to maintain a record of vexatious litigants. To implement this legislation, one personnel-year and \$41,000 is requested.

In recognition of the state's fiscal situation, an appropriation is not being requested to fund the Trial Court Improvement Fund. Government Code Section 77207 (enacted pursuant to SB 709, Statutes of 1987, Chapter 1211) provides for a Trial Court Improvement Fund of \$20,000,000 to be appropriated annually to the Judicial Council. Should the state's fiscal condition improve in 1992-93, a proposal will be submitted to effect the provisions of Government Code Section 77207.

To address growing caseload in Courts of Appeal court appointed counsel program, \$7.7 million and one personnel-year is requested. This amount represents 45.7% of the total increment proposed for 1991-92. Criminal caseload continues to increase. Data from the Sentencing Practices Quarterly indicates significant increases from 1989 to 1990 for convictions for the following crime categories: crimes against persons, 19%; crimes against property, 14%; drug law violations, 8%; and other crimes 15%. These trends at the trial court level portend significant caseload increases for the Courts of Appeal's appointed counsel program.

Requests which fall under the workload and administrative category are those which: (1) improve the efficiency of court operations; (2) provide adequate funding for facilities for court and related judicial agencies; and (3) adjust staffing levels for support functions related to the administration of the state court system. Requests in this category total \$7.7 million and 21.7 personnel-years; this amount represents 44.6% of the total increment proposed for 1991-92.

Requested is funding to cover the cost of: (1) continuation of implementation of a voice mail system (\$400,000); (2) local area networks (LANS) to begin a multi-year project to integrate court-based information systems (\$1,150,000); (3) a site license for an ORACLE database package to further the implementation of the CAPIS system (\$232,000). Also requested are three personnel-years to provide support staff for these activities.

In 1988, the Supreme Court requested 14 attorney positions (and support staff) for the court's new civil central staff. The 1991-92 budget proposes the conversion to permanent status for five attorney positions currently authorized on a limited-term basis and the addition of two attorneys to fully realize the staffing level proposed by the study. The Legislature in the 1990-91 budget directed the judiciary to prepare a report on their effectiveness. This report confirms the utility of the twelve staff positions and resubmits the court's request for an additional two attorney positions. Also requested is one personnel-year to function as a habeas attorney in criminal central staff. Since 1983 habeas applications have increased an average of 10.7% annually; for the same period, the state prison population has grown by an average of 14% each year. The new position would help address backlog habeas petitions.

For facility operations, a funding increment of \$2.2 million is requested to fund the judiciary's projected facility costs for the upcoming fiscal year. Roughly eighty percent of this increase is needed to address changes in the judiciary's facility requirements for the Supreme Court, Court of Appeal, First Appellate District and Judicial Council in San Francisco and the Court of Appeal, Second Appellate District in Los Angeles.

The Center for Judicial Education and Research requests \$292,000 and 3.7 personnel-years to support the following functions: budget and business coordination and assistance, administration and support for CJER's computer systems, the redirection of existing funding to provide permanent status for one office technician and funding to incorporate gender fairness issues into CJER's programs, prepare a Juvenile Court Deskbook on dependency, and to conduct annual adoption workshops.

<sup>1</sup> This budget reflects proposals submitted by the Judicial Branch and does not necessarily reflect the Governor's position on these issues.

## 0390 CONTRIBUTIONS TO THE JUDGES' RETIREMENT FUND

The Judges' Retirement Fund receives contributions from the State in the amount of eight percent of the salaries for the established judgeships of the justices of the Supreme Court, District Courts of Appeal and the Judges of the Superior, Municipal, and Justice Courts. In addition, filing fees of \$2 and \$3 from specific civil cases, investment income, and Budget Act appropriations are used to maintain the solvency of the retirement fund and to pay disbursements. Eight percent also is deducted from the salaries of active justices and judges and deposited in the fund.

Retirement benefits are based on age, years of service, compensation at time of retirement, and eligibility as determined by specific sections of the Judges' Retirement Law. Survivor, death, and disability benefits also are provided under specific conditions.

The budget provides contributions for the following numbers of judges by type of court:

	1989-90	1990-91	1991-92
<i>Type of Court</i>	<i>Number of Judges</i>		
State Operations:

## 0420 SALARIES OF SUPERIOR COURT JUDGES

Article VI of the State Constitution vests the judicial power of the State in the Supreme Court, the courts of appeal, the superior courts, the municipal courts and the justice courts. The Constitution also provides that there shall be a superior court of one or more judges in each county, with the exact number of judges established by the Legislature. The superior courts have original jurisdiction over all civil matters where the amount of controversy exceeds \$25,000 and over all criminal matters, both misdemeanor and felony, except those matters given by statute to other trial courts.

Government Code Section 68206 provides that the salary of a superior court judge, which increased from \$94,344 to \$99,297 on January 1, 1991, shall be paid in part by the county and in part by the State. The amount of the county's share is based on its population as illustrated in the table below. This budget provides for payment of the State's share of the salaries, as well as the health, dental and vision benefits of the 789 authorized superior court judgeships.

## County Population

## County Share

## 0440 STATE BLOCK GRANTS FOR SUPERIOR COURT JUDGESHIPS

It had been state policy to assist local government in financing superior court judgeships by providing an annual block grant for each new judgeship established since January 1, 1973. Traditionally, the amount of the annual block grant was \$60,000 and was provided in addition to state contributions toward salaries, retirement, and health, dental, and vision benefits of superior court judges.

Chapter 945, Statutes of 1988, and associated funding contained in Chapter 944, Statutes of 1988, implemented the Brown-Presley Trial Court Funding Act on January 1, 1989. Chapter 945 provided for a block grant for each trial court judicial position in the superior, municipal and justice courts upon the voluntary participation of a county in that funding program in 1988-89. Among the provisions of the Brown-Presley Trial Court Funding Act is the requirement that any grant received under that Act is to be in lieu of the grants traditionally available under this budget item.

The proposed budget year appropriation of \$1,000 will allow the state to use this budget item as a vehicle to fund traditional \$60,000 block grants should any county opt out of the Brown-Presley Trial Court Funding Act in the 1991-92 fiscal year.

## 0450 STATE BLOCK GRANTS FOR TRIAL COURT FUNDING

On September 16, 1988 the Governor signed SB 612 into law. That measure, which became Chapter 945, Statutes of 1988, enacted the Brown-Presley Trial Court Funding Act. A companion measure, AB 1197, was enacted as Chapter 944, Statutes of 1988, appropriating funds set aside from the 1988 Budget Act to make the Trial Court Funding Program operative in the second half of the 1988-89 fiscal year.

Under the Brown-Presley Trial Court Funding Act, participating counties receive an annual block grant, adjusted by the same percentage salary increase received by state employees for the previous year, for each superior, municipal and justice court judgeship, commissioner and referee position. In addition, each participating county receives a supplement to the block grant in an amount equal to the annual salary of each municipal and justice court judge in the county, less a specified county match per judge. The county retains all fine, fee and forfeiture revenue generated by the courts. Special provisions were included to provide additional assistance to counties which receive more than 10 judgeships pursuant to Chapter 1211/87 and for counties in which new judgeships are authorized by statutes effective on or after January 1, 1990. County mandate claim waiver requirements also were relaxed.

The basic trial court block grant will be \$50,966 per fiscal quarter, or \$203,864 per annum, for 1991-92.

The proposed budget is based upon the participation of all counties in this program. Counties have until March 1, 1991 to notify the State of intent to participate during the 1991-92 fiscal year. The budget year amount also is based upon the number of judicial positions reported by the Judicial Council as of September 1, 1990. Should county resolutions regarding participation in this program not be forthcoming, or should the Judicial Council amend its report of judicial positions, the funding level for this program could be affected in both the current and budget years.

## Governor's Office

## 0510 SECRETARY FOR STATE AND CONSUMER SERVICES

The State and Consumer Services Agency brings together a diverse array of State departments which include: the California Museum of Science and Industry, the California Afro-American Museum, the Department of Consumer Affairs, the Department of Fair Employment and Housing, the Fair Employment and Housing Commission, the Office of the State Fire Marshal, the Franchise Tax Board, the Department of General Services, the State Personnel Board, the Public Employees' Retirement System, the State Teachers' Retirement System and the Department of Veterans Affairs. Consistent with statutory intent and the goals and policies of the Administration, the mission of the Office of the Secretary for the State and Consumer Services Agency is to assist, direct and motivate member state organizations in the delivery of essential services to other state organizations, professions and individuals in an efficient and effective manner while maintaining fiscal integrity. In order to accomplish this mission, the State and Consumer Services Agency has adopted the following four goals:

- To establish and maintain an effective management environment for decision-making and the implementation of change.
- To ensure that necessary resources are authorized, properly qualified, and efficiently utilized to meet the highest priorities of the people of California.
- To develop and administer legislation and a regulatory process that effectively serves the people of California.
- To enhance the effectiveness of all programs administered by organizations within the Agency.

The resources proposed for 1991-92 are sufficient to ensure that the Agency can effectively pursue these goals provided it does so in an efficient manner.

**Governor's Office**  
**0530 SECRETARY FOR HEALTH AND WELFARE**

The Health and Welfare Agency is responsible for administering the State's health, welfare, rehabilitation and employment programs. The Secretary of Health and Welfare, a member of the Governor's Cabinet, advises the Governor on major policy and program matters, and oversees the operation of the Agency departments.

These departments provide services under the State's health, welfare, rehabilitation and employment programs; employ over 44,736 thousand positions; and manage total combined budgets of over \$32 billion in State and federal funds. They are the Departments of Aging, Alcohol and Drug Programs, Developmental Services, Health Services, Mental Health, Rehabilitation, Social Services, the Emergency Medical Services Authority, the Employment Development Department, the Health and Welfare Agency Data Center and the Office of Statewide Health Planning and Development.

The Health and Welfare Agency is the lead agency for formulating California's strategy for effectively implementing the Immigration Reform and Control Act of 1986 (IRCA), and for developing the State Application and Expenditure Plan for federal legalization assistance funding. IRCA implementation activities require the Agency to identify policy and procedural issues hampering effective implementation of immigration reform, to seek advice of affected constituency groups on how to resolve problem situations and to advocate with federal agencies, primarily the Immigration and Naturalization Service and the Department of Health and Human Services, for appropriate resolution of California's major concerns. IRCA implementation directly impacts several state and local programs for public health assistance, public assistance and education services to newly legalized persons.

**Budget Adjustments**

In 1991-92, a reduction of \$1,989,000 is proposed in the Immigration Reform and Control Act Program to reflect the reduced level of Federal funding California is anticipated to receive for the program.

**AUTHORITY**

Government Code, Title 2, Division 3, Part 2.5.

**Governor's Office**  
**0540 SECRETARY FOR RESOURCES**

The Resources Agency is responsible for the protection and administration of the State's natural resources. The Secretary for Resources assists the Governor in establishing the objectives of the Administration and in formulating programs and policies governing the acquisition, development and use of the State's resources to attain these objectives.

The Resources Agency consists of the Departments of Forestry and Fire Protection, Conservation, Fish and Game, Boating and Waterways, Parks and Recreation, Water Resources; the State Lands Commission; the Colorado River Board; the San Francisco Bay Conservation and Development Commission; the State Reclamation Board; the Energy Resources Conservation and Development Commission; the California Conservation Corps; the California Coastal Commission; the State Coastal Conservancy; the California Tahoe Conservancy; and Special Resources Program.

The Secretary for Resources is a voting member of the State Coastal Conservancy, the California Tahoe Conservancy, and the San Francisco Bay Conservation and Development Commission. The Secretary is also an ex-officio, non-voting, member of the Energy Resources Conservation and Development Commission and the California Coastal Commission. In addition, the Secretary is responsible for administering the Sea Grant Program, the Open Space Subvention Program, the California Environmental Quality Act, the activities of the California Tahoe Regional Planning Agency upon its deactivation in 1983-84, the Timberland Task Force as required by Chapter 1241, Statutes of 1989, the San Joaquin River Management Program as required by Chapter 1068, Statutes of 1990 and the Environmental Enhancement and Mitigation Demonstration Program as required by Chapter 106, Statutes of 1989.

**Authority**

Government Code Sections 12800, 12801 and 12805.

**Budget Adjustments**

In 1991-92, the following budget adjustments are proposed:

- 2.0 positions (1.9 personnel years) and \$120,000 from the Environmental Enhancement and Mitigation Demonstration Program Fund for evaluating grant proposals to mitigate the environmental impact of transportation facilities. The California Transportation Commission awards grants from the Agency-prepared recommendations.
- \$125,000 from the Cigarette and Tobacco Products Surtax Fund for continued work on the San Joaquin River Management Program.

## Governor's Office

## 0558 SECRETARY FOR CHILD DEVELOPMENT AND EDUCATION

The Secretary for Child Development and Education, a member of the Governor's Cabinet, is responsible for advising the Governor and making recommendations to ensure the well-being of California's children. These recommendations will facilitate the integration of social services, health services, mental health services, and other necessary support in the public schools, so that all children will have access to those services necessary for their success.

The Secretary serves as the Governor's advocate for children's and education issues, and is his liaison with all other State agencies involved in the provision of children's services. Additionally, the Secretary will chair the newly established Inter-Agency Council for Child Development. This Council will report its findings and recommendations to the Governor in 1992.

For the 1990-91 fiscal year, the costs of the Secretary and the Council will be funded through the Governor's Office of Planning and Research. For the 1991-92 fiscal year, a request will be submitted to the Legislature in the spring to finalize the details of the budgetary requirements of the new agency.

## 0580 OFFICE OF CALIFORNIA-MEXICO AFFAIRS

## Program Objectives Statement

Chapter 1197, Statutes of 1982, established the Office of California-Mexico Affairs in order to continue the operations of the Commission of the Californias and the California Office of the Southwest Border Regional Conference within one office. The office ensures that California participates in the four-state Southwest Border Regional Conference where the state is represented by the Governor or his designee. The Commission of the Californias consists of the chairperson and eighteen commissioners: seven public citizens appointed by the Governor, the Lieutenant-Governor, five Senators appointed by the Senate Committee on Rules, and five Assemblymembers appointed by the Speaker of the Assembly. The Governor serves as chairperson with the Lieutenant Governor as vice-chairperson.

The basic functions of the Office of California-Mexico Affairs are:

- a) to develop and further favorable economic, educational and cultural relations with the State of Baja California, the State of Baja California Sur, other Mexican states bordering on the United States, and other states and territories of the Republic of Mexico;
- b) to cooperate with similar organizations situated within the United States or Mexico; and,
- c) to carry out the ongoing responsibilities of the Commission of the Californias and the Southwest Border Regional Conference, and to report to the Governor and the Legislature annually on plans and programs.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## Governor's Office

### 0585 CALIFORNIA STATE WORLD TRADE COMMISSION

Chapter 1387, Statutes of 1986, reorganized the California State World Trade Commission under the Governor's Office effective January 1, 1987. The objective of the Commission is to encourage international trade and development. The Commission is governed by leading representatives of California government and private industry, and promotes policies and programs that expand opportunities for California's firms doing business internationally.

### 10 CALIFORNIA STATE WORLD TRADE COMMISSION

#### Program Objectives Statement

The California State World Trade Commission:

- a. Provides information and assistance to help California business people market their products abroad.
- b. Represents or assists in representing the interests of California-based companies in foreign market transactions through trade delegations, missions, marts, seminars and additionally appropriate promotional tools.
- c. Works to influence state, federal and international trade policies that affect California's ability to compete in world markets.
- d. Represents California's interests in the enforcement of United States and international trade laws.
- e. Conducts public hearings on trade-related issues of importance to California business.
- f. Administers programs designed to increase the availability of funds used to finance the overseas sales of California products.
- g. Provides assistance, where appropriate, in promoting and encouraging cultural development, international tourism and reverse investment.
- h. Serves as the official representative of the State of California to foreign governments and representatives.

### 20 EXPORT FINANCE OFFICE—LOAN GUARANTEE PROGRAM

#### Program Objectives Statement

This program was established by Chapter 1693, Statutes of 1984, to promote small and medium size business exports by providing export finance insurance, co-insurance and loan guarantees, and by providing technical assistance and information on the financial components of an export transaction. The program is administered by a seven member Export Finance Board, under the general direction of the California State World Trade Commission. The program includes \$7.6 million to back loan guarantees and to cover loan defaults.

#### Budget Adjustments

The 1991-92 budget proposes:

- An increase of \$93,000 for operating expenses for the loan guarantee program.
- A \$1,000,000 transfer from the Unitary Fund to the California Export Finance Fund for export loan guarantees.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

**Governor's Office**  
**0650 OFFICE OF PLANNING AND RESEARCH**

The Office of Planning and Research is available to assist the Governor and the Governor's Administration in planning, research, and liaison with local government, education and community interests and to facilitate implementation of the decisions made within the Administration. In addition, the office has statutory responsibilities relating to state planning, permit assistance, and environmental and federal project review procedures. The Office of Planning and Research is organized into offices and units to implement these responsibilities.

The Governor is proposing the establishment of a new cabinet level position, the Secretary for Child Development and Education, which is described in the Governor's Budget as Budget Item 0558. As noted in that budget item, information regarding the details of the newly created secretary's budget will be forthcoming in the spring in time for budget deliberations. Any adjustments which may be necessary to this budget as a result of that proposal will be addressed at the same time.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

**11.20 Office of Local Government Affairs****Program Element Statement**

The director of the Office of Local Government Affairs serves as the Governor's chief advisor on local government issues. The office carries out statutory responsibilities relating to local planning assistance, including preparation of guidelines for general plans. In addition, the office has the primary responsibility within the Governor's Administration for developing policy positions on local government concerns, monitoring legislation affecting local government, and providing coordination and liaison between local governments and the Administration. The office carries out statutory responsibilities relating to general plan review and local planning assistance, serves as liaison with local government on behalf of the administration, and assists local government in resolving its problems and concerns.

**11.30 Office of Permit Assistance****Program Element Statement**

The Office of Permit Assistance carries out statutory responsibilities associated with providing permit assistance to applicants for major development permits having regional or statewide impacts and operating the State Clearinghouse. Most permit assistance responsibilities are defined in the Permit Streamlining Act. State Clearinghouse responsibilities are established pursuant to State environmental review law and Presidential Executive Order 12372. The office also provides staff support for administration policy formulation with regard to outercontinental shelf energy development and coastal planning issues. In addition to regular permit assistance, the office implements special hazardous waste site permit assistance responsibilities associated with Chapter 1504, Statutes of 1986, as amended by Chapter 1389, Statutes of 1988, and compiles and distributes information from a consolidated statewide toxic site data base mandated by Chapter 1048, Statutes of 1986.

\* Dollars in thousands, excluding salary range.

**11.35 California Energy Extension Service**

**Program Element Statement**

The California Energy Extension Service (CEES) is a federally-funded technology transfer program which provides technical assistance to encourage energy efficiency, the use of solar and other renewable energy sources, and transfer knowledge about conservation methods, materials, techniques, processes, and programs. To accomplish these objectives, CEES employs direct staff outreach efforts, public information methods, and a contracts program directed toward assistance to schools, Native Americans, local governments, low-income fishing fleet operators, and small businesses.

**Governor's Office**  
**0690 OFFICE OF EMERGENCY SERVICES**

The principal objective of the Office of Emergency Services (OES) is the coordination of emergency activities to save lives and reduce property losses during disasters and to expedite recovery from the effects of disasters.

On a day-to-day basis, OES provides leadership, assistance and support to state and local agencies in planning and preparing for the most effective use of federal, state, local and private sector resources in emergencies. This emergency planning is based upon a system of mutual aid in which a jurisdiction relies first on its own resources, then calls for assistance from its neighbors. OES' plans and programs are coordinated with those of the federal government, other states, and the state agencies and political subdivisions of California.

During an emergency, OES functions as the Governor's immediate staff to coordinate the State's responsibilities under the Emergency Services Act and applicable federal statutes, and it acts as the conduit for federal assistance through natural disaster grants and federal agency support.

**15 MUTUAL AID RESPONSE**

**Program Objectives Statement**

This program provides emergency mutual aid services, including the effective use of federal, state, and local resources by and for the benefit of jurisdictions whose resources and services are overextended in a disaster situation. Central to this effort is maintaining operational readiness at all levels of government.

**Governor's Office**  
**0690 OFFICE OF EMERGENCY SERVICES—Continued**

**15.10 Fire and Rescue**

**Program Element Statement**

The Fire and Rescue Division manages the statewide Fire and Rescue Emergency Mutual Aid Program. Through the development and maintenance of plans, policies, and procedures the personnel and equipment resources of federal, state, and local government are mobilized for response to major fire and rescue emergencies. Additional program segments include administration of the Firescope project which is an integrated system of fire-related technologies, procedures and organizations; and development of the statewide Orthophoto Mapping Program to provide a uniform mapping system and products for emergency agencies statewide. The Fire Apparatus and Equipment Program includes fire engines, fire communications vehicles, portable radio communications equipment, portable aluminum water pipe and support equipment positioned in key areas of the state for use in the Mutual Aid System; and CALFIRMS (California Fire Information and Resource Management System)—which is an extension of Firescope—developed systems and technologies.

In response to the Loma Prieta earthquake of October 17, 1989, the Office expended an additional \$52,000 to assist in response and recovery. These costs were reimbursed with funds received from the Federal Emergency Management Agency (FEMA).

**15.20 Law Enforcement**

**Program Element Statement**

The Law Enforcement element provides on-the-scene staffing and equipment in support of local law enforcement in the event of human-caused or natural disasters, search and rescue operations, and/or civil disorders. OES coordinates the deployment of state manpower and resources in order to disseminate critical information to the Governor and other state, federal, and local officials. Other objectives include search and rescue training programs to better prepare local agencies for emergency response and to administer the State's Consular Corps program.

**15.30 Development and Utilization of Emergency Communications Systems**

**Program Element Statement**

OES', Headquarters Warning Center is the primary point in the state for the Federal National Alerting and Warning System (NAWAS). It extends to 58 key points throughout the state. Included are the Fire Services Radio Network and the California Law Enforcement Radio System (CLERS), which serves as a backup for NAWAS and the Department of Justice's California Law Enforcement Telecommunications System (CLETS). OES operates a data communications system connecting emergency operations centers of its six regional offices. Interstate emergency communications are also provided through the Federal Emergency Management Agency's national radio communications equipment.

**35 PLANS AND PREPAREDNESS**

**Program Objectives Statement**

This program's objective is to develop and implement emergency plans to ensure consistency in planning at all levels of government. Training is also included in this program and covers emergency management courses in preparedness, mitigation and technical training for radiological response and recovery.

**Governor's Office**  
**0690 OFFICE OF EMERGENCY SERVICES—Continued**

**35.10 Plans and Preparedness**

**Program Element Statement**

Plans and Preparedness is responsible for the development of emergency response plans and other emergency preparedness activities at the state and local level. The California Emergency Plan contains a basic section that establishes the emergency organization and peacetime plan. This plan assigns responsibilities during emergencies and integrates current laws and regulations related to disaster preparedness and response. The Emergency Plan is supported by other departmental emergency plans which OES assists in developing and maintaining. Other documents maintained by OES include the Operations Manual, Peacetime Operating Procedures, and Checklist and After Action Reports which are prepared following every disaster.

**35.20 Earthquake**

**Program Element Statement**

The Southern California Earthquake Preparedness Project and the Bay Area Regional Earthquake Preparedness Project, which were reauthorized by Chapter 1056/89 (AB 725), are joint efforts between the State of California and the Federal Emergency Management Agency (FEMA). The objectives of these projects are to promote comprehensive earthquake preparedness actions by local jurisdictions, volunteer agencies and businesses, to provide planning assistance and coordination in development of improved regional response for major earthquakes, and to establish a local incentive program.

The Earthquake Studies Project focuses on potential catastrophic earthquake effects on Southern San Andreas. The Earthquake Task Force was formed by the Governor in conjunction with this project.

The United States-Mexico Earthquake Preparedness Project covers binational development of improved response capabilities for major earthquakes affecting the border areas of California.

In response to the Loma Prieta earthquake of October 17, 1989, the Office expended an additional \$634,000 to assist in response and recovery. These costs were reimbursed with funds received from FEMA.

**35.30 Training**

**Program Element Statement**

The California Specialized Training Institute provides training for state agencies, cities and counties, special districts, industry and volunteer agencies, covering emergency management courses in preparedness, mitigation, response and recovery. Courses address the management of earthquakes, hazardous material incidents, major events, terrorist incidents, and technical skills programs related to public safety and exercises. The institute also manages federal training programs, and contracts with other organizations to provide training in the emergency services area. Sponsoring agencies share costs through tuitions and fees or contract reimbursements.

**35.40 Hazardous Materials and Radiological Planning**

**Program Element Statement**

Hazardous Materials Planning includes development and maintenance of a state plan, coordination of state agency planning and response activities, development of a statewide notification and reporting system, and review and evaluation of local hazardous materials response plans.

Radiological and Nuclear Power Plant Planning (NPPP) prepares and responds to radiological emergencies throughout the state. This also includes development and review of state and local plans, delivery of technical training, and participation in drills and exercises. The NPPP program has established the only National Bureau of Standards-affiliated Regional Calibration Laboratory in California which will provide calibration for regulatory instruments. Additional responsibilities include the administration of nuclear power plant planning local assistance funds to local jurisdictions in conjunction with Chapter 722, Statutes of 1986, which expires January 1, 1993.

**Budget Adjustments**

- In 1991-92, it is proposed that \$124,000 in Hazardous Waste Control Account funds be transferred to the Office of Environmental Affairs for support of its Superfund Reauthorization Act of 1986 (SARA Title III) activities.

\* Dollars in thousands, excluding salary range.

**35.50 Technical Assistance to Local Governments**

**Program Element Statement**

California is divided into six mutual aid regions. The regional jurisdictions' objective is to implement the California Emergency Services Act. The regions assist local government in the development of plans and procedures in order to minimize the effect of natural or human-caused disasters; to ensure that appropriate resources are provided to impacted jurisdictions in response to any disaster; and to assist state and local governments and individuals in recovery from emergency situations.

**45 DISASTER ASSISTANCE**

**Program Objectives Statement**

The objective of this program is to provide aid to local agencies for repair and restoration of public real property in stricken areas in time of disaster and to provide assurance that all public facilities will be restored in order to provide necessary services to the citizens of the affected areas.

The Natural Disaster Assistance Act was established by Chapter 290, Statutes of 1974. This law charges the Director of the Office of Emergency Services (OES) with the administration of the program. A local agency is eligible to participate in the program if it declares a local emergency which is found acceptable to the Director of OES.

Through the Federal Disaster Relief Act (PL 93-288), local government and other public entities are provided financial and other assistance to recover from the effects of floods, earthquakes, and other natural disasters. In a presidential declaration of a "major disaster" or "major emergency", assistance may be provided to the public sector for repair and restoration of public facilities, roads, buildings, utilities, flood control systems, etc. and/or the private sector by coordinating state agency response in providing assistance to individuals impacted by the disaster.

In response to the Loma Prieta earthquake of October 17, 1989, the Office expended an additional \$836,000 to assist in response and recovery. These costs were reimbursed with funds received from the Federal Emergency Management Agency (FEMA).

**Budget Adjustments**

- In 1990-91, 17.5 positions (10.5 personnel years) were administratively established for recovery workload related to the Loma Prieta earthquake.
- In 1991-92, it is proposed that 17.1 positions (16.4 personnel years) be continued on a two-year limited-term basis to complete work related to the Loma Prieta earthquake.

**0695 NATURAL DISASTER ASSISTANCE**

The Loma Prieta earthquake struck the Greater San Francisco-Oakland Bay Area on October 17, 1989, causing several billion dollars worth of damage to private and public property and disrupting the lives of hundreds of thousands of Californians. Congress and the President responded quickly by providing a federal relief package of about \$3.45 billion. In addition, the Governor called a Special Session of the Legislature on November 2, 1989 to provide funding and aid for victims and to restore public property.

This exhibit displays estimates of state expenditures for the disaster as well as federal reimbursements offsetting a major portion of those expenditures. Amounts in parentheses are included in other budget displays and are shown here for informational purposes only.

<b>SUMMARY OF PROGRAM REQUIREMENTS</b>			
	<b>1989-90*</b>	<b>1990-91*</b>	<b>1991-92*</b>

0730 REQUIREMENTS OF GOVERNOR-ELECT  
AND THE OUTGOING GOVERNOR

This Budget is intended to provide assistance to the Governor-elect during the transition period following the election in carrying out the duties described under the provisions of Government Code Sections 12015 and 12015.5.

The law provides that State agencies furnish to the Governor-elect any information or assistance necessary in the preparation of the annual State Budget and for the orderly transfer of the executive power. This gives the Governor-elect approximately two months to formulate policies and to incorporate them in the various programs included in the Budget which will be transmitted to the Legislature. The 1990 Budget Act appropriated \$450,000 for these purposes.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

# 0730 REQUIREMENTS OF GOVERNOR-ELECT AND THE OUTGOING GOVERNOR—*Continued*

This Budget also reflects the effect of Chapter 1241, Statutes of 1974, which made provision for the outgoing Governor to appoint persons to assist in concluding matters arising out of official duties during the last term of office. The 1990 Budget Act appropriated \$100,000 for this purpose.

## 0750 OFFICE OF THE LIEUTENANT GOVERNOR

The Lieutenant Governor becomes Governor when a vacancy occurs in the Office of the Governor. He is President of the Senate. He provides leadership in the administration of programs assigned to him by statute and administrative directive.

The Lieutenant Governor chairs the Commission for Economic Development which provides support and guidance for the development of California's economy through advice and recommendations given to the Governor and the Legislature.

He serves on the three-member State Lands Commission which oversees leasing and control of millions of acres of State-owned land, including the vital offshore oil resources.

He also serves on other boards and commissions handling State problems such as land use planning, interstate cooperation and disaster preparation. He serves on the Board of Regents of the University of California and on the Board of Trustees of the State College and University System. He also handles special assignments and special tasks as assigned by the Governor.

### Authority

## 0820 DEPARTMENT OF JUSTICE

The constitutional office of the Attorney General, as chief law officer of the state, has the responsibility to see that the laws of California are uniformly and adequately enforced. This responsibility is fulfilled through the diverse programs of the Department of Justice.

The Department of Justice is responsible for providing skillful and efficient legal services on behalf of the people of California. The Attorney General represents the people in all matters before the Appellate and Supreme Courts of California and the United States; serves as legal counsel to state officers, boards, commissions and departments; represents the people in actions to protect the environment and to enforce consumer, antitrust and civil rights laws; and assists district attorneys in the administration of justice. The department also coordinates efforts to address the statewide narcotic enforcement problem; assists local law enforcement in the investigation and analysis of crimes; provides person and property identification and information services to criminal justice agencies; supports the telecommunications and data processing needs of the California criminal justice community; and pursues projects designed to protect the people of California from fraudulent, unfair and illegal activities such as special efforts to prosecute organized criminal activity conducted in California.

The 1991-92 budget presented in this document essentially reflects the continuation of the level of funding and programs authorized in the Budget Act of 1990 and subsequent chaptered legislation, as adjusted by the unallocated General Fund trigger, and does not reflect the participation of the recently elected Attorney General. Should any policy, workload, or organizational changes be necessary after the Attorney General-elect has reviewed the budget, the changes will be submitted during the spring budget process.

## 25 EXECUTIVE PROGRAMS

## Program Objective Statement

The primary responsibility of the Division of Executive Programs is the establishment and maintenance of communications between the department and the public, the news media, the Legislature, and law enforcement. The division consists of the Legislative Unit; the Crime Prevention Center; the Public Inquiry Unit; the Office of Community and Consumer Affairs; Press, Communications and Media; Protective Services and Special Liaisons; and the Special Assistant Attorneys General.

Program Requirements	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Continuing program costs .....	52.3	45.4	45.1	\$5,795	\$6,102	\$6,182
General Fund .....				5,485	6,102	6,182
Reimbursements .....				310	—	—

## 25.10 Executive

## Program Element Statement

The Executive Unit provides overall direction and administration of the division and enables the Attorney General to perform the duties required by Section 13 of Article V of the State Constitution.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund) .....	0.5	0.9	0.9	\$713	\$686	\$689

## 25.20 Legislative Unit

## Program Element Statement

The Legislative Unit provides assistance in aggressively pursuing the enactment of laws which protect the interests and safety of the people of California. This unit coordinates analysis of legislation affecting the department and represents the Attorney General and the Department of Justice in matters before the Legislature. The unit serves as the liaison between the department and the criminal justice community regarding legislative matters.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund) .....	4.6	4.2	4.2	\$540	\$532	\$543

## 25.30 Crime Prevention Center

## Program Element Statement

The Crime Prevention Center (CPC) conducts a public education and local government assistance program to promote effective crime prevention practices throughout California. The mission of the CPC is to prevent or reduce crime in California by providing training, education, and technical assistance. CPC services are categorized into three basic functions: (1) *training*—for local law enforcement and other governmental agencies; community organizations and groups and private organizations; (2) *technical assistance*—crime prevention assistance as requested; and (3) *multimedia promotional and educational assistance/resources*—publications and camera-ready masters for local use; audio-visual and radio public service announcement tapes; films for loan and articles for trade and professional journals.

\* Dollars in thousands, excluding salary range.

## 25.40 Public Inquiry Unit

## Program Element Statement

The Public Inquiry Unit receives and responds to written and telephone inquiries from the public and governmental agencies. It is the unit's responsibility to review complaints and respond to the public in matters concerning violations of law statewide; to assist the public in obtaining information as required by Government Code Section 12514; and to provide public referral services by directing individuals to the appropriate governmental agencies having statutory authority over specific types of grievances.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund).....	7.5	7.6	7.4	\$505	\$468	\$477

## 25.50 Community and Consumer Affairs

## Program Element Statement

This unit plans, implements, coordinates, and evaluates the department's consumer education and fraud prevention program; makes recommendations concerning law enforcement issues emanating from community organizations; coordinates community consumer network programs; and plans and coordinates the department's community liaison program.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund).....	2	1	1	\$124	\$125	\$129

## 25.60 Press, Communications, and Media

## Program Element Statement

This unit coordinates all the press, communications and media requirements of the department.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund).....	3.8	4.1	4.1	\$348	\$345	\$354

## 25.70 Special Assistant Attorneys General

## Program Element Statement

This unit assists in the research, development, and implementation of policy for the department in specialized legal areas and represents the Attorney General in litigation of special importance.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund).....	7	5.9	6	\$845	\$950	\$964

Reimbursements.....				160	—	—

## 30 CIVIL LAW

## Program Objectives Statement

The Civil Law Program protects and preserves the public interests by providing skilled legal services to all state agencies and Constitutional Officers. The Civil Law Program provides specialized services in the following areas: Government Law; Health, Education and Welfare; Licensing; Business and Tax; and Tort and Condemnation.

## Budget Adjustments

For 1991-92, the budget proposes an increase of 5 attorney positions (4.8 personnel years) and \$573,000 for the establishment of the Health Quality Enforcement Section, pursuant to Chapter 1597, Statutes of 1990.

## Authority

The legal authority for this program is found in Article V, Section 13 of the California Constitution, as well as various sections of the Government Code including Sections 11042, 11043, 11157, 11522, 12511, 12512, and 12519.

\* Dollars in thousands, excluding salary range.

## 30.10 Licensing

## Program Element Statement

The Licensing element represents the 40 licensing agencies within the Department of Consumer Affairs in their efforts to protect the consuming public from unprofessional or deceptive conduct by various licensed professionals and businesses. Also, the element represents the Department of Health Services when certain licensees abuse the Medi-Cal program.

This representation includes providing informal advice to clients and prosecution of administrative hearings to deny, revoke, or suspend a professional or business license. The work includes legal representation of the client in the federal and state trial courts and appellate courts. This element also seeks injunctions in court to prevent unlicensed activity or repeated illegal acts by a licensee.

## 30.20 State Government

## Program Element Statement

The State Government element represents six state constitutional officers, the two state control agencies, the two state retirement agencies, the two state police agencies, and in excess of 30 other state agencies. Among its clients are the Governor, Lieutenant Governor, Controller, Treasurer, Secretary of State, Department of Finance, Department of General Services, State Personnel Board, the Public Employees and State Teachers Retirement Systems, California Highway Patrol, Department of Motor Vehicles, Department of Corrections, California Youth Authority, Department of Alcoholic Beverage Control and California Horse Racing Board. Representation by this element involves client advice and consultation, and appearances before state and federal administrative and judicial tribunals. Some client agencies have separate legal staffs and, in such cases, representation is limited to litigation.

The State Government element is also responsible for advising all state agencies, except those that are in the Health and Welfare Agency, on personnel matters. This includes representation of those agencies before the State Personnel Board and the Department of Personnel Administration.

The State Government element is also responsible for advising some state agencies on personnel matters and representing those agencies before the State Personnel Board, the Department of Personnel Administration and state and federal courts on personnel and related issues.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	52.5	39.7	34.0	\$7,459	\$5,978	\$4,682

Reimbursements .....				2,241	2,701	2,753

## 30.30 Business and Tax

## Program Element Statement

The Business and Tax element provides legal advice for, and represents in litigation, those state departments administering laws designed to protect the public in their business transactions, safekeeping of their funds and investments. The element advises and represents the California Transportation Commission which has among its responsibilities the programming and authorization of expenditures for highway and mass transit.

This element protects state revenues by representing state taxing agencies in collection actions as well as in refund matters in which the validity or application of a tax statute is challenged. This element is also involved in the property tax field in advising the State Board of Equalization as well as in advising county legal representatives.

\* Dollars in thousands, excluding salary range.

## 0820 DEPARTMENT OF JUSTICE—Continued

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

Reimbursements .....				1,179	1,565	1,585

## 30.40 Health, Education, and Welfare

## Program Element Statement

This element provides legal services to state agencies concerned with health, education and welfare. Services include extensive litigation in federal and state trial and appellate courts, administrative proceedings, informal advice, and drafting or approving proposed legislation and regulations. Litigation includes complex constitutional issues of national importance.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	61.5	59.2	58.2	\$7,125	\$7,235	\$7,364

Reimbursements .....				5,313	5,733	5,826

## 30.60 Health Quality Enforcement

## Program Element Statement

Chapter 1597, Statutes of 1990 (Senate Bill 2375), established the Health Quality Enforcement Section effective January 1, 1991. The purpose of the Health Quality Enforcement Section is to represent the Medical Board of California including all committees of the Division of Allied Health Professions, including the Board of Podiatric Medicine, in their efforts to investigate complaints against licensees and applicants, prosecute licensees and applicants found guilty of violating laws and regulations, and to provide ongoing review of the investigative activities conducted in support of these prosecutions.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Reimbursements) .....	—	—	4.8	—	—	\$573

## 30.70 Tort and Condemnation

## Program Element Statement

The Tort and Condemnation element assures that the state and its employees receive proper defense including the ascertainment of damages and also assures that the state recovers costs and damages for torts committed against it. In that regard, the element represents all agencies and departments of the state and their employees except for the Department of Transportation and the University of California and their employees. This element also provides legal defense to the state relating to the acquisition of property and the defense of the state against claims for the taking or damaging of property; this assures that the state pays only just compensation for the taking or damaging of property.

Although most litigation is jury trial work, appellate work also is required. The element also supervises investigations, renders advice to the State Board of Control, and makes appearances before that Board in connection with claims filed against the state.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	65.8	62.6	62.0	\$10,512	\$11,264	\$10,835
General Fund .....				5,036	6,216	5,780
Reimbursements .....				5,476	5,048	5,055

## 40 CRIMINAL LAW

## Program Objectives Statement

The Criminal Law Program represents the state in all criminal matters before the appellate and supreme courts and defends the state and its officers in actions filed by state prisoners under the Federal Civil Rights Act. This program also fulfills the Attorney General's responsibilities with regard to assisting the district attorneys in cases for which they are disqualified, assisting the Commission on Judicial Performance, enforcing the Political Reform Act, advising the Governor on extradition matters, prosecuting criminal actions involving Medi-Cal provider fraud and patient abuse, conducting criminal investigations and prosecutions of those engaged in illegal activities of organized crime groups and major fraud activities where local resources are inadequate to perform these functions.

## Budget Adjustments

For 1991-92, the budget proposes an increase of 1 attorney position (0.9 personnel year) and \$132,000 to continue handling workload associated with electronic surveillance.

## Authority

The legal authority for this program is found in Article V, Section 13 of the California Constitution, in Government Code Sections 995, 996, 12511, 12512, 12550, 83116, 91001(a), and 91003, and in Penal Code Sections 1256 and 1548.3.

\* Dollars in thousands, excluding salary range.

## 40.10 Appeals, Writs, and Trials

## Program Element Statement

The Appeals, Writs and Trials element represents the people on all appeals filed by criminal defendants in the California Courts of Appeal and Supreme Court. This element also represents the state and its officers in actions in both state and federal trial and appellate courts in which writs of habeas corpus, mandate, prohibition and coram nobis are sought by prisoners or defendants in criminal cases. When the United States Supreme Court grants review in any of these cases, division attorneys represent the people and officers of California in the high court. The state attorneys in this element act for district attorneys in cases in which the district attorneys are disqualified or unable to perform their official duties.

This element investigates misconduct by judges at the request of the Commission on Judicial Performance and presents evidence of such misconduct to special masters, the Commission and the California Supreme Court. (A special master is a judge appointed by the Commission to hear allegations and to make findings of fact.) Appeals, Writs and Trials attorneys enforce the criminal provisions of the Political Reform Act of 1974 and also review all extradition requests before action is taken by the Governor.

<b>Input</b>	<b>89-90</b>	<b>90-91</b>	<b>91-92</b>	<b>1989-90*</b>	<b>1990-91*</b>	<b>1991-92*</b>

<i>Less amount funded in the Political Reform Act</i> .....				(112)	(83)	84

## 40.20 Correctional Law

## Program Element Statement

During 1985-86, the Attorney General created within the Criminal Law Division a Correctional Law Section to provide increased coordination and expertise in an area that has grown exponentially in the last ten years. The section consolidates the various phases of prison litigation, defends the state and its officers in actions filed by state prisoners under the Federal Civil Rights Act.

This element handles actions, other than traditional torts, which involve the conditions of actual or constructive custody arising from the operations of the Department of Corrections, the Board of Prison Terms, the California Youth Authority, etc. In these actions the staff of the section will represent the interests of the public, the agencies involved and individual employees.

<b>Input</b>	<b>89-90</b>	<b>90-91</b>	<b>91-92</b>	<b>1989-90*</b>	<b>1990-91*</b>	<b>1991-92*</b>

## 0820 DEPARTMENT OF JUSTICE—Continued

## 40.40 Major Fraud

## Program Element Statement

The Major Fraud element is charged with the responsibility of conducting criminal investigations and prosecutions of those engaged in major fraud activities in California. The element works in conjunction with local prosecutors, law enforcement officials, and state regulatory agencies in the investigation and prosecution of those matters which involve a substantial monetary loss and victimization in multiple jurisdictions and which present enforcement and prosecutive problems beyond the resources and expertise of local authorities.

## 40.60 Special Prosecutions

## Program Element Statement

An increasing element of criminal activity has an organized, multijurisdictional nature. The statewide responsibility and perspective of the Attorney General make the Department of Justice uniquely qualified to bring special investigation and prosecution efforts to bear on these crime problems. Special Prosecutions was established during 1979-80 to fulfill the Attorney General's statutory responsibility (Government Code Section 15025) to prosecute individuals and groups involved in organized criminal activity.

Any criminal activity of an organized, multijurisdictional nature is a potential target for investigation and prosecution by the Special Prosecutions element. However, the specific objective of this element is to investigate and prosecute criminal acts carried out by recognized, organized crime groups, such as syndicated crime organizations, prison gangs, outlaw motorcycle gangs, and major theft rings. In addition, Special Prosecutions personnel provide advice and assistance to statewide law enforcement in the areas of asset forfeiture and electronic surveillance.

## 40.90 Medi-Cal Fraud and Patient Abuse

## Program Element Statement

The Medi-Cal Fraud and Patient Abuse element, operating with 75 percent federal funding assistance, has a staff of attorneys, investigators and auditors who investigate and prosecute cases of fraud and patient abuse committed by the providers of Medi-Cal services and supplies and cases of illicit diversion of pharmaceuticals by Medi-Cal providers. Attorneys of this unit also follow up cases with administrative agencies and civil attorneys to insure continued rigorous attention to a case involving a convicted Medi-Cal provider.

## 45 PUBLIC RIGHTS

## Program Objectives Statement

The Public Rights element is needed to protect and preserve the public interests by providing skilled legal services to all state agencies and Constitutional Officers. The Public Rights Program provides specialized services in the following areas: Civil Rights and Charitable Trust (including Charitable Trust Registration), Natural Resources, Environmental Law, Antitrust, Land Law, and Consumer Law.

## Budget Adjustments

For 1991-92, the budget proposes:

- An increase of 2 attorney and 1 legal analyst positions (2.9 personnel years) and \$338,000 to provide legal services for the California Integrated Waste Management Board in the Natural Resources Section.
- An increase of 7 attorney and 2 legal analyst positions (8.6 personnel years) and \$1,159,000 to provide legal services for toxic enforcement, on behalf of the Department of Health Services, in the Environment Section.

## Authority

The legal authority for this program is found in Article V, Section 13 of the California Constitution, as well as various sections of the Government Code including Sections 11042, 11043, 11157, 11522, 12511, 12512, and 12519.

\* Dollars in thousands, excluding salary range.

## 45.10 Charitable Trust/Civil Rights Enforcement

## Program Element Statement

The Charitable Trusts element carries out the Attorney General's statutory and common law duties to correct misuse and diversion of charitable assets, and recovers diverted assets for the benefit of charitable public beneficiaries. The Attorney General operates the Registry of Charitable Trusts which registers and maintains current financial reports for over 70,000 charities operating in California that hold assets exceeding \$40 billion. The Attorney General also represents the public interest in escheat matters.

The Civil Rights Enforcement element represents four state agencies whose resources are devoted to the protection and enforcement of civil rights of all persons, including the disadvantaged, minorities and women: Department of Fair Employment and Housing; Commission on Fair Employment and Housing; Commission on the Status of Women; and Native American Heritage Commission. Representation of these client agencies includes client advice and consultation, appearances at commission meetings, and litigation. The element also represents the Attorney General in carrying out the independent constitutional, common law and statutory duties to protect civil rights; investigations, litigation, legislative work and public information projects are carried out on behalf of the Attorney General for the public interest.

## 45.20 Natural Resources

## Program Element Statement

The Natural Resources Law element provides legal services to and assures uniform and adequate enforcement of laws administered by the departments and agencies which it represents. These departments and agencies are responsible for enforcing and administering laws and programs for the protection of the state's environment and public resources. These resources include agricultural products, fish, wildlife, water and water quality, air, timberland and lands owned and used by the public for recreation and wildlife protection purposes. The field of agricultural products includes the administration and enforcement of marketing regulations and protection of these products to assure their wholesomeness and availability to the consuming public. The Natural Resources Law element also represents the Department of Housing and Community Development and the Office of Planning and Research. This element is also responsible for water rights litigation on behalf of all agencies of the state.

## 45.30 Environment

## Program Element Statement

The Environment element is responsible for three environmental programs. First, the element implements the Attorney General's independent program for the protection of the environment, and relies on the Attorney General's constitutional, statutory and common law authority to represent the people of the state in environmental issues, including areas such as air and water pollution, oil and gas development, hazardous substances, preservation of wilderness lands and other natural resources, and implementation of the California Environmental Quality Act.

\* Dollars in thousands, excluding salary range.

## 0820 DEPARTMENT OF JUSTICE—Continued

Second, the element handles toxics enforcement litigation on behalf of the Department of Health Services. This element has recovered millions of dollars for the state both in superfund monies which are used to clean up contaminated sites, and in civil penalties assessed against hazardous waste polluters.

Finally, the element enforces Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986. This legislation creates new requirements for chemical discharges to sources of drinking water and for warnings to members of the public exposed to chemicals identified as carcinogens or as substances which cause reproductive toxicity.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

## 45.40 Land Law

## Program Element Statement

The Land Law element handles all litigation and other legal services arising from the administration of state-owned lands by the State Lands Commission; from the regulatory activities of the Division of Oil and Gas, the Geothermal Resources Board, the California Coastal Commission, the San Francisco Bay Conservation Commission and from the programs of the California Coastal Conservancy, the Santa Monica Mountains Conservancy, Tahoe Area Land Acquisition Commission and California Tahoe Conservancy.

This element additionally handles matters relating to any public rights in lands arising by implied dedication. Especially affected by this doctrine are littoral lands, including 3,400 miles of frontage on tidal waters and 1,400 miles on navigable, nontidal waters. By statutory mandate, the element establishes the criteria for the Department of General Services to determine whether such public rights exist in lands proposed for state acquisition. Over \$180,000,000 in appropriations are affected by these criteria and investigations and review by this element.

Reimbursements .....				373	889	899

## 45.50 Consumer Law

## Program Element Statement

The Consumer Law element files lawsuits against businesses engaged in unlawful, unfair or deceptive practices which adversely affect consumers. In these lawsuits, consumer law attorneys seek injunctive relief, civil penalties, restitution and any other relief appropriate to the particular problem involved.

Consumer Law attorneys actively investigate and obtain prosecutions and injunctions against persons who engage in unlawful and fraudulent practices in the home mortgage and lien foreclosure areas, in multilevel sales, in energy-related deception, and in false advertising. The attorneys draft consumer legislation, give advice on pending consumer legislation, and coordinate with other local, state and federal prosecutorial agencies to help solve consumer problems in the marketplace.

Reimbursements .....				639	344	348

## 45.60 Antitrust

## Program Element Statement

The Antitrust element enforces the state's antitrust laws in order to foster and protect the state's free enterprise system. This element is authorized to bring both criminal prosecutions and civil actions before the courts. Antitrust attorneys bring actions to recover treble damages suffered by state, public agencies and the public as a result of price fixing and other anti-competitive activities. In addition to recovery of treble damages, identifiable costs involved in the investigation and prosecution are also obtained. Antitrust attorneys also bring actions on behalf of the people of the state to recover civil penalties for violations of the antitrust laws.

## 50 LAW ENFORCEMENT

## Program Objectives Statement

Law Enforcement provides statewide services in the following fields: identification of persons and property, criminalistic services, technical and special investigative training, statistical and communication services and selected investigation. The program also suppresses the traffic in narcotics and dangerous drugs and identifies and prevents infiltration of organized crime.

\* Dollars in thousands, excluding salary range.

## 0820 DEPARTMENT OF JUSTICE—Continued

Law Enforcement is organized into the following elements: Investigation and Enforcement, Criminal Identification and Information and the Law Enforcement Data Center. Investigations and Enforcement supports other law enforcement agencies through investigative assistance, liaison and training, special investigations, specialized criminalistics and other technical services, and dissemination of information about organized crime. Criminal Identification and Information helps identify individuals and property and provides information, and statistics relative to crime and delinquency. The Law Enforcement Data Center provides data processing services to the program.

## Budget Adjustments

For 1991-92, the budget proposes:

- An increase of 6 positions (5.7 personnel years) and \$1,014,000 for the automation of applicant and fingerprint information.
- An increase of 42 positions (39.9 personnel years) and \$1,656,000 for criminal fingerprint workload increases.
- An increase of 14.5 positions (13.8 personnel years) and \$590,000 for applicant fingerprint workload increases.
- An increase of \$300,000 for overtime and equipment for the Blood Alcohol Unit of the Bureau of Forensic Services.
- An increase of \$396,000 for the Bureau of Narcotic Enforcement Augmentation Program.
- An increase of \$1,815,000 for the continued purchase of equipment installed in 1989-90 to expand the Cal-ID system.

## 50.10 Investigation and Enforcement

## Program Element Statement

The Investigation and Enforcement element is composed of seven components that seek to ensure uniform enforcement of California laws by providing a broad range of investigative, analytical, and forensic services to local law enforcement agencies throughout the state. This element also includes a law enforcement training component which provides training for local criminal justice personnel on the subjects of organized crime and law enforcement practices.

## 50.10.010 Investigation

## Element Component Statement

The Investigation component conducts criminal investigations for local law enforcement agencies in matters involving a conflict of interest and multijurisdictional cases. Criminal matters of a serious or complex nature are expertly investigated by the component's special agents. This component is responsible for conducting investigations for the Attorney General's civil and criminal law programs and special investigations as directed by the Attorney General, upon request of the Governor, Legislature, or other state agencies. In addition to special agents investigative expertise, this component provides the state level support for polygraph examinations.

## 50.10.020 Narcotic Enforcement

## Element Component Statement

The Narcotic Enforcement component is responsible for bringing its statewide interjurisdictional capabilities and expertise to bear upon the complex problems of multijurisdictional narcotic dealers, clandestine drug manufacturers and licentiate violators in the medical and pharmaceutical professions. This is accomplished through the coordination and management of multijurisdictional narcotic enforcement groups; coordination and management of multiagency investigations; investigations of major conspiracies and intrastate multijurisdictional traffickers; investigation of clandestine laboratories; permitting and monitoring of precursor chemical manufacturers and vendors; monitoring and investigation of professionals licensed to dispense drugs; provision of narcotic enforcement training; consultation on specific narcotic enforcement cases; short-term undercover agent support; and the analysis and dissemination of information and intelligence. The Narcotic Enforcement component is also responsible for the administration of the triplicate prescription system which prevents the diversion of licit supplies of narcotics into illicit channels, and the Money Laundering Program which is responsible for collecting, analyzing and disseminating information under the Money Laundering Statutes of the California Penal Code.

## 50.10.030 Forensic Services

## Element Component Statement

The Forensic Services component provides criminalistics and related forensic science services including the examination and analysis of physical evidence to district attorney, state and local law enforcement departments, and the courts of California. Regional laboratories operate in Redding, Chico, Santa Rosa, Sacramento, Modesto, Stockton, Fresno, Salinas, Santa Barbara, Riverside and Eureka. These facilities provide examination and analysis of a wide variety of physical evidence, interpret the significance of the scientific findings to law enforcement agencies, and provide expert testimony in the courts.

Specialized forensic services, in addition to criminalistics, are provided in the fields of toxicology, questioned document analysis, latent fingerprint examination, photographic and audio-visual services.

The California Criminalistic Institute (CCI) provides training, method development, information services, quality assurance and case referee and referral services to the 11 Bureau of Forensic Services laboratories and the other 23 local government forensic laboratories in California.

In 1989–90, the bureau received authority to establish a DNA laboratory in Berkeley. The laboratory has two functions; the first is to analyze forensic services casework, and the second to analyze blood samples from convicted sex offenders authorized for collection under the authority of 290.2 of the Penal Code. The samples will be used as the basis for computerized data base of known offenders.

## 50.10.040 Organized Crime and Criminal Intelligence

## Element Component Statement

The Organized Crime and Criminal Intelligence component provides the state level support, leadership and coordination required to develop an effective criminal intelligence system based on mutual cooperation of state, regional, local and out-of-state law enforcement agencies. This component carries on a continuing program to determine and analyze the nature, characteristics, magnitude, and trends of organized crime in California. In addition, this component offers activities to upgrade the knowledge and capabilities of law enforcement for effectively combatting organized crime and maintains a pool of specialized investigative equipment for loan to local agencies.

## 0820 DEPARTMENT OF JUSTICE—Continued

## 50.10.050 Law Enforcement Training

## Element Component Statement

The Law Enforcement Advanced Training Center provides specialized technical and investigative training to local criminal justice and law enforcement personnel on the subjects of narcotics, organized crime and law enforcement techniques and practices. The component also provides human resources training to department personnel. It additionally certifies, regulates and monitors the activities of schools and instructors who provide training to private citizens in the use of tear gas weapons for self-defense. California Peace Officers Legal Sourcebook distribution and sales is being transferred to the Department of General Services Materials and Publication Section effective October 1, 1990.

## 50.20.020 Criminal Identification

## Element Component Statement

The Bureau of Criminal Identification is organized into four major entities: Bureau Administration, Criminal Identification Program, Criminal Offender Record Program, and the Cal-ID/RAN Program.

The Criminal Identification component classifies, searches, and verifies fingerprints submitted by law enforcement, licensing, and regulatory agencies; directs the operation of the Automated Fingerprint Identification System, the Automated Latent Print System and the record folder file; makes inquiries against the Master Name Index; modifies and purges criminal offender and applicant information; and disseminates criminal history records to authorized agencies.

The Criminal Offender Record Program is responsible for the management and maintenance of the automated and manual criminal history systems and the Master Name Index. It enters, modifies, purges, and disseminates criminal offender and applicant information.

Cal-ID/RAN Program provides technical advice, policy manuals, and users agreements for agencies participating in the Cal-ID Remote Access Network (RAN); facilitates distribution of state funds to local agencies in support of RAN; provides benchmarking requirements to vendors; provides technical advice to the Attorney General's Cal-ID Advisory Committee; and coordinates with law enforcement entities interfacing or considering interface with Cal-ID.

## 50.20.030 Bureau of Justice Information Services

## Element Component Statement

The Bureau of Justice Information Services is organized into four components: Administration: Provides analytical and administrative support to the Bureau. Automated Systems: Manages the on-line data bases providing information on vehicles, boats, firearms, property, and wanted persons; and updates and provides maintenance on the Child Support Information System (CSIS); acts as the California Control Terminal Agency for the National Crime Information Center. Property, Firearms and Reporting: Provides field training and on-site analysis of reporting problems related to arrest fingerprint cards and dispositions; administers the licensing of secondhand dealers and pawnbrokers; maintains an automated file of serialized property and a manual file of non-serialized property to assist local law enforcement agencies in the identification and location of stolen property and suspects involved in property crimes; and, provides law enforcement and secondhand dealers with information on the eligibility of prospective handgun purchasers. Operations: Provides technical and operational advice to law enforcement users of the California Law Enforcement Telecommunications System (CLETS) and the Criminal Justice Information System; trains criminal justice personnel who access CLETS; and conducts field audits to ensure compliance with state and federal policies and regulations.

## 50.30 Law Enforcement Data Center

## Program Element Statement

Chapter 787, Statutes of 1972, established the Law Enforcement Data Center (LEDC) to enhance the ability of criminal justice agencies to combat crime; to reduce the duplication of effort expended to maintain like criminal justice information in many agency files at all levels of government; and to develop a systematic method of providing complete, accurate criminal record information to the user in time to be useful for the critical decisions relating to arrests, prosecution, court proceedings, and detention. The LEDC element is responsible for all departmental automatic data processing and telecommunications activities related to the statewide CLETS/CJIS systems and internal departmental data processing activities.

## 0840 STATE CONTROLLER

The State Controller is an elected State fiscal officer. As such the primary objectives of his office are: to provide sound fiscal control over receipt and disbursement of public funds; to report the financial operations and conditions of the State and local government; to assure that money due the State is collected and to provide equitable, effective and economical tax administration; to provide fiscal assistance and guidance to local government; to administer the State's unclaimed property laws; and to serve as a member of fiscally oriented State boards and commissions.

The powers, duties and functions of the State Controller embrace (1) those expressed in the Constitution (Article XVI, Section 7), (2) those inherent in the nature of his office, though not so expressed, (3) those unquestionably essential to the efficient operation of his office, and (4) such additional powers, duties, or functions as the Legislature may confer or impose upon him.

## 10 FISCAL CONTROL

## Program Objective Statement

The primary objectives are: to maintain an effective system of internal control over the State's financial transactions through effective auditing and disbursing techniques; to report promptly and accurately the State's financial condition and operations to assure the fiscal integrity of State government; and to provide timely financial information to the Legislature and public.

The major activities of the Divisions of Accounting, Audits, Disbursements, Personnel Payroll Services and Local Government Fiscal Affairs are integrated into a system of internal control over the receipt and use of State, federal and other public moneys in the State Treasury. The major activity of the Division of Unclaimed Property is to restore unclaimed property to its true owners or their heirs.

## Authority

Constitution, Article XVI, Section 7 and Government Code Sections 12400 et seq.

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

Increase of \$250,000 for surplus money investment program workload.  
 Increase of \$25,000 for special districts reporting system.  
 Increase of 2.9 personnel years and \$175,000 for Proposition 111 audits.  
 Increase of \$10,000 for construction cost commission expenses.  
 Increase of 0.9 personnel years and \$75,000 for redevelopment agency workload.  
 Increase of \$15,000 for services provided to private unclaimed property investigators.

In 1991-92, the following budget adjustments are proposed:

Increase of \$250,000 for surplus money investment program workload.  
 Increase of 5.7 personnel years and \$351,000 for Proposition 111 audits.  
 Increase of 0.9 personnel years and \$75,000 for redevelopment agency workload.  
 Increase of \$211,000 for leave accounting system workload.  
 Increase of 62.7 personnel years and \$3,219,000 for workload related to the change in the escheat period for unclaimed property from five to three years.  
 Increase of 5.7 personnel years and \$174,00 for clearinghouse workload.  
 Increase of \$29,000 for services provided to private unclaimed property investigators.

## 0850 CALIFORNIA STATE LOTTERY COMMISSION

Proposition 37, approved by California voters on November 6, 1984, amended the California Constitution to authorize the establishment of a statewide lottery, and enacted an initiative statute, the California State Lottery Act of 1984, which created the California State Lottery Commission and gave it broad powers to oversee the operations of a statewide lottery. The primary purpose of the Act is to provide additional monies to benefit public education without the imposition of additional or increased taxes.

The Lottery is administered by a five-person Commission appointed by the Governor with the concurrence of the State Senate. One of the Commissioners must have a background in law enforcement, one must be a Certified Public Accountant, and not more than three (3) of the five (5) members can be members of the same political party. In all decisions, the Commission is directed to "take into account the particularly sensitive nature of the California State Lottery and shall act to promote and ensure integrity, security, honesty and fairness in the operation and administration of the Lottery." The Commission is responsible for determining the types of lotteries to be held, the frequency of lottery drawings, the price of lottery tickets, the number and value of lottery prizes, and the locations where lottery tickets can be sold.

The initiative requires that 50 percent of the proceeds from lottery ticket sales are to be paid out as lottery prizes and that no more than 16 percent of the proceeds are to be used for administrative costs. The remainder of the proceeds (at least 34 percent of the total) are to be placed in a special fund, known as the California State Lottery Education Fund, which is appropriated for the benefit of public education. Revenues to this fund are to be made available for public education and allocated on a per capita basis to the following four (4) categories: K-12 education, Community Colleges, the California State University and the University of California. These funds are to be used to augment, rather than replace, funds already allocated for public education and are to be spent for instructional purposes.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 0850 CALIFORNIA STATE LOTTERY COMMISSION—Continued

Of the 16 percent allowed for administrative costs, approximately six (6) percent is provided as commissions to sellers of lottery tickets. The remainder is available for running the Lottery, including ticket printing, computer operations, advertising and other communications and administration. In addition to periodic studies and reports required of the Commission, the State Controller is required to conduct quarterly and annual "post-audits" of all accounts and transactions of the Commission and other special "post-audits" as deemed necessary.

California Lottery ticket sales began on October 3, 1985, with the first instant or Scratch game. On October 14, 1986, the Lotto game began, using one of the world's largest on-line networks.

In the California Lottery's fifth fiscal year, which ended June 30, 1990, sales of \$2.5 billion produced \$980 million for public education. The year saw major product innovations undertaken to build for future sales growth. Gradual sales growth will permit accomplishment of the corporate mission of making the Lottery's education funding stable over time.

The introduction of Decco on March 5, 1990, the first new on-line game since Lotto, was just one of a number of new offerings envisioned in the long-term business plan. The Lotto game was modified, including the addition of the Topper feature. The retailer network was expanded to over 21,000, of which 9,000 have on-line terminals. Over 500 self-serve terminals were installed in supermarkets and other high traffic locations throughout the state, and the on-line game computers were upgraded to improve system performance and capacity.

In 1990-91, the Lottery's business plan will focus on improving the reliability of the education contribution by consolidating the present position, while continuing to make necessary investments in future programs.

Because of a number of variables, revenue estimates for 1990-91 and 1991-92 cannot be made with any certainty. It is quite common for Lottery sales to fluctuate depending on the nature of the game, the prize structure and changing market conditions. As the months progress, more accurate projections will be available.

## 0860 STATE BOARD OF EQUALIZATION

The State Board of Equalization administers fifteen tax programs for support of State and local government activities, more tax programs than any other State department. They are: Sales and Use Taxes (State, Local, and Transit District); Motor Vehicle Fuel License (Gasoline) Tax; Use Fuel Tax; Alcoholic Beverage Tax; Cigarette Tax; Cigarette and Tobacco Products Surtax; Insurance Tax; Energy Resources Surcharge; Emergency Telephone Users Surcharge; Hazardous Waste Tax; Hazardous Substance Tax; Solid Waste Disposal Site Fee; Underground Storage Tank Fee; Private Railroad Car Tax; and Timber Yield Tax. The Board also assesses utility property for local property tax purposes, and guides local government in the administration of the property tax.

The five-member Board was created and named by the Constitution of 1879. Four members are elected to represent equalization districts, and a fifth, the State Controller, an ex officio member, is elected at large.

The Board has more than 60 offices throughout California as well as offices in New York, Chicago, and Houston. The Board administers programs generating taxes exceeding \$26.1 billion: \$20.1 billion for the State Treasury, \$6.0 billion in local sales and use taxes, plus some \$810 million in local funds derived from local property taxes on utility rolls prepared by the Board.

The Board adopts rules and regulations for the administration of the business taxes programs and for the guidance and direction of the Board's property taxes staff, county assessors, boards of supervisors, and local assessment appeals boards in valuing property.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 0860 STATE BOARD OF EQUALIZATION—Continued

As an appellate body, the Board hears appeals from taxpayers on business taxes audit findings; from county officials on intracounty and intercounty property tax assessments; from public utilities on Board assessments of utility properties; and from assesses on privately owned railroad cars. The Board is also the appellate body for contested Franchise Tax Board decisions under the personal income tax laws, bank and corporation tax laws, senior citizens property tax relief laws, and for appeals from rulings of the Insurance Commissioner.

An Executive Director, appointed by the Board, implements the policies and directions of the Board. The Executive Director is aided by deputy directors for administration, property taxes, and business taxes.

## 15 COUNTY ASSESSMENT STANDARDS PROGRAM

## Program Objectives Statement

The objective of this program is to carry out the Board's constitutional and statutory responsibility of ensuring that taxable properties are enrolled and that all properties are assessed in full conformity with the law and uniformly by the 58 county assessors, thereby assuring an equitable tax base and a more proper sharing of costs with the state's General Fund. The Board is also charged with providing county assessors, their staff, and others involved with the assessing function with consultation and services to aid them in distributing property tax assessments legally and equitably among property owners. The County Assessment Standards Program establishes standards, provides training, and evaluates the effectiveness of the administration of the assessment function by each county assessor and the degree to which the practices conform to existing law and policies.

## Authority

Constitution—Article XIII; Government Code Sections 15606, 15608, 15611, 15612, 15624, and 15640-15646; Revenue and Taxation Code Sections 64, 75.60, 218.5, 251, 401.5, 407, 452, 480, 480.1, 482, 601, 602, 670-673, 1153, 1254, 5364, and 5781; California Administrative Code—Rules 101, 171, 202, 252, 282-283, 1045, and 1051.

\* Dollars in thousands, excluding salary range.

Cigarette Tax Fund				1,759	1,602	1,978
Reimbursements				50	134	134

## 15.10 County Surveys

## Program Element Statement

California taxpayers will pay about \$18.1 billion in property taxes during 1991-92 to support various local governmental agencies. Approximately ninety-four percent of these taxes will result from valuations based on ad valorem assessments made by the 58 county assessors. Sixty-four percent of these revenues go to local agencies other than schools, comprising their largest single source of revenue. Schools receive thirty-six percent of the property tax revenues making up twenty-five percent of the funds within their mandated level of spending. Because of the importance of this revenue source to the State, the schools and local government and to assure equitable treatment of all property taxpayers, both within and between counties, it is necessary that a central agency provide direction, supervision, and review of local assessment practices (administrative oversight).

To accomplish these objectives, "assessment practices" surveys and "special topics" surveys are conducted to ascertain the specific assessment practices of the 58 county assessors. The assessment practices surveys consist of: the random selection of a representative sampling of the local assessment roll; the appraisal by staff appraisers of the sampled assessments; and an in-depth analysis of the differences between the staff appraisals and the enrolled assessments together with a comprehensive review of the assessment system emphasizing the principal causes for the differences with recommendations for improving the systems and resulting assessments. The special topics surveys provide in-depth evaluations of the handling of, and the problems associated with, current assessment issues having statewide impact.

Performance Measures	1989-90	1990-91	1991-92
Counties sampled	12	11	12
Assessments in preliminary sample	23,250	21,500	23,250

Reimbursements				—	108	108

## 15.20 Technical Advisory Services

## Program Element Statement

This program is needed to carry out the Board's constitutional and legislative duties to advise and otherwise assist the 58 county assessors in compiling and standardizing (statewide) the assessment rolls of all taxable properties within their counties. The Board relies on five primary functions to fulfill this responsibility: (1) provides technical advice on real, personal and specialty property appraisal problems; (2) publishes "letters to assessors" and prepares and revises "assessors' handbooks"; (3) annually prescribes the format of most forms used by the assessors, including all those requiring taxpayer entries; (4) formulates rules that are binding on assessors and have the full force and effect of law; and (5) certifies appraisers and provides training.

Performance Measures	1989-90	1990-91	1991-92
Advisory "letter to assessors" transmitted	84	120	120
Property statements and exemption claim forms prescribed	50	50	50
Property statement forms approved	955	959	960
Exemption claim forms approved	1,092	1,092	1,095
Property tax rules processed	1	3	5
Appraisers certified	2,590	2,600	2,600
Course sessions offered	53	58	58

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund)	21.9	22.0	22.0	\$1,338	\$1,300	\$1,360

## 15.30 Technical Services

## Program Element Statement

The Board has four primary areas of responsibility in providing assistance to counties in administering the property taxes: (1) The Board and the counties jointly administer the welfare exemption which removes millions of dollars from the tax base of local government, including schools. The assessor receives the original claim, reviews the factors, inspects the property and forwards to the Board the claim together with a recommendation on the applicability of the exemption. The Board reviews the case and recommends approval or disapproval with disapprovals subject to an appeals process. The matter is returned to the county where the assessor can act only on applications found qualifying by the Board. (2) The Board offers, by contract, audit services to counties who require audit of taxpayers with books and records maintained out-of-state. (3) Current law prescribes that "change in control" of legal entities (i.e., corporations and partnerships) are equivalent to "changes in ownership" requiring a reappraisal of all real property. Such changes are difficult to find on a county-by-county basis; whereas, "changes in ownership" are relatively easy to locate due to the recording of ownership documents. The Board, by researching financial publications and inserting questions on the state corporate and partnership tax returns, can detect most of these transactions and advise all counties where affected real property is located. (4) Numerous exclusions from the change in ownership reappraisals have been adopted by the voters for property replacing properties taken by governmental agencies, senior citizens selling residence and purchasing replacement residence, and transfers among family members. Each of these exclusions must be tracked to avoid duplicate applications and conformity with the law. The Board provides a "clearinghouse" for all such claims, assuring no duplication.

\* Dollars in thousands, excluding salary range.

## 20 STATE-ASSESSED PROPERTY PROGRAM

## Program Objectives Statement

The California State Constitution mandates the Board to annually value and assess intercounty pipelines and properties owned or used by railroads, certain public utilities, and private railroad car companies. Once market values are derived for these state assessees, the amount must be allocated among the agencies of local government, on a county-by-county basis, in which the properties are located, so that taxes may be levied and collected for use by the local agencies.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$218,000 and 0.3 personnel year to implement the VISTA project related to the feasibility of migrating system applications to the Teale Data Center.
- \$7,000 and 0.1 personnel year to help ensure the timely filling of vacant revenue producing positions.

## Authority

Constitution—Article 13, Section 19; Revenue and Taxation Code—Division 1, Part 2; Division 2, Part 6.

## 20.10 Assessment of Public Utilities

## Program Element Statement

State assessees annually file with the Board property statements listing all properties by situs, together with associated costs, and provide fiscal and financial information on their operations. These data and other economic data are employed by the staff in developing "indicators of value" and by the Board in determining the annual market value of the operating unit for each state assessee. Staff audits property statements filed annually by state assessees on a four-year cycle.

All property contained on the assessment rolls must be identified as to the combination of taxing jurisdiction serving that property. These districts are overlapping and their boundaries are not coterminous with one another. Clusters of properties all served by the same taxing jurisdictions and having the same distribution of property tax revenues constitute a unique "tax rate area." The Board is charged with maintaining statewide maps delineating each taxing jurisdiction. The resulting 50,000 tax rate areas are used by the county assessors in preparing the local assessment roll and state assessees in reporting their nonunitary property holdings.

## Budget Adjustments

The 1991-92 budget proposes \$233,000 and 3.8 personnel years to redesign the Board Roll (State-Assessed Property) System.

## Performance Measures

0860 STATE BOARD OF EQUALIZATION—*Continued*

## 20.20 Private Railroad Car Tax

## Program Element Statement

The value of cars is determined by the Board from information required of private railroad car owners and operators on property statements and from other sources. Utilizing the number of cars and the value per car derived for each assessee, assessments are prepared, petitions for reassessment are received, tax bills are issued, and the revenue collected goes to the state's General Fund.

## Performance Measures

## 25 TIMBER TAX PROGRAM

## Program Objectives Statement

The Timber Tax Division administers the Timber Yield Tax by collecting revenue for the Timber Tax Fund; establishing timber value areas and the immediate harvest values for species of timber within those areas used to determine tax liability; developing a standard method of timber measurement and conversion factors where the standard cannot be used; controlling and auditing the reporting and self-assessment of the yield tax liability; and providing the data base for allocating the Timber Tax Fund to the county of harvest.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$59,000 and 0.1 personnel year to implement the VISTA project related to the feasibility of migrating system applications to the Teale Data Center.
- \$2,000 and 0.1 personnel year to help ensure the timely filling of vacant revenue producing positions.

## Authority

Government Code Chapter 6.7 of Part 1 of Division 1 of Title 5; Revenue and Taxation Code Article 1.7 of Chapter 3 of Part 2 of Division 1 and Part 18.5 of Division 2.

## Performance Measures

TOTALS, PROGRAM (Timber Tax Fund)...	35.2	35.8	36.0	\$2,191	\$2,371	\$2,549

## 25.10 Timber Valuation

## Program Element Statement

Forest property appraisers evaluate data from sales of private timber and timber on public lands and harvests on operator-owned land for purposes of establishing a data base to be used in developing immediate harvest value schedules and evaluating future harvest report filings of taxpayers. Value schedules adopted by the Board are used by taxpayers to determine their tax liability. Field inspections provide data to evaluate both the harvest reports and tax returns at the time of an audit.

## Input

	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Timber Tax Fund).....	11.7	11.9	11.9	\$792	\$902	\$953

## 25.20 Taxpayer Registration, Return Processing, and Collection

## Program Element Statement

When a taxpayer files either a harvest plan with the Division of Forestry or acquires the right to harvest timber on government land, the taxpayer is required to register with the Board unless already registered. Once identified the taxpayer is provided with instructions on how to file tax returns and harvest reports, and delinquency controls are established on anticipated tax returns. Tax returns and harvest reports are filed along with the tax due permitting the identification of delinquent accounts and establishing a data base for future audits where necessary.

\* Dollars in thousands, excluding salary range.

## 0860 STATE BOARD OF EQUALIZATION—Continued

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Timber Tax Fund) .....	18.8	18.4	18.6	\$1,068	\$1,088	\$1,197

## 25.30 Auditing

## Program Element Statement

Taxpayers are required to report and self-declare tax liability by species, old v. young growth, size, logging system, and by location. Misreporting of the volume harvested or misclassification by species or old v. young growth significantly alters the tax liability. Further, some harvests are not reported but disclosed by a reconciliation of log sales at the mills. The auditors, in conjunction with the forest property appraisers, evaluate the accuracy of the self-reporting and investigate any differences.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Timber Tax Fund) .....	4.7	5.5	5.5	\$331	\$381	\$399

## 30 SALES AND USE TAX PROGRAM

## Program Objectives Statement

The program objective is to ensure that all sales and use tax revenues are collected in an equitable and effective manner by effecting timely reporting of tax liability, detecting and correcting errors in self-assessments, and promptly collecting amounts determined to be due and economically recoverable.

The State Board of Equalization administers the state's 4.75 percent Sales and Use Tax Law, the 1.25 percent Bradley-Burns Uniform Local Sales transactions (sales) and use tax ordinances for the San Francisco Bay Area Rapid Transit District, the Santa Clara County Transit District, the Santa Cruz Metropolitan Transit District, the Los Angeles County Transportation Commission, the San Mateo County Transit District, the Santa Clara County Traffic Authority, the Alameda County Transportation Authority, the Fresno County Transportation Authority, the San Diego Regional Transportation Commission, the County of Inyo, the San Benito County Council of Governments, the San Diego Regional Justice Facilities Financing Agency, the San Mateo County Transportation Authority, the Sacramento Transportation Authority, the Contra Costa Transportation Authority, the Riverside County Transportation Commission, the San Francisco County Transportation Authority, the Imperial County Local Transportation Authority, the Santa Barbara County Local Transportation Authority, the San Bernardino County Transportation Authority, the Monterey County Public Repair and Improvement Authority, the Madera County Transportation Authority Tax, and effective April 1, 1991: The Los Angeles County Transportation Commission, the Orange County Local Transportation Authority, the San Joaquin County Transportation Authority, the Sonoma County Open Space Authority, and the County of Santa Cruz (Earthquake Recovery Bond).

In response to the Loma Prieta (Bay Area) earthquake of October 17, 1989, the Board was partially reimbursed (\$183,000) for expenses related to the relocation of its San Francisco and Oakland district offices. These costs were reimbursed by the Office of Emergency Services with funds received from the Federal Emergency Management Agency (FEMA).

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$642,000 and 6.4 personnel years to implement the VISTA project related to the feasibility of migrating system applications to the Teale Data Center.
- \$168,000 and 3.4 personnel years to help ensure the timely filling of vacant revenue producing positions.

## Authority

## 0860 STATE BOARD OF EQUALIZATION—Continued

## 30.10 Registration of Taxpayers

## Program Element Statement

Registration of sellers and users enables the Board to furnish them with proper tax forms and instructions for purposes of reporting and allocation of these taxes.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$1,385,000 and 2.6 personnel years to redesign the Board's Business Taxes Registration System.
- \$390,000 and 9.0 personnel years to process increased workloads associated with mandatory registration of new accounts (taxpayers).

Consumer Affairs Fund .....				-	17	27
Reimbursements .....				8,087	8,691	9,837
Reimbursements, Natural Disaster—Loma Prieta .....				30	-	-

## 30.20 Processing Tax Returns

## Program Element Statement

After the taxpayer files a return, it is processed through the mail processing, cashier, and information management units for deposit of revenue receipts and fiscal accounting purposes. This accounting includes the proper distribution of local and transit district taxes. A delinquency record is established for taxpayers failing to file returns, and notices are sent to them. Taxpayers whose accounts remain uncleared after a reasonable period are cited to appear at the local Board office to show cause why their permits should not be revoked for failure to file returns.

Returns are reviewed for mathematical accuracy, proper preparation, and application of the law. Billings or refunds are prepared to notify the taxpayer of errors in self-declared tax and applicable penalty and interest. When questionable deductions are observed, the taxpayer is contacted and asked to explain the deduction.

## Budget Adjustment

- The 1991-92 budget proposes \$4,075,000 and 80.6 personnel years to process increased workloads in the transaction (sales) and use tax ordinances for five new special taxing jurisdictions approved on the November 1990 ballot.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	563.5	628.0	681.6	\$34,652	\$39,807	\$44,806
General Fund .....				23,097	26,123	29,329
Consumer Affairs Fund .....				-	24	39
Reimbursements .....				11,512	13,660	15,438
Reimbursements, Natural Disaster—Loma Prieta .....				43	-	-

## 30.30 Auditing Accounts

## Program Element Statement

This activity is statistically designed to cover the tax base in a manner which will result in audits of accounts most likely to make substantial errors in reporting. A major objective of the audit selection system, which is based on the principle of marginal analysis, is to audit accounts which will produce tax deficiency in excess of the cost of auditing. Tax deficiency is the difference between self-assessed taxes and the final determination of taxes due after auditing.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$76,000 and 0.9 personnel year to provide for ongoing field audit training workloads.
- \$293,000 and 5.2 personnel years to process increased workloads in the transaction (sales) and use tax ordinances for five new special taxing jurisdictions approved on the November 1990 ballot.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	1,217.0	1,224.4	1,221.8	\$70,184	\$72,693	\$76,237
General Fund .....				46,728	47,627	49,820
Consumer Affairs Fund .....				-	48	78
Reimbursements .....				23,369	25,018	26,339
Reimbursements, Natural Disaster—Loma Prieta .....				87	-	-

## 30.40 Collecting Taxes Receivable

## Program Element Statement

Field offices are primarily responsible for the collection of delinquent amounts. The effort expended on each account is consistent with the amount due. Although efforts are made to accomplish collection through use of the telephone or by correspondence, field calls and the utilization of statutory remedies may be necessary to collect larger amounts when other efforts have not been productive.

\* Dollars in thousands, excluding salary range.

## 35 HAZARDOUS SUBSTANCES TAX PROGRAM

## Program Objectives Statement

This program is needed to provide revenues for the Hazardous Waste Control Account and the Hazardous Substances Account in the General Fund. The revenue is derived by collecting fees from generators of hazardous wastes and from certain hazardous waste facilities and corporations as well as collecting an annual "Superfund" tax from generators of hazardous wastes who dispose of waste. The objectives of the program are to ensure that appropriate returns and reports are filed, prescribed fees are paid, and taxes are assessed and collected in an equitable and effective manner.

Administration of this program includes: registering hazardous waste generators, facilities, and certain corporations; processing tax returns and reports; collecting fees and taxes due; auditing accounts; resolving petitions for redetermination and claims for refund; and advising taxpayers regarding the law.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$10,000 and 0.1 personnel year to implement the VISTA project related to the feasibility of migrating system applications to the Teale Data Center.
- \$3,000 and 0.1 personnel year to help ensure the timely filling of vacant revenue producing positions.

## Authority

Sections 25174.1, 25174.2, 25205.2, 25205.4, 25205.5, 25205.6, 25205.7, 25205.8, 25342, 25345, 25347.6, and 25345.7 of the Health and Safety Code and Part 22 of Division 2 of the Revenue and Taxation Code.

## 35.10 Processing Hazardous Waste Control Account Fees

## Program Element Statement

Hazardous waste "generators" and "facilities" are subject to either (1) a generator fee paid annually in one payment from persons generating more than five tons of hazardous waste during the calendar year, or (2) a facility fee paid annually in two semi-annual payments from operators of certain hazardous waste facilities. In addition to these fees, certain corporations may owe an environmental fee based upon the number of employees and type of business. Fees are also collected by the Board from persons receiving environmental services from the Department of Health Services. Deficiency notices are prepared and mailed to each person failing to file returns and reports or failing to pay amounts due. Field audits and investigations are made to assure proper reporting and proper classification of generators and facilities. Monthly classification updates of generators and facilities are received from the Department of Health Services and acted upon by the State Board of Equalization's staff.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$29,000 to collect a surcharge on generators of hazardous waste pursuant to the provisions of AB 2794 (Chapter 1267/90).
- \$44,000 and 0.9 personnel year to process annual facility fees pursuant to the provisions of AB 3856 (Chapter 1365/90).

## Performance Measures

Number of fee payers:	1989-90	1990-91	1991-92
Annual generators .....	13,098	14,000	14,000
Annual facilities .....	422	430	430

\* Dollars in thousands, excluding salary range.

## 0860 STATE BOARD OF EQUALIZATION—Continued

## 35.20 Processing Hazardous Substances Account Assessments

## Program Element Statement

Persons generating hazardous wastes and who deliver them to a facility for disposal or dispose of them on-site are subject to a Superfund tax. These persons are required to file an annual return and pay the tax to the Board by March 1 of each year setting forth the quantity of hazardous wastes in each of six categories, disposed of during the prior calendar year. These persons are also subject to a disposal fee. This fee is set forth by law and is reported quarterly, or semi-annually as determined by the Board. Starting January 1, 1991 the Superfund Tax and Disposal Fee will be combined into one fee. In addition, fees are collected by the Board from persons receiving environmental services from the Department of Health Services. Tax deficiency notices are prepared and mailed to persons failing to file reports or properly pay assessments. Field audits and investigations are made to assure proper reporting and deter tax evasion.

## Performance Measures

1989-90 1990-91 1991-92

## Number of Taxpayers:

Superfund tax.....	13,225	13,300	13,300

## 40 ALCOHOLIC BEVERAGE TAX PROGRAM

## Program Objectives Statement

The program objective is to ensure that all Alcoholic Beverage Tax revenues are collected equitably and efficiently by effecting timely reporting of tax liability, detecting and correcting errors in reporting, and promptly collecting amounts determined due and recoverable.

Self-assessed state excise taxes imposed on the manufacture, importation, or sale of alcoholic beverages in this state are administered by the Board.

## Authority

Revenue and Taxation Code—Part 14, Division 2.

## Performance Measures

1989-90 1990-91 1991-92

## Program Requirements

89-90 90-91 91-92 1989-90\* 1990-91\* 1991-92\*

Continuing program costs (General Fund) ..	33.6	34.5	34.5	\$1,612	\$1,679	\$1,756
--	------	------	------	---------	---------	---------

## 40.10 Registration of Taxpayers

## Program Element Statement

Persons subject to the Alcoholic Beverage Taxes are identified through licenses issued by the Department of Alcoholic Beverage Control. The Board registers them as taxpayers and furnishes tax returns for the reporting of tax. Accounts are regularly reviewed to reassess security requirements. Nontaxpaying common carriers, customs brokers, and out-of-state beer vendors are also registered and supplied with forms necessary to report information.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund) .....	11.5	10.2	10.2	\$565	\$514	\$537

## 40.20 Processing Tax Returns and Reports

## Program Element Statement

Alcoholic Beverage Tax returns are filed directly with the Board's headquarter office. The returns are processed through the mail processing, cashier, and information management units for deposit of funds and fiscal accounting purposes. The Excise Tax Unit then verifies reported tax computations, notifies taxpayers of apparent discrepancies on returns, and reviews them for proper preparation and application of the law.

\* Dollars in thousands, excluding salary range.

## 0860 STATE BOARD OF EQUALIZATION—Continued

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund).....	13.7	14.0	14.0	\$598	\$640	\$670

## 40.30 Auditing Accounts

## Program Element Statement

Informational reports are received from common carriers, customs brokers, out-of-state beer vendors, and other states. Through a matching process, the Excise Tax Unit is able to effectively select, for field auditing, those accounts which appear to have understated the tax. These audits deter tax evasion and promote accurate reporting of self-declared tax.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund).....	7.1	7.0	7.0	\$378	\$378	\$395

## 40.40 Collecting Taxes Receivable

## Program Element Statement

The Excise Tax Unit is primarily responsible for collecting taxes receivable. Investigations are made by field personnel when it is necessary to locate assets which may be levied upon or which are subject to lien.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund).....	1.3	3.3	3.3	\$71	\$147	\$154

## 45 CIGARETTE AND TOBACCO PRODUCTS TAX PROGRAM

## Program Objectives Statement

The program objective is to ensure that all Cigarette and Tobacco Products Tax revenues are collected equitably and effectively by effecting timely reporting and payment of tax liability, detecting and correcting errors in reporting, and promptly collecting amounts determined to be due and economically recoverable.

The Cigarette Tax is imposed upon distributors of cigarettes at the rate of one and three-quarters cents per cigarette (35 cents per standard package of 20) and upon consumers who acquire untaxed cigarettes which are not otherwise exempt from tax. For the most part, the tax is paid by distributors through the purchase of stamps from commercial banks which contract with the state for the issuance of stamps. The Tobacco Products Tax is imposed upon distributors of tobacco products at a rate equivalent to the combined rate of tax imposed on cigarettes. The rate is determined annually by the Board.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$1,000 to implement the VISTA project related to the feasibility of migrating system applications to the Teale Data Center.
- \$1,000 to help ensure the timely filling of vacant revenue producing positions.

## 0860 STATE BOARD OF EQUALIZATION—Continued

## 45.10 Registration of Taxpayers

## Program Element Statement

Every person desiring to engage in the sale of cigarettes or tobacco products as a distributor or as a cigarette wholesaler must obtain a license for each location at which he engages in such business. This enables the Board to furnish proper forms for the reporting, processing, allocation, and administration of the tax. Necessary security to assure payment of the tax is obtained from licensed distributors.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	4.8	5.7	5.5	\$225	\$281	\$297
General Fund .....				180	233	244
Cigarette and Tobacco Products Surtax Fund .....				45	48	53

## 45.20 Processing Tax Returns

## Program Element Statement

Forms and instructions are mailed to licensed distributors and wholesalers to enable them to file monthly reports to account for their purchases and distributions of tobacco products, cigarettes and stamps; to enable cigarette manufacturers (who are all licensed distributors) to report tax on sample cigarettes distributed in California; and to enable tobacco products distributors to report tax on their distribution of tobacco products. Reports relating to the acquisition and sale of stamps are received from banks. Information reports are received from manufacturers and common carriers. These reports are processed to account for tax payments, verify mathematical accuracy, and assure conformity with the law, and select accounts for audit. When a timely report is not filed, the taxpayer is notified. If the delinquency is not cleared, revocation proceedings are instituted.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	13.0	10.2	9.6	\$1,814	\$2,024	\$1,988
General Fund .....				1,622	1,910	1,877
Cigarette and Tobacco Products Surtax Fund .....				192	114	111

## 45.30 Auditing Accounts

## Program Element Statement

Field auditing is essential to assure uniform application of the law, deter tax evasion and carelessness in self-reporting, and identify and correct errors in self-reporting. Reconciliations are made in headquarters using data reported by manufacturers, distributors, wholesalers, banks, and others. In most cases, immediate corrective action is taken when underreported tax is indicated. Field audit activities are designed to resolve more difficult discrepancies and to identify tobacco products and cigarettes received from illegal sources. These audits deter tax evasion and promote accurate reporting of self-declared tax.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	10.3	9.2	8.5	\$521	\$505	\$502
General Fund .....				295	310	324
Cigarette and Tobacco Products Surtax Fund .....				226	195	178

## 45.40 Enforcement Activities

## Program Element Statement

Enforcement activities are designed to prevent loss of revenue through tax indicia counterfeiting, bootlegging, tax under reporting, smuggling and illegal sales of cigarettes and tobacco products.

Field inspections are made of distributors' stamping machines to see that indicia is properly affixed, clear, and legible. Inspections also are made of cigarette stocks in retail stores and in vending machines to assure that all packages are properly stamped. Additionally, spot inspection of transit vehicles, vessels and aircraft are made to help deter illegal transportation of untaxed cigarettes and tobacco products for sale in the state.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	4.5	4.5	4.1	\$225	\$236	\$234
General Fund .....				128	133	139
Cigarette and Tobacco Products Surtax Fund .....				97	103	95

## 45.50 Collecting Taxes Receivable

## Program Element Statement

The Excise Tax Unit is primarily responsible for collecting taxes receivable. Investigations are made by field personnel when it is necessary to locate assets which may be levied upon or which are subject to lien. The headquarters staff supports the field collection efforts with various actions, such as preparing liens, issuing sheriffs' warrants and maintaining the taxes receivable ledger.

## 0860 STATE BOARD OF EQUALIZATION—Continued

## 50 MOTOR VEHICLE FUEL LICENSE TAX PROGRAM

## Program Objectives and Statement

This program is needed to provide revenue for the Transportation Tax Fund, Aeronautics Fund, Harbor and Watercraft Revolving Fund, Off-Highway Vehicle Fund, and Department of Agriculture Fund. The objective is to ensure that the Motor Vehicle Fuel License Tax is administered equitably and effectively by effecting timely reporting of tax liability, and detecting and correcting errors in taxpayers' self-assessments.

The gasoline tax is imposed upon distributors and brokers on their taxable distributions of motor vehicle fuel. The gasoline tax rate is nine cents per gallon through July 31, 1990, fourteen cents per gallon on and after August 1, 1990, fifteen cents per gallon on and after January 1, 1991 and sixteen cents per gallon on and after January 1, 1992. A two cent per gallon tax is imposed on sales of aircraft jet fuel by dealers to certain users. The State Controller shares responsibility with the State Board of Equalization for the administration of this tax by collecting delinquent tax and making refunds to consumers who use tax paid gasoline in an exempt manner subject to refund.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$2,000 to implement the VISTA project related to the feasibility of migrating system applications to the Teale Data Center.
- \$1,000 to help ensure the timely filling of vacant revenue producing positions.

## Authority

Revenue and Taxation Code—Part 2, Division 2.

## 50.10 Registration of Taxpayers

## Program Element Statement

Persons subject to the Motor Vehicle Fuel License Tax are registered to enable the Board to furnish proper forms for the reporting, processing, and administration of the tax. Necessary security, within the limits allowed by law, is obtained to assure payment of the tax.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Motor Vehicle Fuel Account, Transportation Tax Fund) .....	2.6	1.9	1.9	\$135	\$105	\$111

## 50.20 Processing Tax Returns

## Program Element Statement

Returns are processed through the cashier and the Excise Tax Unit for proper deposit of funds and fiscal accounting purposes. Taxpayers failing to file returns are identified and notices are sent to them.

## Budget Adjustment

- The 1991-92 budget proposes \$295,000 and 5.8 personnel years to process workloads resulting from the Board administering the provisions of the Traffic Congestion Relief and Spending Limitations Act of 1990 (Proposition 111).

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Motor Vehicle Fuel Account, Transportation Tax Fund) .....	3.7	4.7	10.5	\$189	\$192	\$497

## 50.30 Auditing Accounts

## Program Element Statement

Accounts to be audited are selected through a process which assures optimum use of field audit time to detect misplaced tax, and deter tax evasion. Selection of accounts for audit places emphasis on those accounts which are expected to produce a deficiency tax change greater than the cost of auditing. These audits protect the tax base and result in a sustained high level of self-declared tax.

\* Dollars in thousands, excluding salary range.

## 0860 STATE BOARD OF EQUALIZATION—Continued

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Motor Vehicle Fuel Account, Transportation Tax Fund) .....	7.6	11.0	11.0	\$467	\$569	\$594

## 55 USE FUEL TAX PROGRAM

## Program Objectives Statement

This program is needed to provide revenue for the Transportation Tax Fund. The objective is to ensure that all Use Fuel Tax revenues are collected in an equitable and effective manner by effecting timely reporting of tax liability, detecting and correcting errors in taxpayer self-assessment and promptly collecting amounts determined to be due and economically recoverable.

The Use Fuel Tax is imposed on users of diesel fuel at nine cents per gallon, liquefied petroleum gas and liquid natural gas at six cents per gallon, and compressed natural gas at seven cents per 100 cubic feet (measured at standard pressure and temperature). The tax applies on use of these fuels in motor vehicles on California highways. An annual flat rate amount may be paid for vehicles using liquefied petroleum gas, liquid natural gas or compressed natural gas. All users must hold permits, file returns, and pay applicable tax. The tax is collected by vendors on fuel sold and delivered into the fuel tanks of motor vehicles. These vendors hold permits, file returns, and report the tax.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$31,000 and 0.2 personnel year to implement the VISTA project related to the feasibility of migrating system applications to the Teale Data Center.
- \$4,000 and 0.1 personnel year to help ensure the timely filling of vacant revenue producing positions.

## 55.20 Processing Tax Returns

## Program Element Statement

Returns are processed through the mail processing, cashier, and information management units for deposit of revenue receipts and fiscal accounting purposes. Delinquencies are established for taxpayers failing to file returns and notices are sent to them.

\* Dollars in thousands, excluding salary range.

0860 STATE BOARD OF EQUALIZATION—Continued

Budget Adjustment

• The 1991-92 budget proposes \$101,000 and 2.4 personnel years to process workloads resulting from the Board administering the provisions of the Traffic Congestion Relief and Spending Limitations Act of 1990 (Proposition 111).

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Motor Vehicle Fuel Account, Transportation Tax Fund) .....	20.3	20.7	23.3	\$1,256	\$1,288	\$1,454

55.30 Auditing Accounts

Program Element Statement

This activity is planned to assure uniform application of the tax by detecting and correcting errors in reporting and is statistically designed to cover the tax base in a manner which will audit accounts most likely to make substantial errors in reporting. A major objective of the selection system is to audit accounts which will produce tax deficiencies in excess of the cost of auditing.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Motor Vehicle Fuel Account, Transportation Tax Fund) .....	15.3	16.0	16.0	\$943	\$1,074	\$1,123

55.40 Collecting Taxes Receivable

Program Element Statement

Field offices are primarily responsible for collection action including the use of mail, telephone, and personal contacts. Necessary investigations are made by the field staff to locate assets subject to lien or execution proceedings. Motor vehicles may be seized and thereafter sold when necessary to effect collection of the tax.

In addition to field collection activities, liens are automatically recorded by headquarters seven weeks after the finality date where the amount owed is \$100 or more. If the delinquent amount is owed on an active account, a "notice of hearing" preparatory to revocation action is issued simultaneously with the recording of the lien.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Motor Vehicle Fuel Account, Transportation Tax Fund) .....	9.6	9.8	9.8	\$566	\$626	\$647

57 SOLID WASTE DISPOSAL SITE FEE PROGRAM

Program Objectives Statement

This program is needed to provide revenue for the Solid Waste Disposal Site Cleanup and Maintenance Account and the Integrated Waste Management Account in the Solid Waste Management Fund. The objective is to administer the collection of two fees on all solid waste disposed at each solid waste landfill required to have a solid waste facility permit. The fees provide funding to respond to potential health and environmental problems at onsite and offsite solid waste landfills. In addition, it will be used to support state and local landfill permit enforcement programs and to provide grants to local agencies to initiate and implement waste separation programs.

Administration includes registering facility operators required to pay the fees; processing annual and quarterly reports; computing the fee liability of each operator; mailing assessment notices; collecting amounts due; auditing accounts; providing statistical analysis of reported amounts; resolving claims for refunds; and advising interested persons regarding the law.

Budget Adjustment

• The 1991-92 budget proposes \$2,000 to implement the VISTA project related to the feasibility of migrating system applications to the Teale Data Center.

Authority

Public Resources Code Section 46801 and 48000.

## 58 UNDERGROUND STORAGE TANK FEE PROGRAM

## Program Objectives Statement

This program is needed to provide revenue for the Petroleum Underground Storage Tank Financing Account in the General Fund. The objective is to collect a fee on all underground petroleum tanks. The fee provides funding in order to monitor and regulate underground storage tanks containing petroleum to protect human health or the environment. The fee, established by statute, is collected quarterly from owners of underground storage tanks containing petroleum.

Administration of this program includes registering underground tank owners, processing tax returns, collecting fees, auditing accounts, resolving petitions for redeterminations and claims for refunds, and advising taxpayers regarding the law.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$1,000 to implement the VISTA project related to the feasibility of migrating system applications to the Teale Data Center.
- \$267,000 and 1.9 personnel years to process quarterly underground storage tank fees under the provisions of SB 2004 (Chapter 1442/90).

## Authority

## 59 OIL SPILL PREVENTION PROGRAM

## Program Objectives Statement

This program is needed to provide revenue for the Oil Spill Prevention and Administration Fund and the Oil Spill Response Trust Fund. The objective is to collect two fees on all crude oil and petroleum products received in this State via marine pipelines and terminals. The Prevention and Administration Fee provides funding in order to implement oil spill prevention programs, reimburse the member agencies of the State Interagency Oil Spill Committee for costs arising from implementation of this program, and to implement, install and maintain emergency programs, equipment, and facilities to respond to, contain and cleanup oil spills. The Response Fee provides funding in order to promptly cover costs of response, containment, and cleanups of oil spills into marine waters; including damage assessment costs and wildlife rehabilitation.

The Board of Equalization's administration includes issuing monthly returns, receiving monthly returns, depositing payments, auditing amounts reported, resolving petitions and claims for refund, providing statistical analysis, and advising interested persons regarding the law.

## Budget Adjustments

- In 1990-91, \$350,000 and 5.1 personnel years were authorized to process fee collections resulting from the Board administering the Oil Spill Prevention, Abatement and Response Act, as required by Chapter 1248/90, (SB 2040).
- The 1991-92 budget proposes \$396,000 and 7.5 personnel years to continue processing fee collections resulting from the Board administering the Oil Spill Prevention, Abatement and Response Act, Chapter 1248/90 (SB 2040)).

## Authority

Government Code—Sections 8670.40 and 8670.48.

## 60 ENERGY RESOURCES SURCHARGE PROGRAM

## Program Objectives Statement

This program is needed to provide revenues for the state Energy Resources Programs Account, General Fund. The objective is to administer a surcharge on the consumption of electricity.

\* Dollars in thousands, excluding salary range.

0860 STATE BOARD OF EQUALIZATION—Continued

Administration of this surcharge on consumers of electrical energy includes registering of electric utilities required to collect the surcharge from consumers; registering of consumers purchasing electrical energy from the United States; processing tax returns; auditing accounts; collecting taxes receivable; resolving petitions for redetermination and claims for refund; and advising taxpayers regarding the law.

Authority

Part 19 of Division 2 of the Revenue and Taxation Code.

65 EMERGENCY TELEPHONE USERS SURCHARGE PROGRAM

Program Objectives Statement

This program is needed to provide revenue to fund the "911" emergency telephone number system. The objective is to administer a surcharge on intrastate telephone communication services.

Administration of this surcharge on telephone users includes registering telephone service suppliers required to collect the surcharge from users; processing tax returns; auditing accounts; collecting taxes receivable; resolving petitions for redetermination and claims for refund; and advising taxpayers regarding the law.

Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$1,000 to implement the VISTA project related to the feasibility of migrating system applications to the Teale Data Center.
- \$1,000 to help ensure the timely filling of vacant revenue producing positions.

Authority

70 INSURANCE TAX PROGRAM

Program Objectives Statement

The program objective is to assess taxes on insurance premiums and on the ocean marine profits of underwriters and to levy retaliatory assessments against "foreign" insurers.

The program is administered jointly by the Board, the Controller and the Insurance Commissioner. The Board is responsible for assessing the tax and adjudicating petitions for redetermination and claims for refund.

The Board renders an annual assessment against each insurance company based on the net premiums on California business other than ocean marine insurance, and the average annual underwriting profit on ocean marine business. It also imposes a retaliatory tax on any out-of-state company doing business in California whenever that company's home state subjects a California company doing business in that state to a greater burden than California imposes on insurers domiciled in that state. The Board also hears taxpayer appeals and makes decisions to grant or deny petitions for redetermination and claims for refund.

Authority

The State Constitution, Article XIII, Section 28 and Part 7 of Division 2 of the Revenue and Taxation Code.

## 80 APPEALS FROM OTHER GOVERNMENTAL PROGRAMS

## Program Objectives Statement

An independent administrative review is necessary when a taxpayer disagrees with actions taken by the Franchise Tax Board. Upon the filing of a taxpayer's written request the Board of Equalization provides such a review of assessments of franchise and income taxes and eligibility determinations made in administering the senior citizens property tax assistance program.

There is also a need for an impartial tribunal to settle disputes between entities of local government concerning property tax assessments of county, city and county, or municipally owned property. The review is initiated when the local public entity owning taxable property outside its jurisdiction files an application for review, equalization, and adjustment of the disputed assessment with the Board.

## Authority

(1) Franchise and Income Tax Appeals: The Revenue and Taxation Code Sections 18593 to 18596, 18621, 18646, 18648, 19057 to 19061.1, 19062.2 to 19062.5, 25666, 25667, 25701, 25701a, 25731a, 26075 to 26078 and 26060.1. Procedural regulations regarding appeals from the Franchise Tax Board are contained in Title 18, California Administrative Code, Chapter 2, Subchapter 10, Sections 5021 to 5027 and 5071 to 5080; (2) Senior Citizens Homeowners and Renters Property Tax Assistance: Section 20645 of the Revenue and Taxation Code; and (3) Equalization of Publicly Owned Property Section II of Article XIII, California Constitution, and Sections 1840 and 1841 of the Revenue and Taxation Code. The procedural regulations are contained in Sections 451-458, Chapter 1, Title 18, California Administrative Code.

## 80.10 Franchise and Income Tax Appeals

## Program Element Statement

Action is initiated after a taxpayer files a written appeal with the Board of Equalization. The Board's legal staff frames the issues of law and fact by means of memoranda from and stipulations by the parties. After an oral hearing before the Board, the case is referred to the legal staff for review, analysis, and preparation of a written opinion and decision reflecting the views of the Board of Equalization.

## 80.20 Senior Citizens Property Tax Assistance

## Program Element Statement

A taxpayer files a written notice to initiate action with the Board of Equalization. Upon receipt of a re-review statement from the Franchise Tax Board the legal staff frames the issues of law and fact and submits them to the Board. The Board makes a determination and informs the claimant of its decision.

Performance Measures	1989-90	1990-91	1991-92

## 80.30 Equalization of Publicly Owned Property

## Program Element Statement

Action is initiated when the local public entity which owns the property files with the State Board of Equalization an application for review, equalization, and adjustment of the assessment imposed by the county in which the property is located. The assessor may file an answer. A prehearing conference is conducted by a member of the Board's legal staff to define the issues and arrange for stipulations and exchange of exhibits. A formal hearing is conducted before the Board which renders a written decision with findings of fact, conclusions, and an order.

\* Dollars in thousands, excluding salary range.

## 0890 SECRETARY OF STATE

The Secretary of State, a constitutionally established office, is the Chief Election Officer of the State and is responsible for the administration and enforcement of election laws. The office is also responsible for the administration and enforcement of laws pertaining to filing documents associated with corporations, limited partnerships, and perfection of security agreements. Furthermore, the office is responsible for appointment of notaries public, enforcement of notary laws and preservation of documents and records having historical significance. All documents filed are a matter of public record and of historical importance. They are available through prescribed procedures for public review and certification as to authenticity.

The Executive staff determines policy associated with the administration of the office through the programs of Elections, Political Reform, Uniform Commercial Code, Notary Public, Limited Partnerships, Corporate Filing, Archives and Management Services Divisions.

## 05 Corporate Filing

## Program Objectives Statement

This program examines, files and/or rejects articles of incorporation, foreign qualifications and related documents to ensure that corporations are properly formed, merged, amended and dissolved in compliance with California law. The program provides proprietary control over the proposed corporate name, the formation and changes in the structure of the corporation, the cancellation and suspension of delinquent corporate entities, thus allowing for the protection of the public interest in corporate business matters. The program also administers the filings of statements of officers, directors and agents for all corporations of record, which enables the public to have access to current information for business contracts, service of process and substituted service of process made through the Secretary of State's Office. Unincorporated Associations, Foreign Partnerships, Foreign Lending Institutions, Foreign Name Registrations and Foreign Associations are also part of this program and are filed and/or rejected in compliance with California statutes, and are available to the public.

## Authority

## 07 LIMITED PARTNERSHIPS

## Program Objectives Statement

Limited Partnership was authorized by Chapter 807, Statutes of 1981, amended by Chapter 997, Statutes of 1982 as well as by Chapter 1223, Statutes of 1983. The Secretary of State's staff examines and files certificates of newly formed limited partnerships to ensure that pertinent information concerning partnerships is recorded and filed. Related amendments and documents concerning the dissolution and cancellation of partnerships are also filed.

Limited partnerships previously filed similar documents with County Recorders. The legal and business communities, as well as the general public were not able to readily obtain information concerning limited partnerships because the records were spread over 58 counties. This program centralized the filing of limited partnership documents allowing information to be obtained from one source.

Statutory Certification, Bonds and Filings (SCBF) examines, certifies, authenticates and files over 90 different types of filings, most of which are exempt by Statute from a filing fee. These include individual name changes, seller-assisted marketing plans, various bonds and city annexations, incorporations and charters. In addition, authentications and apostilles required in foreign counties are issued on a variety of documents.

Responsibility for trademarks, service marks and unincorporated associations was assumed January 1, 1987 by the Limited Partnership Division. Documents are filed and/or rejected in compliance with provisions of the California Business and Professions Code.

\* Dollars in thousands, excluding salary range.

## 10 ELECTIONS

## Program Objectives Statement

The Secretary of State, as California's chief elections officer, ensures that the State's election laws are complied with in a uniform manner. Technical information and legal opinions are issued for the public, Legislative and local election officers regarding election laws and procedures. The continuing complexity of the State's election system requires increased vigilance by the Secretary of State, as well as the promulgation of appropriate rules and regulations to ensure that the State's election laws are uniformly and adequately enforced. In addition, the Secretary of State certifies to the nomination and election of state candidates, and the office is the central repository for voter registration data and official election results.

## Budget Adjustments

- In 1990-91, a \$7,263,000 deficiency was authorized for the Special Item of Expense for the costs of the ballot pamphlets for the November 1990 General Election.
- The 1991-92 budget proposes a baseline adjustment of \$2,518,000 for the Special Item of Expense ballot pamphlets.

## Authority

Constitution, Elections Code, Government Code, Federal Voting Rights Act and the Federal Overseas Voting Act.

## 15 POLITICAL REFORM

## Program Objectives Statement

The Secretary of State shares the responsibility for administering California campaign and lobbying disclosure laws enacted as the Political Reform Act of 1974. Under this law, the Secretary of State registers all campaign recipient committees and assures compliance with statutory reporting requirements through the review of campaign receipts and expenditure statements filed. The Secretary of State also registers lobbying firms and employers, reviews the periodic reports filed by lobbying entities, and prepares and publishes a Directory of Lobbyists, Lobbying Firms and Lobbyist Employers.

\* Dollars in thousands, excluding salary range.

## 20 UNIFORM COMMERCIAL CODE

## Program Objectives Statement

This program provides for the filing of financing statements and related documents so that a secured creditor may perfect a security interest in personal property covered by a security agreement as against other creditors. Not only does this program afford a secured creditor some protection against debtor bankruptcy, insolvency or default, but it also provides a prospective lender or seller the means to determine if there are any previously perfected security interests involving certain personal property. The division further files notices of federal tax liens against partnerships and corporations, state tax liens and attachment liens against personal property, livestock and judgment liens. The Secretary of State's staff examines all documents presented for filing for statutory compliance. The documents are then filed and open to public inspection. Certificates of filing and copies of filed records are available upon request.

## Budget Adjustments

- In 1990-91, the budget includes an authorization to expend \$196,000 and 0.5 personnel years from increased reimbursements for the development of a replacement system for the current Uniform Commercial Code system.
- The 1991-92 budget proposes \$657,000 from increased reimbursements and 0.9 personnel years to continue the development and implementation of a replacement system for the current Uniform Commercial Code system.

## Authority

Uniform Commercial Code, Chapter 4, Division 9 and 10 and 11; Uniform Federal Tax Lien Registration Act; Chapter 14, Division 7 of Title 1 of the Government Code relating to the registration of State tax liens; Section 488.340 of the Code of Civil Procedure relating to attachment liens; Division 2, Chapter 1, Article 3, Section 697.510 of the Code of Civil Procedure relating to judgment liens.

## 25 NOTARY PUBLIC

## Program Objectives Statement

The business community and general public is served through the appointment of notaries public who perform certain official acts and give official recognition and authenticity to acts and documents executed in their presence. Many documents to be legally or officially acceptable must be notarized. Notary public services generally are related to oaths, affirmations, affidavits, depositions and acknowledgements. Applications for a notary public commission are reviewed to determine that applicants meet the requirements for appointment. Appointments are for four-year terms and under such an appointment a notary may render notarial services throughout the State. The Secretary of State further investigates improper conduct on the part of the notaries public and takes appropriate disciplinary measures if warranted.

\* Dollars in thousands, excluding salary range.

## 0890 SECRETARY OF STATE—Continued

## Budget Adjustments

- In 1990–91, the budget includes \$200,000 from increased reimbursements for processing of fingerprints related to Notary Public Division.
- The 1991–92 budget proposes the continuation of the \$200,000 from increased reimbursements for the processing of fingerprints.

## Authority

Government Code, Chapter 3, Division 1, Title 2.

## 30 ARCHIVES

## Program Objectives Statement

The California State Archives acquires, catalogs, indexes, preserves and provides reference access to historic and irreplaceable record material from a wide range of origins within the state, supplemented by an oral history program to fill gaps in the documentary materials. The Archives serves the general public directly and assists state agencies and other institutions by providing an organized and select body of California history from all three branches of government. Without this program for assembling historic information, many essential original materials would be lost or destroyed—leaving the state with a reference vacuum that would jeopardize vital state interests. The State Archives, located at 1020 "O" Street in Sacramento, maintains an exhibit hall which is open to the public. Support for the California Heritage Preservation Commission is included in the budget for the State Archives.

## 35 MANAGEMENT SERVICES

## Program Objectives Statement

Management and staff support are provided to executive and line program managers through personnel, fiscal, data processing, general administrative services, management analysis and legislative coordination. Management Services provides the office with a continuing evaluation of programs to assist program managers in greater responsiveness to program requirements. Through analytical studies, development of personnel, fiscal, legislative coordination and other administrative options developed by Management Services staff, the executive staff to the Secretary of State is able to adopt policy, plan and direct the various programs administered by the Department. Fiscal, personnel, electronic data processing, system analysis, computer programming and management analysis provide administrative and policy assistance in the executive direction of the office.

## Budget Adjustments

- In 1990–91, the budget includes \$196,000 from increased reimbursements, and 0.5 personnel years to develop a replacement for the Uniform Commercial Code (UCC) system. Costs are distributed to the UCC program.
- The 1991–92 budget proposes \$657,000 from increased reimbursements, and 0.9 personnel year to continue the development and implementation of the replacement system for the UCC system.

0950 STATE TREASURER

The State Treasurer provides banking services for State government with a minimum interest and service cost and a maximum yield on investments. The Treasurer is charged with the responsibility for the custody of all money and securities belonging to or held in trust by the State; investment of temporarily idle State monies; administration of the sale of State bonds, their redemption and interest payments; and payment of warrants drawn by the State Controller and other State agencies. The Treasurer also is responsible for reviewing the financial soundness of certain local district construction financing proposals.

50	Workload Increase-Administration.....	4.9	384

10 INVESTMENT SERVICES

The State Treasurer has the responsibility for investment of State moneys from the day of receipt until the day that warrants issued to expend these receipts are presented to the State Treasurer's office for redemption. During the 1989-90 fiscal year, this office handled 7,460 security investment transactions totaling \$150.4 billion. The Pooled Money Investment Board program accounted for 5,268 of these transactions totaling \$146.2 billion; time deposits accounted for 210 transactions totaling \$3.3 billion. The remaining \$0.9 billion was distributed among other investment programs such as California Housing Finance Fund and Central Valley Water Project Construction Fund. Implementation of this program includes a comprehensive cash forecasting system which permits the purchase of longer term securities, thus maximizing the return from these funds.

Budget Adjustments

In 1991-92, an increase in reimbursement authority of \$107,000 is proposed to support the addition of 1.0 position (0.9 personnel year) to respond to increased participation in the Local Agency Investment Fund and to fund the program's share of the increased facilities operation costs.

## 20 CASH MANAGEMENT

The State Treasurer provides banking services for all State agencies. Included in this element are the deposit of State moneys in the State Treasury and centralized banking system and the redemption of all State warrants. This division is responsible for the processing and security systems related to the vault area.

## Budget Adjustments

In 1991-92, an increase in reimbursement authority of \$57,000 is proposed to fund the program's share of the increased facilities operation costs.

## 30 TRUST SERVICES

The State Treasurer is responsible for the safekeeping of all securities and other personal property owned by or pledged to the State. These securities are held in the Treasurer's vault or in approved depositories such as the Federal Reserve Banks in San Francisco and Los Angeles. As of June 30, 1990, the Treasurer was responsible for over \$32.7 billion in securities. During the past year, 36,318 security receipts and releases were prepared and processed. In addition 410,315 coupons, representing the interest increment on bearer bonds held, were clipped and processed for collection during Fiscal Year 1989-90.

In order to comply with and mitigate the effects of the Federal Tax Reform Act of 1986, the division also carries out programs and strategies. These include establishing and monitoring systems within each department that administers bond funds and operating a program to loan money from the Pooled Money Investment Account to State bond funds, as authorized by Chapter 6, Statutes of 1987. Once loan funds are expended, they are repaid from a later bond sale thereby avoiding tracking and rebating arbitrage profits to the federal government. Additionally the division has developed and implemented procedures to sell, and monitor expenditure of proceeds of, bonds that qualify as "Construction Bonds" under recently revised federal tax laws. These revised laws will minimize the need for borrowing funds from the Pooled Money Investment Account while still eliminating the need to track and rebate arbitrage profits to the federal government.

This division also performs the selling, issuing, servicing and redeeming of all State of California General Obligation bonds, revenue anticipation notes and many revenue bonds. Interest costs are minimized through a planned bond marketing program. This includes the offering of complete bond services to present bond holders, including flexible bond registration and maintenance of paying agents in New York and Chicago.

In addition, this division administers the Minority and Women Business Enterprises (MWBE) and Disabled Veterans Program authorized pursuant to Section 16850 et seq. of the Government Code and Section 999 et seq. of the Military and Veterans Code, respectively. Under the program, firms that are certified are eligible to provide services related to the sale of state bonds.

## Budget Adjustments

In 1991-92, an increase in reimbursement authority of \$324,000 and 2.0 positions (1.8 personnel years) is proposed to implement the following budget change proposals:

- an increase of \$79,000 and 2.0 position (1.8 personnel years) to support expanded workload in the program; and
- an increase of \$245,000 to fund the program's share of the increased facilities operation costs.

## 0950 STATE TREASURER—Continued

## 40 DISTRICTS SECURITIES DIVISION

The Districts Securities Division is charged with the supervision of certain fiscal proposals and physical operations of irrigation districts, water districts, water storage districts and certain other types of districts and local entities of the State of California.

The Districts Securities Commission was established in 1931 as a result of a special investigation by the California Irrigation and Reclamation Financing and Refinancing Commission following the default of many irrigation and other districts in payment of principal and interest due on outstanding bonds. The Districts Securities Commission succeeded the Bond Certification Commission which had been created in 1911. Since the creation of this Commission, there has not been a default in payment of principal or interest due on bonds approved by the Commission.

The Districts Securities Commission became a division in the State Treasurer's Office effective November 10, 1969, in accordance with the Governor's Reorganization Plan No. 1.

## Performance Measures

## 45 CENTRALIZED BANKING SERVICES

The Centralized Banking Program is responsible for the processing of all state warrants and agency checks; providing the State Controller with computer data for each of the separate state agency accounts for withdrawals; and processing stop payments and forgery items. Other responsibilities include the processing of all deposits of state agencies within the Centralized Treasury System; providing the State Controller with computer data for each of the separate state agency accounts for deposits; reconciling the seven member banks recognized within the Centralized Treasury System; and providing forecasting information to Cash Management Division for cash flow/investment purposes.

## Budget Adjustments

In 1991-92, an increase in reimbursement authority of \$173,000 is proposed to support the conversion of 9.0 positions (+2.5 personnel years) to respond to increased item processing workload and to fund the program's share of the increased facilities operation costs.

## 50 ADMINISTRATION

The administrative operation gives executive direction and provides support services to program managers. Administration includes budgeting, personnel, accounting, data processing and information systems.

## Budget Adjustments

In 1991-92, an increase in reimbursement authority of \$384,000 and 6.0 positions (4.9 personnel years) is proposed to implement the following budget change proposals:

- an increase of \$70,000 to permanently establish a Data Resource Management and Data Administration support position;
- an increase of \$66,000 and 1.0 position (0.9 personnel year) to support increased hardware/software mainframe workload;
- an increase of \$41,000 and 1.0 position (0.9 personnel year) to support increased batch processing workload;
- an increase of \$29,000 and 1.0 position (0.4 personnel year) to support increased business services workload;
- an increase of \$64,000 and 1.0 position (0.9 personnel year) to support increased personnel workload;
- an increase of \$38,000 and 1.0 position (0.9 personnel year) to support increased administrative clerical workload; and
- an increase of \$76,000 to fund the program's share of the increased facilities operation costs.

0953 LOCAL AGENCY INDEBTEDNESS FUND LOAN PROGRAM

Pursuant to Chapter 292, Statutes of 1978 and Chapter 512, Statutes of 1980, the Pooled Money Investment Board authorized loans to local agencies from the Local Agency Indebtedness Fund. These loans were to provide relief from temporary difficulties brought about by the approval of Proposition 13 in the June 1978 election and were for the purpose of making payments due on certain non-voter approved bonds. These loans have a maximum repayment period of 20 years. Funding for new loans has been withdrawn.

The expenditures displayed below are for the costs of administering the loans made under this program.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.  
\* Dollars in thousands, excluding salary range.

## 0956 CALIFORNIA DEBT ADVISORY COMMISSION

The California Debt Advisory Commission was created by enactment of Chapter 1088, Statutes of 1981. The purposes of the Commission are to (1) assist the Housing Bond Credit Committee; (2) assist, upon request, issuers in planning, preparing, marketing, and selling new debt issues; (3) collect and provide information on debt authorizations; (4) serve as a statistical center for all State and local debt issues; (5) undertake studies on the methods to reduce costs and improve the credit ratings of State and local issues; (6) collect and summarize specific information concerning the use of proceeds of local housing revenue bonds; (7) collect information on local refunding bonds sold at negotiated or private sale; and (8) provide verification to the State Treasurer in his certification of housing bonds.

The Commission consists of nine members including the State Treasurer, who is chairperson; the Governor or, upon his designation, the Director of Finance; the State Controller; and two local government finance officers appointed by the State Treasurer. Two members of the Assembly and two members of the Senate serve as members of a joint interim Committee and as advising members of the Commission.

The issuer of any proposed new debt issue of State or local government within California is required to give written notice of the sale to the Commission 30 days prior to the sale. Nonprofit student loan corporations, organized for the purpose of acquiring student loans, must also report proposed debt issues to the Commission. The Commission is authorized to charge fees not to exceed one-fortieth of one percent of the principal amount of the issue, not to exceed \$5,000 for any one issue. The Commission's activities are funded from the California Debt Advisory Commission Fund and involve no General Fund revenues or expenditures.

## 0959 CALIFORNIA DEBT LIMIT ALLOCATION COMMITTEE

The California Debt Limit Allocation Committee was created through a proclamation signed by the Governor on July 19, 1984, in response to the enactment of the Federal Tax Reform Act of 1984. A new proclamation in response to the Federal Tax Reform Act of 1986 was signed by the Governor on September 30, 1986. Chapter 943, Statutes of 1987, now has superseded the prior proclamations as the continuing authority for the Committee's operation. The Tax Reform Acts of 1984 and 1986 limit the dollar volume of federally tax-exempt "private activity" bonds which may be sold in any one state during a calendar year. The term "private activity," as applied to tax-exempt bonds, generally includes industrial development bonds, housing bonds and exempt facilities bonds for solid waste disposal. The Tax Reform Act of 1986, in addition to further limiting the purposes for which federally tax-exempt "private activity" bonds may be issued, reduces the dollar volume limit of such bonds to approximately \$1.4 billion (\$50 per capita) for California after 1987.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 0959 CALIFORNIA DEBT LIMIT ALLOCATION COMMITTEE—Continued

The Committee oversees the State's allocation system for the issuance of "private activity" bonds under the provisions of Chapter 943 of 1987. It is comprised of the State Treasurer, as chairperson; the Governor or, upon his designation, the Director of Finance; and the State Controller. The Committee is funded on a fee-supported basis pursuant to authority contained in Chapter 943, Statutes of 1987.

## 0962 CALIFORNIA PASSENGER RAIL FINANCING COMMISSION

The California Passenger Rail Financing Commission was created by the provisions of the California Passenger Rail Financing Commission Act (Chapter 1553, Statutes of 1982). The legislation was enacted to encourage the creation of rapid rail transit projects (systems capable of peak speeds exceeding 120 miles per hour) within California in order to reduce auto congestion and air pollution by making alternative financing mechanisms available to sponsors of such projects. The legislation became effective January 1, 1983. The Commission consists of four members. The State Treasurer serves as chairperson with the other three members being appointed; one selected by the Governor, one by the Senate Rules Committee and one by the Speaker of the Assembly.

All activities of the Commission are financed by fees charged to applicants. The Commission is not authorized to commit the State to any general indebtedness. Upon making the determinations required by the Act, the Commission may issue revenue bonds to finance all or part of the acquisition, construction and development of rapid rail transit facilities. The Commission is limited to an aggregate amount of bonds outstanding of \$1,250,000,000, but as of June 30, 1990, no projects had been brought before the Commission for review.

The Federal Tax Reform Act of 1986 disallows the issuance of federally tax-exempt bonds for private mass commuting facilities, a restriction which could apply to projects to be financed by the Commission. Although the issuance of bonds for privately owned or operated passenger rail projects would no longer be exempt from federal taxation, the Commission could issue bonds which would be exempt from State taxes.

## 0965 CALIFORNIA INDUSTRIAL DEVELOPMENT FINANCING ADVISORY COMMISSION

The California Industrial Development Financing Advisory Commission was created by the provisions of the California Industrial Development Financing Act (Chapter 1358, Statutes of 1980). The State Treasurer serves as chairperson of the Commission. The other members are the Director of Finance, the State Controller, the Director of the Department of Commerce and the Commissioner of Corporations.

The Act allows cities and counties to establish industrial development authorities which are empowered to issue industrial development revenue bonds under terms and conditions specified in the Act. Bonds issued under this program are not a debt, liability or a pledge of the faith and credit nor the taxing power of the State of California. Bonds issued for this purpose are subject to the State's "private activity" bond ceiling, as specified in the Federal Tax Reform Act of 1986, and allocated by the California Debt Limit Allocation Committee.

The program is intended to benefit economically distressed areas within the State. The proceeds of the bonds provide industry with an alternative method of financing capital outlay required to acquire, construct or rehabilitate facilities which will increase employment or otherwise contribute to economic development.

Administration expenses of Industrial Development Authorities are funded by fees collected from applicants for financing under the Act. Direct expenses of the Commission and those of the office of State Treasurer also are funded by fees collected from applicants and from bond proceeds.

Chapter 1605, Statutes of 1982, as amended by Chapter 1109, Statutes of 1987, provides that the aggregate amount of bonds issued shall not exceed \$350,000,000 per calendar year for federally tax-exempt issues and a like amount for federally taxable issues.

Pursuant to Chapter 1264, Statutes of 1989, the Commission was extended from January 1, 1990 to January 1, 1992.

**0968 CALIFORNIA TAX CREDIT ALLOCATION COMMITTEE**

**Program Objectives Statement**

The Federal Mortgage Subsidy Bond Tax Act of 1980 limited, with certain exceptions, the amount of public bonds, interest upon which is exempt from federal income taxation, that may be issued annually in any state to finance loans for owner-occupied residences, as specified. Chapter 1097, Statutes of 1981, established the California Mortgage Bond Allocation Committee for the purpose of approving mortgage revenue bond allocations for qualified cities, counties, and state agencies. The Committee also has responsibility to certify specific census tracts as areas of chronic economic distress.

The Federal Tax Reform Act of 1986 modified the 1980 Act to limit, with certain exceptions, the amount of public bonds, interest upon which is exempt from federal income taxation, which may be issued annually in any state to finance a variety of private activities, including the financing of owner-occupied residences, multifamily rental housing, small-issue industrial development bonds, and student loan bonds, among other types. Responsibility for approving tax exempt bonds for owner-occupied or multifamily rental housing was transferred to the California Debt Limit Allocation Committee in 1989.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 0968 CALIFORNIA TAX CREDIT ALLOCATION COMMITTEE—Continued

The Federal Tax Reform Act of 1986 established a low income housing tax credit program to foster development of affordable rental housing. This program provided tax credits of \$1.25 per capita for calendar years 1987 through 1989. This produced total credits available in California of approximately \$33,000,000 in 1987, \$34,000,000 in 1988 and \$35,000,000 in 1989.

A Governor's proclamation signed February 27, 1987, designated the Mortgage Bond Allocation Committee as the agency to allocate the credits. Chapter 658, Statutes of 1987, superseded that proclamation and appropriated \$100,000 from the renamed Mortgage Bond and Tax Credit Allocation Fee Account to supplement the Committee's support. That legislation also authorized a fee to be charged for tax credit allocation activities. Chapter 1138, Statutes of 1987 established a similar state tax credit program and assigned its administration to the California Mortgage Bond and Tax Credit Allocation Committee. From its inception through calendar year 1989, the tax credits were apportioned among almost 400 rental housing projects across the state, assisting almost 17,000 apartment units.

The low income housing tax credit (LIHTC) program was extended through calendar year 1990 by the Federal Omnibus Revenue Reconciliation Act of 1989. The LIHTC program was again extended until December 31, 1991 by the Federal Omnibus Budget Reconciliation Act of 1990. Chapter 166, Statutes of 1990, made modifications to the administration of both the federal and state LIHTC programs and renamed the state's administering agency the California Tax Credit Allocation Committee.

The Committee consists of seven members including the Treasurer, who is designated as the chairman, the Governor or the Director of Finance, the State Controller, the Director of the State Department of Housing and Community Development, the Executive Director of the California Housing Finance Agency and two local government representatives.

**Major Budget Adjustments**

In 1991-92, the budget proposes \$70,000 to permanently establish one position for handling the increased workload and \$200,000 to hire consultants to perform the financial feasibility analyses of the LIHTC program's project applications.

## 0971 CALIFORNIA ALTERNATIVE ENERGY SOURCE FINANCING AUTHORITY

The California Alternative Energy Source Financing Authority was established by Chapter 908, Statutes of 1980, for the purpose of providing industry within the State an alternative method of financing the construction and installation of facilities using alternative methods and sources of energy. Such construction can help meet the energy needs of the State in a manner which minimizes degradation of the environment and conserves scarce energy resources.

The Authority consists of five members: the State Treasurer (Chairperson); the State Controller; the Director of Finance; the chairperson of the Energy Resources Conservation and Development Commission; and the President of the Public Utilities Commission.

The Authority is empowered to: establish criteria for projects selected for financing; issue revenue bonds; enter into loan agreements for the sale, construction, installation, or acquisition of projects; and assist small business entities in locating a funding source for projects not approved by the Authority.

With the exception of the projects specified in the transition rules of the Federal Tax Reform Act of 1986, projects over \$10 million generally are no longer eligible for financing with federally tax-exempt bonds; however, such projects could be financed with federally taxable but State tax-exempt bonds. Other federally tax-exempt bonds of the Authority, in general, are subject to the State's "private activity" bond ceiling as specified in the Tax Reform Act and allocated by the California Debt Limit Allocation Committee.

The Authority is authorized to issue up to \$200 million in revenue bonds to finance alternative energy projects. As of June 30, 1990, \$126,620,000 in bonds had been sold.

## 0974 CALIFORNIA POLLUTION CONTROL FINANCING AUTHORITY

## Program Objectives and Description

The California Pollution Control Financing Authority (CPCFA) was established by Chapter 1257, Statutes of 1972, for the purpose of providing California businesses with a reasonable method of financing pollution control facilities needed in the State and to foster compliance with government imposed environmental standards and requirements. The Authority consists of the State Treasurer (Chairperson), the State Controller, and the Director of Finance.

The program enables industrial firms and agricultural producers to use funds received from the sale of Authority revenue bonds for the acquisition, construction, or installation of pollution control facilities to meet environmental requirements mandated by public agencies. Companies that have received assistance through the program include food processors, cooperatives, manufacturers, recreational facilities, waste disposal and resource recovery firms, metal platers, public utilities, refiners and marketers. As of June 30, 1990, bonds totaling \$5,390,357,000 had been sold by the Authority. Projects ranging from \$75,000 to approximately \$500 million have been financed.

Chapter 342, Statutes of 1985, was enacted to give CPCFA the legal authority to establish a Small Business Assistance Fund. The Fund is used for small businesses seeking access to tax-exempt financing by providing a mechanism (the financing of credit enhancements) to obtain a bond rating of "A" from a national bond rating service, and an effective interest rate equal to the rate available for large businesses with an "A" rating. The first bonds under this program were issued in the fall of 1989.

In recent years, Federal tax legislation has constrained the ability of CPCFA to issue tax-exempt bonds for private uses (i.e. air and water pollution control projects). Therefore, the Authority's recent bond sales have been principally for resource recovery projects. In addition, the Federal Tax Reform Act of 1986 imposed a ceiling on the total amount of tax exempt bonds which can be sold in each state. Thus, this Authority's projects must now compete with those from other California authorities and financing agencies for debt allocation. This limitation has resulted in some of the Authority's projects being only partially funded by tax exempt bond sales.

The California Integrated Waste Management Act of 1989 (AB 939, Chapter 1095, Statutes of 1989) mandated cities and counties to divert 25% of solid waste from landfills through source reduction, recycling, and composting by January 1, 1995. By January 1, 2000, a 50% diversion is mandated. This recent legislation is expected to be a large component of the Authority's workload during the next few years.

## 0977 CALIFORNIA HEALTH FACILITIES FINANCING AUTHORITY

The California Health Facilities Financing Authority (CHFFA) was established by Chapter 1033, Statutes of 1979. The CHFFA consists of nine members: the State Treasurer, the Director of Finance, the State Controller, two public members appointed by the Senate, two public members appointed by the Assembly, and two public members appointed by the Governor.

The Authority was established to issue revenue bonds to assist qualified private nonprofit corporations or associations, counties and hospital districts in financing or refinancing the construction, equipping or acquisition of health facilities. The funding or refinancing is accomplished by making secured or unsecured loans to health institutions; by the direct purchase and leaseback of the health facility by the Authority; or by a health institution acting as an agent for the Authority. The Authority can determine the location and character of any proposed project and can solicit mortgage insurance (State or federal) for any funded project. The eligibility criterion for funding under the Act is that the project be a health facility, as defined in the Act, operated by a private nonprofit corporation or association, city, city and county, county or hospital district. Chapters 1228 and 1242, Statutes of 1983, Chapter 39, Statutes of 1986, and Chapter 1426, Statutes of 1987, made certain administrative changes to and broadened the types of facilities that may be financed by the Authority.

Chapter 663, Statutes of 1980, Chapter 1569 of 1982, Chapter 372 of 1984, Chapter 349 of 1985, Chapter 842 of 1986, and Chapter 1125 of 1989 authorize the Authority to issue up to \$5.124 billion in revenue bonds for these purposes. As of August 31, 1990, \$6,737,337,121 in bonds had been issued for financing health facilities; \$1,523,665,000 had been defeased, and \$826,238,767 had been retired, leaving \$4,387,433,354 in bonds outstanding, of which \$616,555,000 in bonds were outstanding for public hospitals, multi-level care facilities, and adult day health care facilities. Bonds issued for public hospitals, multi-level care facilities, and adult day health care facilities are not deemed outstanding by Chapter 1346 of 1985, and Chapter 1228 of 1983 in determining the amount of outstanding bonds. The balance of unissued bonds was therefore \$1,353,121,646 as of August 31, 1990.

The Federal Tax Reform Act of 1986 generally limits the issuance of federally tax-exempt bonds for health facilities to no more than \$150 million outstanding for non-hospital purposes per private non-profit organization. The Tax Reform Act does not restrict health facility bonds in terms of the State's "private activity" bond limit. State law specifically provides that bonds issued shall not be a debt or liability or a pledge of faith and credit of the taxing power of the State or any of its political subdivisions. The full faith and credit of the participating institutions are pledged to the payment of bonds. This is a trust activity, and all operating expenses must be paid from revenues and other moneys available to the Authority.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 0977 CALIFORNIA HEALTH FACILITIES FINANCING AUTHORITY—Continued

Chapter 1556, Statutes of 1984, created the County Health Facilities Sinking Fund within the California Health Facilities Financing Authority (Government Code Section 15463) for local health facilities capital improvements. Chapter 1449, Statutes of 1985, renamed the fund the County Health Facilities Financing Assistance Fund. The fund consisted of \$10 million from the Special Account for Capital Outlay; \$10.2 million in savings from the Medically Indigent Adult and County Health Services programs; \$10 million from funds received by the State from the federal government during FY 1985–86, pursuant to Chapter 1440, Statutes of 1985, and Chapter 1449, Statutes of 1985, as amended by Chapter 419, Statutes of 1986; and earned interest of approximately \$3,980,444 through June 30, 1990. Transfer of \$20.9 million from the County Health Facilities Financing Assistance Fund to the General Fund was authorized by the Budget Act of 1987. As of August 31, 1990, all remaining monies in the County Health Facilities Financing Assistance Fund, including principal and interest earnings, were encumbered and payable to participating counties. While the program itself will remain as part of the California Health Facilities Financing Authority's Act, without the appropriation of additional funds, no further assistance will be provided from the Fund in FY 1990–91 or beyond.

## 0983 CALIFORNIA URBAN WATERFRONT AREA RESTORATION FINANCING AUTHORITY

The California Urban Waterfront Area Restoration Financing Authority (CUWARFA) was created by Chapter 1264, Statutes of 1983. It consists of five members: the State Treasurer (Chairperson); the Director of Finance; the State Controller; the Secretary for Resources and the Executive Officer of the State Coastal Conservancy.

The Authority was established to issue up to \$650 million in revenue bonds to make loans or acquire title to property and to underwrite or undertake directly a variety of urban waterfront development projects within the coastal zone, the Sacramento-Yolo Port District, the Stockton Port District and those metropolitan statistical areas meeting specified conditions. Financing is available for both publicly and privately sponsored projects that provide visitor-serving facilities, waterfront-dependent industries, public recreation and erosion control facilities. The legislation also requires that the State Coastal Conservancy approve both the specific project and a master plan for urban waterfront restoration before any project can obtain CUWARFA approval for revenue bond financing.

The Federal Tax Reform Act of 1986 continues the requirement that bonds authorized by CUWARFA generally must be within an allocation from the State's "private activity" bond limit in order for the bonds to be federally tax-exempt, unless they qualify as a private, non-profit business. In April 1990, the Authority sold \$3,330,000 for the Santa Monica International AYH Hostel, the first bonds issued by the Authority.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 0985 CALIFORNIA SCHOOL FINANCE AUTHORITY<sup>1</sup>

Chapter 1438, Statutes of 1985, as amended by Chapter 598, Statutes of 1987, established the California School Finance Authority and authorized the Authority to issue \$400,000,000 in revenue bonds or other debt instruments. The proceeds from the sale of the bonds are made available to provide loans to school and community college districts to assist in obtaining equipment and new school sites, constructing new facilities, reconstructing existing facilities and acquiring portable/relocatable buildings. The proceeds of loan repayments are to provide necessary resources for bond debt service. All expenditures of the Authority for debt service and other expenses must be paid from the revenues available to the Authority.

As of June 30, 1990, there was a \$29,345,000 issue outstanding, which was used to provide funding for 11 separate school districts and one community college district.

<sup>1</sup> The California School Finance Authority is reflected for informational purposes only in this Legislative/Judicial/Executive section of the Governor's Budget, along with other bonding authorities of which the State Treasurer is a member.

## 0986 CALIFORNIA STUDENT LOAN AUTHORITY

The California Student Loan Authority was created by Chapter 1357, Statutes of 1980. The Authority is a public instrumentality of the State composed of three voting members (the State Treasurer, the Director of Finance and the State Controller and two ex officio non-voting members (the Directors of the California Postsecondary Education Commission and the Student Aid Commission).

The Authority was established for the purpose of issuing revenue bonds to purchase federally reinsured student loan notes from eligible lending institutions, thereby assisting in the expansion of student access to these low-cost federally reinsured educational loans. For this purpose, the Authority was authorized to issue tax-exempt revenue bonds in an initial amount of \$150,000,000. Chapter 1303, Statutes of 1983, subsequently increased the Authority's debt limit to \$300,000,000. Bonds issued for this purpose are subject to the State's "private activity" bond ceiling, as specified in the Federal Tax Reform Act of 1986 and allocated by the California Debt Limit Allocation Committee.

The law specifically provides that bonds issued shall not be a debt, or liability, or a pledge of the faith and credit nor the taxing power of the State or any of its political subdivisions. This is a trust activity and involves no State revenues or expenditures. All expenses must be paid from revenues and other moneys available to the Authority.

## 0989 CALIFORNIA EDUCATIONAL FACILITIES AUTHORITY

The California Educational Facilities Authority is a public instrumentality of the State comprised of five members: the Director of Finance, the State Controller, the State Treasurer and two public members appointed by the Governor to serve for terms of four years.

The Authority was created for the purpose of issuing revenue bonds to assist private educational institutions of higher learning in the expansion and construction of nonsectarian educational facilities. Facilities used for sectarian instruction or as a place of religious worship are not eligible. Through its ability to issue tax-exempt bonds, the Authority provides lower cost financing to these institutions than they would be able to secure on the open market. The law specifically provides that bonds issued by the Authority shall not be a debt or liability or a pledge of the faith and credit of the taxing power of the State or any of its political subdivisions. The full faith and credit of the participating institutions are pledged to the payment of bonds issued by the Authority. Bonds issued for this purpose are not subject to the State's "private activity" bond ceiling as specified in the Federal Tax Reform Act of 1986. The bond financings are issued for institutions on a stand-alone basis and also on a pooled or combined basis. Generally, however, individual institutions requesting the authority to issue tax-exempt bonds for this purpose are limited by the Tax Reform Act to having no more than \$150 million in tax-exempt bonds outstanding.

A total of \$150,000,000 of bonds initially was authorized by the California Educational Facilities Authority Act contained in Sections 94100 through 94213 of the Education Code. Chapter 537, Statutes of 1979, increased this initial bond authorization to \$300,000,000. Chapter 874, Statutes of 1982, increased the authorization to \$500,000,000. Chapter 408, Statutes of 1984, further raised the authorization to \$750,000,000. Most recently, Chapter 829, Statutes of 1986, raised the authorization to \$1,250,000,000.

As of June 30, 1990, bonds and notes in the amount of \$1,246,835,000 have been sold (including defeased bonds and notes) as follows: Harvey Mudd College \$15,025,000; California Lutheran College \$10,920,000; Loyola Marymount University \$48,955,000; Pepperdine University \$94,970,000; San Francisco Conservatory of Music \$1,200,000; Santa Clara University \$7,510,000; Southwestern University \$3,000,000; Stanford University \$493,920,000; University of the Pacific \$47,870,000; University of San Diego \$57,410,000; Pomona College \$41,725,000; Westmont College \$18,358,566; the University of Southern California \$346,020,000; Los Angeles College of Chiropractic \$27,130,000; California Institute of Technology \$20,000,000; Occidental College \$16,000,000; the University of Redlands \$20,090,000; Mount Saint Mary's College \$3,625,000; Mills College \$4,865,000; Chapman College \$2,555,000; Saint Mary's College of California \$6,760,000; University of San Francisco \$30,300,000; Menlo College \$1,180,000; National University \$8,220,000; Claremont University Center \$12,475,000; Scripps College \$4,850,000; California School of Professional Psychology \$535,000; Dominican College of San Rafael \$1,920,000; American Film Institute \$6,700,000; Point Loma Nazarene College \$18,455,000; Pitzer College \$4,155,000; College of Notre Dame \$705,000; California College of Arts and Crafts \$2,995,000; Claremont McKenna College \$2,850,000; and Heald Colleges \$5,760,000.

## 0992 HAZARDOUS SUBSTANCE CLEANUP FINANCING AUTHORITY

The Hazardous Substance Cleanup Financing Authority was established by Chapter 1460, Statutes of 1984. The Authority consists of the State Treasurer (Chairperson), the Director of Finance and the State Controller.

The Authority is authorized to issue up to \$100,000,000 in revenue bonds, notes, or other evidence of indebtedness, for the purpose of financing removal of, and remedial actions to, releases of hazardous substances. The proceeds of the sale of bonds create the Hazardous Substance Cleanup Financing Fund which is continuously appropriated to carry out the provisions of the Authority. The Authority also may fix fees and charges for projects and may receive and use grants or loans from the federal government, any public agency or from any other source. All expenses incurred by the Authority in carrying out the provisions of Chapter 1460 are payable solely from the Hazardous Substance Cleanup Financing Fund. No obligation or liability is imposed upon the State by issue of the revenue bonds or other instruments. As of July 1, 1990, no bond sale had been authorized.

Bonds issued for this purpose generally are subject to the State's "private activity" bond ceiling as specified in the Federal Tax Reform Act of 1986, and also issued by the California Debt Limit Allocation Committee. The Act specifies additional restrictions limiting the ability to issue bonds for these purposes.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

# 0994 CALIFORNIA TASK FORCE TO PROMOTE SELF-ESTEEM, AND PERSONAL AND SOCIAL RESPONSIBILITY

## Program Objectives Statement

The California Task Force to Promote Self-Esteem, and Personal and Social Responsibility was created by Chapter 1065, Statutes of 1986 (AB 3659, Vasconcellos). The 25 member task force studied and made findings concerning the relationships between healthy self-esteem, personal responsibility and social problems. The task force recommended ways in which study findings could be incorporated into public policy and programs, non-governmental institutions and personal awareness. The task force became inoperative on July 1, 1990.

## 1100 MUSEUM OF SCIENCE AND INDUSTRY

The Museum of Science and Industry is an educational, scientific and technological center administered by a nine-member board of directors appointed by the Governor. It is located in Exposition Park, a 104-acre tract just south of the central part of Los Angeles, which is owned by the State in the name of the museum.

In a number of State-owned buildings, it presents a series of exhibits and conducts associated programs centering on the scientific and industrial development of the State. In addition, it has responsibility for maintenance of the park, the museum and parking facilities for visitors to the park and museum.

## SUMMARY OF PROGRAM REQUIREMENTS

Personnel years .....	128.0	184.6	189.2

## 10 EDUCATION

The program performed by the Museum of Science and Industry exhibits our scientific and industrial capabilities and accomplishments. The Executive Director and staff, in cooperation with the nine-member board of directors, administer the museum operation. They also have responsibility for the security and operation of the museum's buildings and Exposition Park.

The primary purpose of this educational program is to create and stimulate the interest of Californians in the fields of science, industry, and economics. It is particularly oriented to reach the largest possible number of the State's young people, with the anticipation that some will pursue scientific, industrial, and economic careers and thereby provide California with needed resources in these fields. The program, in addition to permanent, temporary and traveling exhibits, consists of lectures, seminars, films, science workshops and teaching institutes led by eminent scientists from all over the country. A major portion of these latter activities is financed by the California Museum Foundation Fund which is supported by private contributions. Admission to the museum's exhibits is free.

The Museum of Aerospace Science serves as a national educational model filling a gap between the public's growing use of the benefits of space exploration and research, and its limited understanding of the basic use of these achievements in their daily lives. This building houses exhibits provided by private sources and classrooms, an auditorium, offices and workrooms. In addition, an IMAX theater, built and funded by the California Museum Foundation, is only the sixth such theater among the museums in the United States.

## Budget Adjustments

## Authority

Agricultural Code, Division 3, Part 3, Chapter 6 (Sections 4101 through 4106).  
Chapter 571, Statutes of 1977

## 30 CALIFORNIA AFRO-AMERICAN MUSEUM

The program presented by the California Afro-American Museum preserves and displays the contributions of Afro-Americans to the arts, science, religion, education, literature, entertainment, politics, sports, and to the history and culture of California and all countries and peoples. The director and staff, in cooperation with the seven-member Board of Directors administer the museum operation.

The purpose of this educational program is to promote awareness and understanding of the accomplishments and contributions of Afro-American culture and heritage. The program consists of permanent, temporary and traveling exhibits, lectures, seminars, films and cultural presentations to young people and adults in the surrounding community, California, and visitors from all over the world. It is anticipated that the Afro-American Museum Foundation will support some of these activities.

## Authority

Chapter 1439, Statutes of 1987.

Program Requirements	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

## 03 BOARD OF ACCOUNTANCY

A greatly increased percentage of the public and the business structures serving that public are now requiring the services of certified public accountants and public accountants because of the dramatically increased complexity in laws affecting business operations and taxation. This greater degree of sophistication in the practice of accounting makes it mandatory that certified public accountants and public accountants are qualified to render services fully meeting the public's needs and that they maintain such qualification by updating their technical knowledge through required continuing education.

## Program Objectives Statement

The Board objectives are to (1) establish and maintain appropriate requirements for education, examination and licensure which are uniformly applied, job related, competency based and administered in a manner which encourages fair competition and broad consumer choice; (2) ensure licensee's continuing competency by advocating and implementing educational and rehabilitative policies; (3) protect the consumer by establishing and maintaining enforcement policies and procedures which ensure enforcement timeliness and relevancy, provide for alternative complaint resolution techniques, recognize the value of "victim" oriented sanctions and rehabilitative measures while also recognizing the need to permit consumer choice.

## Budget Adjustments

In 1990-91, the following budget adjustment is included:

- An increase of 0.4 personnel year and \$31,000 to meet additional licensee examination workload.

In 1991-92, the following budget adjustments are proposed:

- An increase of 2.8 personnel years and \$85,000 to meet additional licensee examination workload.
- An increase of 7.6 personnel years and \$668,000 to support the enforcement program. This proposal will establish civil service positions to conduct enforcement activities and, thereby, enable the Board to curtail the use of volunteer staff for these purposes.
- An increase of 3.8 personnel years and \$209,000 to support the licensing program workload.
- An increase of 3.8 personnel years and \$228,000 to improve supervision and meet increased administrative services workload.
- An increase of 1.9 personnel years and \$81,000 to convert expiring limited term positions to permanent status in the Continuing Competency Unit.

## 06 BOARD OF ARCHITECTURAL EXAMINERS

The consuming public is subject to serious injury or death should a structure such as a school, store, office building, or dwelling collapse. To reduce the possibility of such an occurrence resulting from faulty design, those who hold themselves out to the public as skilled in the design of such structures must be required to meet the minimum standards established by law. It is also necessary that those who have not proved by education, experience and examination that they meet these minimum standards be prevented from deceiving the public as to their qualifications in the field of architecture.

## Budget Adjustments

In 1991-92, the following budget adjustment is proposed:

- An increase of 0.9 personnel year and \$37,000 to address clerical workload increases related to examination functions.

## Program Objectives Statement

The Board's objectives are: 1) To ensure that only those persons possessing the necessary minimum qualifications are licensed as architects, 2) To enforce the provisions of the Architectural Act and subsequent regulations, and 3) To ensure the ongoing competence of licensees.

## Authority

## 09 ATHLETIC COMMISSION

Contestants in boxing and full-contact karate matches are subject to serious injury and death through mismatches and lack of proper medical examinations. The public and State government suffer monetary losses due to fraudulent promotional practices and improper collection and verification of attendance and revenue. The Commission sets standards and enforces them through examinations, regulatory inspections and attendance by Commission representative at all matches, exhibitions and closed circuit events.

## Budget Adjustments

In 1991-92, the following budget adjustment is proposed:

- An augmentation of 0.5 personnel year and \$21,000 for increased neurological examination workload.

## 12 BUREAU OF AUTOMOTIVE REPAIR

California citizens are dependent upon the automobile. When their automobiles break down they are literally immobilized. They are also, for the most part, dependent upon the service industry for repair and maintenance of their vehicles. The fundamental need is for these service transactions to occur in a market place characterized by full disclosure and fair dealing between buyer and seller. This is not always the case. The primary mission of the Bureau of Automotive Repair is to protect the public through enforcement and administration of the provisions of the Business and Professions Code related to automotive repair and maintenance. In addition, the Bureau is also mandated to administer the "Smog Check" program in an effort to reduce harmful vehicular emissions which cause damage to public health and to agriculture.

**Program Objective Statement**

The Bureau's objective is to reduce the incidence and impact of fraudulent, negligent, and deceptive trade practices by California's auto repair industry against the consuming public and to maximize reductions in vehicular air pollution in California.

**Budget Adjustments**

In 1990-91, the following budget adjustments are included:

- An increase of 7.1 personnel years and the redirection of \$88,000 from contract savings to meet increased data processing workload related to the new BAR-90 analyzer and reporting requirements set forth in the provisions of Chapter 1554, Statutes of 1988, (SB 1997), the Smog Check Program.
- An increase of 10.6 personnel years and the redirection of \$1,924,000 from contract savings to expand the Smog Check Program to new program areas.

In 1991-92, the following budget adjustments are proposed:

- The continuation of 14.3 personnel years and \$474,000 for data processing needs related to the Smog Check Program. 7.0 positions are Limited Term through 6-30-93.
- The continuation of 21.3 personnel years and an increase of \$2,473,000 to expand the Smog Check Program to new program areas.
- An extension of 6.7 personnel years (Limited Term to 6-30-93) and \$473,000 to address increased workload for the toll-free WATS lines.

**Authority**

Business and Professions Code Sections 9880 and 4400.

## 15 STATE BOARD OF BARBER EXAMINERS

Persons receiving barber services are subject to physical injury, disease, mental distress and marring of physical appearance. The objectives of the Board are to: (1) ensure that shops, tools and equipment are safe and sanitary; (2) establish and enforce standards of skill and knowledge for licensees; (3) establish continuing education criteria for instructors; and (4) resolve consumer and industry complaints and eliminate their causes. As specified in Chapter 1672, Statutes of 1990 (AB 3008), the Board of Barber Examiners and the Board of Cosmetology will merge effective July 1, 1992.

## Budget Adjustments

In 1990-91, the following budget adjustment is included:

- An augmentation of \$2,000 in order to fund the Barber Board's share of an analyst position to be utilized in the implementation Chapter 1672, Statutes of 1990 (AB 3008), the Board of Barber Examiners and Board of Cosmetology merger.

In 1991-92, the following budget adjustment is included:

- An augmentation of \$6,000 for continued funding of the analyst position to implement the merger with the Board of Cosmetology.

## 18 BOARD OF BEHAVIORAL SCIENCE EXAMINERS

The confidential and sensitive nature of services performed by marriage, family, and child counselors, licensed clinical social workers, and educational psychologists necessitates the development and enforcement of performance standards and competence consistent with the public welfare. The Board of Behavioral Science Examiners assures that minimum competency standards are met by establishing educational and experience requirements, conducting written and oral examinations, investigating violations of professional ethics and law and disciplining licensees when appropriate.

## Budget Adjustments

In 1990-91, the following budget adjustments are included:

- An increase of \$61,000 for examination related costs.
- An increase of 0.9 personnel year and \$124,000 for enforcement program workload.

In 1991-92, the following budget adjustments are proposed:

- An increase of \$109,000 to administer the Licensed Clinical Social Worker written examination by contract.
- An increase of \$149,000 for exam administration and development.
- An increase of 3.8 personnel years and \$392,000 for enforcement workload (1.9 personnel years limited term to 6-30-92).
- An increase of \$42,000 for the reproduction and distribution of an information newsletter.
- An increase of 1.9 personnel years and \$590,000 for implementing a fingerprint program. Included is \$470,000 in reimbursement authority for the cost of fingerprint reports.

## Authority

Business and Professions Code Section 9000

## Program Objective Statement

The Board's objective is to make certain that, without exception and in accordance with the law, all persons practicing in the professions regulated by the Board are properly licensed.

## 21 CEMETERY BOARD

The public needs protection from possible fraud, misrepresentation, or negligence by cemeteries, crematories and their representatives. The Cemetery Board's goal is: to protect the consumer from possible fraud, misrepresentation, or negligence by cemeteries, crematories and their representatives.

## Program Objective Statement

The Board's objectives are: to ensure that only qualified applicants receive licenses to operate cemeteries or crematories or act as cemetery brokers or salesmen; to ensure that those so licensed comply with applicable rules and regulations; to ensure that all trust funds (revocable or irrevocable) are properly placed in trust, invested, and income used for the purpose intended; and to ensure permanence of mausoleums and columbariums.

## Budget Adjustments

In 1991-92, the following budget adjustment is proposed:

- An augmentation of \$6,000 for in-state travel to enable the board to perform audits, inspections, and investigations.

## Authority

Business and Professions Code Section 9600.

## 24 BUREAU OF COLLECTION AND INVESTIGATIVE SERVICES

There are two elements in the Bureau of Collection and Investigative Services: (1) collection agencies and (2) private investigators.

Program Requirements	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
24.10 Collection Agencies .....	12.4	16.9	19.1	\$910	\$1,382	\$1,556

Private Investigator and Adjuster Fund .....				4,344	5,247	5,655
Reimbursements .....				1,433	1,407	1,407

## 24.10 Collection Agencies

Debtors and clients of collection agency services require that collection agencies and their employees be fair and conscientious in the handling of collected moneys, and accountable for actions as required by law. This element consists of two components: The regulatory activities of the bureau and administrative services provided to the private investigators element. These administrative services are funded by a distribution of costs to the private investigators element.

## Budget Adjustments

In 1990-91, the following budget adjustment is included:

- An increase of \$287,000 and 3.1 personnel years for implementation of a management study addressing deficiencies in the licensing and enforcement programs. This adjustment will enable the Bureau to meet the two year statutory audit cycle of all collection agencies. Included is \$50,000 in one-time costs for a telecommunications study.

In 1991-92, the following budget adjustment is proposed:

- The continuation of \$406,000 and 7.1 personnel years for implementation of a management study addressing deficiencies in the licensing and enforcement programs and to meet the required minimum audit cycle of collection agencies.

## Program Objectives Statement

1. Guarantee that only those possessing the necessary qualifications be licensed, certified and registered.
2. Enforce standards of conduct required of licensees, certificate holders and registrants by law and by regulation.
3. Police against unlicensed collection activity.

## Authority

Business and Professions Code Section 6850.

## 24.20 Private Investigators

The public must have the assurance that those persons who offer services as private investigators, repossessors, uniformed security guards, private patrol operators, alarm company operators, alarm agents, locksmiths, protection dog operators, and firearm and baton training facilities are fair and competent as required by law. The Bureau ensures that only those persons who can meet the prescribed qualifications be licensed, and enforces standards of ethical conduct established for such licensees.

## Budget Adjustment

In 1990-91, the following budget adjustment is included:

- An increase of \$655,000 and 7.1 personnel years to implement a management study identifying deficiencies in the licensing and enforcement programs (1.9 personnel years are limited term to 6-30-92). Included are one time costs of \$50,000 for an Office Automation Study and \$45,000 for a records management study.

In 1991-92, the following budget adjustment is proposed:

- The continuation of \$760,000 and 14.2 personnel years to implement a management study pertaining to deficiencies in the licensing and enforcement programs. (In addition, 2.0 MST and 3.0 Office Technician positions, currently limited term, will be converted to permanent status effective 7-1-92).

## 30 CONTRACTORS STATE LICENSE BOARD

The Contractors State License Board's mission is to promote the health and general welfare of the public in matters relating to building construction by: (1) ensuring that all construction is performed in a safe, competent and professional manner; (2) providing resolution to disputes which arise from building construction activities; and, (3) providing information so that the public can make informed choices.

## Program Objectives Statement

1. To ensure maximum automation of all Board operations.
2. To ensure greater consumer education.
3. To ensure prompt issuance of licenses.
4. To ensure prompt processing of licensee transactions to maintain a license.
5. To ensure prompt responses to telephone inquiries for licensing information.
6. To ensure prompt resolution of complaints.
7. To ensure maximum use of all resources, including industry and private sector to resolve complaints and target specified illegal activity (unlicensed contracting).

## Budget Adjustments

In 1990-91, the following budget adjustments are included:

- An increase of 0.4 personnel years on a limited term basis through December 31, 1991 to fully assess the Board's file storage needs. Funding will be redirected from the Board's Teale base budget. The excess funds are the result of delays in the implementation of various EDP projects.
- An increase of 0.9 personnel years for increased data processing workload needs. Funding will be redirected from the Board's Teale base budget. The excess funds are the result of delays in the implementation of various EDP projects.
- An increase of 0.4 personnel years to implement Chapter 1366, Statutes of 1990 (SB 2004) which requires a contractor to obtain a hazardous substance removal certificate prior to the removal of an underground storage tank. Funding will be redirected from the Board's Teale base budget. The excess funds are the result of delays in the implementation of various EDP projects.
- An increase of 1.9 personnel years to implement Chapter 1456, Statutes of 1990 (SB 2476) which exempts contractors, under specified conditions, from taking a written examination for additional classification licenses. The positions are on a limited term basis and expire June 30, 1993. Funding will be redirected from the Board's Teale base budget. The excess funds are the result of delays in the implementation of various EDP projects.
- An increase of 0.4 personnel year, on a limited term basis through December 31, 1991, to assist with the implementation of Chapter 1386, Statutes of 1990 (AB 2282) which establishes a Workers Compensation Unit within the Board. In addition, the above mentioned statutes also appropriate \$200,000 to the Board to contract out for a feasibility study on a computer system to be used for joint enforcement activities with the Department of Industrial Relations, the Franchise Tax Board, and the Employment Development Department.

\* Dollars in thousands, excluding salary range.

## 1110 DEPARTMENT OF CONSUMER AFFAIRS—Continued

In 1991-92, the following budget adjustments are proposed:

- An increase of 0.4 personnel years on a limited term basis through December 31, 1991 to assess the Board's file storage needs. Funding will be redirected from the Board's Teale base budget. The excess funds are the result of delays in the implementation of various EDP projects.
- An increase of 2.8 personnel years and \$187,000 for increased data processing support needs.
- An increase of 0.9 personnel years and \$43,000 to continue the implementation of Chapter 1366, Statutes of 1990 (SB 2004).
- An increase of 3.8 personnel years and \$234,000 to continue the implementation of Chapter 1456, Statutes of 1990 (SB 2476). The positions are on a limited term basis and expire June 30, 1993.
- An increase of 0.9 personnel years and \$73,000 to administer the proposed Riverside District Office.
- An increase of 1.4 personnel years and \$205,000 to administer an additional Computer Assisted Testing (CAT) facility in the Bay Area.
- An increase of 0.9 personnel years and \$52,000 to address increased workload needs in the Application Investigation Unit.
- An increase of 0.9 personnel years and \$52,000 to support the Automated Phone Response System.
- An increase of 9.0 personnel years (0.9 of which is authorized on a limited term basis through June 30, 1992) and \$651,000 to continue the implementation of Chapter 1386, Statutes of 1990 (AB 2282).

## 33 BOARD OF COSMETOLOGY

## Program Objective Statement

The Board's mission is to protect the consumers of cosmetology services by:

1. Ensuring quality training through the setting of course curriculum and standards and the licensing of schools of cosmetology and electrology.
  2. Timely examination and licensing of qualified professionals in the fields of cosmetology, electrology, manicuring, and facials.
  3. Promoting the delivery of quality cosmetology services to the consuming public in a healthy and safe environment by licensing and inspecting salons and schools, mediating complaints, and disciplining licensees for wrongdoing.
  4. Fostering positive communication with the industry and the public.
- As specified in Chapter 1672, Statutes of 1990 (AB 3008), the Board of Cosmetology and Board of Barber Examiners will merge effective July 1, 1992.

## Budget Adjustments

In 1990-91, the following budget adjustments are included:

- An augmentation of 0.5 personnel years and \$20,000 for clerical support for the Los Angeles examination facility.
- An augmentation of \$70,000 for development of a safety course on hazardous substances in the cosmetology workplace pursuant to Chapter 1674, Statutes of 1990 (AB 2925).
- An augmentation of \$18,000 in order to fund the Board of Cosmetology's share of an analyst position to be utilized in the administration division for the implementation of Chapter 1672, Statutes of 1990 (AB 3008) the Board of Barber Examiners and Board of Cosmetology merger.

In 1991-92, the following budget adjustments are proposed:

- An augmentation of 4.7 personnel years and \$198,000 on a two-year limited term basis (through 6-30-93) for clerical workload in headquarters.
- The continuation of 0.9 personnel year and \$35,000 for clerical support for the Los Angeles examination facility.
- A one-time augmentation of \$70,000 for development of a safety course on hazardous substances in the cosmetology workplace pursuant to Chapter 1674, Statutes of 1990 (AB 2925).
- An augmentation of \$21,000 for review and validation of all written examinations for licensing (includes a one-time augmentation of \$7,000).
- An augmentation of \$64,000 to fund an analyst to 6-30-92 to implement AB 3008, the merger of the Board of Barber Examiners and Board of Cosmetology.

## 36 BOARD OF DENTAL EXAMINERS

Dental treatment and care must be performed in a competent and professional manner. To ensure this, the Board of Dental Examiners establishes qualifications for licensure as a dentist, hygienist, assistant, expanded function auxiliary, or professional corporation; administers examinations; approves dental schools and training programs; sets requirements for continuing education; receives complaints and investigates possible violations of the Dental Practices Act; and, enforce policies against unlicensed practice.

## Program Objective Statement

The Board's objective is to ensure that the consumer receives dental treatment which meets or exceeds the standards for dental care established by this agency.

## Budget Adjustments

In 1990-91, the following budget adjustments are included:

- An augmentation of 0.5 personnel years and \$18,000 to implement mandates of the Federal Health Care Quality Improvement Act of 1986, the National Practitioner Data Bank (NPDB).
- An augmentation of \$91,000 to address increased evidence and expert witness fees.

In 1991-92, the following budget adjustments are proposed:

- An augmentation of 0.9 personnel years and \$36,000 to implement mandates of the Federal Health Care Quality Improvement Act of 1986.
- An augmentation of \$140,000 to address increased evidence and witness fees.
- An augmentation of 1.9 personnel years and \$78,000 to address clerical workload.

## 36.20 Dental Auxiliary

The utilization of dental auxiliaries contributes to providing quality dental services to Californians. To achieve this goal the Committee on Dental Auxiliaries (COMDA) was created. COMDA performs credential review, examination development and administration, and curriculum and site evaluation of postsecondary dental assisting vocational education programs.

## Budget Adjustments

In 1991-92, the following budget adjustment is proposed:

- An augmentation of 0.9 personnel years and \$41,000 for increased workload.

## 39 BUREAU OF ELECTRONIC AND APPLIANCE REPAIR

With the continuing increase in complexity of electronic technology and the rapid changes in the repair industry (both home electronic entertainment equipment and major appliances), the consuming public is subjected to fraud, deceit, incompetence, and negligence in repair transactions. The objectives of the Bureau are to register and regulate all persons engaged in major home appliance and electronic equipment repair by imposing specific obligations of ethical conduct, honesty, and full and fair disclosure; providing certain safeguards to California consumers when they need repair services; and ridding the repair industry of unscrupulous repair dealers.

## 42 BUREAU OF PERSONNEL SERVICES

Many persons who are seeking employment or re-employment will seek the service of a private employment agency. The utilization of private employment agency services may constitute a considerable expenditure of monies for the consuming public, especially for the unemployed and underemployed.

## Program Objective Statement

The Bureau's objective was to ensure that only those possessing the necessary qualifications be licensed as employment agencies and to enforce standards of legal and ethical conduct established for such licensees.

## Program Components

	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
42.10.010 Personnel Services .....	3.0	-	-	\$169	-	-

## 48 BOARD OF FUNERAL DIRECTORS AND EMBALMERS

Proper handling of human remains is necessary in the interest of public health. The public is also subject to financial loss through fraud or mismanagement of preneed trust accounts. In order to correct potentially hazardous conditions or unlawful practices, the Board licenses only those who demonstrate the necessary skills and knowledge. The Board also polices unlicensed activity, inspects premises and accounts, audits trust funds, approves schools, investigates complaints, and imposes sanctions on those violating code provisions and Board regulations.

## Program Objective Statement

The Board's objectives are: (1) to ensure that licensees under the jurisdiction of the Board of Funeral Directors and Embalmers are qualified and competent to practice safely and effectively with accountability to the public; and (2) to reduce the incidence and impact of fraudulent, negligent, incompetent and deceptive trade practices by the California funeral industry upon the consuming public.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- An augmentation of 0.5 personnel year and \$45,000 to address administrative workload.
- An augmentation of \$93,000 for operating expenses.

## Authority

Business and Professions Code Section 7600.

## 51 BOARD OF REGISTRATION FOR GEOLOGISTS AND GEOPHYSICISTS

Geological and geophysical investigations relating to: (1) landslides, active faults, earthquakes and land subsidence; (2) ground water and mineral exploration; and (3) planning, design, construction and maintenance of civil engineering projects require degrees of skill and proficiency to avoid death, injury and destruction of property.

## Program Objective Statement

1. License qualified geologists and geophysicists.
2. Develop policies, rules, regulations and standards for practice, education and administration of the act.
3. Act on complaints and violations of the law by licensees and nonlicensees.

\* Dollars in thousands, excluding salary range.

## 1110 DEPARTMENT OF CONSUMER AFFAIRS—Continued

## Budget Adjustments

In 1991-92, the following budget adjustment is proposed:

- An increase of \$10,000 to pay for the membership fee and travel expenses associated with joining the Association of State Boards of Geology.

## 57 BUREAU OF HOME FURNISHINGS AND THERMAL INSULATION

The sale of upholstered furniture, bedding, insulations or waterbeds made with defective, substandard or highly flammable materials poses an unacceptable hazard to consumers. Consumers are also subject to fraud from misrepresentation, misleading product claims or false advertising in the merchandising of goods. The Bureau's objectives are to ensure that fair and reasonable standards are developed, and that those standards are enforced through on-site inspections and investigations and through laboratory testing. Board of Dry Cleaning and Fabric Care and transferred the registration of dry cleaning plants to the Bureau.

## Budget Adjustments

In 1990-91 and 1991-92, the following adjustment is proposed:

- An augmentation of \$25,000 to schedule reimbursements for full-scale flammability testing of furnishings used in publicly occupied facilities.

## 60 BOARD OF LANDSCAPE ARCHITECTS

Improper location, arrangement and design of developments, including the preservation of natural land features, endangers the social, environmental, and economic quality of life. In order to assure the consuming public that landscape architects conduct business in a proper manner, the Board's objectives are to establish and enforce levels of professional competence, eliminate unlicensed activity and provide consumer/industry education.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- A one-time augmentation of \$150,000 to contract with a private consultant to develop a California Landscape Architects licensing examination.
- An increase of 0.9 personnel year and \$52,000 to address clerical workload increases.

\* Dollars in thousands, excluding salary range.

## 63.10 Medical Board of California

The Board assures the initial and continued competence of the health professions and occupations under its jurisdiction through licensure, investigation of complaints against its licensees, and discipline of those found guilty of violations of the law or regulations.

## Budget Adjustments

In 1990-91, the following budget adjustments are included:

- An increase of 2.9 personnel years and \$324,000 to staff the new Central Complaint and Investigation Control Unit to achieve consistency in the complaint review process and quality assessment of investigations.

\* Dollars in thousands, excluding salary range.

## 1110 DEPARTMENT OF CONSUMER AFFAIRS—Continued

- An increase of 0.5 personnel year and a redirection of \$15,000 to establish one permanent position to address increased personnel workload.
- An increase of 0.9 personnel year and \$53,000 to meet increased workload in the Discipline Coordination Unit.
- An increase of 0.5 personnel year and a redirection of \$47,000 to establish a permanent Medical Consultant position in the Diamond Bar Regional Office.
- An increase of 2.1 personnel years and \$1,013,000 to implement the provisions of Chapter 1597, Statutes of 1990 (SB 2375) which is intended to improve the discipline system for physicians and allied health professionals.

In 1991-92, the following budget adjustments are proposed:

- An increase of 7.6 personnel years and \$619,000 to establish six permanent positions and convert two limited-term positions to permanent status to staff the new Central Complaint and Investigation Control Unit to achieve consistency in the complaint review process and quality assessment of investigations.
- An increase of 9.0 personnel years and \$341,000 to establish 6.5 permanent positions and 3.0 two-year limited-term positions to support examination and license verification workload and \$50,000 one-time funding to conduct a telecommunications study.
- The continuation of 0.9 personnel year and \$40,000 to establish one permanent position to assist with increased personnel workload.
- The continuation of 1.9 personnel years and \$82,000 to establish two permanent positions to meet the Discipline Coordination Unit's workload.
- An increase of 7.6 personnel years and \$615,000 to convert 8.0 limited-term investigator positions to permanent status.
- The continuation of 0.9 personnel years and \$127,000 to establish a permanent Medical Consultant position in the Diamond Bar Regional Office.
- An increase of 4.3 personnel years and \$2,055,000 to implement the provisions of SB 2375 which is intended to improve the discipline system for physicians and allied health professionals.

**Program Objectives Statement**

1. To assure that each person licensed by the board and its components meets all requirements of law and regulation for licensure.
2. To promptly respond to complaints against the licensees of the board, and to investigate those which are within the board's jurisdiction, and which represent possible violations.
3. To discipline those licensees who are found guilty of violations of the Medical Practice Act or other laws.
4. To provide a program of diversion and rehabilitation for physicians whose ability to practice medicine with safety is impaired by abuse of alcohol or other drugs, or by mental illness.

This element includes the regulatory activities of the board with respect to physicians, and administrative services provided to the allied health boards and committees under its jurisdiction, which are funded from distributions from their budgets.

**Authority**

## 63.15 Registered Dispensing Opticians

Registered dispensing opticians are businesses which fill the prescriptions of ophthalmologists and optometrists for eyeglasses and contact lenses. Each business must employ one or more registered spectacle lens dispensers, or registered contact lens dispensers, as appropriate, to perform the professional activities of filling such prescriptions.

## 63.20 Acupuncture Committee

Acupuncture is a theory and method for treatment of illness and disability and for strengthening and invigorating the body. As it affects the public health, safety and welfare, it is necessary that individuals practicing acupuncture be subject to regulation and control. The Acupuncture Examining Committee accomplishes this through the administration of the provisions of Acupuncture Certification Act.

## Budget Adjustments

In 1990-91, the following adjustments are included:

- An augmentation of \$7,000 for increased Attorney General costs related to SB 2375, Chapter 1597, Statutes of 1990.

\* Dollars in thousands, excluding salary range.

## 1110 DEPARTMENT OF CONSUMER AFFAIRS—Continued

- An augmentation of \$200,000 as appropriated by Chapter 103, Statutes of 1990 (SB 633), for the committee to contract with an independent consultant to conduct an evaluation of acupuncture tutorial programs and requirements for licensure required of foreign-trained applicants.
- An augmentation of \$24,000 and 0.5 personnel year to assist with increased workload offset by a reduction of \$51,000 and 2.4 personnel years for expert examiners as a result of efficiencies realized through the contract of the committee's licensing examination.

In 1991-92, the following adjustments are proposed:

- An augmentation of \$14,000 for increased Attorney General costs related to SB 2375, Chapter 1597, Statutes of 1990.
- An augmentation of \$42,000 and 0.9 personnel year limited term to 6-30-92 to assist with implementation of Chapter 103, Statutes of 1990 (SB 633).
- The continuation of \$37,000 and 0.9 personnel year to meet with increased workload. This position is funded by a reduction of \$51,000 and 2.4 personnel years for expert examiners as a result of efficiencies realized in the committee's licensing examination.

## 63.30 Hearing Aid Dispensers Examining Committee

It is estimated that one out of every five California citizens has some degree of hearing loss. For those who must wear hearing aid devices, there are dangers from unlicensed or un reputable hearing aid dispensers.

## Budget Adjustments

In 1990-91, the following budget adjustment is included:

- An increase of \$57,000 to meet increased enforcement costs.

In 1991-92, the following budget adjustments are proposed:

- The continuation of \$57,000 to meet increased enforcement costs.
- An augmentation of \$13,000 to adjust the committee's operating expense budget.
- A one-time augmentation of \$2,000 to implement Chapter 514, Statutes of 1990 (SB 1916).

## Program Objectives Statement

1. To protect consumers by investigating and examining applicants for hearing aid dispensers licenses and ensuring compliance with all occupational licensing requirements.
2. Discipline those licensed who fail in their public trust.

## Authority

Business and Professions Code Section 3300.

\* Dollars in thousands, excluding salary range.

## 63.40 Physical Therapy Examining Committee

Physical therapists in independent practice treat patients who have disabilities resulting from accidents, congenital defects or illnesses. In order to ensure proper patient evaluation and treatment, those persons skilled in the profession of physical therapy must meet the minimum standards established according to law. This is accomplished by licensing those who possess the necessary qualifications and enforcing standards of ethical conduct established for such licensees and policing against unlicensed practice.

## Budget Adjustment

In 1990-91, the following budget adjustments are included:

- An augmentation of \$4,000 for increased Attorney General costs associated with implementation of SB 2375, Chapter 1597.
- An augmentation of \$22,000 and 0.3 personnel year for examination proctors and funding due to increased exam costs and workload.
- An increase of \$39,000 in reimbursements for increased costs of fingerprint reports.
- An augmentation of \$33,000 to fund a diversion program and establish a criterion reference passing point for the committee's licensing exam authorized by Chapter 1087, Statutes of 1990 (SB 2512).
- An augmentation of \$93,000 and 0.5 personnel year to implement the committee's citation and fine program and to handle increased enforcement activity.

In 1991-92, the following budget adjustments are proposed:

- The continuation of \$7,000 for increased Attorney General costs associated with implementation of SB 2375.
- The continuation of \$34,000 and 0.3 personnel year for exam proctors for the current licensing exam.
- An augmentation of \$45,000 in reimbursements for fingerprint reports.
- The continuation of \$68,000 for implementation of a diversion program and to establish a criterion reference passing point for the committee's licensing exam.
- The continuation of \$104,000 and 0.9 personnel year to implement the committee's citation and fine program and to handle increased enforcement activity.
- An augmentation of \$30,000 to adjust the committee's operating and expense budget and publish a newsletter.

## 63.50 Physician Assistant Examining Committee

Concern over the growing shortage and geographic maldistribution of health care services in California has been expressed in both the private and public sector. The physician's assistant is one category of health care manpower that is providing a means by which California can combat this shortage. The effective use of physician's assistants enables the physician to delegate health care tasks where such delegation is consistent with the patient's health and welfare, thereby freeing the physician to concentrate his or her skills on more complex health care services.

The Physician Assistant Examining Committee facilitates the utilization of physician assistants by assuring the public that the Committee's licensees and approved programs have met certain minimum requirements. Such minimum licensing requirements attempt to protect the public from inadequately trained, unethical or incompetent practitioners.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- A one-time augmentation of \$40,000 to print and distribute copies of the committee's laws and regulations, and \$10,000 ongoing to print and distribute updated copies.
- An augmentation of \$45,000 and 0.9 personnel year to meet overall increases in the committee's workload.

## 63.75 Respiratory Care Examining Committee

The Respiratory Care Examining Committee's primary objectives are to: (1) assure that applicants for licensure meet minimum standards of education and training; (2) administer an exam and issue licenses to successful applicants and (3) protect the public from unlicensed or incompetent practitioners.

## Budget Adjustments

In 1990-91, the following budget adjustments are included:

- An augmentation of \$11,000 for increased Attorney General costs associated with implementation of Chapter 1597, Statutes of 1990 (SB 2375).
- An augmentation of \$36,000 and 0.7 personnel year to meet increases in workload and fund Temporary Help.

In 1991-92, the following budget adjustments are proposed:

- An augmentation of \$21,000 for increased Attorney General costs associated with implementation of Chapter 1597, Statutes of 1990 (SB 2375).
- The continuation of \$54,000 and 1.4 personnel years to meet overall increases in workload and fund Temporary Help.

## 63.80 Speech Pathology and Audiology Examining Committee

Many thousands of California citizens are afflicted with serious hearing and disabilities occasioned by congenital disorders, occupational injuries and diction-related disfunctions. Recognizing the dimensions of their need for professional services, the State instituted licensure requirements and established this Committee to ensure that only those possessing the necessary qualifications are licensed.

## 66 BOARD OF EXAMINERS OF NURSING HOME ADMINISTRATORS

The Board of Examiners of Nursing Home Administrators assures that the health, safety, security and individual rights of long-term care patients are safeguarded.

In licensing nursing home administrators the board prescribes standards for licensing of administrators, provides and monitors and administrator-in-training program for prospective licensees, examines applicants, issues licenses, and administers an enforcement program which is responsible for taking disciplinary actions against administrators who violate provisions of the Business and Professions Code.

## Program Objectives Statement

The principal objectives of the Board of Examiners of Nursing Home Administrators are as follows:

1. Through a program of examination and licensure, to identify to the consuming public those persons who have demonstrated that they are qualified to function as Nursing Home Administrators.
2. To insure, through the setting of standards and through disciplinary actions, that Nursing Home Administrators provide quality services to their patients, in accordance with the laws and the rules governing nursing homes.
3. To assure that complaints against Nursing Home Administrators are investigated completely and thoroughly, and appropriate disciplinary action is taken as indicated.

## Budget Adjustments

In 1991-92, the following budget adjustment is proposed:

- The conversion of \$47,000 and 0.9 personnel year to permanent status to meet enforcement workload associated with reporting requirements to the Board by the Department of Health Services as specified in Chapter 816, Statutes of 1989 (AB 1834).

## 69 BOARD OF OPTOMETRY

The administration of the Optometry Practice Act includes administering a licensing examination and issuance of licenses for the practice of optometry, licensing branch offices, registration of optometric corporations, issuing fictitious name permits, issuing statements of licensure, accrediting schools and colleges of optometry, and enforcement of the regulatory features of the Act, for the protection of the consumer patient.

\* Dollars in thousands, excluding salary range.

## 1110 DEPARTMENT OF CONSUMER AFFAIRS—Continued

## Program Objective Statement

The Board's objectives are to insure that only those who possess the optometric expertise and knowledge can acquire and hold a license to practice as a licensed optometrist within the provisions of the Optometry Practice Act. The incompetent practitioner could cause serious eye injury to the consumer patient. In order to reduce the possibility of such occurrence, the Board is required to enforce the optometry legal statutes and to discipline the malfasant practitioner.

## Budget Adjustments

In 1990-91, the following budget adjustment is included:

- An augmentation of 0.7 personnel year (0.5 redirected from Temporary Help) and \$86,000 to implement recommendations of a management study (\$35,000 is one-time cost for an automated telephone system).

In 1991-92, the following budget adjustments are proposed:

- An augmentation of 1.4 personnel years (0.5 redirected from Temporary Help) and \$158,000 to implement recommendations of a management study. Of this amount, \$75,000 is a one-time cost to conduct an occupational analysis of the licensing examination.

## 72 BOARD OF PHARMACY

The distribution and dispensing of prescription drugs and controlled substances must be regulated to prevent illegal distribution or improper use of these potentially dangerous substances. Also the patient must be properly consulted regarding the possible harmful effects if the drug is misused. To accomplish this, the Board of Pharmacy sets minimum requirements for licensure of pharmacists and health and safety standards for the licensure of pharmacies, drug wholesalers and medical device retailers. The Board oversees a continuing education program, receives complaints and investigates possible violations, investigates unlicensed practices and inspects pharmacies and drug wholesalers regularly for compliance with Board rules and regulations.

## Program Objective Statement

(1) To ensure that licensees are qualified and competent to practice their profession safely and effectively with accountability to the public, (2) to promote and protect public health and safety through enforcement of statutes, and (3) to support full utilization of the pharmacist's knowledge and expertise in drug therapy to effect better patient care.

\* Dollars in thousands, excluding salary range.

## 74 POLYGRAPH EXAMINERS BOARD

The Polygraph Examiners' licensure program was established by the Legislature in 1983 to protect consumers from errant examiners and provide law enforcement and business with an effective tool for investigating criminal matters and reducing employee theft.

## Budget Adjustments

The Polygraph Examiners Board has sunsetted on January 1, 1990, therefore, this budget reflects only six months expenditures.

## Program Objective Statement

The program objectives have been to protect the public from incompetent, unlicensed polygraph examiners and to ensure that all polygraph instruments used to determine the truthfulness of statements record visually and permanently the cardiovascular, respiratory and galvanic skin resistance patterns of each individual tested. These objectives were addressed by enforcing disciplinary procedures, investigating complaints, approving instruments, and examining applicants.

## 75 BOARD OF REGISTRATION FOR PROFESSIONAL ENGINEERS AND LAND SURVEYORS

The planning and design of public or private utilities, structures, machines and projects, and the determination of property lines and preparation of official maps requires adequate education and technical expertise. The Board ensures that engineers and land surveyors meet professional standards. It examines, licenses, and registers these individuals and enforces the Professional Engineers' and Professional Land Surveyors' Act.

## Budget Adjustments

In 1991-92 the following budget adjustments are proposed:

- An increase of 0.9 personnel year and \$49,000 to meet Enforcement Unit workload.
- An increase of \$40,000 to provide contract funding for a Professional Land Surveyor Consultant.
- An increase of 0.9 personnel year and \$41,000 to establish a one-year limited-term position for cashing workload.

## 78 BOARD OF REGISTERED NURSING

The registered nurse has the responsibility directly and indirectly for administration of safe, effective nursing care to the consumer, including directing and coordinating the activities of ancillary health team members. Failure of the registered nurse to perform in a competent, responsible manner can result in deleterious effects on the health, safety and welfare of the consumer public. It is essential that all registered nurses be well-prepared through basic and on-going education and training to provide quality health care to the consumer public. The Board of Registered Nursing ensures that RN's are competent and safe to practice through 1.) sound licensing standards, 2.) a continued competency program, 3.) an effective enforcement program to prosecute violations of the Nursing Practice Act, 4.) a diversion program to intervene with chemically dependent or mentally ill nurses, and 5.) public information efforts.

## Budget Adjustments

In 1990-91, the following budget adjustments are included:

- An increase of \$114,000 for a licensing examination contract with the National Council.

In 1991-92, the following budget adjustments are proposed:

- An increase of \$186,000 for increased costs of the licensing examination contract.
- An increase of \$81,000 and 0.9 personnel years to permanently establish a Limited Term position for the Fingerprint Program.

## 81 CERTIFIED SHORTHAND REPORTERS BOARD

The Certified Shorthand Reporters Board certifies persons who have met basic, minimum standards of practice for the purpose of providing the public with competent, and impartial verbatim reporting of depositions and oral court/judicial proceedings. The Board also specifies a minimum curriculum to be offered by schools. The Board receives and investigates complaints, and administers a fund which provides transcripts to indigent civil litigants.

## Budget Adjustment

In 1991-92, the following budget adjustment is proposed:

- An augmentation of 0.5 personnel year and \$64,000 to implement a citation and fine program.

## 84 STRUCTURAL PEST CONTROL BOARD

Scientific and professional standards are necessary to assure the public that persons obtain and maintain the skills and knowledge to inspect the structural condition of buildings for pest problems, identify pests, apply pest control chemicals, and recommend and implement other means to control structural pests. The Board's objective is to license those persons that possess the necessary qualifications to professionally perform structural pest control work.

## 87 TAX PREPARERS PROGRAM

In order to protect the public from potential abuses found in the commercial tax preparation industry, the Tax Preparers Program, through registration, regulates the business practices and advertising of commercial tax preparers.

## Program Objectives Statement

Investigate preparers suspected of fraud, dishonest dealing or negligence. Coordinate the efforts of local district attorneys and the Attorney General to prosecute those preparers guilty of injuring customers. Inform consumers of their rights and remedies under the law through the print and electronic media.

## Budget Adjustments

In 1991-92, the following adjustment is proposed:

- An augmentation of 1.5 personnel years and \$117,000 for increased enforcement workload. Of this amount, \$50,000 is a one-time augmentation for a management study.

## 90 BOARD OF EXAMINERS IN VETERINARY MEDICINE

The Board of Examiners in Veterinary Medicine Program consists of two elements: (1) the licensing and regulation of Veterinarians and (2) the certification and regulation of Animal Health Technicians.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- An augmentation of \$33,000 and 0.9 personnel years to fund an office technician position to assist with increased workload demands.
- An augmentation of \$35,000 and 0.6 personnel years to fund a veterinary medicine consultant to assist with increased enforcement programs (veterinary hospital inspections and citation and fine programs.)

## 90.10 Board of Examiners in Veterinary Medicine

Veterinarians protect the health and welfare of animals and the public through prevention, control and eradication of animal diseases. Examination assures minimum competency through licensure. Enforcement of minimum standards of practice are carried out through unannounced inspections of veterinary hospitals and mobile facilities. The Board further responds to complaints, investigates alleged violations and has the authority to administer fines and suspend or revoke licenses.

This element includes two components: the regulatory activities of the Board and administrative services provided to the Animal Health Technicians Examining Committee. These services are funded by a distribution of costs to the committee.

## 91 BOARD OF VOCATIONAL NURSE AND PSYCHIATRIC TECHNICIAN EXAMINERS

Inadequately trained personnel may render patients poor quality health care services. Through licensure of vocational nurses and psychiatric technicians, the Board requires persons to demonstrate minimum competence. The board establishes and enforces standards of conduct necessary to protect the public. Educational and training program approval by the Board is required. Nursing education consultants assist schools in meeting and maintaining standards.

## 93 DIVISION OF CONSUMER SERVICES

## GENERAL DESCRIPTION

The Division seeks to promote the general interests of California consumers and provides complaint resolution for problems not within the jurisdiction of other Federal, State and local agencies. The Division's objectives are:

1. Represent consumer interests at local, state and federal levels in administrative, legislative, and judicial proceedings.
2. Institute consumer protection services at local and state levels.
3. Service consumer complaints and reduce complaints at the state level.
4. Educate consumers to protect themselves.
5. Research, analyze, and develop systematic solutions to consumer problems.
6. Prevent fraudulent and misleading advertising.
7. Disseminate information to the public regarding departmental activities.
8. Cooperate with consumer groups.

## 94.01 Administrative Services

This element includes four components: the Division of Administration, the Division of Investigation, the Division of Technology, and Building Maintenance and Operation.

## 94.01.010 Division of Administration

Decentralization of administrative specialties to the constituent agencies is not economically feasible. Therefore, a management and administrative program has been developed which is an integral feature of the total program activity and is designed to meet the overall goals of the Department. The costs of administration are distributed to all of the Department's constituent agencies by a pro rata formula based on a ratio of each agency's personnel years to the total in the department.

The Division is actively pursuing the following courses:

1. Evaluating the examination processes of the licensing agencies as they relate to prohibitive qualification requirements and restrictive entry.
2. Interviewing prospective board and committee members to ensure better public and industry representation.
3. Examining the constituent agencies to ensure that they are serving a useful purpose and are responsive to public need.
4. Reviewing and monitoring disciplinary processes employed to ensure that they meet the due process requirements of the 14th Amendment.
5. Coordinating and overseeing the Division of Consumer Services operation to effectively implement the mandates of the Consumer Affairs Act.

\* Dollars in thousands, excluding salary range.

## 1110 DEPARTMENT OF CONSUMER AFFAIRS—Continued

## Budget Adjustments

In 1990-91, the following budget adjustments are included:

- An increase of 0.4 personnel years and \$20,000 to establish a one year limited-term nonpartisan liaison position to assist with the preparation of new regulations due to Chapter 1672, Statutes of 1990 (AB 3008), which requires the merger of the Cosmetology and Barber Examiners Boards.
- An increase of 1.4 personnel years and \$83,000 in the Revenue and Payroll Sections of Accounting to address backlogs and ongoing workload needs.
- An increase of 3.0 personnel years and \$114,000 to establish 6.5 positions in the Personnel Office as a result of a management study prepared by Ernst and Young which noted deficiencies in staffing.
- An increase of 0.5 personnel years and \$33,000 to establish 1 position to meet ongoing workload demands in the Personnel Management Unit.
- An increase of 0.5 personnel years and \$30,000 to establish 1 position to meet ongoing workload demands in the Personnel Selection Unit.
- An increase of 0.9 personnel years and \$35,000 in the Claims and Revolving funds Section of Accounting to address ongoing workload needs.

In 1991-92, the following budget adjustments are proposed:

- A redirection of 0.5 personnel years from the Temporary Help Blanket and \$12,000 to establish a 0.5 permanent position in the Affirmative Action Unit for increased Affirmative Action clerical workload.
- An increase of 2.8 personnel years and \$120,000 to establish three permanent positions in Accounting's Revenue and Payroll sections to meet ongoing workload.
- An increase of 0.9 personnel years and \$40,000 to establish one permanent position in Business Services' Telecommunications Unit to meet ongoing workload.
- An increase of 1.9 personnel years and \$63,000 to establish two permanent positions in Accounting's Claims and Revolving Fund Sections to meet ongoing workload.
- An increase of 0.9 personnel years and \$67,000 to establish one permanent position in Business Services to address a span of control issue and ongoing contract workload.
- An increase of 0.9 personnel years and \$62,000 to convert one limited-term position to permanent in Internal Audits to meet ongoing workload.
- An increase of \$15,000 in Legal Office to fund a contract for LEXIS/NEXIS to assist with legal research.
- An increase of 10.4 personnel years and \$357,000 to establish 11.0 permanent positions in the Personnel Transaction Unit as a result of the management study prepared by Ernst and Young.
- An increase of 1.9 personnel years and \$115,000 to establish two permanent positions in the Personnel Management Unit to meet ongoing workload.
- An increase of 1.9 personnel years and \$84,000 to establish two permanent positions in Personnel's Selection Unit to meet ongoing workload.
- An increase of 0.9 personnel years and \$60,000 to establish one permanent position in Personnel's Health and Safety Program.
- An increase of 0.8 personnel years and \$70,000 to continue a one-year limited-term nonpartisan liaison position to continue to assist with the preparation of new regulations for the merger of Boards of Barber Examiners and Cosmetology as mandated by AB 3008.

## 1110 DEPARTMENT OF CONSUMER AFFAIRS—Continued

## 94.01.020 Division of Investigation

The Division of Investigation provides centralized investigative services for 23 licensing agencies within the Department of Consumer Affairs. The Division's mission is to protect public health and safety by providing objective, timely and cost-effective investigations regarding allegations of misconduct by licensees of client agencies, and to develop information for filing criminal, administrative and civil actions by or on behalf of these agencies. The Division is compensated by a pro-rata formula based on the hours of service provided to each client agency.

## 94.01.030 Building Maintenance and Operation

The occupants of the Consumer Affairs Building are subject to serious injury should the 47-year-old structure be allowed to deteriorate. The purpose of the maintenance and operational program element is to ensure the safety and welfare of the building's occupants and the visiting public.

The building is currently occupied by the executive and administrative offices of the Department, 18 of the Department's constituent agencies, and by the State Board of Equalization. The costs of the component are offset by rents collected from the occupants. However, due to Chapter 1366, Statutes of 1989 (SB 42), the Department and its constituent agencies located in the aforementioned building will be required to relocate in the current year.

## 1110 DEPARTMENT OF CONSUMER AFFAIRS—Continued

## 94.01.040 Division of Technology

The Division of Technology provides the technical expertise to develop, implement and operate efficient and effective automated information systems. These systems support various constituent agencies in the production of licenses, renewal applications, renewal licenses, statistical reports and examination data. The Division also provides oversight and sets policy for all information technology projects within the Department including those agencies which have their own data processing staff. The costs of this division are distributed to the department's constituent agencies by a formula based upon usage.

## 1700 DEPARTMENT OF FAIR EMPLOYMENT AND HOUSING

The mission of the Department of Fair Employment and Housing is to protect and enforce the civil rights of all persons as provided by the civil rights laws of the State of California.

The goals of the Department of Fair Employment and Housing are:

1. Maximize the efficient use of State resources in the delivery of services, ensuring that equal employment opportunity and affirmative action are promoted.
2. Emphasize negotiation and efforts to maximize the timely processing and resolution of complaints.
3. Emphasize education, communication and cooperation among all sectors for the purpose of preventing discriminatory activities.

**Authority**

Government Code Sections 11135-11139.5, 12900 et seq., 19702.5, 19704, 19705, and 50085.5; Civil Code Sections 51 and 51.7; Education Code Sections 44066 and 87402; Labor Code Section 3096.

**Budget Adjustment**

In 1990-91, the following budget adjustment is proposed:

- An augmentation of 2.8 personnel years and \$450,000 to continue the implementation of the Contract Compliance Resource Pooling Project with the Los Angeles County Transportation Commission to ensure that nondiscrimination programs are being complied with by contracted entities.

**SUMMARY OF PROGRAM REQUIREMENTS**

	1989-90*	1990-91*	1991-92*
50 Administration of Civil Rights Law .....	\$13,355	\$14,809	\$14,098

Federal Trust Fund <sup>f</sup> .....	1,920	2,066	2,066
Personnel years .....	228.3	250.3	234.8

**Performance Measures**

Discrimination complaints are filed by the public in eleven field offices throughout the State.

Actual and projected caseloads are reflected in the following tables:

Cases:	1989-90	1990-91	1991-92
Filed .....	9,083	10,246	10,246
Closed .....	8,599	9,355	9,355
Active in period .....	13,915	15,551	16,442
In process .....	5,305	6,196	7,087

The objective of the Enforcement of Anti-Discrimination Laws program is to provide equal opportunity in employment, housing and public services and ameliorate social tensions by preventing and eliminating discrimination based on race, religion, creed, national origin, sex, marital status, physical handicap, medical condition, and age over 40.

## 1705 FAIR EMPLOYMENT AND HOUSING COMMISSION

The Fair Employment and Housing Commission is a quasi-judicial body responsible for the enforcement of State civil rights laws against discrimination in employment, housing and public accommodations. The seven members of the Commission are appointed by the Governor. The Commission issues decisions on accusations prosecuted before it by the Department of Fair Employment and Housing, interprets civil rights statutes through regulations and provides a forum for civil rights concerns.

The objective of the Commission is to ameliorate social tensions and guarantee equal opportunity in employment, housing and public accommodations by preventing and eliminating discrimination based on race, religious creed, color, national origin, ancestry, sex, marital status, physical handicap, medical condition and age over 40.

## 1710 OFFICE OF THE STATE FIRE MARSHAL

The mission of the Office of the State Fire Marshal is to foster, promote and develop ways and means of protecting life and property from fire and related perils through direct action, and coordination of the California Fire Service.

To accomplish this mission, the State Fire Marshal aids local and state authorities in the enforcement of all laws and ordinances; prepares, adopts and enforces minimum statewide fire and panic safety standards applicable to statutorily designated occupancies; prepares, adopts and enforces standards for the use and control of hazardous materials; is liaison to the film industry for fire and life safety procedures of special effects; and disseminates information and material relative to new technological developments in the field of public fire safety.

## 1710 OFFICE OF THE STATE FIRE MARSHAL—Continued

## Program Objectives Statement

The primary responsibility of the State Fire Marshal is the protection of life and property from fire. This responsibility is met through the development, maintenance and enforcement of fire safety standards for all educational and institutional occupancies, public assembly facilities, organized camps, buildings over 75 feet in height and in all State-owned/occupied structures. Provisions relative to the control of portable fire extinguishers, engineered (fixed) fire extinguishing systems, explosives and special effects, fireworks, decorative materials and fabrics, building materials and other fire safety products, and wearing apparel are also developed, maintained and enforced on a statewide basis.

The State Fire Marshal also conducts investigations to approve and list products found to be in compliance with the adopted standards; conducts arson investigations; and assembles, tabulates and analyzes reports of all fires occurring in the State. The State Fire Marshal inspects various local jails and holding facilities, should they not be inspected by a local agency. Training in fire prevention and fire suppression is provided to fire departments in California with special emphasis on training those departments that are volunteer and partly-paid. Training in arson and bomb investigation is provided to fire departments and law enforcement agencies throughout the State. The State Fire Marshal is the liaison to the California film industry for special effects fire and safety procedures.

Although most life and property losses attributable to fire involve singular or minor incidents, the potential of a catastrophic occurrence is always present. It is the lack of these major occurrences which principally marks the effectiveness of the efforts expended.

In response to the Loma Prieta earthquake of October 17, 1989, the Office of the State Fire Marshal expended an additional \$78,000 in response and safety inspections. These costs were reimbursed by the Office of Emergency Services with funds received from the Federal Emergency Management Agency (FEMA).

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- An increase of 0.4 personnel year and redirection of \$21,000 from existing resources to fund a permanent fulltime clerical position in the Training Division.

In 1991-92, the following budget adjustments are proposed:

- An increase of 3.7 personnel years and \$217,000 to accommodate increased administrative support workload in the Fiscal Services and Management Information Services Divisions. This adjustment is funded through departmental overhead charges.
- An increase of 0.9 personnel year and \$94,000 on a two-year limited term basis to continue pipeline construction inspection activities.
- An increase of 10.0 personnel years and \$886,000 in reimbursements to perform both construction inspection and plan review services for new facilities of the UC system.
- An increase of 8.0 personnel years and \$700,000 in reimbursements to perform both construction inspection and plan review services for new facilities of the CSU system.
- An increase of 1.0 personnel year and \$98,000 in reimbursements to address increased plan checking activities for school construction projects.
- An increase of 2.0 personnel years and \$175,000 in reimbursements to address increased plan checking and fire and life safety inspections at health care facilities.
- An increase of 1.9 personnel years and \$159,000 to implement Chapter 858, Statutes of 1990 which requires that the State Fire Marshal respond to all fires, explosions and ruptures involving a liquid pipeline or refining facility.
- An adjustment of \$298,000 in reimbursements to reflect the increased enrollment and costs associated with the operation of the California Fire Academy classes at Asilomar.
- The continuation of 0.7 personnel year and redirection of \$35,000 from existing resources to fund a permanent fulltime clerical position in the Training Division.

## 1730 FRANCHISE TAX BOARD

The Board consists of the State Controller, the Chairman of the State Board of Equalization and the Director of Finance. An Executive Officer, appointed by the Board, implements the policies and performs such duties as are delegated by the Board.

The objective of the Franchise Tax Board is to fairly, effectively and efficiently administer those programs and functions delegated to the Board by the Administration and mandated by law, including self-assessed income tax programs, programs to distribute benefits to the public and functions that contribute to the State's operational effectiveness.

The Franchise Tax Board administers the Personal Income Tax and Bank and Corporation Tax Laws through the Tax programs which include self-assessment, audit, collection and filing enforcement activities. In 1991-92, the Tax programs will contribute a significant portion of the General Fund revenue.

As part of the Homeowners and Renters Assistance program, the Board will authorize about \$21 million in disbursements to Assistance claimants in 1991-92 (see 9100 Tax Relief). The Board also provides processing services through contracts with other governmental entities and performs audits and field investigations of campaign statements and lobbyist reports authorized by the Political Reform Act of 1974.

10	Audit activities.....	6.6	271
10	Enforcement activities.....	6.8	307
10	Implement the withhold-at-source program.....	9.0	317

## 10 TAX PROGRAMS

## Program Objectives Statement

The program objective is to provide a sound revenue base for the General Fund. This objective is attained through the development and maintenance of an effective and equitable tax system that encourages individuals and corporations to comply with filing, reporting, and payment requirements and to accurately determine their tax assessments.

## Budget Adjustments

In 1990-91, a \$5,705,000 deficiency and 141.0 personnel years were authorized which included funding for an increase in the level of workload associated with processing tax returns, estimate payments, and related tax documents, and maintaining taxpayer service functions, and to implement the withhold-at-source program, as authorized by Chapter 464, Statutes of 1990 (SB 2319).

In 1991-92, the following budget adjustments are proposed:

- \$8,300,000 and 144.0 personnel years for workload increases associated with processing tax returns, estimate payments, and related documents, and maintaining taxpayer service functions.
- \$51,000 for implementation of the California State Accounting and Reporting System (CALSTARS).
- \$271,000 and 6.6 personnel years to conduct additional audits and \$317,000 and 9.0 personnel years to administer the withhold-at-source program offset by savings of \$470,000 and 10.3 personnel years from reduced Waters Edge program activities.
- \$307,000 and 6.8 personnel years to conduct additional collection activities.
- \$1,208,000 and 5.5 personnel years in ongoing funding to continue the In-State Collection Referral Program.

## 10.10 Personal Income Tax

The Personal Income Tax provides the largest source of General Fund revenue. The use of withholding-at-source method of collection provides receipts to the state, evenly distributed throughout the tax year, as well as maximum interest earnings. In 1991-92, approximately 16 million individuals, partnerships, trusts, and estates will be assessed net taxes representing about 45 percent of General Fund revenues.

## 10.20 Bank and Corporation Tax

## Program Objectives Statement

The Bank and Corporation Tax Law provides the third largest source of General Fund revenue to the State. The Bank and Corporation tax contributes approximately 15 percent of General Fund revenue. In 1991-92, an estimated 576,000 banks and corporations will be subject to franchise or income taxes on business conducted in California.

## 20 HOMEOWNERS AND RENTERS ASSISTANCE

## Program Objectives and Description Statements

The program objective is to authorize partial repayment of property taxes or rent paid by eligible senior citizens, disabled, or blind individuals as authorized under the Senior Citizens Property Tax Assistance Law on a timely basis. The principal program activities include: design and distribution of claim forms and instructions; providing advisory services to claimants; and processing claims.

The law requires the submission of assistance claims after May 15 and before August 31 of each year, while payment of those claims shall be made after June 30 and before October 31 of each year.

## Budget Adjustments

- In 1990-91, a \$31,000 deficiency and 1.5 personnel years were authorized for the processing of claims.
- The 1991-92 budget proposes \$73,000 and 1.5 personnel years to continue the processing of claims.

## 30 POLITICAL REFORM AUDIT

## Program Objectives Statement

The program objective is to determine the accuracy and completeness of statements and reports as required under the Political Reform Act of 1974. This is accomplished by conducting audits and field investigations in an objective manner and reporting the results, in detail, to the Fair Political Practices Commission.

The Political Reform Act of 1974 requires the staff to make audits and field investigations of randomly selected campaign statements and lobbyist reports filed with the Secretary of State except for campaign statements filed by candidates for federal or local offices, the State Controller, and the Board of Equalization. The department must also audit statements filed by: committees supporting or opposing the above candidates; committees supporting or opposing statewide measures; and any state or county central committee or independent committee which spends \$10,000 or more.

## 70 CONTRACT WORK

## Program Objectives and Description Statement

The program objective is to provide effective and efficient services to other governmental entities through performance of contracted activities. The availability of sophisticated data processing equipment and skilled personnel enables other departments to obtain high quality processing services. All costs relating to these services are reimbursed to the department. The program allows fixed departmental costs to be allocated to a wider base of program activities thereby reducing the costs charged to each of the department's other programs.

## 1760 DEPARTMENT OF GENERAL SERVICES

The objectives of the Department of General Services are to: (a) meet the varied responsibilities for management review, control and support assigned to it by the Governor and by statute; (b) provide support services to operating departments with greater efficiency and economy than they can individually provide for themselves; (c) increase effectiveness and economy in the administration of state government by establishing and improving statewide policies and guidelines.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

10 PROPERTY MANAGEMENT SERVICES

Program Objectives Statement

With a multimillion dollar investment in facilities for state offices and employees, centralized responsibilities for planning, acquisition, design, construction, maintenance and operation are needed to avoid duplication of effort and uncontrolled investment in office space. This is achieved in the following ways: (a) Providing adequate space for state operations at a cost below that which each agency could provide for itself; (b) Assuring protection of lives and property in public buildings and hospitals through design and construction supervision; (c) Insuring that facilities constructed with state funds are accessible to the physically handicapped; (d) Establishing uniform public health and safety regulations for building construction; (e) Providing impartial hearings for the general public and construction industry in their interactions with state agencies; (f) Acquiring, managing and disposing of real property (except leases) for state agencies, and providing public service facilities with economy of operations and uniform practices for protecting the public's interests and insuring equitable treatment of private property owners; (g) Preserving the state's capital investments in buildings, grounds, and equipment through an efficient and effective centralized maintenance and operations program; (h) administering the State's School Building Aid law, which provides financial assistance to school districts for the development of school sites, construction, and reconstruction of school buildings and purchase of furniture and equipment.

Authority

- a. State Architect: Government Code Sections 4454, 14250-14404, 14600, 14650, 14651, 14679-14682, 14838, 14950-14962, 15800; Education Code Sections 15002.1, 15451-15465, Health and Safety Code Sections 15000-15023.
- b. Buildings and grounds: Government Code Sections 14600, 14685-14687, 14700.
- c. Facilities planning and development: Government Code Sections 8160, 14600.
- d. Local assistance: Government Code Section 15500; Education Code, 19551-19689.
- e. Real estate: Government Code Sections 11005, 11011, 14654, 14660-14670, 14820, 14821, 15800, 15850, 15862, 15863.
- f. Space management: Government Code Sections 14678, 15800, 15817, 15862.
- g. Building Rental: Government Code Sections 14660, 14670, 15850, 15862.
- h. Buildings Standards: Government Code Sections 11343, 11346.1, 11346.2, 11349.1, 11446.

## 10.10 Architectural Consulting and Construction Services

## Program Element Statement

Architectural Consulting and Construction Services is comprised of three components: Architectural and engineering services, structural safety plan checking and physically handicapped plan checking. The architectural and engineering services component consists of the design, construction, and inspection of major State office buildings, other new facilities and alterations of existing facilities. Some design work is contracted out to private architectural and engineering firms, as warranted by the workload. The structural safety plan checking component consists of reviewing public school and hospital plans and the supervision of the construction of these facilities to ensure the protection of life and property from seismic occurrences. The physically handicapped plan checking component consists of reviewing plans and specifications for any public funded building to ensure compliance with physically handicapped accessibility requirements.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- An increase of \$345,000 to support increased consultant costs for the Building Standards Commission and the Department of Conservation, Division of Mines and Geology.

In 1991-92, the following budget adjustments are proposed:

- A staffing level of 99.7 personnel years and \$9,811,000 to fund inspection costs relative to the prison construction program.
- An increase of 4.7 personnel years and \$338,000 to identify and develop a priority listing of K-12 school buildings, higher education buildings and state-owned buildings for correction of seismic deficiencies.
- An increase of 5.7 personnel years and \$443,000 to administer the local assistance portion of the Earthquake Safety and Public Buildings Rehabilitation Act to improve seismically deficient essential services buildings.
- An increase of 0.9 personnel year and \$66,000 to implement provisions of Chapter 61/88 (AB 1933), relating to the awarding of state contracts to women and minority owned business enterprises.
- An increase of \$346,000 to support increased costs for consultant services for the Building Standards Commission and the Department of Conservation, Division of Mines and Geology.
- An increase of \$466,000 for increased facilities operations costs (rent) for the Structural Safety Section Office relocation and expansion in San Francisco, Los Angeles and San Diego.
- A one-time increase of \$131,000 to support the purchase of a high production architectural compatible copier machine.
- A one-time increase of 0.7 personnel year and \$48,000 to implement the final year phase of the Johns Manville Damage Settlement Trust to recover damages due to asbestos in state buildings.
- A one-time reappropriation of \$832,000 to support development of an automated building permit and certification system relative to seismic safety in schools and hospitals.
- A staffing level of 5.3 personnel years and \$4,476,000 from the Special Account for Capital Outlay is proposed to continue implementation of the Underground Storage Tank Program, which involves the cleanup and monitoring of State owned underground storage tanks.
- A staffing level of 5.9 personnel years and \$3,112,000 from the Special Account for Capital Outlay is proposed to continue implementation of the PCB Program, which involves the replacement and disposal of PCB contaminated electrical equipment items.
- A staffing level of 3.8 personnel years and \$2,412,000 from the Special Account for Capital Outlay is proposed to continue implementation of the Asbestos Abatement Programs, which involves the mitigation of hazardous asbestos conditions in State owned facilities.

## 10.20 Buildings and Grounds

## Program Element Statement

The Office of Buildings and Grounds maintains and operates State office buildings, grounds and surplus property. The division also coordinates and inspects building alterations, utilizing private contractors.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- An increase of \$819,000 to fund increased utility costs.

In 1991-92, the following budget adjustments are proposed:

- An increase of \$88,000 to fund increased rental costs for the relocation of the Region I Unit.
- An increase of \$1,458,000 to fund increased utility costs.
- An increase of \$264,000 to fund the maintenance and operation of the new Oakland Caltrans State Office Building scheduled to open in the Spring of 1992.
- A decrease of \$5,000 as a result of savings attributable to an energy bond-funded service contract.
- A one-time increase of \$1,717,000 to fund the most essential special repair costs.

## 10.30 Project Development and Management

## Program Element Statement

The Office of Project Development and Management formulates and maintains the development of office and parking facilities in both major (over 250,000 population) and minor metropolitan areas within the State. In so doing it is necessary for this office to develop data and information which enables it to forecast future agency space and parking requirements in these same areas. In response to these plans, this office then initiates, through the Department of General Services, the first steps which lead to the construction, financing and/or purchasing of a facility. This is accomplished through the capital outlay and legislative processes.

The Project Control Unit and Project Support Unit are responsible for overseeing the administration of the State's capital outlay building program which involves budget estimating, project scheduling, consultant contract coordination, and overall project management.

The Office of Project Development and Management also is responsible for the review of space requests to ensure their compliance with long range plans in effect in a given area. Other responsibilities include the performance of parking studies and development of the five-year Capital Outlay Program. In addition, many special projects and studies on related subjects are undertaken for other departments and the legislative and executive branches of government. This office provides environmental review services to all departments and performs environmental studies and reports as required by the California Environmental Quality Act. The office also performs site feasibility and location studies, economic analyses and energy related studies.

\* Dollars in thousands, excluding salary range.

## 1760 DEPARTMENT OF GENERAL SERVICES—Continued

**Budget Adjustments**

In 1990-91, the following budget adjustment is proposed:

- An increase of 1.6 personnel years and \$156,000 to handle increased facilities and environmental planning workload requests from other state agencies.

In 1991-92, the following budget adjustments are proposed:

- An increase of 4.7 personnel years and \$310,000 to handle increased facilities and environmental planning workload.
- A shift of spending authority of \$114,000 in the budget year from the Service Revolving Fund to the Architecture Revolving Fund to properly align funding with programmatic needs.

**10.40 Local Assistance****Program Element Statement**

The Office of Local Assistance administers five major programs including the State School Building Lease-Purchase, Portable Classroom, Year-Round School Air-Conditioning, Deferred Maintenance, and the Asbestos Abatement programs. These programs provide funding to K-12 school districts for the acquisition and development of school sites, construction or reconstruction of school buildings, maintenance of existing facilities, the placement of portable classrooms, air-conditioning equipment and insulation materials and the removal of hazardous asbestos in school facilities.

Other activities include: (1) investigation of unused school sites to determine whether a district will make payments to the state for nonuse, (2) administration of other programs of financial assistance to local agencies as assigned, and (3) monitoring the disposition of school surplus properties.

**Budget Adjustments**

In 1990-91, the following budget adjustment is proposed:

- An increase of 0.9 personnel year and \$267,000 to conduct a reconciliation of OLA accounting records with the State Controller's Office project balances for various bond acts.

In 1991-92, the following budget adjustments are proposed:

- An increase of 6.6 personnel years and \$435,000 to continue the administration of the Emergency Portable Classroom and the Year-Round School Air-Conditioning program.
- An increase of 0.9 personnel year and \$82,000 to review requests from school districts for waivers of safety requirements for the use of relocatable buildings as authorized by Chapter 1465/90 (AB 3111).
- An increase of 1.9 personnel years and \$514,000 to conduct a reconciliation of OLA accounting records with the State Controller's Office project balances for various bond acts.

**10.50 Real Estate and Design Services****Program Element Statement**

The Office of Real Estate and Design Services is comprised of three components: real estate services, property acquisition act, and space management services. Real Estate Services includes acquisition, property management and sales. The acquisition function consists of site selection, appraisal, appraisal review, negotiation and relocation services. Site selection involves providing real estate expertise to agencies in helping select the best site available. Appraisal involves collecting and analyzing data required to estimate market value. Appraisal reviews are made to ensure that the State pays, and the property owner receives, fair market value. Negotiations are conducted with property owners on the basis of the approved appraised value. Relocation services are provided to owners and tenants to ensure they receive the advice and/or funds to relocate as provided under law. Property management involves the management of State-owned properties acquired but not yet occupied by the purchasing agency, and evaluating the leasing of State-owned property not under the jurisdiction of the Department of General Services. Real estate sales is responsible for the disposal or transfer of State property no longer needed for state use.

\* Dollars in thousands, excluding salary range.

## 1760 DEPARTMENT OF GENERAL SERVICES—Continued

The Property Acquisition Act provides the Department of General Services the authority to acquire and hold property until it is needed for its intended purpose. Income derived from such property holdings during this period are deposited in a special account in the General Fund for use in offsetting costs of property management and maintenance.

Space Management Services is responsible for providing well planned, functional and economical quarters to accommodate the non-institutional office and warehouse needs of agencies in State-owned and leased facilities, including modular and relocatable buildings and trailers. Major areas of responsibility include the allocation of space in State-owned or leased buildings, programming space requirements for proposed new buildings, space planning, leasing and lease management operations. When authorized specifically by budget language, the Office of Real Estate and Design Services is responsible for the development of alternative financial plans for proposed state buildings by means of long term lease purchase agreements or by leases with options to purchase.

**Budget Adjustments**

In 1990-91, the following budget adjustment is proposed:

- An increase of 1.6 personnel years and \$96,000 to meet continuing space and planning workload for the Employment Development Department.

In 1991-92, the following budget adjustments are proposed:

- An increase of 2.8 personnel years and \$170,000 to continue to meet space and planning workload for the Employment Development Department.
- An increase of 0.9 personnel year and \$73,000 to ensure the enforcement of lessor compliance with lease terms for state-leased facilities.
- An increase of \$491,000 from the Special Account for Capital Outlay and a decrease of \$491,000 in the Property Acquisition Law Money Account to continue the Proactive Assets Management Program.

**10.70 Building Rental****Program Element Statement**

This element provides funds for the maintenance and operation of buildings under the jurisdiction of the Department of General Services and for subleasing to state agencies.

\* Dollars in thousands, excluding salary range.

## 1760 DEPARTMENT OF GENERAL SERVICES—Continued

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- An increase of \$808,000 to reimburse the Office of Buildings and Grounds for increased utility costs.

In 1991-92, the following budget adjustments are proposed:

- An increase of \$63,000 to reimburse the Office of Buildings and Grounds for increased rental costs for its Region I Unit.
- An increase of \$1,441,000 to reimburse the Office of Buildings and Grounds for increased utility costs.
- A decrease of \$5,000 as a result of savings attributable to an energy bond funded service contract executed by the Office of Buildings and Grounds.
- An increase of \$1,659,000 to reimburse the Office of Buildings and Grounds for special repair costs.
- An increase of \$18,094,000 in spending authority to meet bond payments due for the construction of the Ronald Reagan State Office Building.

## 20 STATEWIDE SUPPORT SERVICES

## Program Objectives Statement

To fulfill their program responsibilities, State agencies require support services for business transactions and activities which are basic to their organizational functions. These operational requirements include procurement of materials, data processing services, communication, transportation, printing, security, and related business and office services.

Other State agency support requirements, on a periodic basis, include consulting services for legal contracts and insurance management. Additionally, licensing agencies require services of hearing officers for alleged violations by license holders.

These diverse services are more effectively and economically provided under a consolidated program which centralizes resources, capabilities, talents, and facilities for efficient response to support requirements of client State agencies.

## Authority

- Administrative hearings: Administrative Procedure Act, and Government Code Sections 11370-11370.5, 11371-11374, 11380, 11409, 11502, and 500-11528.
- Communications: Government Code Section 14931, Revenue and Taxation Code 41137, 41137.1, 41138 and 41140.
- Fleet administration: Government Code Sections 13950-13956, 14615, 14621, 14669, and 14675-14678; Board of Control Rules and Regulations, Articles 8 and 15; and State Administrative Manual Sections 4100-4300.
- Insurance: Government Code Sections 11007.5, 11007.7, 11290, 14848, 16378, 16379 and 18310; State Administrative Manual Sections 0480-0484, 2500-2520, 2530, 2541, 2560, 2581-2582.1, 8576, and 8776-77.
- Legal services: Government Code Sections 14610 and 14780.
- Office services: State Administrative Manual Sections 1252, 1253, 2121-2122.26 and 2880-2883.
- Procurement: Government Code Sections 14780-14814, 14860 and 14880-14922.
- Records management: Government Code Sections 14740-14755, 14760, 14765-14768, 14770-14774; State Administrative Manual Sections 1600-1653.
- State Police: Government Code Section 14613, Penal Code Sections 830.2 and 830.4, and State Administrative Manual Sections 2600-2677.
- State printing: Government Code Sections 9700-9768 and 14850-14877 and State Administrative Manual Sections 2802-2840 and 3122.2.
- Small and minority business procurement assistance: Government Code Sections 14835-14842.

## 20.10 Administrative Hearings

## Program Element Statement

The Office of Administrative Hearings conducts quasi-judicial hearings for various state or public agencies in connection with the issuance, renewal, suspension or revocation of licenses. Hearing reporters/monitors record verbatim accounts of proceedings conducted by the administrative law judges, and when called upon provide for verbatim transcripts of the hearings. The office also conducts studies in administrative law and procedure.

## Budget Adjustments

In 1990-91 and 1991-92, the following budget adjustments are proposed:

- An increase in Consultant/Professional services of \$372,000 in the current year and of \$583,000 in the budget year to fund contract hearing reporters when staff reporters are not available.

## Performance Measures

## 20.15 Telecommunications

## Program Element Statement

The Office of Telecommunications is responsible for providing telecommunications services to all State agencies to meet their operational requirements. Services are provided for radio, telephone, closed circuit TV, data transmission facilities, and any special telecommunications facilities. Service includes consulting, engineering, installation, maintenance, specifications, Federal Communications Commission license applications, equipment reviews, special studies and management of state telecommunications facilities and equipment.

The division also administers the Warren "911" Emergency Assistance Act. This includes insuring that the local entities are reimbursed for all initial and ongoing costs incurred while meeting the mandate of the law.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- An increase of 16.1 personnel years and \$1,475,000 to meet increased engineering needs of public safety and service agencies (5.7 positions related to Forestry workload to be established as limited term through 6-30-92).
- An increase of 9.5 personnel years and \$704,000 to meet the increased technical service needs of public safety and service agencies.

## 20.20 Fleet Administration

## Program Element Statement

The Office of Fleet Administration is responsible for the establishment, implementation and maintenance of policies and procedures governing state-owned mobile equipment. The transportation-related services provided to all State agencies and departments include:

- Short and long-term rental of passenger vehicles from seven garages located in the major metropolitan areas of the State.
- Automotive inspection services to ensure the efficient operation and maintenance of the State's mobile equipment.
- Automotive preventive maintenance services.
- Disposition of surplus mobile equipment through periodic auctions.
- Consultation regarding the purchase and utilization of mobile equipment.

\* Dollars in thousands, excluding salary range.

1760 DEPARTMENT OF GENERAL SERVICES—Continued

- Parking for employees and state vehicles.
- Administration of the State's discount airfares contract.
- Administration of a commercial car rental program at the major airports.
- Administration of the Department's Traffic Management Program to reduce congestion and pollution.

Budget Adjustments

- In 1990-91, the following budget adjustment is proposed:
- A one-time increase in funding of \$2,860,000 to purchase vehicles for the increasing number of Department of Corrections parole agents.
- In 1991-92, the following budget adjustments are proposed:
- A one-time increase in funding of \$2,958,000 to purchase vehicles for additional new Department of Corrections parole agents.
  - A one-time increase of \$2,959,000 to replace a backlog of vehicles that have accumulated over 90,000 miles and to purchase 198 additional vehicles to meet increased demand for monthly assigned state pool vehicles.

20.25 Insurance and Risk Management

Program Element Statement

The Office of Insurance and Risk Management provides centralized management of State insurance and risk management requirements. Services include analyzing insurance needs of State and local agencies as well as negotiating for insurance procurement necessitated by such analysis. Services also include consulting and advising agencies on risk management problems, administering a comprehensive program for recovery of damages to State-owned vehicles and administering the Defensive Driver Training Program, the Motor Vehicle Liability Self-Insurance Program, and the State Workers' Compensation and Safety Program, which includes the Statewide CPR/First Aid Training Program.

Budget Adjustments

- In 1990-91 and 1991-92, the following budget adjustments are proposed:
- An increase of \$205,000 in the current year and \$528,000 in the budget year to fund increased Attorney General charges related to vehicle accident claims.

20.30 Legal Services

Program Element Statement

The Office of Legal Services provides legal services to the Department of General Services, the Department of Finance, and various boards and commissions. The function of the office is that of house counsel which includes giving legal advice on new and ongoing programs, the advocacy of the department's position in a wide variety of situations, the issuing of opinions, and the drafting and review of legal documents.

Performance Measures	1989-90	1990-91	1991-92

## 20.40 Support Services

## Program Element Statement

The Office of Support Services provides State agencies with mail and messenger services, office machine repair services, reprographic services, and business equipment management services. Mail and Messenger Services include: (a) Mail centers in Office Building Nos. 1, 8, 9 and the Bateson Building which distribute U.S. and interagency mail to the building tenants, provide for external building messenger service, prepare freight and mail for shipment, and also receive and deliver supplies, materials, and equipment; (b) The Interagency Mail and Messenger Unit which distributes mail between State agencies; and (c) Mass Mail and addressing services.

The Office Machine Repair Unit provides for the rental, maintenance, and repair of office machines and also advises and aids in evaluations provided by the Office of Procurement. The Reprographics Unit provides in-plant duplicating and quick copy services to client agencies.

The Business Equipment Management Unit contributes to the reduction of the State's total copying and business communication costs through analysis of client copier requirements and machine capabilities. This unit also administers the mail presorting master service agreement.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- An increase of \$1,242,000 to fund the purchase of computer parts for the Computer Repair Program.
- An increase of \$490,000 to fund postage rate increases and increased client requests for the Mail and Messenger Program.

In 1991-92, the following budget adjustments are proposed:

- An increase of \$1,811,000 to fund the purchase of computer parts for the Computer Repair Program.
- An increase of \$878,000 to fund postage rate increases and increased client requests for the Mail and Messenger Program.
- An increase of \$372,000 to fund additional facilities operation costs related to the relocation of the office's headquarters.

In 1991-92, the following budget adjustment is proposed:

## Performance Measures

	1989-90	1990-91	1991-92

## 20.45 Procurement

## Program Element Statement

The procurement element includes three components: Purchasing, Material Services, and Traffic Management.

The Purchasing Component processes requisitions of State and local agencies including developing and circulating bid invitations, awarding bids, and issuing purchase orders. It also provides overall direction and review of purchasing methods and techniques, establishes product standards, tests for compliance with standards, coordinates consolidated purchase projects and programs, and conducts training programs for agency receiving personnel.

Material Services buys operating supplies in large quantities at maximum discounts for resale to State agencies, provides for sale and distribution of State publications, and reviews equipment disposed of by state agencies and selectively obtains, refurbishes, and resells such used equipment to other state agencies. In addition, this component provides for the centralized purchase, storage, and distribution of canned fruits and vegetables to support the institutional feeding programs of the Departments of Developmental Services, Mental Health, Veterans Affairs, Corrections, and Youth Authority.

Traffic Management provides traffic management services including the review of state shipping and freight receipt practices.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- An increase of 2.8 personnel years (2.0 positions to be established as limited term through 6-30-93) and \$212,000 to implement the provisions of Chapter 61/88 (AB 1933).
- An increase of 0.9 personnel year and \$83,000 to meet the increased workload associated with considering bidders' financing alternatives as stipulated in Chapter 1589/90 (SB 1844).
- An increase of 7.1 personnel years (2.5 positions to be established limited term through 6-30-93) and \$428,000 to meet increased workload associated with processing client purchase orders.
- An increase of 8.5 personnel years and \$603,000 to provide EDP and telecommunications purchasing services to client agencies.
- Continuation of 0.9 personnel year and \$63,000 on a two-year limited-term basis to continue centralized procurement of natural gas for state facilities in conjunction with the Office of Energy Assessments.
- An increase of 0.9 personnel year and \$52,000 to meet increased workload in the Vendor Qualification Unit.
- An increase of \$246,000 to fund the upgrading of the Material Services Northern Warehousing operations and the replacement of racking.

\* Dollars in thousands, excluding salary range.

## 20.50 Records Management

## Program Element Statement

The Office of Records Management is responsible for the development, coordination, and control of the statewide paperwork management program. In addition, the division provides assistance in forms design and control, computer output microfilm (COM) utilization, and records storage and disposition and management of the statewide paper recycling program.

## Budget Adjustments

In 1991-92, the following budget adjustment is proposed:

- A one-time increase of \$95,000 to purchase additional shelves and shelving units for use at the Industrial Records Center.

## 20.53 Management Technology and Planning

## Program Element Statement

The Office of Management Technology and Planning promotes quality performance within the Department of General Services by reviewing policy, systems and procedures. The Office performs management consulting services to ensure compliance with the statutory and control responsibilities of the Department; provides data processing services and EDP education services which provide courses for EDP technical staff and user and management personnel; assists in the improvement of office procedures and workflow and recommends and installs appropriate automated equipment.

## Budget Adjustments

In 1990-91 and 1991-92, the following budget adjustments are proposed:

- An increase of \$232,000 in the current year and \$237,000 in the budget year to secure additional contracted instructors for EDP training classes to meet the demand client agencies have for information systems training.

## 20.55 State Police

## Program Element Statement

The Office of California State Police is assigned the responsibility to protect employees and members of the public while on State property and to safeguard State facilities and grounds. Maximum demands for police services arise during that period of the day when State government is providing services to the public. The greatest need for security services occurs at those times when occupancy of buildings or facilities is at a minimum. Protective services for constitutional officers and members of the Legislature is based on need but is usually provided on a continuous basis. A full range of police service is provided including criminal and background investigations; crowd control; air, motor, bicycle, and foot patrol; electronic countermeasures detection; and explosive ordinance disposal. The Office provides security surveys, facility inspection, protection of state and personal property, employee protection, technical planning assistance, and first aid, including CPR training through the Employee Protection and Crime Prevention Programs. Where special needs have been demonstrated, regular police or security is augmented by contractual service.

\* Dollars in thousands, excluding salary range.

1760 DEPARTMENT OF GENERAL SERVICES—*Continued***Budget Adjustments**

In 1990-91, the following budget adjustment is proposed:

- An increase of 3.9 personnel years and \$385,000 to meet the security needs at the Ronald Reagan State Building.
- An increase of 2.8 personnel years and \$155,000 to meet the needs of contracted police services at the Department of Transportation Transbay Transit Terminal.

In 1991-92, the following budget adjustments are proposed:

- An increase of 6.6 personnel years and \$632,000 to meet the security needs of the Ronald Reagan State Building.
- An increase of 2.8 personnel years and \$155,000 to meet the needs of the contracted police services at the Department of Transportation Transbay Transit Terminal.
- An increase of 3.8 personnel years and a net decrease in overtime of \$33,000 to meet the clerical support needs of the Bureau of Investigations.
- An increase of \$407,000 to fund the continued operation of the Statewide radio system and to offset the site location and development costs associated with relocating the Central Coast Command Communications Center.

STATE BUILDING PROGRAM  
EXPENDITURES

Actual 1989-90*	Estimated 1990-91*	Proposed 1991-92*
--------------------	-----------------------	----------------------

## 50 CAPITAL OUTLAY

The Department of General Services Capital Outlay program continues to focus on the task of meeting statewide office space and parking needs through the development of new state office buildings and parking structures as well as through the rehabilitation of existing state office buildings. For the 1991-92 fiscal year, two major projects are proposed: 1) construction funding for the modernization and upgrade of the Central Heating and Cooling Plant in Sacramento, and 2) funding for site acquisition and planning of a Sacramento Parking Garage to mitigate the impact of the Site 7, Secretary of State/State Archives project, the Site 5, State Library and Courts Annex Building Complex project as well as to meet Capitol Area Plan parking needs.

In the current year, efforts have been initiated, pursuant to Chapter 1339, Statutes of 1990, to begin repairing the damage to San Francisco-Oakland Bay area state office facilities caused by the Loma Prieta Earthquake. These efforts include the renovation of the state office buildings located at 350 McAllister Street and 525 Golden Gate Avenue in San Francisco. In addition, a facilities needs study is underway for the San Francisco-Oakland Bay area as a result of the loss of the Oakland State Office building. It is anticipated that the results of this study will be available in Spring of 1991 for consideration of how to address State Office Building needs in the Bay Area.

## PROGRAM ELEMENTS

## Major Projects

## 1880 STATE PERSONNEL BOARD

The State Personnel Board is responsible for serving the personnel needs of State agencies and the improvement of personnel practices and procedures. The Board's authority to manage and oversee the civil service system for State Government derives from Article VII of the State Constitution and from provisions of the Government Code.

The State Personnel Board, within the framework of a merit system, oversees all aspects of the merit employment system, develops examining techniques to select and rank qualified applicants, receives and resolves appeals on medical issues, discrimination complaints and adverse actions; and provides leadership in personnel management practices and procedures. The Personnel Board also has the responsibility for coordination and evaluation of affirmative action/equal employment opportunity efforts within State departments as required by State law and policy.

In addition, the State Personnel Board administers the Career Opportunities Development Program for disabled clients of the Department of Rehabilitation. The Board also provides technical assistance to other departments in the utilization of the Career Opportunity Development process so they may provide public service jobs for welfare recipients.

**Authority**

**10 MERIT SYSTEM ADMINISTRATION****Program Objectives Statement**

This program provides the full range of personnel services necessary to administer the merit system for State Government. These services include merit system oversight, examination of applicants for State employment to ensure that all potential employees are qualified, development and adoption of personnel management policy, administration of the State's affirmative action program, information services and development of employment opportunities under the Welfare Reform Act of 1971. Also included in the program are the Appeals and Hearing Office functions.

**Budget Adjustments**

In 1990-91, the budget reflects the following adjustments:

- The addition of \$25,000 in reimbursements for consultant and professional services for Hearing Reporters in the Hearing Office.
- The establishment of 1.0 personnel year and \$25,000 in reimbursements for on-line examination services.
- The establishment of 1.0 personnel year and \$22,000 in reimbursements for Technical Training services.
- The establishment of 2.8 personnel years and \$140,000 in reimbursements for criterion validation and test construction services.
- The conversion of 6.7 positions and \$264,000 from personal services to operating expenses and equipment to accurately reflect how these resources have been used.

In 1991-92, the following budget adjustments are proposed:

- The continuation of \$50,000 for Hearing Reporters in the Hearing Office to be funded by reimbursements.
- The continuation of 1.0 personnel year and \$26,000 in reimbursements for on-line examination services.
- The continuation of 1.0 personnel year and \$56,000 in reimbursements for Technical Training services.
- The continuation of 2.8 personnel years and \$159,000 in reimbursements for criterion validation and test construction services.
- The continuation of the conversion of 6.7 positions and \$278,000 from personal services to operating expenses and equipment.

Reimbursements .....				2,399	3,763	3,855

**10.20 List Establishment****Program Element Statement**

List establishment includes all activities directly connected with placing persons on eligible lists for regular civil service positions. This begins with an agreement between the requesting department and the State Personnel Board staff that there is a need for an examination, and continues through the certification process. This element provides for the planning and processing of individual selection efforts to meet departmental needs and involves the application of validation techniques and research development to specific examining situations. Major activities of this element are test planning and management, recruitment and publicity, test construction, test administration, conducting qualifications appraisal panels and certification. Focused affirmative action recruitment projects are carried out in order to increase minority, female and disabled representation in State Government. Examination processing may be coordinated with line departments operating delegated or decentralized selection programs.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

General Fund .....				944	636	649
Reimbursements .....				333	763	829

## 10.40 Affirmative Action

## Program Element Statement

A comprehensive affirmative action program was established by the State Personnel Board in order to achieve a fully balanced work force by ethnic, sex and disabled representation. Information developed by this program enables the staff to concentrate on removing the underlying causes of low representation of minorities, women and the disabled in State and local work forces. The staff consults with departments in the preparation of affirmative action plans and policies, and reviews and approves those plans and policies. Program staff also monitor statewide progress toward affirmative action goals and prepare an annual report on each State agency's progress toward achieving a balanced work force.

While continuing affirmative action efforts to achieve a fully representative work force, specific focus is given to increasing the representation of Hispanic persons, implementing affirmative action hiring programs for the disabled, achieving distributional representation of women, and providing career opportunities for all underutilized employees through upward mobility programs. Enforcement actions may be taken against departments which do not show affirmative action progress.

## Performance Measures

	1989-90	1990-91	1991-92

General Fund .....						
Reimbursements .....				552	583	583

## 10.50 Career Opportunities Development

## Program Element Statement

The Career Opportunities Development (COD) element, authorized by the Welfare Reform Act of 1971, provides subsidized jobs, ultimately leading to unsubsidized jobs, for disabled persons thus reducing welfare costs. This is accomplished by providing training opportunities for these individuals with existing local, state and private nonprofit agencies.

## Performance Measures

	1989-90	1990-91	1991-92
Number of jobs contracted each year: state, local, and private nonprofit agencies .....	220	250	250

General Fund .....				200	—	—
Reimbursements .....				1,322	2,039	2,039

## 10.60 Merit Oversight

## Program Element Statement

The goal of the oversight program is to ensure that appointments and promotions in the civil service are based on merit determined by competitive examination. Specific objectives are to ensure that departments operate a high quality merit system that is fair, objective, valid, cost effective and nondiscriminatory, and that yields a work force representative of California's diverse labor force. These objectives are carried out in two ways: through guidance and selective preapproval of selection program activities and through ongoing interaction with departments including post audits.

## Performance Measures

## 40 LOCAL GOVERNMENT SERVICES

## Program Objectives Statement

The Local Government Services program develops reliable, job-related selection processes, tests and services which minimize or eliminate adverse effect, provides them on a timely basis and administers or insures that local agencies administer them in accordance with SPB policy direction.

Merit Systems Service provides direction and assistance to grant-aided agencies to attain, at all occupational levels, a work force which reflects the proportion of ethnic groups and women in the appropriate labor market; and provides direction and assistance to grant-aided agencies to improve the representation of disabled persons in their work force. This function also ensures a pool of qualified non-English language interpreters for use in California courts and administrative hearings.

\* Dollars in thousands, excluding salary range.

## 1880 STATE PERSONNEL BOARD—Continued

## Budget Adjustments

- The addition of \$52,000 for contract court interpreter services to be funded by reimbursements.

40.50 Court Interpreters .....	178	182	234

## 40.20 Merit System Services

## Program Element Statement

The Merit System Services reviews and approves for compliance merit systems and personnel standards (including affirmative action and equal employment opportunity) established by local agencies for their welfare, health and emergency services departments. Audits are conducted to ensure continuing compliance with Federal and State requirements. Consultation on a variety of personnel management subjects is available to assist local agencies to meet the established standards. For local agencies which do not have their own personnel merit system, this element provides selection, classification, certification activities, and directly administers the program. The activities of this program are provided through a contract with a joint powers authority.

## 50 ADMINISTRATIVE SERVICES

## Program Objectives Statement

A Constitutional Board of five members is appointed by the Governor to ten-year terms. The Board provides direction to the State civil service system through its authority to adopt rules and promulgate policy in the area of Personnel Management. Public hearings are held by the Board for the purpose of maintaining an effective and responsive merit system which satisfies the need of State Government and serves the interests of the public. Ongoing program management is provided through the Executive Officer who is appointed by the Board. Legal advice and strategy are developed by the Chief Counsel.

A variety of services are centralized in this Division to enable the Personnel Board to use its personnel and resources in the most cost-effective manner possible. Administrative Services monitors divisional operations and expenditures to assure that the Board properly discharges its duties and responsibilities and promotes an organizational climate whereby staff expertise is developed, communication channels are open, program objectives, policies, and procedures are understood, and deficiencies are identified and corrected on a timely basis. Civil service examination support is provided to State departments by the Data Processing Section through the "on-line certification and examination" system.

Support is provided in the following areas: Fiscal, Resource Allocation, Planning, Organization Review and Staff Selection and Affirmative Action, Training and Staff Development, Personnel Services and Transactions, Employer-Employee Relations, Internal Communications, Facilities Management, Business Services, Data Processing, Management Information Coordination, Mail and Duplicating Services, General Files, Word Processing, Forms Management and Paperwork Management.

## Budget Adjustments

In 1990-91, the budget reflects the following:

- The establishment of 1.0 personnel year and \$28,000 in reimbursements for on-line automated selection system services.
- The conversion of 2.7 positions and \$93,000 from personal services to operating expenses to accurately reflect how these resources have been utilized.

In 1991-92, the budget reflects the following:

- The continuation of 1.0 personnel year and \$32,000 in reimbursements for on-line automated selection system services.
- The continuation of the conversion of 2.7 positions and \$98,000 from personal services to operating expenses.

\* Dollars in thousands, excluding salary range.

## 1900 PUBLIC EMPLOYEES' RETIREMENT SYSTEM

The Public Employees' Retirement System (PERS) administers a group of separate, but related, benefits for more than 1,000,000 past and present public employees in California. This grouping consists of retirement, disability and death benefits; administration of Social Security coverage for State employees; and the development, negotiation and administration of contracts with a number of health maintenance organizations, group hospital and medical insurance plans. PERS is managed by a Board of Administration whose thirteen members consist of six individuals elected by specified membership groups, two individuals appointed by the Governor, one individual appointed jointly by the Speaker of the Assembly and the Senate Rules Committee, the Director of the Department of Personnel Administration, the State Treasurer, the State Controller and one individual designated by the State Personnel Board.

Participants in the system's programs include constitutional officers of the State, members of the Legislature, judges, State employees, classified school employees, volunteer firefighters and any other public employees whose employer has contracted for benefits administered by PERS.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 10 RETIREMENT

## Program Objectives Statement

This program provides a retirement, disability and death benefit program for California public employers and their employees which will provide for the orderly and systematic retirement of employees and will encourage career employment in the public service. The system offers benefits based on service or disability covered employees; death benefits for employees and annuitants; survivors' benefits for members not covered by social security; and for members in certain occupations, special benefits based on death or disability incurred in the line of duty.

Employees' retirement benefits are based upon age, years of service and final compensation. Benefits are modified by the selection of one of several options and/or by the employee's membership category, such as miscellaneous, safety, or state industrial. Survivor, death and disability benefits also are provided for under specific conditions. Depending upon an employee's contract, a member's retirement and/or death benefits is determined by up to fifty various contract options.

As of June 30, 1990, 2,291 active and inactive public agency and school district contracts were in force providing retirement, death, and survivor benefits. The Legislators', Judges', and Volunteer Firefighters' Retirement Systems are also administered by the Public Employees' Retirement System.

## Budget Adjustments

In 1991-92, the following budget adjustment is proposed:

- \$90,000 (one-time) from the Public Employees' Retirement Fund for Southern California Office relocation to be expended upon approval of the Department of General Services.

## Authority

Title 2, Division 5, Part 3, Government Code.

## 20 SOCIAL SECURITY

## Program Objectives Statement

PERS administers the Master Federal-State agreement to provide employees of California public agencies with coverage under Old-Age, Survivors, Disability and Health Insurance provisions of the Federal Social Security Act. The Federal Budget Reconciliation Act of 1986, relieved the State of responsibility for collecting Social Security "contributions" from its political subdivisions. State and local employers must now submit Social Security taxes directly to the Internal Revenue Service.

The State's responsibility and liability for Social Security reports and payments for those years prior to 1987 continues until June 30, 1991. The State also continues its responsibility for new coverage agreements, modifications and determinations regarding coverage issues. Upon completion of the reconciliation process, support staff and funding for this program will be discontinued.

\* Dollars in thousands, excluding salary range.

## 1900 PUBLIC EMPLOYEES' RETIREMENT SYSTEM—Continued

## Budget Adjustments

In 1991-92, the following budget adjustment is proposed:

- 7.0 positions (7.0 personnel years) limited-term through June 30, 1993 and \$344,000 reimbursements to complete the reconciliation of Social Security reports through the 1986 calendar year.

## Authority

Title 2, Division 5, Part 4, Government Code.

## 30 HEALTH BENEFITS

## Program Objectives Statement

This program provides medical and hospital insurance plans with private carriers, a self-insured plan, and health maintenance organizations for State and other public agency employees, annuitants and their families. Primary activities are to negotiate and monitor contracts and to provide standards for health maintenance, basic, and supplemental to Medicare health plans; to establish and maintain health benefit coverage for eligible employees and annuitants; to conduct annual open enrollment periods, providing information to employees and annuitants; and to mediate service and claim disputes.

## Authority

## 40 INVESTMENT OPERATIONS

## Program Objectives Statement

This program provides investment of funds in various asset classes for the purpose of providing benefits to members, retired members and their beneficiaries, and to defray the expenses of administering the system. The Board of Administration, through its Investment Committee and staff, makes the daily investment decisions.

Investments were made initially only in government and corporate bonds. Asset classes such as stocks, mortgages, real estate holdings and others were added to the portfolio beginning in the mid-1960s. Today, major political and economic forces are affecting pension funds by introducing new opportunities for investment, such as venture capital, mortgage-backed securities and other similar programs. Current asset allocation targets are: Cash Equivalents, 2%; International Fixed Income, 4%; Domestic Fixed Income, 35%; Domestic Equities, 35%; International Equities, 12%; Real Estate, 10%; and, Alternative Investments, 2%.

The total market value of the Fund at the end of fiscal year 1984-85 was \$28.6 billion. Five years later, on June 30, 1990, the total market value had more than doubled to \$58.2 billion.

\* Dollars in thousands, excluding salary range.

## 50 ADMINISTRATION

## Program Objectives Statement

The internal management of PERS is presented under this program. Its objective is to provide direction, leadership, and planning services to the Board Members as well as executive direction, general policy determination, and management support and coordination of administrative services to the department. The various services include: Data Processing; Fiscal Services; Human Resources; Internal Audits; Information and Program Development; Legal; Legislative Services; and Operation Support. These various functions provide the specialized information and administrative support necessary to administer all PERS programs.

Commencing with the 1991-92 budget, the PERS Redesign Project is included in the Administration Program. This project was undertaken as a long term solution to respond to legislative changes, court decisions, and system growth. With the final completion and implementation of the project expected in 1992 it will provide calculation of benefits, estimates, adjustments to allowances, calculation and payment of pre-retirement death benefits, post-retirement death benefits processing, cost-of-living adjustments, health insurance rate changes and payroll processing to over 240,000 payees totaling more than 2.1 billion dollars annually.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- 6.0 positions, 2 limited-term through June 30, 1993, (5.7 personnel years) and \$503,000 from the Public Employees' Retirement Fund (\$12,000 one-time) to establish a Field Audit Unit in the Member Services Division.
- 1.0 position (1.0 personnel year) limited-term through June 30, 1992 and \$54,000 from the Public Employees' Retirement Fund to provide programming staff support in the Actuarial Office.
- 4.0 positions (3.8 personnel years) and \$89,000 from the Public Employees' Retirement Fund (\$4,000 one-time) and \$88,000 from the Contingency Reserve Fund to provide staff support to the Data Processing Services Division.
- \$50,000 (one-time) (\$5,000 from the Judges' Retirement Fund, \$5,000 from the Legislators' Retirement Fund and \$40,000 from the Contingency Reserve Fund) to study the feasibility of obtaining software to conduct actuarial valuations.
- 1.0 position (0.9 personnel year) and \$37,000 from the Public Employees' Retirement Fund (\$1,000 one-time) and \$4,000 from the Contingency Reserve Fund to provide staff support to the Human Resources Division.
- 1.0 position (0.9 personnel year) and \$64,000 from the Public Employees' Retirement Fund (\$1,000 one-time) to provide staff support to the Internal Audit Division.

## 1920 STATE TEACHERS' RETIREMENT SYSTEM

The Teachers' Retirement Board was formed in 1963 and has exclusive control over the investment and administration of the Teachers' Retirement Fund, makes rules, sets policies and has the power and authority to hear and determine all facts pertaining to application for benefits under the retirement system. Ex-officio members of the Board are the Superintendent of Public Instruction, the State Treasurer, the State Controller and the Director of Finance. The Governor-appointed members of the board include four members of the system, one retirant of the system and three from the public. The staff and the Teachers' Retirement Board manage the largest teachers' retirement system in the United States, having 340,700 members as of June 30, 1990, and 123,900 persons receiving benefits.

Personnel years .....	334.5	370.4	373.5

## Budget Adjustments

In 1991-92 the following budget adjustments are proposed:

- \$170,000 and 3 positions in Data Processing for on-line system backlog.
- \$115,000 and 3 positions for administration of one-year final compensation (AB 123).
- \$111,000 and 3 positions in Accounting for receivables and collections.
- \$62,000 and 3 positions in Accounting for increased accounting workload.
- \$175,000 to purchase a computerized retrieval system to access member records.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 1920 STATE TEACHERS' RETIREMENT SYSTEM—Continued

## 10 SERVICE TO MEMBERS AND EMPLOYERS

## Program Objectives Statement

The objectives of the Teachers' Retirement Program are as follows:

1. To strengthen system accountability.
2. To provide an efficient operational system for administration of STRS.
3. To enhance external and internal communication processes.
4. To plan for an adequate funding of benefits while minimizing taxpayer costs.

Income to the Teachers' Retirement Fund is derived from member contributions, employing school district contributions, appropriations from the General Fund and investment earnings (see 6300-Contributions to Teachers' Retirement Fund for state contributions for benefits and 8885-Commission on State Mandates for other contributions). The cost of administration is paid from the Teachers' Retirement Fund as provided in Section 22003 of the Education Code. The fund is reimbursed for administrative costs associated with the Tax Sheltered Annuity program and for processing refunds to former members.

The system is responsible for the determination, computation and payment of benefits to members, retirants, and beneficiaries, and for the distribution of information to all members, employers and other interested groups. Generally, payment of an estimated service retirement allowance is made 45 days after date of retirement or receipt of application, whichever is later. Refunds are paid within 45 days after receipt of the application. Family and death benefits are paid within 45 days after receipt of documentation required to substantiate death of the member and establish survivor eligibility. Disability benefits are paid approximately 45 days after proof of disability is established. The basic retirement allowance is calculated upon a member's age, years of service, and final compensation. The member may modify the basic allowance by selecting a joint and survivor annuity option to provide for a beneficiary. The system also provides for survivor, disability and death benefits under specific conditions.

## 30 PURCHASING POWER PROTECTION

Purchasing Power Protection is a benefit for retired teachers to ensure that their original purchasing power does not fall below a specific level.

In 1989, legislation was enacted to provide purchasing power protection through a permanent funding mechanism, and to require the State to provide an increase in contributions by one percent for 1991-92, and increasing in subsequent years to 2.5 percent, paid directly through a statutory transfer. (See 6300-Contributions to Teachers' Retirement Fund for 1990-91 and 1991-92 funding for this program.)

## 1950 DEPARTMENT OF VETERANS AFFAIRS

The Department of Veterans Affairs has a threefold overall objective: (1) provide comprehensive assistance to veterans and dependents of veterans in obtaining benefits and rights to which they may be entitled under State and federal laws; (2) afford California veterans the opportunity of becoming homeowners through the medium of long-term low-interest loans available to them under the Cal-Vet farm and home loan program; and (3) provide support for the Veterans Home of California where eligible veterans may live in a retirement community and where complete nursing care and hospitalization are provided.

## 10 Farm and Home Loans to Veterans

## Program Objectives Statement

Since 1921, the Cal-Vet loan program has successfully served the needs of approximately 400,000 World War I, World War II, Korean, and Vietnam veterans for long-term housing and farm loans at low interest rates. General Obligation Veterans Bonds and Revenue Veterans Bonds have been sold at intervals to provide funding for the program.

California veterans, except those who are purchasing property in a targeted area, or qualify as first-time homebuyers, have 30 years following their release from active military service to qualify and apply for loan benefits. Lending is directed primarily to the Vietnam veterans. Maximum loans are: homes, \$125,000; homes with solar equipment, \$130,000; mobile homes on land, \$90,000; mobile homes in parks, \$70,000; and farms, \$200,000.

Additionally, Cal-Vet has instituted: (1) a Home Improvement Loan to assist active contract holders in securing certain home maintenance and renovation improvements, the maximum loan amount being \$15,000 for a maximum term of 10 years; and (2) a Home Purchase Assistance program implemented in FY 1990-91 to assist low income Cal-Vet eligibles in the purchase of a home.

Veterans purchasers are charged interest on their loans at the lowest rate which will cover all costs of the program. The interest rates charged have provided for redemption of the bonds, debt service, and all program administrative charges, without any cost to the California taxpayer.

In the past several years the State has experienced fluctuations in the amount of bond funds available for home or farm loans.

## 10.10 Property Acquisition

## Program Element Statement

This element encompasses the collection and evaluation of data regarding the applicant and his property selection. Loan decisions must protect the interest of both the veteran and the Cal-Vet loan program.

The military service documents of veterans, the records of veterans' widows, wives of prisoners of war, or persons missing in action are inspected to determine the applicant's qualifications for a loan under the statute. This examination is integrated into the application process.

## 10.20 Loan Service

## Program Element Statement

Four interrelated task efforts combine to assure fulfillment of the obligations of the contracting parties: mortgage loan accounting, insurance and property damage claims adjustment and services, loan contract alterations, and contract performance services.

Mortgage loan accounting consists of routine billing, cashiering, account computation, and recording of each borrower's payments.

Insurance services consist of determination and application of minimum coverages required for fire and hazard insurance and adjustment of disaster indemnity claims. When damage occurs, rapid repair and restoration of the contract property is arranged to assure satisfaction of the borrower and to protect the Department's interest.

The contract enumerates certain contract alterations to which the Department may consent. Among these are assignment of contract interest, rental, permission for secondary financing, change in legal description of property, and installment changes.

Contract performance services are those functions which logically occur in the course of the contract. Loans are paid in full by installments or are prepaid in advance. On fulfillment of the contract, the property is deeded and the account record is closed. During the life of the contract, certain breaches of terms or conditions may occur. There is an element of risk in any loan and not all borrowers perform as agreed. Should a borrower become unwilling or unable to comply with the contract terms, it may be necessary to cancel the contract and either force a sale of the property or repossess it. Repossessed properties are rehabilitated and sold.

## Performance Measures

	1989-90	1990-91	1991-92
Number of delinquent accounts <sup>1</sup> .....	12,947	12,000	11,500

Taxes and Insurance.....				97,932	96,000	99,300

## 10.30 Loan Funding

## Program Element Statement

Funds for Cal-Vet loans are derived from the sale of both general obligation and revenue bonds. Activities related to loan funding include sale, payment of interest, and redemption of Veterans Bonds. They are performed by the Veterans Finance Committee and the State Treasurer's Office in accordance with statutory provisions. All costs of such services are paid by the program. Proceeds from bond sales accrue to the Farm and Home Building Fund. These funds, together with prepayment of outstanding loans, are invested until required for authorized purposes. The differential between the interest earned on outstanding Cal-Vet loans and the average net interest cost on all outstanding bonds provides the total operating costs of the program. Work involved is in projecting the program's financial status at points in time to enable economic fund management to meet four annual bond redemption payments and to schedule bond sales annually at the most favorable interest rates to meet program needs.

## 20 VETERANS CLAIMS AND RIGHTS

## Program Objectives Statement

California has the largest veteran population at 2.8 million or 10.4 percent of the nationwide veteran population of over 27 million. Federal and State laws relative to the health and financial care of veterans and dependents are varied and complex. The primary objective of this program is to provide technical support to County Veteran Service Offices and represent veterans and dependents through power of attorney when claiming entitlements from the United States Department of Veterans Affairs (USDVA) and other federal agencies.

Entitlements from the USDVA include outpatient, extended and ambulatory care, compensation, pension, insurance, vocational rehabilitation, education, and burial allowance. A total of \$1.3 billion in USDVA compensation and pension was paid to veterans and dependents in the state during FY 1988-89. Of this amount, the Department and the County Veteran Service Offices are responsible for representing veterans receiving over \$43 million in new benefits, and over \$870 million in USDVA benefits. This does not include an estimated \$316 million in Vocational Rehabilitation insurance, burial fees, headstones, loan guarantees or hospitalization at non-USDVA facilities.

## Budget Adjustments

In 1991-92, the following adjustment is proposed:

- An increase of 0.9 personnel year and \$59,000 in reimbursements to coordinate and administer the Medi-Cal Cost Avoidance Program.

## Authority

Military and Veterans Code, Sections 699.5, 970-973; and California State civil service laws and rules, Article 4, paragraphs 18971-18976.

General Fund.....				3,618	3,760	3,789
Reimbursements.....				636	622	622

## 20.10 Claims Representation

## Program Element Statement

Veterans and their dependents seeking benefits from the United States Department of Veterans Affairs (USDVA) file claims at the county level and these claims are sent to the USDVA regional office in San Francisco, Los Angeles or San Diego. Division representatives, through Power-of-Attorney, represent claimants before the Veterans Administration rating board to insure that maximum benefits are awarded. Division representatives file notice of disagreement on claims adjudicated by the rating board, which affect the establishing or changing of ratings of service-connected compensation, disabilities pension, burial expenses and other USDVA benefits.

Nationally, the number of enlisted personnel returning to civilian life has declined by one-tenth of one percent while the number of WWI and WWII veterans and dependents requiring assistance in obtaining medical, burial, pension, and other USDVA benefits has increased. In addition, a number of state programs which are designed to benefit Vietnam-era veterans have created increased demands on personnel in this program to assist these veterans in claiming benefits.

## 20.30 County Subvention

## Program Element Statement

Fifty-four counties have established Veteran Service Offices to assist veterans and dependents at the county level, to provide information on veterans benefits, and, through Power-of-Attorney, to file for USDVA and federal entitlements for the veteran and dependents. These entitlements include outpatient, extended, and ambulatory care; compensation; pension; insurance; education; vocational rehabilitation and burial allowance. Many veterans who are County Welfare recipients are not aware of federal benefits to which they may be entitled. Through a referral system developed with the Department of Health Services and the Department of Social Services, welfare applicants or recipients identified as veterans or dependents are directed to the County Veteran Service Office for determination of VA benefit eligibility. This system is designed to maximize federal benefits for veterans and dependents in lieu of State welfare benefits or county general assistance. In return for service performed, these offices receive partial reimbursement for their operating expenses.

The California Department of Veterans Affairs staff provide technical assistance, claims representation at the USDVA Regional Office, and monitor and review audit reports submitted by these local offices to insure compliance with USDVA Regulations.

\* Dollars in thousands, excluding salary range.

## 20.40 Educational Assistance

## Program Element Statement

The stipend program is offered to spouses and children of veterans who died while in military service, incurred a service connected disability rating of 100 percent, or were declared to be Prisoners-Of-War or Missing-In-Action. This benefit is restricted to dependents not qualified to receive federal USDVA educational benefits under Chapter 35, Title 38, U.S. Code. Additionally, full time high school students and college students receive monthly maintenance payments of \$50 and \$100, respectively, pursuant to Chapter 44, Statutes of 1986. In addition, under the Education Code Fee Waiver Program, college students that meet the mandated income requirements may qualify for waiver of tuition and certain fees while attending a California state-owned college, university, or community college.

## 30 CARE OF SICK AND DISABLED VETERANS

## Program Objectives Statement

As of January, 1992, the Veterans Home will maintain a 709-bed medical and nursing facility (including 22 acute and intensive care beds, 369 skilled nursing beds, and 318 intermediate care nursing beds) and domiciliary facilities with a bed capacity of 817. In addition, 121 skilled nursing beds, and 72 intermediate care nursing beds are currently closed for renovation. It is one of the largest geriatric facilities in the country and has full support facilities, including consultation services of medical experts and services of a number of Veterans Administration and private hospitals in northern California.

The purpose of the Veterans Home has been defined as, "... to provide a community of services for disabled California veterans that will improve overall health, reduce the incidence and severity of disabilities, and increase social interaction in an environment which promotes self-reliance and self-worth. ..." The hospital and nursing units are licensed by the State Department of Health Services under Title 22, California Administrative Code, and are accredited by the Joint Commission on Accreditation of Health Organizations. Federal funds to partially offset the cost of providing care are received from the Veterans Administration, Medicare, and Medi-Cal.

The programs and services for residents of the Veterans Home are developed in cooperation with the Veterans Administration, other state agencies, local government, private organizations, and educational facilities.

## Authority

Military and Veterans Code, Sections 1010-1049.

## Budget Adjustments

In 1991-92, the following adjustment is proposed:

- An increase of \$242,000 from the Special Account for Capital Outlay Fund (SAFCO) and \$446,000 in Federal Fund reimbursement authority to purchase both new and replacement equipment for three hospital wings at the Veterans Home in Yountville which are under renovation and are scheduled for completion early in 1992.

## 30.20 Skilled Nursing Care

## Program Elements Statement

This level of care provides 24-hour in-patient care less intense than Acute Care and provides skilled nursing on an extended basis. As a minimum, rehabilitation, nursing, dietary, pharmaceutical and activity programs are provided. The degree of need for care may vary from moderate to total, because the patients are generally not able to perform daily living activities independently.

## 1950 DEPARTMENT OF VETERANS AFFAIRS—Continued

## 30.40 Residential Care

## Program Element Statement

This level of care is for veterans who are able to perform daily living activities, although they may have a handicap and require supportive measures for mobility. There is a 24-hour availability of personal services, protection, supervision, assistance and a minimum level of nursing care.

Performance Measures				1989-90	1990-91	1991-92

				105	-	-

## 40 FARM AND HOME LOANS TO NATIONAL GUARD MEMBERS

## Program Objectives Statement

The California National Guard Members Farm and Home Purchase Act of 1978 became effective January 1, 1979, and authorized the Military Department to sell revenue bonds to provide low interest loans to National Guard members for the purchase of farms and homes. The loan provisions of this program are similar to those of the Cal-Vet Loan Program.

Pursuant to the enabling legislation, the Military Department assigned the responsibility of administering the loan program to the Department of Veterans Affairs. The responsibility for determining National Guard member eligibility and for selling bonds was retained by the Military Department.

Proceeds of \$25 million were received in 1980 and 1981 from the sale of revenue bonds. An additional \$15 million sale of revenue bonds was held in December of 1983. Section 481 of the Military and Veterans Code limits the sale of revenue bonds for home loans to \$25 million in any 12-month period. No more bond sales are authorized for funding new loans. Therefore, current workload involves only maintenance and servicing of the existing loan portfolio which is gradually declining due to refinancing and retiring existing loans.

## 80 CAPITAL OUTLAY

The Veterans Home of California provides long term residential care for aged and/or disabled, war-time veterans. The Home is licensed for 1,590 beds in five levels of care ranging from residential to acute care. The Veterans Home has 23 major buildings which were built between 1929 and 1957. In 1975, it was determined that the Home was in need of a plan to correct various fire and life safety deficiencies that had developed since the buildings were originally constructed. A master renovation plan was prepared in 1979 and submitted to the Legislature for consideration.

Four domiciliary buildings, one licensed residential care building and the acute care addition to Holderman Hospital have been completed under this master plan. Two additional buildings are scheduled for completion by December 1990 and will be used for skilled nursing care. The 1990-91 Budget Act includes authorization for the renovation of three more buildings, two of which are currently awaiting the award of bids with a third going to bid in early 1991. For the 1991-92 fiscal year, funding is proposed for construction of a consolidated Section H and K renovation project; ongoing funding for Section J working drawings and new startup funds for Section G. In addition, the proposed budget provides for the upgrade of the Central Plant, and various minor fire/life safety and code-related projects.

1980 VIETNAM VETERANS MEMORIAL COMMISSION

Chapter 1042, Statutes of 1983, extended by Chapter 731, Statutes of 1987, established and authorized the Vietnam Veterans Memorial Commission to establish a schedule for the design, construction, and dedication of a memorial to California's Vietnam Veterans on the grounds of the State Capitol. Funds received by the commission from private contributions for the memorial are required to be deposited in the Vietnam Veterans Memorial Account in the General Fund and are appropriated to the commission without regard to fiscal year.

## 2100 DEPARTMENT OF ALCOHOLIC BEVERAGE CONTROL

The principal objective of the Department of Alcoholic Beverage Control (ABC) is to administer the provisions of the Alcoholic Beverage Control Act, which vests in the Department the exclusive right and power to license and regulate the manufacture, sale, purchase, possession and transportation of alcoholic beverages within the State and, subject to certain laws of the United States, to regulate the importation and exportation of alcoholic beverages into and from the State.

## SUMMARY OF PROGRAM REQUIREMENTS

Personnel years .....	399.9	396.9	393.0

## 10 ADMINISTRATION OF ALCOHOLIC BEVERAGE CONTROL ACT

## Program Objectives Statement

This program conducts the three major activities of the Department. These include licensing activities, which ensure that only qualified persons and legitimate businesses are licensed to sell, manufacture, or otherwise deal in alcoholic beverages; compliance activities, which ensure adherence to the alcoholic beverage control laws and regulations by all persons operating within the alcoholic beverage industry; and administration activities, which provide staff support and conduct administrative appeal hearings.

## Budget Adjustments

For 1990-91, the following budget adjustments are proposed:

- \$31,000 in reimbursements for increased administrative hearings costs.
- \$216,000 in reimbursements for various reimbursable services, including fingerprinting, photocopying and applicant services.

For 1991-92, the following budget adjustments are proposed:

- \$31,000 in reimbursements for increased administrative hearings costs.
- \$231,000 in reimbursements for various reimbursable services, including fingerprinting, photocopying and applicant services.

## Authority

Article XX, Section 22 of the California Constitution, and Division 9 of the Business and Professions Code.

Reimbursements .....				969	821	836

## 10.10 Licensing

## Program Element Statement

There are three objectives within the licensing function: (1) to license only qualified persons who apply to sell, produce or distribute alcoholic beverages; (2) to issue licenses at appropriate locations; and (3) to allow legitimate community protests (by public agencies and private parties) against the issuance of a license to be heard by an administrative law judge who will rule based upon the evidence presented.

California law limits the number of general licenses (the authority to sell all types of alcoholic beverages approved for sale) based upon the population of each county. One on-sale general license is allowed for each 2,000 inhabitants of a county, and one off-sale general license is allowed for each 2,500 inhabitants. As population increases allow more licenses in a county, an annual drawing is held to distribute the available licenses to qualified applicants.

Annual license fees vary with the type of license, and range from \$33 a year for an off-sale beer and wine license to \$689 a year for an on-sale general license. There are also original fees for new licenses, transfer fees for moving from one location to another or for transferring from one entity to another and various other fees enacted by the Legislature.

2100 DEPARTMENT OF ALCOHOLIC BEVERAGE CONTROL—*Continued*

## 10.20 Compliance

## Program Element Statement

The compliance element focuses its attention on those violations which have an adverse effect on the community, such as those premises which serve obviously intoxicated patrons or minors, or which are suspected of being conducive to drug trafficking, prostitution, gambling, etc. Following original issuance or transfer of a license, other investigations are necessary to make certain that unqualified persons do not obtain control of the business through unreported changes in the ownership of licensed businesses.

Departmental investigations also involve violations such as commercial bribery, illegal importation, tied-house restrictions, advertising limitations and prohibitions against the giving of free goods in connection with sales of alcoholic beverages. Additional fees are assessed off-sale general retail licensees and some wholesale and manufacturing licensees for support of these investigations by the Department.

## 2120 ALCOHOLIC BEVERAGE CONTROL APPEALS BOARD

The objective of the Alcoholic Beverage Control Appeals Board, which consists of three members appointed by the Governor, is to provide a remedy of appeal to people who are dissatisfied with a decision of the Department of Alcoholic Beverage Control ordering any penalty or issuing, denying, transferring, suspending or revoking any alcoholic beverage license. Following the filing of an appeal, receipt of the record on appeal and submission of written briefs, the Board hears oral arguments on the appropriateness of the Department's decision. Thereafter, the Board prepares, publishes and distributes a formal written opinion. A party seeking review of an Appeals Board order must file a Petition for Writ of Review with the Court of Appeal.

The Alcoholic Beverage Control Appeals Fund is supported by a surcharge on license fees of the Department of Alcoholic Beverage Control.

## 2120 ALCOHOLIC BEVERAGE CONTROL APPEALS BOARD—Continued

## 10 ADMINISTRATIVE REVIEW

## Program Objectives Statement

The purpose of this program is to provide an appeals process and to issue orders on appeals filed with the Alcoholic Beverage Control Appeals Board. In fiscal year 1989-90, 132 appeals were filed with the Board, and 157 orders were issued by the Board.

During 1989-90, judicial review of Board orders was requested of the Court of Appeal or State Supreme Court on 23 occasions. The courts denied the petitions in 19 cases and granted a writ of review in one case, in which both the Board's decision and that of the Department of Alcoholic Beverage Control were reversed by the Court of Appeal. Two petitions were withdrawn by appellants. One petition is awaiting action (acceptance or denial) by the court, and one was granted, with oral argument pending.

The appeals to the Board are from decisions of the Department of Alcoholic Beverage Control, which was a party to 732 administrative hearings during fiscal year 1989-90. Most of these hearings involved license applications or alleged violations of the Alcoholic Beverage Control Act.

## Budget Adjustments

For FY 1991-92, the budget proposes an augmentation of \$10,000 for replacement of an obsolete word processing system.

## Authority

## 2140 STATE BANKING DEPARTMENT

The State Banking Department was established to protect the public from economic loss resulting from the failure of any of the financial entities it regulates. The Department licenses and regulates: (1) State chartered banks and trust companies including offices of foreign (other states and other nations) banking corporations; (2) issuers of payment instruments, including companies licensed either to sell money orders or travelers checks or licensed to engage in the business of transmitting money abroad; and (3) business and industrial development corporations. In addition to encouraging observance of sound banking practices, the Department certifies securities for the State of California and municipalities and other government agencies within the State of California as legal investments. The Superintendent of Banks is the administrator of local agency security. The programs of the Department are supported by an annual assessment of licensees, license and application fees, and charges for specific services.

## 10 LICENSING AND SUPERVISION OF BANKS AND TRUST COMPANIES

## Program Objectives Statement

The primary objectives of this program are: (1) to protect the public from economic losses that often result from bank and trust company failures without depriving the public of reasonably priced, convenient banking and trust services and (2) to guard against the damaging ripple effect on smaller financial institutions often associated with the failure of a bank or trust company.

## Budget Adjustments

For 1991-92, the following budget adjustments are proposed:

- \$463,000 and 10.0 personnel years for salary savings relief.
- \$45,000 for a statewide training conference for examiners.
- Prorated share of facilities operations and costs for Administration positions as referenced in Administration adjustments (\$314,000).

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 2140 STATE BANKING DEPARTMENT—Continued

## 10.10 Investigation of Applications for New Facilities

## Program Element Statement

The main purpose of this element is to review and investigate applications for the establishment of new banks, new trust companies, branches of existing banks, branches of foreign banks, trust departments of existing banks and title companies and other new facilities. In each case, the application requesting the approval is investigated to determine whether statutory and administrative requirements are satisfied. These actions are taken to reduce the potential risk of loss for the organization involved and, therefore, the public. Prior approval of the Superintendent of Banks is required before the establishment of any new bank or facility.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (State Banking Fund) .....	4.7	5.0	6.0	\$489	\$550	\$611

## 10.20 Continuing Supervision of Existing Banking Facilities

## Program Element Statement

This element conducts periodic examinations of all banking institutions to protect depositors and assure a sound banking system. Each bank under State jurisdiction is required by statute to be examined at least once every two years. Problem institutions are subject to more frequent examination. The Department's administrative staff utilizes examination results as well as additional data derived from ongoing monitoring of the banks to achieve early solutions to problems that might escalate if left unattended.

An important part of the supervisory function is the investigation of complaints received from the general public and cooperation with law enforcement agencies in connection with crimes affecting banks.

Reimbursements .....				37	29	29

## 10.30 Continuing Supervision of Trust Facilities

## Program Element Statement

This element conducts annual examinations of trust companies and trust departments of banks and title insurance companies. Annual examinations form the basis of supervision of trust facilities. Trust examining is highly specialized and includes the verification of trust assets, the reconciliation of accounts, a review of the legal aspects of transactions, a study of the administration of trust accounts and an evaluation of the ability and capacity of the senior trust officers. Reports are rendered to the trust company or trust department with recommendations for corrective action.

Reimbursements .....				134	130	130

## 20 PAYMENT INSTRUMENTS

## Program Objectives Statement

The primary objective of this program is to protect the public from economic loss resulting from the failure of a company licensed either to sell payment instruments (money orders) or travelers checks, or licensed to engage in the business of transmitting money abroad. The program ensures that business is being conducted in a financially sound manner by conducting periodic examinations of these facilities and by requiring and analyzing specific reports. In addition, licenses are issued to persons engaged in the business of receiving money for the purpose of transmitting the same or its equivalent to foreign countries, engaged in the business of issuing travelers checks, or engaged in the business of selling money orders. In order to protect the public, a thorough investigation of each applicant is conducted before the license is issued.

## Budget Adjustments

For 1991-92, the following budget adjustments are proposed:

- Prorated share of Facilities Operations and Administration positions costs referenced in Administration adjustments (\$49,000).

\* Dollars in thousands, excluding salary range.

## 30 CERTIFICATION OF SECURITIES

## Program Objectives Statement

This program (1) issues certificates of eligibility for obligations of the State of California and its subdivisions to assure that certain elements of the public do not invest in securities that fail to meet specified standards established by statute; (2) assures that adequate security is being held by the State Treasurer for the faithful performance and execution of all court and private trusts accepted by trust companies and trust departments of banks and (3) assures the faithful performance of a transmitter's obligations.

## Budget Adjustments

For 1991–92, the following budget adjustments are proposed:

- Prorated share of Facilities Operations and Administration positions referenced in Administration adjustments (\$1,000).

## Authority

## 40 ADMINISTRATION OF LOCAL AGENCY SECURITY

## Program Objectives Statement

The Superintendent of Banks is the administrator of local agency security who, utilizing a pool concept, acts as an agent for approximately 1,500 local treasurers in verifying the amount and quality of collateral pledged to secure deposits of public funds made by local agencies. The Superintendent also has the responsibility of administering local agency security for savings and loans and credit unions.

## Authority

California Government Code, Title 5, Division 2, Part 1, Chapter 4, Article 2.

## 50 SUPERVISION OF CALIFORNIA BUSINESS AND INDUSTRIAL DEVELOPMENT CORPORATIONS

## Program Objectives Statement

The primary objective of this program is to license and regulate nonfiduciary business and industrial development corporations. The program ensures that business is being conducted in a financially sound manner by conducting periodic examinations of these corporations and by requiring and analyzing specific reports. In addition, licenses are issued to corporations operating as business and industrial development corporations. Certain Federal programs, most notably the Small Business Administration's Section 7A Loan Guarantee Program, require a lender to be a "licensed and regulated financial institution" to qualify for guarantees. By licensing and regulating business and industrial development corporations, this program ensures that these corporations qualify for loan guarantees.

## Budget Adjustments

For 1991–92, the following budget adjustments are proposed:

- Prorated share of Facilities Operations and Administration positions referenced in Administration adjustments (\$2,000).

\* Dollars in thousands, excluding salary range.

## 2140 STATE BANKING DEPARTMENT—Continued

## 60 ADMINISTRATION

## Program Objectives Statement

The principal responsibilities of the Administration Program are to provide services essential for the administration of the Department and its programs. Services provided include executive and administrative services, legal and legislative services and policy and information services.

## Budget Adjustments

For 1991-92, the following budget adjustments are proposed:

- \$176,000 for increased Facilities Operations costs.
- \$82,000 and 0.9 personnel year for an examiner to supervise training programs.
- \$51,000 and 0.9 personnel year for a records management analyst.
- \$57,000 and 0.9 personnel year for a budget analyst.

## 2180 DEPARTMENT OF CORPORATIONS

The principal objectives of the Department of Corporations are to regulate the offer and sale of securities; provide for the licensing and regulation of investment brokers and agents; and regulate securities advertising. In addition, the Department is charged with regulating franchises, various types of financial institutions and health care service plans. Department activities include: (1) providing appropriate controls over the solicitation, marketing and sale of securities and franchises to California residents; (2) providing deterrents and safeguards against unfair or unscrupulous promotional schemes; (3) providing regulatory surveillance over companies engaged in lending money or receiving funds from the public in a fiduciary capacity and companies engaged in the business of providing health care to its enrollees; and (4) instituting appropriate enforcement action when violations of law occur.

## 2180 DEPARTMENT OF CORPORATIONS—Continued

## 10 INVESTMENT PROGRAM

## Program Objectives Statement

The primary purpose of the Investment Program is to administer the Corporate Securities Law. The program ensures that the sale of billions of dollars of securities sold to California residents annually is not unfair, unjust or inequitable. Pursuant to the Franchise Investment Law, the program protects would-be purchasers by requiring the franchisor to give full disclosure of relevant financial and legal information.

Also, the program is responsible for receiving and investigating grievances submitted by the public. Grievances are filed when a member of the public feels that an improper sale and issuance of securities has occurred. Over 30,000 broker-dealers, agents, and investment advisors are authorized to recommend securities transactions to, and deal in securities with, the general public.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- 2.9 personnel years and \$118,000 from reimbursements for increased broker-dealer examinations.
- 6.6 personnel years and \$315,000 payable from the Commodity Merchants Account to implement the California Commodity Law.

## Authority

## 10.10 Qualifications

## Program Element Statement

This element monitors the sale and issuance of nonexempt securities in the State of California which must qualify, pursuant to the Corporate Securities Law, through filing an application, current financial statements and other relevant exhibits.

Specific conditions may be imposed on the qualification if it is found that the sale of securities could be unfair, unjust and inequitable. Qualification can be by coordination, notification or permit.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund) .....	66.0	63.9	62.8	\$4,298	\$3,943	\$4,012

## 10.20 Franchises

## Program Element Statement

The principal objective of this element is to conduct franchise registration activities. No franchise may be offered or sold in the State of California unless the offeror has been registered or exempted from registration. To register, an application must be filed disclosing certain relevant information. Under certain circumstances defined in the Franchise Investment Law, the Commissioner may summarily issue a stop order denying the effectiveness of or suspending or revoking the effectiveness of any registration.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund) .....	9.4	9.1	8.9	\$710	\$655	\$666

## 10.30 Regulation and Enforcement—Corporate Securities Law

## Program Element Statement

The main objective of this element is to conduct the application process. Prospective broker-dealers and investment advisers must file applications for certificates to operate in California. An evaluation of the applicant's background, business experience, and financial condition is made before a certificate is issued or denied.

Complaints filed by the general public, as well as possible infractions of the Corporate Securities Law noted by the staff or members of other regulatory agencies, are thoroughly investigated. As a result of the Department's findings, one of the following steps is taken: no further action may be deemed necessary; punitive action including suspension or revocation of a certificate, license, or permit may be taken; and/or criminal proceedings may be instituted by other enforcement agencies.

\* Dollars in thousands, excluding salary range.

## 20 LENDER-FIDUCIARY PROGRAM

## Program Objectives Statement

The primary purpose of the Lender-Fiduciary Program is to administer and enforce the provisions of the various laws in the program. These responsibilities include: review applications to determine the appropriateness of financial data and personnel requirements; monitor financial condition and operating procedures for statutory compliance through reporting and field examinations; respond to public inquiries for information and assistance. Over 8,500 financial organizations are regulated under the Lender-Fiduciary Program.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- 6.6 personnel years and \$266,000 in reimbursements for additional examinations under the Credit Union Law.
- \$15,000 in reimbursements for out-of-state training for examiners under the Industrial Loan Law.
- 4.2 personnel years and \$215,000 from reimbursements to reduce salary savings in order to fill reimbursable positions.

## Authority

Financial Code, Part 5, Divisions 3, 5, 6, 7, 9, 10, 11.  
California Administrative Code, Title 10, Sections 900-997, 1100-1299, 1400-1570, 1700-1805.

Expenditures (Reimbursements).....	38.6	55.9	56.6	\$2,546	\$3,744	\$3,955

## 20.40 Industrial Loan Law

## Program Element Statement

This element is responsible for ensuring that the operation of each industrial loan company is consistent with the requirements of the law. Financial reports are reviewed and financial examinations are conducted to ensure each licensee's financial stability and to protect the public's investment.

The Department's budget includes a fund condition statement for the Industrial Loan Special Fund to reflect full payment of a private loan guaranteed by the State. The private loan was secured in 1985-86 to pay the account holders of an industrial loan company closed by the Department due to substantial loan losses. Chapters 140 and 142, Statutes of 1985, provided \$63 million as a State guarantee of the private loan.

## 2180 DEPARTMENT OF CORPORATIONS—Continued

## 30 HEALTH CARE SERVICE PLAN PROGRAM

## Program Objectives Statement

The primary objective of this program is to promote the delivery of health and medical care to the people of the State of California who enroll or subscribe for the services rendered by a health care service plan or a specialized health care service plan.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- 5.0 personnel years and \$108,000 in reimbursements to fund consultants to assist in medical surveys.
- 2.8 personnel years and \$137,000 from reimbursements for additional legal staff.
- \$23,000 in reimbursements for additional out of state travel.
- 2.0 personnel years and \$97,000 in reimbursements to reduce salary savings in order to fill reimbursable positions.

## Authority

Health & Safety Code, Sections 1340-1399.64 inclusive.

Program Requirements	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Continuing program costs .....	54.7	68.6	67.4	\$4,172	\$4,213	\$4,428
Workload adjustments .....	—	—	9.8	—	—	314
Totals, Health Care Services Expenditures (Reimbursements) .....	54.7	68.6	77.2	\$4,172	\$4,213	\$4,742

## 30.10 Licensing

## Program Element Statement

The licensing element assures the public that all health care service plans are structured to effectively operate and provide the appropriate level of health and medical care services. All health care service plans must apply, qualify for and receive a license from the Department of Corporations prior to beginning operations.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Reimbursements) .....	23.6	26.8	30.0	\$2,016	\$1,616	\$1,819

## 30.20 Financial Examinations

## Program Element Statement

This element conducts examinations and makes an appropriate determination that each health care service plan is financially stable and that medical decisions are not hindered by fiscal or management constraints. Each plan's financial solvency is monitored through periodic examinations and review of required financial and statistical reports.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Reimbursements) .....	9.4	20.7	20.9	\$974	\$1,312	\$1,476

## 30.30 Medical Survey

## Program Element Statement

This element conducts the required onsite medical survey of the health delivery system of each plan at least once every five years. The survey includes a review of the procedures for obtaining health services, the procedures for regulating utilization, peer review mechanisms, internal procedures for assuring quality of care, and the overall performance of the plan in providing health care benefits and meeting the health needs of the subscribers and enrollees.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Reimbursements) .....	10.4	9.8	14.9	\$731	\$665	\$801

## 30.40 Enforcement

## Program Element Statement

This element investigates complaints received against health care service plans. If an investigation establishes that there has been a violation of the law, the Commissioner may suspend or revoke the license or assess civil penalties.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Reimbursements) .....	11.3	11.3	11.4	\$451	\$620	\$646

\* Dollars in thousands, excluding salary range.

## 2180 DEPARTMENT OF CORPORATIONS—Continued

## 50 ADMINISTRATION

## Program Objectives Statement

The Administration Division is charged with preparing the budget and supportive materials, negotiating leases and contracts, maintaining financial records and providing central personnel services.

## 2200 DEPARTMENT OF COMMERCE

The Department of Commerce serves as the primary State agency for promoting business development and job creation efforts in California. The Department works closely with domestic and international businesses of all sizes, economic development corporations, chambers of commerce, regional visitor and convention bureaus, and the various permit-issuing state and municipal government agencies to improve California's economic climate.

## 10 BUSINESS DEVELOPMENT

## Program Objectives Statement

The primary objectives of this program are to attract new business and industry to California and to assist and encourage the expansion of businesses located within the State. Major activities include: (1) providing market services and economic data to assist businesses seeking to expand or establish new facilities; (2) identifying types of industries with the greatest potential for growth; (3) identifying obstacles to economic growth and recommending solutions; (4) developing a statewide strategy and promotional program for industry location based on regional needs and resources; (5) serving as a liaison between the business community and government; and (6) providing assistance to businesses in expediting necessary permits and approvals.

## 2200 DEPARTMENT OF COMMERCE—Continued

## 15 CALIFORNIA FILM COMMISSION

## Program Objectives Statement

This program is responsible for promoting and increasing the production of motion pictures and television programs and commercials within the state. The California Film Commission provides film location assistance, including the development of location information, location sites, photographs, brochures and production handbooks in addition to issuing location permits to film companies. It is responsible for the development of a marketing and promotion plan for filmmaking and for working with local communities to establish local film development programs.

## Authority

## 20 COMPETITIVE TECHNOLOGY

## Program Objectives Statement

This program provides grants for nonprofit technology transfer projects. The program also advises the Governor and the Legislature on technology transfer matters and establishes a liaison between state government, state research universities and national laboratories. It also enhances the state's competitiveness by transferring technological research into commercial products.

## Budget Adjustments

For 1991-92, 6.7 PYs and \$644,000 are proposed for the Competitive Technology Program to meet workload increases. 3.8 PYs of this amount are contract employees converted to permanent civil service employees.

## Authority

## 30 TOURISM

## Program Objectives Statement

The primary responsibility of this program is to work with the private sector to create employment, increase visitor expenditures and industry-related revenue and stimulate capital investment and development of tourism-related facilities and services. The Office of Tourism develops in-state, domestic and international promotions and publications, conducts sales missions and arranges representation at trade shows. It also provides tourism marketing assistance to local businesses and communities, particularly rural and lesser known locations, and distributes information on California visitor attractions and events.

## 40 LOCAL DEVELOPMENT

## Program Objectives Statement

The primary responsibility of this program is to help the public and private sector work together to diversify and strengthen local economies and provide jobs for local residents. The program also provides financial packaging and technical assistance services to help local government officials, development practitioners, and private sector interests build local economies with ample and diversified employment opportunities.

## Budget Adjustments

For 1990-91, the following adjustments are included:

- 1.2 PYs were added for the Main Street Program by converting contract employees to permanent civil service employees.
- 1.5 PYs are being rebudgeted to permanent positions from temporary help positions for the Economic Adjustment Unit.

For 1991-92, the following adjustments are proposed:

- 2.0 PYs are proposed for the Main Street Program by converting contract employees to permanent civil service employees.
- 3.0 PYs are proposed to be rebudgeted to permanent positions from temporary help positions for the Economic Adjustment Unit.

## 50 SMALL BUSINESS

## Program Objectives Statement

The primary responsibility of this program is to aid in the economic development of small businesses by making available capital, management assistance and other resources, including loan services, personnel and business education to small business entrepreneurs. Major activities include: (1) administration of the State Loan Guarantee Program which permits banks and other financial institutions to make loans to businesses which are unable to obtain loans through traditional channels; (2) administration of direct loan programs including farm loans, hazardous waste reduction equipment loans and energy conservation equipment loans; and (3) information, management and technical assistance for small businesses through: (a) the Small Business Development Center Program, (b) providing information about regulations, licenses and procedures to start a small business, (c) publishing and distributing guidebooks, manuals, newsletters, brochures or other materials which relate to small business issues, (d) providing general assistance to small businesses that are experiencing problems with State agencies, and (e) producing and co-sponsoring small business conferences in California.

\* Dollars in thousands, excluding salary range.

## 2200 DEPARTMENT OF COMMERCE—Continued

## Budget Adjustments

For 1990–91, the following adjustments are included:

- 0.3 PY and \$35,000 in reimbursements from the California Pollution Control Financing Authority (CPCFA) to conduct environmental technical assessments.
- 0.8 PY and \$1,440,000 from a federal grant for the expansion of the California Small Business Development Center Program.

For 1991–92, the following adjustments are proposed:

- 1.0 PY and \$73,000 in reimbursements from the CPCFA to conduct environmental technical assessments.
- 1.0 PY and \$1,000,000 from the General Fund to match \$4,023,000 from a federal grant for the expansion of the California Small Business Development Center Program.
- \$4,000,000 from the Underground Storage Tank Cleanup Fund to expand the small business loan program for the replacement of underground petroleum storage tanks.

## 60 ECONOMIC RESEARCH

## Program Objectives Statement

The primary responsibility of this program is to provide analysis, research, and other support activities that are necessary to achieve the overall goals of the Department. Major activities include: (1) gathering, analyzing, interpreting and publishing information on the economy; (2) preparing studies on the economic potential for job creation of various types of businesses and industries; (3) advising the Governor and Legislature on the economic impact of government policies and regulations; (4) providing technical assistance to other state agencies in the development of economic data; (5) disseminating economic and demographic data on the state and its subunits and (6) responding to inquiries from the public concerning the California economy.

## Authority

## 70 ADMINISTRATION

## Budget Adjustments

For 1990-91, 0.7 PY was converted to permanent position from temporary help.

For 1991-92, the following adjustments are proposed:

• 1.0 PY is proposed to be rebudgeted to a permanent position from temporary help.

• \$20,000 for administrative support to the Underground Storage Tank Replacement Loan Program per Chapter 1366/90. These funds will be used to rebudget a 0.5 Graduate Student Assistant to a 0.5 Staff Counsel.

## 2222 STATE ASSISTANCE FUND FOR ENTERPRISE, BUSINESS AND INDUSTRIAL DEVELOPMENT CORPORATION

### Program Objectives Statement

The State Assistance Fund for Energy, California Business and Industrial Development Corporation (Organizational Code 3300) was renamed the State Assistance Fund for Enterprise, Business and Industrial Development Corporation (SAFE-BIDCO) by Chapter 1040, Statutes of 1989. The Corporation provides financial assistance to small businesses. In addition, this chapter requires the SAFE-BIDCO to comply with the provisions of the Small Business Development Law (Chapter 1 of Part 5 of Division 3 of the Corporations Code). This law requires that SAFE-BIDCO submit an annual report of its activities to the Small Business Development Board in the Department of Commerce.

The board of directors of the Corporation consists of seven members: the Secretary of the Business, Transportation and Housing Agency or designee; a member of the Energy Commission; the chairperson of the Small Business Development Board or the designee; and four public members. The Board is responsible for setting financial and administrative policy.

The fundamental objective of SAFE-BIDCO is to stimulate the creation of jobs and new economic activity through assistance to small businesses. In pursuing this objective, the Corporation receives loan applications, primarily from small businesses throughout the north coast area of the State, and makes loans only to those who cannot obtain financing from private sources. Though its clientele is limited, the Corporation is nevertheless obliged to do business only with those companies which are credit worthy and capable of repaying their loans. The Corporation is licensed and regulated by the Department of Banking and is authorized to make loans under the Small Business Administration 7-a Loan Guarantee program. The enabling legislation permits the Corporation to supplement its lending capital through the sale of loans to private investors. Such sales are facilitated by the use of U.S. Small Business Administration and other government loan guarantees.

In the 1984-85 fiscal year, the Corporation converted the loan repayment schedule to the State Energy Loan Fund (renamed the State Enterprise Loan Fund by Chapter 1040, Statutes of 1989) from a quarterly to an annual basis. Annual repayments were made on June 30 of each year. Therefore, revenue in the form of loan repayments was not available in the year of receipt but became available only in the following fiscal year. The appropriation allowed SAFE-BIDCO to reborrow its payment to use for new loans. Beginning in 1989-90, Chapter 1040, Statutes of 1989, forgave the payment of interest on loans. As a result, the need for an appropriation to reborrow the payment for new loans is no longer necessary.

<sup>1</sup> This fund contains tax proceeds subject to the State Appropriations Limit, Article XIIIB of the Constitution. In addition to the amounts reflected as expenditures in this statement, appropriations subject to the limit are adjusted for increases or decreases in the fund's Reserve for Economic Uncertainties and do not include any amounts expended for debt service, subventions to local government, compliance with federal or court mandates and from appropriations made in previous years (carryovers). Additional information on the State Appropriations Limit is provided in the Governor's Budget Summary.

## 2225 UNITARY FUND PROGRAMS

The Unitary Fund was established by Chapter 660, Statutes of 1986, to address some of the state's infrastructure and economic development needs. The Fund's revenue is derived from annual payments by banks and corporations that elect the "water's edge" method of taxation. Two-thirds of the annual payments are deposited in the Fund's Future Infrastructure State Targeted Account (FISTA) and one-third in the Fund's Local Project Account for Non-Transient Spending (LPANS).

Eighty percent of the funds deposited in the FISTA are reserved for use of the California Development Review Panel (CDRP), and twenty percent is to be used for support of various export programs and the California Small Business Bond Insurance Corporation, created by Chapter 660.

The CDRP, composed of the Secretary for the Business, Transportation and Housing Agency, the Secretary for the Resources Agency, the Secretary for Environmental Affairs, a member of the Senate and a member of the Assembly, is responsible for establishing the selection criteria for projects to be supported by the FISTA, selecting the projects to be funded and allocating funds appropriated by the Legislature. Thirty percent of the funds appropriated for this purpose must be set aside for rural projects, and no more than fifty percent may be used for direct grants; at least fifty percent of the allocations must be in the form of loans.

The use of LPANS funds was not specified in Chapter 660; however, as with FISTA funds, the expenditure of LPANS funds is contingent on an appropriation by the Legislature.

Consistent with Chapter 1558, Statutes of 1988, \$2,000,000 of Unitary Fund revenue will be transferred to the Supercomputer Center Account in 1991-92 for expenditure on a graphics facility at the San Diego Supercomputer Center.

Chapters 601 and 586, Statutes of 1990 stipulate that if pending litigation results in a finding that collection of the unitary fee is unconstitutional, then an appropriation is made to the Franchise Tax Board from the Unitary Fund and the General Fund to repay all election fees deposited in the Unitary Fund for which a court has ordered refunds.

### MAJOR BUDGET ADJUSTMENTS

For 1991-92, the Governor's Budget proposes the following:

- \$1,900,000 to continue the Tourism Program, Department of Commerce.
- \$1,000,000 to continue the Agricultural Export Program, Department of Food and Agriculture.
- \$1,000,000 for expansion of the Export Finance Office—Loan Guarantee Program, California State World Trade Commission.

In addition to these amounts, \$3.5 million is set aside for a legislative appropriation to provide the State's contribution toward a promotion pavilion at the 1992 World's Fair. It is proposed that the remaining balance of the Unitary Fund, \$15.6 million, be transferred to the General Fund as of June 30, 1992.

## 2240 DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT

The Department's objectives are to guide, support and, where appropriate, direct the public and private sectors in the provision of a decent home and living environment for every Californian. To accomplish these objectives, the Department engages in two major activities: (1) the analysis and implementation of building codes and the enforcement of standards for the construction of manufactured homes, and (2) the administration of various housing development and rehabilitation programs, with particular attention paid to meeting the needs of low-income and other disadvantaged groups.

The Department provides both technical assistance in housing development through its staff, and direct grants or loans to local government and nonprofit housing agencies.

In June 1988, the California electorate approved the passage of Proposition 77, known as the California Earthquake Safety and Rehabilitation Bond Act of 1988. The Act authorizes the sale of \$150 million of general obligation bonds to rehabilitate housing for low-income persons. The Act specifies that \$80 million will be targeted for loans to reinforce masonry for multi-family residential structures and the remaining \$70 million will be used to rehabilitate single and multi-family residences owned or occupied by low-income households.

In November 1988, a second bond measure, entitled the Housing and Homeless Bond Act of 1988 (Proposition 84), was approved by the electorate. This measure authorizes the issuance of \$300 million of general obligation bonds, \$200 million of which will be used for the Rental Housing Construction Program to construct affordable housing for low-income households. The remaining \$100 million will be used for the Special User Housing Rehabilitation Loan Program (\$25 million), the Emergency Shelter Program (\$25 million), the Migrant Housing Program (\$10 million), the Home Purchase Assistance Program (\$25 million) and Family Housing Demonstration Program (\$15 million).

In June 1989, the California electorate approved the Housing and Homeless Bond Act of 1990 (Proposition 107). This act authorizes \$125 million in general obligation bonds, \$100 million of which will be used for the Rental Housing Construction Program, to construct affordable housing for low-income households. The remaining \$25 million will be used for the California Housing Rehabilitation Program (\$15 million) to rehabilitate residential hotels and for the Emergency Shelter Program (\$10 million).

## 10 CODES AND STANDARDS PROGRAM

## Program Objectives Statement

The objectives of the Codes and Standards Program are to: (1) protect the public's health, safety, and general welfare related to residential construction and (2) enhance the effectiveness of statewide standards and regulatory programs. This program has broad responsibility for the development and administration of regulations designed to provide safe and sanitary housing for the California public and for residents of employee housing.

## Budget Adjustments

For fiscal year 1991-92, the Department proposes the following changes:

- \$144,000 and 1.9 personnel years to perform the required enforcement activities of the Employee Housing Act.
- \$863,000 and 11.4 personnel years to provide the mobilehome park inspections mandated by Chapter 1175, Statutes of 1990 (AB 925).
- \$73,000 for the prorated share of a rent increase due to the inclusion of data wiring cost in the lease agreement.

## 10.11 Housing Standards

## Program Element Statement

The Housing Standards element includes responsibility for the (1) State Housing Law, (2) Employee Housing Act, and (3) Mobilehome Parks Act. Earthquake Protection Law requirements are also administered through this element. The element is charged with reviewing and establishing building code requirements to minimize housing costs and conserve existing housing stock while protecting the public's welfare. The program establishes minimum standards for the design, construction, maintenance, use, and occupancy of structures and mobilehome/RV parks used for human habitation. The program is responsible for ensuring that safe and sanitary housing is provided for occupants of farmworker housing, labor supply camps and other employee housing. The Program establishes regulations to administer and enforce the Mobilehome Parks Act, establishing uniform standards necessary for installation of mobilehomes and their accessory structures and for the conditions within mobilehome parks throughout California.

The State is the designated enforcement agency for the Employee Housing Act and the Mobilehome Parks Act, except where a city or county has assumed responsibility for either act. There are approximately 3,675 labor camps in California, of which approximately 60% are under State jurisdiction.

The Housing Standards Program provides assistance and technical support to local jurisdictions, architects, developers, mobilehome owners and park owners; monitors local enforcement activities to assure uniform interpretation and compliance with State law; and provides engineering and plan review services for the Mobilehome Park component.

## 10.21 Manufactured Housing

## Program Element Statement

The Manufactured Housing element is responsible for: (1) enforcement of Federal or State standards and regulations relating to the construction and safety of manufactured homes, mobilehomes, commercial coaches, special purpose commercial coaches, and recreational vehicles by reviewing construction plans and conducting inspections; (2) administration and enforcement of occupational licensing requirements for manufactured home,

\* Dollars in thousands, excluding salary range.

## 2240 DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT—Continued

mobilehome and commercial coach manufacturers, dealers, transporters, distributors and salespersons, including examinations, application review and license issuance or denial, and development of regulations; (3) development and enforcement of regulations governing the business and sales activities of manufactured home, mobilehome and commercial coach manufacturers, dealers, distributors, transporters and salespersons; (4) investigation of consumer complaints relating to all of these activities including action to obtain corrections and compliance with all laws and regulations; (5) administration of preliminary and continuing education for manufactured home and mobilehome dealers and salespersons, including development of regulations, review and approval of educational programs and instructors, and monitoring compliance with the educational requirements of law; (6) administration of the Mobilehome Recovery Fund including evaluating claims against the fund; and (7) administration of a third-party enforcement program, including development of regulations, application review and approval or denial of third-party enforcement applications, and monitoring of third-party performance.

The Manufactured Housing Registration and Titling Program is administered through this element and includes the following activities: enforcement of statutes regulating the registration and titling of mobilehomes, manufactured homes, commercial coaches, floating homes and truck campers; processing of annual registration renewals, as well as changes in registered and legal ownership; and dissemination of registration and titling information to county assessors, other state agencies and the public.

The Factory-Built Housing Law is also administered through this element and includes regulation of the design, manufacture, and inspection of factory-built dwelling units and dwelling unit components.

## 20 COMMUNITY AFFAIRS PROGRAM

## Program Objectives Statement

The objectives of this program are to promote the development of local communities and to facilitate, and where appropriate, participate in the provision of an adequate supply of housing to meet the needs of low-income State residents as well as identified target populations. The Division of Community Affairs' 23 programs provide grants, loans and technical assistance to local government agencies, nonprofit corporations and for-profit corporations to support the legislative mandate of a decent home and suitable living environment for every Californian.

## Budget Adjustments

For fiscal year 1990-91, the following budget adjustments are proposed:

- An increase of \$32.2 million will be authorized to provide assistance to victims of the Loma Prieta earthquake.

For fiscal year 1991-92, the following budget adjustments are proposed:

- An increase of \$33.1 million will be authorized to provide assistance to victims of the Loma Prieta earthquake.
- An increase of \$4.2 million will be authorized to provide assistance to victims of other natural disasters in California.
- \$25,000 for the prorated share of a rent increase due to the inclusion of data wiring cost in the lease agreement.
- \$3 million California Housing Trust Fund allocation to the Emergency Shelter Program (\$2 million) and the Office of Migrant Services (\$1 million).

## 2240 DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT—Continued

## 20.12 Loan Unit

## Program Element Statement

The Loan element administers seven housing finance programs which provide technical and financial assistance to sponsors of low- to moderate-income housing developments to facilitate the development of new housing and the rehabilitation of existing units. These programs are:

The California Homeownership Assistance Program, through local government agencies, provides shared appreciation mortgage loans to income-eligible first-time homebuyers whose mobilehome park spaces or apartments are being converted to condominium or stock cooperatives; to income-eligible first-time home buyers of mobilehomes and factory-built housing units on permanent foundations; and to non-profit or stock cooperative corporations to develop or purchase a mobilehome park which will be resident-owned.

The California Self-Help Housing Program provides technical assistance grants, construction financing and mortgage subsidies to encourage and enable low- and moderate-income households to build and rehabilitate their own homes.

The Mobilehome Park Assistance Program provides technical assistance and both short-term and long-term loans to enable low-income mobilehome park residents to purchase and convert their mobilehome parks to resident ownership and control.

The Predevelopment Loan Program provides technical assistance and loans to public agencies and nonprofit sponsors of low-income housing for a variety of predevelopment expenses, including site acquisition, site development, and architectural, engineering, legal and consultant fees.

The Farmworker Housing Grant Program provides grants to local governments and nonprofit agencies to assist in the development and rehabilitation of housing for farmworkers and their families.

The Immigration Control and Reform Act Program provides reimbursement funds from the Federal government to Department-administered programs that serve eligible legalized aliens.

The Federal Petroleum Violation Escrow Account will be used for the rehabilitation of farmworker housing, and the rehabilitation of residential hotels, and rental housing for the elderly and handicapped.

## 20.22 Grant Unit

## Program Element Statement

The Grant element consists of ten programs that provide grants, supportive services and technical assistance to meet the needs of low-income persons throughout the State.

The State Community Development Block Grant Program provides funds for housing development and rehabilitation, public facilities projects, economic development activities and other community development purposes. Thirty percent of the funds are set aside for economic development activities; one percent for Native American activities; approximately fifty-seven percent of the funds are set aside for housing and public work activities; ten percent for planning/technical assistance from both the Economic Development Allocation and the General Allocation, and two percent for administrative support.

The Rural Development Assistance Program provides targeted, on-site technical assistance to rural communities in resolving locally-identified problems. Assistance is provided in the areas of housing development and rehabilitation, public services, public facilities and economic development.

The Rural Community Facilities Technical Assistance Program assists rural low-income communities to resolve their domestic water or wastewater problems utilizing various local, State and Federal programs that are available for the development and construction of community facilities.

The California Indian Assistance Program provides technical assistance to service the community development and housing needs of California Indian communities by leveraging various State and Federal grant programs.

The Rental Rehabilitation Program provides grant funds to local government agencies for the rehabilitation of rental properties to make the rehabilitation of privately-owned market rental properties feasible. The program targets units that are likely to remain affordable for a reasonable period of time, based on market conditions.

The Section 8 Housing Assistance Program provides housing assistance payments through local agencies to developmentally, mentally and physically disabled adults and to low-income households in rural areas.

The Federal Emergency Shelter Grants Program provides grants to local government agencies and nonprofit organizations for activities relating to the provision of emergency shelter to homeless persons and families.

The Senior Citizens Shared Housing Program provides grants to local government agencies and nonprofit corporations to assist seniors in finding others with whom they can share housing.

The Emergency Shelter Program provides direct grants to local government agencies and nonprofit corporations to provide emergency shelter for the homeless. Components of the Emergency Shelter Program include the Housing Rental Deposit Guarantee Demonstration Program, which provides grants to emergency shelter operators to assist homeless families to obtain permanent housing by providing contractual guarantees to landlords in lieu of security deposits, and the Natural Disaster Assistance Loan Program element.

## 2240 DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT—Continued

## 20.32 Rehabilitation Unit

## Program Element Statement

The Rehabilitation element administers four programs that provide financing for the acquisition and/or rehabilitation of apartments, group homes, and single-room occupancy residential hotels, including loans for the seismic rehabilitation of unreinforced masonry multi-unit residential structures, and the rehabilitation of owner-occupied residential units. This element receives funding from the California Earthquake Safety and Housing Rehabilitation Bond Act of 1988 (\$150 million), the Housing and Homeless Bond Acts of 1988 (\$25 million) and 1990 (\$15 million), Federal Trust Funds (\$3.0 million) and other fund sources for use in the Special User Housing Rehabilitation Program (SUHRP).

The California Housing Rehabilitation Program for rental properties provides loans to sponsors for the rehabilitation (including seismic rehabilitation) and/or acquisition of apartments, group homes, and residential hotels for lower-income households. The SUHRP is for rental properties occupied by special user groups including elderly, physically and mentally disabled households. This program is administered in conjunction with the Federal Permanent Housing for the Handicapped Homeless (PHH) Program when the Department receives PHH funds from the U.S. Department of Housing and Urban Development.

The California Housing Rehabilitation Program for owner-occupied properties provides loans to rehabilitate substandard owner units occupied by lower-income households, and technical assistance and training for local rehabilitation programs.

Earthquake Safety and Housing Rehabilitation Bond Account .....				31,786	47,416	45,917
Housing Rehabilitation Loan Fund .....				2,125	1,985	1,266

## 20.42 Rental Unit

## Program Element Statement

The Rental Unit administers three programs that provide assistance to developers of rental housing projects that include units for lower income persons. These programs received a total of \$325 million from the Housing and Homeless Bond Acts of 1988 and 1990, which were passed by voters in November of 1988 and June of 1990.

The Rental Housing Construction Program provides deferred payment low-interest loans to sponsors for the development of new rental units to be occupied by lower-income households. Twenty to thirty percent of the funds must be made available to projects serving the elderly and physically disabled.

The Family Housing Demonstration Program Component provides low-interest loans for the construction, rehabilitation, or acquisition of rental housing projects designed to assist single parents and working parent families. In addition to shelter, developments must contain a social service component that includes job training, on-site day care facilities and local support services. All developments are located near employment centers and public transportation.

The Office of Migrant Services constructs facilities for migrant farmworkers that include housing, child care, and other ancillary structures. Housing authorities operating where the centers are located assist the Department during the construction phase. The Department contracts with these housing authorities to manage the day-to-day activities of the centers once constructed.

Home Building and Rehabilitation Fund .....				66,723	100,443	20,308

## 20.52 Loan Management Unit

## Program Element Statement

The Loan Management element is responsible for the management of loans and grants from the construction phase through the monitoring stage. This element monitors projects from the following loan and grant programs: Rental Housing Construction Program, Family Housing Demonstration Component, California Homeownership Assistance Program, California Self-Help Housing Program, Mobilehome Park Assistance Program, Farmworker Housing Grant Program, California Natural Disaster Assistance Program, Deferred Payment Rehabilitation Loan Program, Special User Housing Rehabilitation Program and the State Earthquake Rehabilitation Assistance Program.

In addition, this element administers migrant centers located throughout the State that are operated by the Office of Migrant Services. This program provides safe, decent and affordable housing and access to related services, such as child care and summer school, to migrant families during the peak harvest season.

This element also contains the Construction and Closeout Subunit, which provides construction and inspection services to all rehabilitation and new construction programs, including the preparation of building specifications, review of cost estimates, architectural drawings and site plans and preparation of independent analyses of project costs, and overall construction or rehabilitation feasibility. This subunit also manages the migrant center construction and replacement housing contracts.

2240 DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT—*Continued*

## 20.62 Disaster Assistance Loan Programs

## Program Element Statement

The Disaster Assistance programs were created by Chapters 4X and 6X (Statutes of 1989) in response to the Loma Prieta earthquake on October 17, 1989. A total of \$74 million was appropriated to the programs listed below.

The California Natural Disaster Assistance Program provides last resort financing in the form of low-interest, deferred payment loans for the rehabilitation or reconstruction of owner-occupied or rental housing damaged or destroyed as a result of a natural disaster. Originally established to respond to the Loma Prieta earthquake, this program is available to assist victims of disasters that occur in areas declared by the Governor to be in a state of emergency. A total of \$64 million was initially made available to this program.

The Natural Disaster Farmworker Housing Program received a one-time appropriation of \$1.5 million for the rehabilitation of housing occupied by farmworkers who were impacted by the earthquake.

The Natural Disaster Office of Migrant Services received a one-time \$1 million appropriation to repair damage to migrant facilities owned by the state that were damaged during the earthquake.

The Natural Disaster Predevelopment Loan Program received one-time appropriations of \$1 million to assist rural areas and \$1 million to assist urban areas with predevelopment expenses associated with the repair of earthquake-damaged housing.

The Natural Disaster Rental Security Deposit Guarantee Program received a one-time \$500,000 appropriation to provide grants to organizations to assist earthquake victims who are unable to provide a security deposit at the time they move into a property.

## Budget Adjustments

For fiscal year 1990-91, the budget reflects an augmentation of \$32,200,000 from the General Fund as local assistance to assist victims of the October 17, 1989 Loma Prieta earthquake.

For fiscal year 1991-92, the following adjustments are proposed:

- \$33,100,000 from the General Fund to assist victims of the October 17, 1989 Loma Prieta earthquake.
- \$4,200,000 from the General Fund to assist victims of natural disasters other than the Loma Prieta earthquake.

## 20.72 Housing Replacement Program

## Program Element Statement

The Century Freeway Housing Program was established in compliance with provisions of the Federal Court Consent Decree (*Keith v Volpe*, U.S. District Court, Civil No. 72-355 H.P.) which mandated a housing program of approximately 3,500 housing units to counteract the effects of housing lost as a result of the construction of the I-105 Freeway in Los Angeles. The Los Angeles-based office is charged with the implementation of a housing program that will serve displaced residents and other low- and moderate-income households from this geographic region.

Expenditures (Reimbursements) .....	55.3	66.1	66.1	\$4,872	\$6,053	\$6,134

## 30 HOUSING POLICY DEVELOPMENT PROGRAM

## Program Objectives Statement

The objective of the Housing Policy Development Division is to formulate and evaluate housing policies that, when implemented, will create an environment conducive to meeting the housing needs of the state's population. These policies respond to issues and circumstances that may affect public or private involvement in the provision of affordable housing. Additional responsibilities include long-range planning for meeting California's housing needs, technical assistance to local governments in addressing their housing needs, analysis of local implementation of State policies and housing laws, legislative analysis, and completion of the biennial Statewide Housing Plan and other mandated reports.

## Budget Adjustments

For fiscal year 1991-92, the Department proposes the following change:

- \$38,000 from bond funds and 0.9 personnel year to support the additional housing element review workload, pursuant to Propositions 77 and 84 bond-funded housing finance programs.
- \$150,000 and 1.9 positions to respond to the increased workload resulting from Chapter 1441, Statutes of 1990 (SB 2274).

## 50 ADMINISTRATION PROGRAM

## Program Objectives Statement

This program includes the Directorate, Legal Affairs Office and the Administration Division. The Directorate provides policy and management direction to the Department. The Legal Affairs Office provides the legal expertise and support needed to carry out programs. The Administration Division provides services in the areas of personnel, budgets, data processing, contract management, audits, accounting, business services, and training.

## Budget Adjustments

For fiscal year 1991-92, the Department proposes the following changes:

- \$62,000 and 0.9 personnel year to develop, implement and support a Workload Activity Reporting System (WARS) for the Division of Community Affairs.
- \$98,000 for a rent increase, prorated to the programs, due to the inclusion of data wiring cost in the lease agreement.

## Authority

Health and Safety Code Section 50402.

<sup>2</sup> This fund contains tax proceeds subject to the State Appropriations Limit, Article XIIIB of the Constitution. In addition to the amounts reflected as expenditures in this statement, appropriations subject to the limit are adjusted for increases or decreases in the fund's Reserve for Economic Uncertainties and do not include any amounts expended for debt service, subventions to local government, compliance with federal or court mandates and from appropriations made in previous years (carryovers). Additional information on the State Appropriations Limit is provided in the Governor's Budget Summary.

\* Dollars in thousands, excluding salary range.

## 2260 CALIFORNIA HOUSING FINANCE AGENCY

The primary purpose of the California Housing Finance Agency is to meet the housing needs of persons and families of low and moderate income. The primary functions of the Agency are to sell tax-exempt bonds and use the proceeds to finance housing at below-market interest rates by: (1) making construction loans and mortgage loans to qualified borrowers to finance housing developments, or purchasing such loans from qualified mortgage lenders and (2) purchasing loans originated and serviced by qualified mortgage lenders.

In addition to increasing the supply of affordable housing, the Agency's financing activities provide a stimulus to the State's economy which results in additional employment opportunities and increased income to California residents.

The Agency may: (1) provide technical services in connection with the financing of housing developments; (2) act as a State representative in receiving and allocating federal housing subsidies; and (3) under certain circumstances make grants to housing sponsors, provided that grants are not made with the proceeds of the sale of bonds or notes.

The Agency is fiscally self-supporting, meeting its operating expenses by setting loan interest rates slightly above the interest cost on bonds and charging fees for specific services.

The Agency is administered by an 11-member Board of Directors representing various segments of the housing industry and State government officials. Ex-officio members include the State Treasurer, the Secretary of Business, Transportation, and Housing and the Director of the Department of Housing and Community Development. The Board of Directors adopts an annual budget each year which is presented for review to the Secretary of the Business, Transportation, and Housing Agency, the Director of Finance, and the Joint Legislative Budget Committee. The Board has not yet adopted a final budget for 1991-92. The budget presented here reflects the full year cost of the approved level for 1990-91, including increases in employee compensation provided in the 1990-91 fiscal year. In November 1988 and June 1990, the voters enacted the Housing and Homeless Bond Acts of 1988 (Proposition 84) and 1990 (Proposition 107), respectively. Among the provisions contained in these Acts is the authority for the State to issue a total of \$50 million in general obligation bonds for the Home Purchase Assistance Program to help low-income persons buy their first homes. These are not California Housing Finance Agency bonds or obligations, but the Agency does administer the program on behalf of the State.

## 2265 CALIFORNIA HOUSING INSURANCE

The goal of the California Housing Insurance program is to encourage and facilitate the preservation of existing housing and improve housing opportunities for persons of low and moderate income.

In 1977, Chapter 610/77 established a program for bond and loan insurance. The program was initially funded with a \$5 million appropriation and a \$5 million loan from the General Fund. The loan has since been fully repaid. All money in the fund is continuously appropriated for the purposes of insuring loans and bonds pursuant to the program.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 2265 CALIFORNIA HOUSING INSURANCE—Continued

To fill the void created for mortgage insurance for the low and moderate income housing market, the fund currently insures California Housing Finance Agency's single family loans and has earned a claims-paying ability credit rating equivalent to that of a private mortgage insurance company. The fund expects to insure \$1.2 billion in mortgages during its first five years of market operation. It is self-supporting and depends upon neither the faith and credit nor the taxing power of the State of California to operate. The Board has not yet adopted a final budget for 1991-92. The budget presented here reflects the full year cost of the approved level for 1990-91, including increases in employee compensation provided in the 1990-91 fiscal year.

## 2290 DEPARTMENT OF INSURANCE

The principal objective of the Department of Insurance is to protect insurance policyholders in the State. To accomplish this objective, the Department conducts examinations of insurance companies and producers to ensure that operations are consistent with the requirements of the Insurance Code. In addition to the current objectives of the Department, the passage of Proposition 103 in November 1988, places additional responsibility on the Department. This measure makes major reforms on business conducted in the State by the insurance industry and requires the Department of Insurance to implement and monitor these reforms.

## 10 REGULATION OF INSURANCE COMPANIES AND INSURANCE PRODUCERS

## Program Objectives Statement

The objectives of this program are: (1) to prevent losses to policyholders, beneficiaries or the public due to the insolvency of insurers, (2) to prevent unlawful or unfair practices by insurers as defined by the Insurance Code, and (3) to protect the general public and policyholders from discriminatory, unlawful or fraudulent practices as well as incompetence relating to the sale of insurance. To accomplish the objectives of this program, the Department conducts field examinations, regulates rates, maintains solvency surveillance, regulates proxy solicitations, manages financially distressed companies, admits qualified companies, maintains surveillance of admitted companies, reviews policy forms, investigates consumer complaints, and assures that producers are properly qualified and licensed.

## Budget Adjustments

For 1991-92, the following budget adjustments are proposed:

- \$553,000 and 7.6 personnel years to accommodate workload increase in the Life/P&C Bureau.
- \$39,000 and 0.9 personnel years to accommodate workload increase in the Reinsurance Bureau.
- \$446,000 and 2.8 personnel years for implementation of Chapter 1420 of the Statutes of 1990.
- \$90,000 and 0.98 personnel years for implementation of Chapter 410 of the Statutes of 1990.
- \$111,000 for the prorated share of adjustments referenced in Administration program.

## 10.10 Regulation of Insurance Companies

## Program Element Statement

The main objective of this element is to prevent losses to policyholders. Examinations are conducted to assure that insurance companies are financially solvent and fair in administering their operations and are in compliance with the Insurance Code.

Under this element, the Department of Insurance disseminates information to the public, handles written complaints, general telephone inquiries, walk-in interviews and general correspondence. Additionally, the department conducts market conduct examinations to determine which companies' claims and underwriting practices are not in conformance with the Insurance Code. Further, the division conducts rate and field examinations to enforce the California Rating Law.

Expenditures (Insurance Fund)	345.0	469.3	478.6	\$44,711	\$52,433	\$53,351

## 10.20 Regulation of Insurance Producers

## Program Element Statement

The objective of this element is to protect the general public and insurance policyholders in this state from discriminatory, unlawful or fraudulent practices as well as incompetence relating to the sale of insurance.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Insurance Fund)	114.4	115.9	118.8	\$7,748	\$8,326	\$8,654

## 20 FRAUD CONTROL

## Program Objectives Statement

The objective of this program is to control insurance fraud. A staff of investigators conduct investigations and prepare fraud cases for presentation. When the case file is completed, it is referred to the appropriate district attorney for the issuance of criminal complaints. This program also provides for local assistance to local district attorneys for investigation and prosecution of automobile fraud cases.

## Authority

Insurance Code, Sections 12990-12996.

## 2310 OFFICE OF REAL ESTATE APPRAISERS

The Office of Real Estate Appraisers (OREA) will provide a two-tier program for voluntary licensing and certification of real estate appraisers in federally related loan transactions.

This new office, a result of Chapter 491, Statutes of 1990 (AB 527, Hannigan), within the Business, Transportation and Housing Agency will impose a requirement that, effective July 1, 1991, all appraisals for Federally related loans must be conducted by persons either licensed or certified in accordance with applicable state standards. In addition, certain appraisals, because of the size of the real property or complexity involved, must be performed only by a state certified appraiser.

SUMMARY OF PROGRAM REQUIREMENTS	1989-90*	1990-91*	1991-92*

## 10 ADMINISTRATION OF REAL ESTATE APPRAISERS PROGRAM

## Program Objectives Statement

This program conducts the three major activities of the office. These include licensing activities, which ensure that only qualified persons are certified or licensed to conduct appraisals in Federally related real estate loan transactions, compliance activities, which ensure adherence to the applicable laws and regulations by all persons licensed or certified by the state and administration activities, which provide staff support.

## 2320 DEPARTMENT OF REAL ESTATE

The primary objectives of the Department of Real Estate are: (1) to protect the public in offerings of subdivided property; (2) to guarantee that licensed individuals conducting real estate transactions are competent and qualified; (3) to prevent fraud, deceit and misrepresentation in the real estate marketplace by assisting the public through the investigation of complaints; and (4) to educate the public and professional communities regarding the laws and regulations governing the handling of real estate transactions.

## 10 LICENSING AND EDUCATION

## Program Objectives Statement

The main objectives of the Licensing and Education Program are: (1) to ensure that only those persons who meet prescribed qualifications are licensed; (2) to renew licenses for individuals who maintain qualifications by updating their technical knowledge through required continuing education; and (3) to enforce standards of legal and ethical conduct established for such licensees. Dealing in real property is often a once-in-a-lifetime activity for a large segment of the public. The degree of sophistication associated with real estate transactions makes it mandatory that real estate agents are qualified to render services which fully meet the public's needs.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 2320 DEPARTMENT OF REAL ESTATE—Continued

## Budget Adjustments

For 1991-92, the following budget adjustments are proposed:

- \$300,000 to provide for additional funding for education and research projects.
- \$59,000 and 1.9 personnel years to address increased licensing workload.
- \$173,000 to fund increased overtime for the licensing section.
- \$155,000 and 10 personnel years to provide additional proctors to administer additional licensing examinations.
- \$262,000 for the prorated share of increases in the administration program.
- \$4,500,000 to establish endowments for the three higher education segments to provide increased education and research funding.

## Authority

Business and Professions Code, Division 4, Part 1.

10.20 Education .....	8.0	8.0	7.5	1,525	1,598	6,351

## 10.10 Licensing

## Program Element Statement

The Licensing element is responsible for preparation of examination questions and the administration of examinations for prospective real estate licensees. License examinations serve as California's lawful basis for determining individual competency. All examinations are scored and notices of test results are sent to applicants. Successful applicants may apply for an original salesperson or broker license. Licenses may be renewed when ongoing educational requirements have been met.

## 10.20 Education

## Program Element Statement

The main objectives of the Education element are: (1) to coordinate departmental research projects and (2) to process continuing education and broker course applications for approval. Course approval activities are directed toward maintaining uniformity of study programs in real estate subjects required by law. Research projects are directed toward all phases of real estate activity that benefit the general public and professional licensees.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Real Estate Fund) .....	8.0	8.0	7.5	\$1,525	\$1,598	\$6,351

## 20 REGULATORY AND RECOVERY

## Program Objectives Statement

The Regulatory and Recovery Program is responsible for investigations of complaints filed by the public and possible infractions noted by the staff or other regulatory agencies. Investigations are done to determine violations of the Real Estate Law. Trust fund commingling and conversion complaint cases receive investigative audits. Mortgage loan brokers, property management companies and broker-escrows are routinely audited. If the Department's findings justify further action, disciplinary proceedings, including suspension or revocation of a license and/or criminal proceedings, may be initiated to protect the public. The goal of the program is to provide maximum protection for the purchasers of real property and those persons dealing with real estate licensees.

The Department's legal staff is responsible for administration of the Real Estate Recovery Account, which is a fund of last resort to members of the public who have been defrauded by real estate licensees in connection with acts requiring a real estate license. Whenever a person obtains a judgment based on licensee fraud and the licensee is unable to pay the judgment, the victim may file a claim against the Real Estate Recovery Account up to the maximum allowed by law. Recovery claims are investigated by Department staff, and claims are decided by a court of law. When claims are paid out of the fund, the license of the agent on whose account the payment was made is automatically suspended until the recovery account has been repaid with interest.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- An increase of 10.6 personnel years and \$573,000 to address an increase in workload in the legal section.
- An increase of 3.8 personnel years and \$205,000, to address an increase in workload in the audits section.
- An additional \$577,000 is proposed as the prorated share of increases in the administration program.

\* Dollars in thousands, excluding salary range.

## 30 SUBDIVISIONS

## Program Objectives Statement

The Subdivisions Program is directed toward protecting the public from fraud and misrepresentation in the sale or lease of subdivided land. No person may offer to sell or lease interests in a subdivision covered by the Subdivided Lands Law without first filing a notice of intention and obtaining from the Real Estate Commissioner a public report on the subdivision. The public report examines virtually all aspects of the project and requires compliance with specified statutory and regulatory standards. The public report serves two functions aimed at protecting buyers of subdivision interests: (1) the report requires disclosure of material facts and (2) it ensures adherence to applicable standards for creating, operating, financing and documenting the project.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$30,000 and 0.9 personnel year to address an increase in clerical workload in subdivisions.
- \$210,000 for the prorated share of increases in the administration program.

## Authority

Business and Professions Code, Division 4, Parts 1 and 2.

## 40 ADMINISTRATION

## Program Objectives Statement

The Administration Program is responsible for the final review of subdivision regulatory and license transactions, issuance and renewal of licenses, and maintenance of the official files of the Department. Administrative support staff perform the major part of the financial management, personnel, electronic data processing, training, support services and business services activities for the Department.

The Administration program legal staff advises the Commissioner on legal matters and drafts proposed legislation and regulations for administration of the Real Estate Law and the Subdivided Lands Law. Legal staff also represents the Department at disciplinary hearings, and answers inquiries from the public, licensees, and members of the Legislature.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- \$872,000 for implementation of Office Automation.
- \$10,000 to cover costs for the Operations Recovery Plan.
- \$28,000 to increase the Real Estate Bulletin from 8 to 12 pages.
- \$114,000 to upgrade tandem equipment.
- \$25,000 and 1.0 personnel year of Temporary Help to address an increase in workload in the Personnel Section.

## Authority

Business and Professions Code, Division 4, Part 1 and 2.

## 2340 DEPARTMENT OF SAVINGS AND LOAN

The principal objectives of the Department of Savings and Loan are to protect the public's savings and investment funds held by State associations, to assure compliance by associations with laws and regulations including those involving consumer protection and anti-discrimination, and to assure the continued financial growth of these associations consistent with public need and convenience.

## 10 SUPERVISION AND REGULATION

## Program Objectives Statement

The primary objective of this program is to protect the funds deposited in savings and share accounts held in State associations and to assure that the saving and borrowing public is properly and legally served. Supervision and regulation activities are directed at the prevention of conditions or practices which would threaten the safety and solvency of associations or which would be detrimental to public need and convenience. Currently, there is in excess of \$31 billion in savings accounts in State associations. Associations convert these public funds into residential, consumer and commercial building development and construction loans.

## Authority

California Financial Code, Sections 5000 through 11709.

## 10.10 Examination

## Program Element Statement

The primary objectives of this element are to: (1) verify compliance with laws, regulations and directives; (2) evaluate the soundness of operating policies and procedures; and (3) ascertain the financial condition and solvency of each association. Information is obtained from the examination of assets and activities as reflected in books, records and securities of an association, its holding company, service corporations and other related entities.

## Budget Adjustment

The Budget reflects the elimination of 12.3 positions and \$664,000 in 1990-91 and 12.4 positions and \$698,000 in 1991-92 due to anticipated reduction in workload.

## 10.20 Appraisal

## Program Element Statement

This element provides real estate analysis support on examinations by performing appraisals and real estate transaction analysis. This analysis is necessary for transactions which require prior approval, exceed limitations, involve insiders or involve stock exchanged for real estate. This function is performed by physical inspection of the subject real estate and field verification of related information.

## Budget Adjustment

The Budget reflects the elimination of 1.6 positions and \$226,000 in 1990-91 and 2.9 positions and \$116,000 in 1991-92 due to anticipated reduction in workload.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 10.30 Facilities Licensing and Legal Assistance

## Program Element Statement

This element authorizes corporations to conduct a savings and loan business in California, approves branch and agency offices, approves changes of locations, approves mergers and acquisitions of control of existing associations, approves association name changes, approves conversions of federal associations to state associations and enters into service corporation agreements. It is also responsible for legal assistance in promulgating, amending and revising administrative regulations, and in providing interpretations of existing laws and regulations.

## Budget Adjustment

The Budget reflects the elimination of 0.9 position and \$48,000 in 1990-91, and 1991-92 due to anticipated reduction in workload.

## 2600 CALIFORNIA TRANSPORTATION COMMISSION

The California Transportation Commission is primarily responsible for the following activities:

- (1) adopting the State Transportation Improvement Program, which includes an estimate of State & Federal funds expected to be available over a seven-year period for transportation projects and a set of projects prioritized in keeping with statewide interests;
- (2) allocating State funds for capital improvements to specific highway, toll bridge, public mass transportation and aeronautics projects upon readiness for construction, within the constraint of available financial resources;

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 2600 CALIFORNIA TRANSPORTATION COMMISSION—Continued

- (3) recommending funding priorities to the Legislature among the various elements of the State's Mass Transportation program, including State Transit Assistance, Rail Passenger Service and Transit Capital Improvements;
- (4) providing policy guidance to the Administration and Legislature by identifying key issues in the areas of financing, operating and maintaining current and future transportation systems through the Annual Report to the Legislature;
- (5) developing statewide guidelines for mandatory minimum local and private sector financial participation in the funding of various elements of the State's transportation programs; and
- (6) submitting to the Legislature an evaluation of the proposed budget of the California Department of Transportation, its adequacy for contributing to a balanced transportation program and the adequacy of current State transportation revenues, including gasoline and diesel fuel taxes and vehicle weight fees.

The Commission advises and assists the Secretary of the Business, Transportation and Housing Agency and the Legislature in formulating and evaluating State policies and plans for California's transportation programs. The Commission is also an active participant in the initiation and development of State and Federal legislation that seeks to secure financial stability for the State's transportation needs.

The Commission consists of eight members appointed by the Governor, a ninth who represents the California Public Utilities Commission (selected by the Governor from among its members), all appointed to staggered four-year terms, and two non-voting ex officio members, one from the State Senate and one from the State Assembly.

**MAJOR BUDGET ADJUSTMENTS**

In 1991–92, the following changes are proposed:

- Chapter 106 of the Statutes of 1989 (AB 471) created the Environmental Enhancement and Mitigation Program. Under this measure the California Transportation Commission will allocate \$10 million in grants during 1991–92 to local, state and federal agencies and nonprofit entities in order to mitigate the environmental impact of modified or new public transportation facilities.
- 1.5 personnel years are established through a redirection of budgeted funding to increase clerical support services.

## 2650 TRANSPORTATION SERVICES FOR SOCIAL SERVICE RECIPIENTS

The Social Service Transportation Improvement Act (Chapter 1120, Statutes of 1979) was enacted with the intent to improve transportation services for social service recipients by promoting the consolidation of social service transportation services so that the following benefits may accrue: combined purchasing of necessary equipment so that some cost savings due to larger unit purchases can be realized; adequate training of vehicle drivers to ensure the safe operation of vehicles; centralized dispatching of vehicles so that efficient vehicle use results; centralized maintenance of vehicles so that adequate and routine vehicle maintenance scheduling is possible; centralized administration of various social service transportation programs to eliminate duplicative and costly administrative activities; and identification and consolidation of all existing sources of funding for social service transportation services for a more effective and cost efficient use of scarce resource dollars.

The Act specified that the following were to be exempt from consolidation considerations:

- (1) vehicles owned and operated by school districts or employees of school districts;
- (2) individual transportation allowances and recipients of such allowances, as defined in Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code. (Aid for children whose dependency is caused by: (a) death, incapacity, or incarceration of a parent, (b) divorce, separation, or desertion of a parent or parents, or (c) the unemployment of a parent or parents);
- (3) individual transportation allowances and recipients of such allowances, as defined in Article 3 (commencing with Section 17000) of Division 9 of the Welfare and Institutions Code. (Relief and support of incompetent poor, indigent persons, and those incapacitated by age, disease, or accident when such persons are not supported and relieved by their relatives or friends, by their own means, or by State hospitals or other State or private institutions);
- (4) individual transportation allowances and recipients of such allowances, as defined in Article 3 (commencing with Section 12550) of Chapter 4 of Part 3 of the Welfare and Institutions Code. (Special circumstances which are not common to all aged, blind, and disabled recipients which arise out of a need for certain goods or services, and physical infirmities or other conditions peculiar on a nonrecurring basis to the individual's situation); and
- (5) individual transportation allowances and recipients of such allowances, as provided under Title XX of the Social Security Act. (Grants to states for achieving or maintaining economic self-support of individuals to prevent, reduce or eliminate dependency.)

The following display reflects, by activity, program transportation services currently provided by state departments and organizations to five major recipient groups. A single reference mark (†) indicates which groups are recipients of the programs listed. A double reference mark (††) indicates which groups, if any, are the primary recipients of the individual program.

To date, there is no central data collection system that is operational which can provide detailed expenditure or funding source information for each of these particular programs. In this display, an attempt has been made to identify estimated program expenditures through a cooperative effort with each department.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

<sup>1</sup> The Department does not budget funds specifically for client transportation costs. During FY 1991-92, approximately \$84,499,000 will be subvended to counties which in turn contract with private providers for treatment services. The Department does not have line item control over specifically identified transportation services, but only controls the program total.

<sup>2</sup> The Department does not budget funds specifically for client transportation costs. During FY 1991-92, approximately \$122,287,000 will be subvended to the counties which in turn contract with private providers for treatment services. The Department does not have line item control over transportation services, but only controls the program total.

<sup>3</sup> In 1989-90 and 1990-91, these expenditures were funded with State subventions. In 1991-92, the majority of these expenditures will be funded by new revenues made available to local governments.

<sup>s</sup> State funds.

<sup>f</sup> Federal funds.

## 2660 DEPARTMENT OF TRANSPORTATION

The Department of Transportation has four primary programs: Aeronautics, Highway Transportation, Mass Transportation and Transportation Planning.

The Aeronautics program is concerned with airport and heliport safety, better ground access to airports, funding for improvements to airports and noise control. The program also helps small and medium-sized communities acquire and maintain air service.

The Highway Transportation program's highest priorities are maintaining and rehabilitating roads and highways and building new projects. This budget commits major resources to the development of a flexible congestion relief program in urban areas, improvements to the rural interregional road system, highway safety improvements, and to ensure the efficient operation of the state highway system.

The Mass Transportation program assists local government in providing public transportation, and funds certain commuter and intercity rail services and local guideways.

The Transportation Planning Program plans for future development and integration of the elements of the State's transportation systems. This budget includes resources to analyze transportation issues and problems, and develop traffic forecasts and other planning data.

## 10 AERONAUTICS

## Program Objectives Statement

The Aeronautics program supports California's aviation activities by promoting the optimum use of existing airports, with special emphasis on assuring adequate air service for small and medium-sized communities because of rapidly changing conditions caused by the Airline Deregulation Act. California aeronautical activity is among the highest in the United States. This high level of activity has created problems such as airborne traffic congestion, aircraft noise and airport terminal congestion, affecting pilots, passengers and the general public. These problems are complicated by the fact that in urban areas, where the problems are most acute, new airport construction often is not feasible.

## Budget Adjustments

For 1991-92 the budget proposes the following adjustments:

- An increase of \$207,000 and 1.5 personnel years to support an increase in STIP programming workload.
- An increase of \$780,000 and 0.5 personnel year to implement two demonstration projects to improve airport access.
- A one-time increase of \$130,000 and 0.5 personnel year to update the Airport Land Use Planning handbook.
- An increase of \$49,000 to fund baseline personal services and operating expenses to maintain current levels of service.

## Authority

## 10.30 Planning and Noise

## Program Element Statement

The Planning and Noise element: (1) develops the California Aviation System Plan; (2) provides aviation planning information to the department's Division of Transportation Planning, County and Regional Transportation agencies, and the Federal Department of Transportation; and (3) administers the California airport noise standards.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

## 10.40 Work for Others

## Program Element Statement

The Work for Others element provides planning, development, design and construction assistance to other public agencies that have agreed to reimburse Caltrans fully when the provision of such assistance fulfills an essential public purpose which will be impaired without Caltrans' participation. Under contract, the department performs airport inspections related to safety and physical conditions on selected airports for the Federal Aviation Administration. This is additional work not already being done as part of the State's airport safety inspection program.

## 20 HIGHWAY TRANSPORTATION

## Program Objectives Statement

California's road network supports the vast majority of all travel in the State, including both personal and commercial transportation. Roads provide for the movement of people in private vehicles and on bicycles, and for the movement of freight in trucks. The State highway system, which comprises less than nine percent of the total roadway mileage in California, handles fifty-three percent of the miles traveled. The Highway Transportation Program is responsible for the planning, construction, improvement, operation, maintenance and rehabilitation of the State highway system. The program also includes projects on county roads and streets which qualify for funding.

## Budget Adjustments

For 1991-92 the budget proposes the following adjustments:

- An increase of \$58,022,000 and 512 personnel years in support costs and \$33,000,000 in capital outlay costs to repair structures damaged by the Loma Prieta earthquake and for the seismic retrofit of other structures on the state highway system.
- An increase of \$8,731,000 and 13 personnel years to inspect and provide structural designs for the seismic retrofit of local bridges.
- An increase of \$8,135,000 and 129 personnel years to provide oversight of locally-funded work on the state highway system.
- An increase of \$37,472,000 and 539.7 personnel years for local tax measure workload.
- An increase of \$4,470,000 and 84.7 personnel years to implement a court decision requiring the Department to assume previously contracted maintenance of safety roadside rest areas.
- An increase of \$7,685,000 and 75.4 personnel years for increased highway maintenance inventory.
- An increase of \$378,000 and 5.7 personnel years to administer the State/Local Transportation Partnership Program.

\* Dollars in thousands, excluding salary range.

## 2660 DEPARTMENT OF TRANSPORTATION—Continued

- An increase of \$545,000 and 9.7 personnel years to provide for increased transportation and encroachment permit workload.
- An increase of \$487,000 and 11.4 personnel years for toll collection activities.
- An increase of \$3,217,000 to acquire construction survey equipment.
- An increase of \$575,000 and 10.5 personnel years for environmentally-sensitive construction site mitigation and monitoring.
- An increase of \$1,275,000 and 20 personnel years to develop traffic management plans for construction projects.
- An increase of \$448,000 and 1 personnel year to meet new smog inspection requirements for the department's equipment fleet.
- An increase of \$498,000 and 7.6 personnel years to support flexible congestion relief and traffic systems management programs.
- An increase of \$977,000 and 14.4 personnel years for quality assurance testing.
- An increase of \$10,030,000 and 9.1 personnel years for continued implementation of the computer-aided design and drafting system.
- A one-time increase of \$2,198,000 for expert witnesses/appraisers in condemnation cases.
- An increase of \$3,900,000 for fleet replacement.
- A one-time increase of \$1,060,000 to improve the department's telecommunications systems.
- An increase of \$739,000 and 10 personnel years to implement and expand traffic operations centers to alleviate congestion.
- An increase of \$29,957,000 to fund baseline personal services and operating expenses to maintain current levels of service.

## 20.25 State-Local Transportation Partnership

## Program Element Statement

The State-Local Transportation Partnership element provides a new state-local partnership for financing transportation improvement projects. This element provides resources and funds to match local funding for transportation improvements. These locally funded and constructed highway and public mass transit guideway projects provide economic and transportation benefits for the state.

Input	1989-90*	1990-91*	1991-92*

## 20.30 Local Assistance

## Program Element Statement

The Local Assistance element provides for the administration, coordination and control required by Federal and State law for implementing transportation projects and furnishing financial assistance to city and county transportation programs. The purpose is to ensure that the expenditure of all apportioned funds is consistent with Federal and State guidelines and is administered at the lowest departmental expense.

This element also provides assistance at the request of other public agencies that have agreed to reimburse the department for the full cost of the effort when the provisions of such assistance fulfill an essential public purpose which will be impaired without the department's participation.

## 20.40 Program Development

## Program Element Statement

The Program Development element evaluates the need for highway transportation facilities and services and develops programs to respond to that need. This element consists of the Research, System Management and Programming components.

The Research component responds to the need for safe, efficient and environmentally compatible highway transportation service. Research activities include theoretical and applied research, development, testing and evaluation and demonstration projects. Also, it includes new technology development and resource conservation research which seeks the most efficient utilization of nonrenewable resources.

\* Dollars in thousands, excluding salary range.

## 2660 DEPARTMENT OF TRANSPORTATION—Continued

The System Management component provides for the collection and analysis of factual data as a basis for recommendations and reports to top management, the California Transportation Commission and the Legislature. Specific activities include mapping and inventorying road systems and monitoring performance and construction progress.

The Programming component develops the State Transportation Improvement Program (STIP), which includes a list of capital outlay projects proposed for construction.

## 20.70 Operations

## Program Element Statement

The Operations element provides for the management of traffic through a systemwide surveillance, analysis and control effort. Activities include the operation of traffic control and motorist information devices and services such as signals, signs, ramp controls, public media announcements, high occupancy vehicle lanes, and park and ride lots. Also included is developing Traffic Operations Centers throughout the state in coordination with the California Highway Patrol.

Other activities include the operation of toll bridges including toll collection and other toll-related services, and the review, issuance, and field inspection of encroachment and transportation permits.

Real property services include property management, airspace development, sales of excess land, and travelers services.

In 1990-91, all ridesharing activities were transferred to Program 30.80 Rideshare Operations.

## 20.80 Maintenance

## Program Element Statement

The purpose of the Maintenance element is to preserve and repair the highway system in a safe and usable condition. Maintenance and repair projects include the upkeep of road surfaces, shoulders, roadsides, drainage facilities, bridges, tunnels, ferries, landscape planting, signs, pavement markings, etc. In addition to physical maintenance, this element provides for operational activities such as operating lights and signals, snow and ice removal, and staffing of roadside rest areas.

## 20.90 Equipment Services

## Program Element Statement

The Equipment Services element provides for the administration of the department's equipment fleet. It includes: (1) equipment purchase; (2) assembly of new equipment components into completed units; (3) management of the fleet; (4) repair and maintenance; (5) disposal of fleet equipment; (6) operation of the Motorized Equipment Training Academy; and (7) management of the department's telecommunications system.

## 30 MASS TRANSPORTATION

## Program Objectives Statement

The Mass Transportation program addresses the public's concern for: (1) improved air quality; (2) environmental protection; (3) conservation of energy resources; (4) the transportation needs of low-mobility persons; (5) improved intercity and urban/commuter rail services; (6) enhanced mobility in congested corridors; (7) the promotion of ridesharing; and (8) the need for safe, effective public transportation. The program supports the California Transportation Program by encouraging and implementing urban, rural and interregional public transportation to provide efficient, safe and cost-effective transit services, equipment and facilities.

\* Dollars in thousands, excluding salary range.

## 2660 DEPARTMENT OF TRANSPORTATION—Continued

## Budget Adjustments

For 1991-92, the budget proposes the following adjustments:

- An increase of \$2,077,000 and 31.5 personnel years to support expanded mass transit projects funded from Propositions 111 and 108.
- An increase of \$894,000 and 11.4 personnel years to accommodate the increased workload associated with an expanded intercity rail capital program.
- An increase of \$3,936,000 and 7.1 personnel years to extend Amtrak's San Joaquin service to Sacramento and the San Francisco Bay Area.
- An increase of \$7,823,000 and 2.2 personnel years to expand rideshare activities.
- A two-year increase of \$63,000 and 1.0 personnel year to establish the guaranteed return trip demonstration project required by Chapter 1653, Statutes of 1990.
- An increase of \$2,722,000 to fund baseline personal services and operating expenses to maintain current levels of service.

## 30.10 Full Mobility Transportation

## Program Element Statement

The Full Mobility Transportation element provides improved transportation services and facilities necessary for transit-dependent people, including elderly, disabled and disadvantaged persons. Activities include planning, initiating, administering and coordinating programs to increase public transportation services for dependent persons and low-mobility groups now restricted by cost, availability of service, or design of facilities and equipment. These programs provide assistance to public and private organizations in order to make more effective and efficient use of resources and develop and improve specialized equipment used in public transit service for low-mobility people.

## 30.20 Local Assistance-Mass Transportation

## Program Element Statement

The Transit Operator Assistance element provides technical and financial assistance to local transit operators in order to increase their ability to use available resources. Activities include: (1) provision of short-term management, (2) technical and planning assistance to local agencies and transit operators, and (3) review and approval of transit guideway project proposals to ensure effective and efficient utilization and distribution of available funds.

\* Dollars in thousands, excluding salary range.

## 30.30 Interregional Public Transportation

## Program Element Statement

Projects in the Interregional Public Transportation element focus on: (1) improvement in interregional public ground transportation throughout the State; (2) offering alternatives to the automobile; and (3) providing mobility for those who cannot afford, or are physically unable, to use a private automobile. These programs include activities to improve rail passenger and freight services and facilities, as well as the identification and support of necessary interregional bus services.

## 30.40 Transfer Facilities and Services

## Program Element Statement

The Transfer Facilities and Services element provides for the development and implementation of statewide plans to enhance the transfer capability between modes of transportation. Program activities provide new or improved intermodal transfer facilities by solicitation and evaluation of project proposals, administration of funds, and management and operation of State-owned intermodal transfer facilities.

## 30.50 Transportation Demonstration Projects

## Program Element Statement

The Transportation Demonstration Projects element conducts research, development and demonstration projects to advance the state-of-the-art of public transit equipment and services through improved or innovative equipment, facilities and operating methods. Program activities include selection, implementation and evaluation of research and demonstration projects to improve transit vehicles, facilities, and equipment; and participation in technical studies aimed at improving transit management and planning techniques.

## 2660 DEPARTMENT OF TRANSPORTATION—Continued

## 30.70 Work for Others

## Program Element Statement

The Work for Others element provides assistance at the request of other public agencies that have agreed to reimburse Caltrans for the full cost of the effort when such assistance fulfills an essential public purpose. In this capacity the department provides services related to Mass Transportation which are not the mandated responsibility of this program.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

## 30.80 Rideshare Operations

## Program Element Statement

The Rideshare Operations element responds to public needs for conservation of fuel, improved air quality, mitigation of traffic congestion, prolonged highway life, alleviation of parking problems, and reduced transportation costs by motivating people to travel in groups rather than driving alone. Program activities encourage the use of carpools, vanpools, transit, telecommuting, flexible work hours, and other commute alternatives.

Also, the program will: (1) review and approve grants and loans to provide capital assistance for the purchase or lease of vanpool vehicles; (2) provide start-up funds for the development of new Transportation Management Associations (TMA's); and (3) conduct a statewide public awareness and marketing campaign. Beginning in 1990-91, ridesharing activities are reflected in this element.

## 40 TRANSPORTATION PLANNING

## Program Objectives Statement

The Transportation Planning program is designed to oversee implementation of statewide transportation policy through coordination and development of transportation plans and resulting projects. It provides overall development of long-range transportation system planning and transportation planning studies as input to the State Transportation Improvement Program (STIP). The program provides analyses and recommendations regarding current transportation issues.

In addition, technical assistance, traffic forecasts and other transportation data are provided to department districts and modal divisions, regional agencies and others. Departmental applications and funding from Federal, State and discretionary grant sources are integrated. Management of planning activities on modal transportation plans, air quality, transportation system management and energy conservation is provided. Through the areawide clearing house/environmental review process, an evaluation is made of the potential impact on the State transportation system of proposed local development projects. Further, the department is seeking to build partnerships with regional/local agencies and the private sector to coordinate transportation and local development.

The Transportation Planning program ensures that the requirements of new legislation and departmental policy are evaluated and changes integrated into the various modal and intermodal programs of the department.

## Budget Adjustments

For 1991-92 the budget proposes an increase of \$131,000 to fund baseline personal services and operating expenses to maintain current levels of service.

## 50 ADMINISTRATION

## Budget Adjustments

For 1991-92 the budget proposes the following adjustments:

- An increase of \$1,315,000 and 24.3 personnel years to handle increased tort liability workload.
- An increase of \$379,000 and 8 personnel years to accommodate increased personnel workload.
- An increase of \$1,160,000 and 11.1 personnel years to accommodate increased accounting workload.
- An increase of \$1,277,000 for the replacement of computer disk drives for the accounting EDP system.
- An increase of \$736,000 and 2.6 personnel years to recruit and hire new staff.
- An increase of \$3,879,000 and 75.2 personnel years to accommodate the additional administrative workload associated with increased departmental program levels.
- An increase of \$1,649,000 to fund baseline personal services and operating expenses to maintain current levels of service.

Program Requirements	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

<sup>2</sup> This fund contains tax proceeds subject to the State Appropriations Limit, Article XIIIB of the Constitution. In addition to the amounts reflected as expenditures in this statement, appropriations subject to the limit are adjusted for increases or decreases in the fund's Reserve for Economic Uncertainties and do not include any amounts expended for debt service, subventions to local government, compliance with federal or court mandates and from appropriations made in previous years (carryovers). Additional information on the State Appropriations Limit is provided in the Governor's Budget Summary.

## 2700 OFFICE OF TRAFFIC SAFETY

The Office of Traffic Safety (OTS) was established in 1967 for the purpose of administering the California Traffic Safety Program. Under the provisions of State law, the OTS carries out a wide range of activities designed to reduce deaths, injuries and property damage that result from traffic accidents. The activities include: (1) developing the California Highway Safety Plan which identifies major traffic safety problems, appropriate countermeasure programs and available State and Federal funds; (2) administering funds to State and local governmental entities in the form of project grant agreements; and (3) coordinating statewide traffic safety programs and activities.

The major areas of traffic safety activity are alcohol and drugs, police traffic services, occupant protection, traffic records, traffic engineering and emergency medical services. The OTS provides staff support to the Governor's 14-member Intergovernmental Advisory Council on Alcohol, Drugs and Traffic Safety. The Council members represent a cross section of the many sectors involved in traffic safety.

## BUDGET ADJUSTMENTS

For 1991-92, \$90,000 is proposed for relocation expenses and facilities operations.

## 2720 DEPARTMENT OF THE CALIFORNIA HIGHWAY PATROL—Continued

## 10 TRAFFIC MANAGEMENT

## Program Objectives Statement

The objectives of this program are to minimize deaths, injuries, and property losses due to traffic accidents; to minimize traffic delays to the motoring public; and to provide protection and assistance to the motoring public.

## Budget Adjustments

The Budget proposes the following budget adjustments in this program for the 1991-92 Fiscal Year:

- 33.3 personnel years and \$2,555,000 to staff and operate Traffic Operations Centers in a joint effort with Caltrans.
- \$552,000 for the acquisition and installation of mobile digital systems in patrol vehicles in two Los Angeles areas.
- 4.8 personnel years and \$4,029,000 for the upgrade of four CHP radio dispatch centers.
- 46.5 personnel years and \$1,998,000 in reimbursements for providing dispatch services for county freeway callbox operations.
- 17.5 personnel years and \$632,000 for the prorated share of field support staffing.
- 28.5 personnel years and \$8,727,000 for the prorated share of telecommunication services and equipment.
- \$1,039,000 for the prorated share of data processing services and support from Teale Data Center.
- \$1,199,000 for the prorated share of rate increases for vehicle insurance.
- \$1,835,000 for the prorated share of the increased cost of leasing CHP facilities.

## 10.10 Ground Operations

## Program Element Statement

This element ensures that the 82,100 miles of county roads and 14,300 miles of State highways under CHP jurisdiction are provided patrol services. Allocation of personnel is based upon: twenty-four hour coverage on all Interstate highways, US Route 101, and State Route 99; sufficient staffing to ensure at least minimum coverage on county roads to respond to essential calls for service; analysis of motor vehicle traffic collision data and the motoring public's need for accident investigation services; enforcement contacts, including arrests, and verbal and written warnings; and services provided to motorists. In order to provide these services, the CHP maintains at least one facility or residence post in each of the 58 counties in California.

## 10.20 Flight Operations

## Program Element Statement

The purpose of this element is to extend patrol coverage by deploying aircraft on major and auxiliary highways which carry moderate traffic flows but receive minimal or no ground unit coverage. In addition, aircraft are provided to allied agencies to support statewide law enforcement.

The CHP deploys fourteen airplanes: Redding (2), Fresno (2), Barstow (2), Paso Robles (2), Sacramento (3), El Centro (2), and Napa (1), including seven airplanes funded by the Federal government for the Focused Aerial Speed Enforcement Project.

Nine helicopters are deployed statewide: Redding (1), Sacramento (3), Napa (1), Fresno (1), Barstow (1), Burbank (1), and Thermal (1) as patrol units capable of handling assigned or detected calls/incidents to completion without ground officer assistance. Aircraft services include traffic management, crime control, search and rescue, emergency medical services, and fire detection.

## 2720 DEPARTMENT OF THE CALIFORNIA HIGHWAY PATROL—Continued

## 20 REGULATION AND INSPECTION

## Program Objectives Statement

The major objectives of this program are: to reduce the incidence of truck and bus accidents attributable to defective vehicle equipment, improper maintenance, loading or securement of cargo, or disqualified drivers; to protect the public from spills of hazardous materials or specially regulated loads and from the improper operation of specified vehicles such as ambulances and armored cars; to protect farm workers transported in farm labor vehicles and children transported in school buses; to ensure that proper registration fees are paid; and to protect highways from excessive weights. Goals are to inspect as many vehicles, loads, hazardous materials shipping facilities, and vehicle maintenance facilities as can be accomplished with the resources available.

## Budget Adjustments

The Budget proposes the following budget adjustments in this program for the 1991-92 Fiscal Year:

- 19.0 personnel years and \$1,402,000 for additional inspection staff for the Biennial Inspection of Terminals (BIT) program.
- 1.0 personnel year and \$40,000 for the prorated share of field support staffing.
- 1.7 personnel years and \$556,000 for the prorated share of telecommunications services and equipment.
- \$104,000 for the prorated share of data processing services and support from Teale Data Center.
- 0.9 personnel year to provide expertise in environmental issues related to developing routes for the transportation of radioactive materials.
- \$76,000 for the prorated share of rate increases for vehicle insurance.
- \$117,000 for the prorated share of the increased cost of leasing CHP facilities.

## 20.05 School Pupil Transportation Safety

## Program Element Statement

The objectives of this element are to minimize to the greatest extent possible school bus accidents caused by mechanical defects or caused by the school bus driver.

School buses are inspected and certified annually and school bus maintenance facilities are inspected periodically to ensure that the vehicles are properly maintained. Other activities of this element include testing and certification of school bus drivers, periodic monitoring of school bus drivers to ensure compliance with applicable laws and regulations, and investigation of all school bus accidents.

## 20.10 Regulated Special Purpose Vehicles

## Program Element Statement

The objective of this element is to protect the public from improper operation of emergency ambulances, armored cars and certain other authorized emergency vehicles. This objective is accomplished by adopting and enforcing regulations regarding the operation, equipment, and certification of drivers of emergency ambulances, by licensing the operation of armored cars and privately owned emergency ambulances, and by issuing permits for certain specified vehicles to be equipped and operated as authorized emergency vehicles.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

## 20.15 Transportation of Hazardous Materials

## Program Element Statement

The primary objective of this element is to protect the public from the unsafe transportation of hazardous materials. Program staff inspect terminals, vehicles, equipment, loading, shipment preparation (including identification on containers, vehicles, and shipping documents) and other items to reduce the likelihood or severity of an accident involving these materials.

\* Dollars in thousands, excluding salary range.

## 20.20 Farm Labor Transportation Safety

## Program Element Statement

The primary objective of this element is to reduce the incidence of accidents involving vehicles transporting farm laborers. Program staff function in a two-part effort to: (1) ensure that farm labor transportation vehicles are in proper mechanical order and (2) determine that farm labor vehicle drivers are qualified to properly operate a farm labor transportation vehicle.

## 20.25 Commercial Vehicle Inspection and Enforcement

## Program Element Statement

The primary objectives of this element are to protect the public from potential hazards of trucks and truck-trailer combinations which are unsafe due to an unqualified driver, hazardous loads or faulty equipment; to protect the public highway investment by mitigating or eliminating truck overload; and to ensure that proper registration fees are paid to provide funds for highway maintenance and construction.

Program staff operate a combination of truck scales, truck inspection facilities, and portable inspection and scale units, in addition to routine road patrol units. These officers and inspection specialists are responsible for inspecting commercial vehicles for mechanical defects and failure to comply with weight, load, size, tie-down, registration and driver qualification requirements. Imminently hazardous vehicles are placed out of service, weight excesses are removed or adjusted and citations issued for violations. Spot checks of trucks are also performed as part of weighing operations for other possible violations and environmental protection purposes.

## 20.45 Motor Carrier Safety Operations

## Program Element Statement

The objective of this element is to protect the public from personal injury, loss of life, and loss of property resulting from "mechanical defect caused" and "driver fatigue caused" heavy duty commercial vehicle accidents.

Program staff routinely visit motor carrier terminals (truck/bus) to inspect drivers' records for violations of driving time, and to inspect vehicle maintenance records for compliance and the vehicles for mechanical defects. Vehicles included in this program are buses, trucks with three or more axles, and construction vehicles. See Vehicle Code Section 34500 for a complete list.

## 30 VEHICLE OWNERSHIP SECURITY

## Program Objective Statement

The objective of this program is to protect the public from economic losses as a result of vehicle theft. This objective is accomplished by: (1) investigation and prosecution of the professional vehicle thief; (2) assistance and training of CHP and allied agency personnel; and (3) prevention of vehicle theft through public awareness and coordination with industry. The objective also includes a program to ensure that vehicles registered in California have an appropriate vehicle identification number attached.

## Budget Adjustments

The Budget proposes the following budget adjustments in this program for the 1991-92 Fiscal Year:

- 0.5 personnel year and \$15,000 for the prorated share of field support staffing.
- 0.7 personnel year and \$215,000 for the prorated share of telecommunications services and equipment.
- \$24,000 for the prorated share of data processing services and support from Teale Data Center.
- \$30,000 for the prorated share of rate increases for vehicle insurance.
- \$46,000 for the prorated share of the increased cost of leasing CHP facilities.

## Authority

Vehicle Code Sections 2400 and 2805.

\* Dollars in thousands, excluding salary range.

## 30.10 Vehicle Theft Control

## Program Element Statement

The objective of this element is to address the State's vehicle theft problem to the greatest extent possible through: (1) investigation and prosecution of the professional vehicle thief, (2) assistance and training of CHP and allied agency personnel and (3) prevention of vehicle theft through public awareness and coordination with industry.

Under this program, the department has officers assigned full time to investigate vehicle theft and theft rings.

Officers attack the vehicle theft problem through statewide coordination of investigations with other agencies; development, analysis and dissemination of vehicle theft information; selective inspection of vehicles and business establishments; titling and licensing improvements; and training education programs.

## 30.20 Vehicle Identification Numbering Program

## Program Element Statement

The objective of this element is to ensure that vehicles registered in California have an appropriate vehicle ID number attached. In cases where a vehicle's ID number has been altered, removed or where a specially constructed vehicle has no ID number, program staff identify the vehicle, assign a number and attach a Vehicle Identification Number (VIN) plate.

## Budget Adjustments

The Budget proposes the following budget adjustments in this program for the 1991-92 Fiscal Year:

- 1.4 personnel years and \$49,000 for the prorated share of field support staffing.
- 0.6 personnel year to provide required physician services for the Department.
- 2.3 personnel years and \$668,000 for the prorated share of telecommunications services and equipment.
- 12.3 personnel years and \$1,167,000 distributed to other programs for data processing services and support from Teale Data Center.
- \$92,000 for the prorated share of rate increases for vehicle insurance.
- \$141,000 for the prorated share of the increased cost of leasing CHP facilities.

## 11 VEHICLE/VESSEL IDENTIFICATION AND COMPLIANCE

## Program Objectives Statement

The principal objectives of this program are to establish identification and ownership of vehicles and vessels of California residents, assure compliance with various related laws, collect revenue for various state and local government programs, and provide information from vehicle and vessel records. Consistent with these objectives, the department participates in the International Registration Plan which provides for the proration of commercial vehicle fees to the member states and provinces of Canada.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- Increase of 208.4 personnel years and \$10,522,000 for workload increases.
- Increase of 0.7 personnel year and a net of \$2,859,000 for continuation of EDP automation projects.
- Increase of \$269,000 for asbestos abatement activities.
- Increase of 94.5 personnel years and \$5,608,000 for implementation of recently enacted legislation.
- Decrease of 16.2 personnel years and \$961,000 to reflect savings in the Dealer Automation Project (Phase VI).

## 22 DRIVER LICENSING AND PERSONAL IDENTIFICATION

## Program Objectives Statement

The principal objective of this program is to issue identifying documentation to individuals who are eligible drivers and personal identification to other individuals. Activities in this program include application review, photography, fees collection and response to information requests. The program also promotes the financial responsibility of vehicle owners and operators.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- Increase of 120.5 personnel years and \$8,517,000 for workload increases.
- Increase of 0.2 personnel year and \$880,000 for continuation of EDP automation projects.
- Increase of 17 personnel years and \$949,000 for regulation of third-party driver testing.
- Increase of \$151,000 for asbestos abatement activities.
- Increase of 3.5 personnel years and \$93,000 for implementation of recently enacted legislation.

## Authority

Vehicle Code, Divisions 6; 7; and 10, Sections 20012 and 20014.

## 22.11 Direct Customer Services

## Program Element Statement

This element represents a wide variety of activities associated with the issuance of driver license and personal identification cards, including fingerprinting, photography, and the collection of appropriate fees, which occur in the department's statewide field offices. This element also promotes the financial responsibility of drivers by regulating and controlling those drivers who fail to show proof of financial responsibility coverage following a traffic accident, who have an unsatisfied judgment based on a traffic accident, or who have had a driver license suspended or revoked.

## 22.21 Consolidated Operations

## Program Element Statement

This element provides for a centralized automated processing system to efficiently produce and distribute driver license and personal identification cards, including the driver license extension activity, which provides for the term of a driver license to be extended for drivers under age 70 with good driving records. This element also promotes the financial responsibility of drivers by regulating and controlling those drivers who fail to show proof of financial responsibility coverage following a traffic accident, who have an unsatisfied judgment based on a traffic accident, or who have had a driver license suspended or revoked.

2740 DEPARTMENT OF MOTOR VEHICLES—Continued

25 DRIVER SAFETY

Program Objectives Statement

The principal objectives of this program are promotion of highway safety by screening driver license applicants for driving competency, and regulation, control and improvement of drivers who become safety risks. Driver license applicants are required to demonstrate: (1) knowledge and understanding of safe driving principles and the laws governing the operation of vehicles on the highways, (2) the skill to drive within reasonably safe standards and (3) adequate and/or compensating vision efficiency for the safe operation of vehicles. Driver control programs are maintained at hearing points throughout the state and include both those in which driver control actions are mandated by statute and in which action is determined administratively.

Budget Adjustments

- In 1991-92, the following budget adjustments are proposed:
- Increase of 43.3 personnel years and \$2,144,000 for workload increases.
  - Increase of \$167,000 for continuation of EDP automation projects.
  - Increase of \$75,000 for asbestos abatement activities.
  - Increase of 9.5 personnel years and \$582,000 for the operation of a toll-free telephone answering service for the Administrative Per Se program enacted by Chapter 1460, Statutes of 1989 (SB 1623).
  - Increase of 10.7 personnel years and \$364,000 for implementation of recently enacted legislation.

Authority

Vehicle Code, Divisions 6; 7; and 10, Sections 20012 and 20014.

32 OCCUPATIONAL LICENSING AND INVESTIGATIVE SERVICES

Program Objectives Statement

The chief objective of this program is to provide consumer protection by licensing and regulating principal segments of motor vehicle-related business and enforcing laws within the department's jurisdiction.

Budget Adjustments

- In 1991-92, the following budget adjustments are proposed:
- Increase of 15 personnel years and \$769,000 for workload increases.
  - Increase of \$40,000 for continuation of EDP automation projects.
  - Increase of 2.8 personnel years and \$180,000 for investigation of unlicensed activities.
  - Increase of \$30,000 for asbestos abatement activities.
  - Increase of 2.8 personnel years and \$157,000 for implementation of recently enacted legislation.

\* Dollars in thousands, excluding salary range.

<i>Reimbursements .....</i>				<i>106</i>	<i>6</i>	<i>6</i>

**35 NEW MOTOR VEHICLE BOARD****Program Objectives Statement**

The primary objective of this program is to prohibit manufacturers from adding, withdrawing or relocating, automobile dealerships in market areas of existing franchisees, where such effect would be injurious to the existing franchisees and to the public interest, and to protect members of the public from the activities of dishonest or unqualified motor vehicle licensees.

The New Motor Vehicle Board is a quasi-judicial tribunal that adjudicates disputes which arise between new motor vehicle franchisees and their respective franchisors concerning rights or obligations afforded by statute as well as by virtue of the franchise relationship between the parties. The Board hears and considers protests filed by new motor vehicle dealers against the proposed termination or modification of, or refusal to continue, the franchise; the proposed establishment or relocation of dealerships; disputes concerning dealer delivery preparation obligations and the compensation thereof; and disputes which arise as a result of the warranty relationship which exists between the dealers and their respective franchisors. Also, the Board hears and considers virtually every other type of dispute which arises between a dealer and manufacturer or distributor and which concerns the franchise relationship. Further, the Board hears appeals on final decisions of the Director of the Department of Motor Vehicles. Finally, the Board mediates disputes which arise between consumers of new motor vehicles and the dealers and/or manufacturers or distributors from which the vehicles are acquired.

**Budget Adjustments**

In 1991-92, an increase of 2.4 personnel years and \$108,000 for meeting increases in legal protests, petitions, and appeals.

**Authority**

Vehicle Code, Division 2, Chapter 6.

## 41 ADMINISTRATION

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- Increase of 27.9 personnel years and \$1,472,000 for workload increases.
- Increase of \$313,000 for continuation of EDP automation projects.
- Increase of 1.9 personnel years and \$142,000 for asbestos abatement activities.

In addition, the 1991-92 Governor's Budget projects additional Motor Vehicle Account revenues of \$73.4 million. The additional revenue results from the following:

- \$65 million in 1991-92 from increasing vehicle registration fees by \$5, beginning January 1, 1992.
- \$8.4 million in 1991-92 from increasing driver's license fees by \$2, beginning January 1, 1992.

<sup>1</sup> This fund contains tax proceeds subject to the State Appropriations Limit, Article XIIIB of the Constitution. In addition to the amounts reflected as expenditures in this statement, appropriations subject to the limit are adjusted for increases or decreases in the fund's Reserve for Economic Uncertainties and do not include any amounts expended for debt service, subventions to local government, compliance with federal or court mandates and from appropriations made in previous years (carryovers). Additional information on the State Appropriations Limit is provided in the Governor's Budget Summary.

<sup>2</sup> Chapter 1268, Statutes of 1988 provides for the abolishment of this fund on July 1, 1989, and specifies that fees normally deposited in the fund, and any moneys remaining in the fund, are to be deposited in the Motor Vehicle Account.

## 2780 STEPHEN P. TEALE DATA CENTER

The Stephen P. Teale Data Center's mission is to assist State agencies in achieving program objectives through the application of advanced information management technology. This will be accomplished by: (1) being uncompromising in providing the highest quality service possible; (2) leading the State in implementation of new and existing technologies; (3) providing a statewide telecommunications network to meet the connectivity requirements of our clients; (4) helping clients implement the methods of ensuring the security and confidentiality of data; and (5) providing operational recovery for critical State programs. At Teale, we strategically plan our advancements to coincide with the next proven generation of technology, where that technology has demonstrated advantages for its application to State needs. In that regard, we are continually working with technical experts from a variety of computer firms to explore and select those technological developments which will improve or enhance State operations. Our aim is to ensure that Teale's clients have the means to evolve their use of information processing technology in step with future developments.

Teale's budget is based on client departments' requests and the known costs of operation. This allows Teale management to establish charging rates based on the costs of providing a specific service level as requested by the client departments at the time of budget submission. Since the Teale Data Center's establishment in 1972, the Center has continually experienced a growth in the overall demand for information processing services.

## SUMMARY OF PROGRAM REQUIREMENTS

TOTALS, PROGRAMS (Stephen P. Teale Data Center Revolving Fund) ° .....	\$69,387	\$86,310	\$87,253
Personnel years .....	384.2	395.0	420.4

## 10 SERVICE BUREAU OPERATIONS

## Program Objective Statement

The goal of this program is the operation and support of a service bureau operation in a manner which will: (1) ensure efficient utilization of Teale Data Center resources based on current and proposed client workload; (2) economically and effectively process the data and applications necessary to provide effective information technology support to client organizations and (3) improve the level of service so that Teale Data Center services and products are more accessible to the managers and non-technical staff of client departments.

Specific functions of this program are:

(1) Operations—This function ensures that work is accomplished in a timely and efficient manner. The average number of monthly batch jobs processed at the Center in 1987, 1988 and 1989 was 193,968, 235,227 and 207,474 respectively. In the current year, the Center is processing an average of 247,064 batch jobs per month. As an indication of the Center's growth, the projections for increased TSO, CICS and Timesharing service are 23%, 28% and 20%, respectively. Operations also ensures that the equipment is operated to meet the client's schedules. Normal operations are 24-hours per day, 7-days per week.

(2) Technical Services—This function is primarily concerned with maintaining the software operating system for the computers, maintaining the telecommunications systems, maintaining the on-line inquiry systems and installing and implementing vendor-supplied proprietary software packages. In addition, it compiles and analyzes workload and resource utilization data as well as providing consultation and advice to current and new clients on the use of the data center's services.

## Budget Adjustments

The following budget adjustments are proposed:

- An increase of \$522,000 and 9.3 personnel years in FY 1991-92 to meet ongoing and new client workload.
- An increase of \$454,000 and 6.6 personnel years in FY 1991-92 to implement a Relational Database Management System for the Air Resources Board as mandated by AB 2588.
- An increase of \$4,183,000 and 9.5 personnel years in FY 1991-92 to acquire additional equipment to maintain telecommunication network availability.
- An increase of \$3,908,000 in FY 1991-92 for additional equipment to meet ongoing and new client workload.
- An increase of \$342,000 in FY 1991-92 to meet increased vendor pricing for software maintenance.
- A reduction of \$9,414,000 in FY 1991-92 due to the completion of Installment Purchase Agreements.

## 20 EXECUTIVE AND ADMINISTRATIVE OPERATIONS

## Program Objective Statement

The objective of this program is to provide executive and administrative support to the Service Bureau Operation of the Teale Data Center.

Specific functions of this program are:

(1) Client Relations—This function is responsible for keeping the Center's clientele informed of the changing technology of the EDP industry within the Data Center's environment. Client Relations staff function as the point of contact for clients in coordinating requests for services, resolving problems and promoting the various services and applications available through Teale. Additionally, this function monitors clients' programming missions and EDP requirements to ensure the flow of information between clients and Teale's management.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 2780 STEPHEN P. TEALE DATA CENTER—Continued

(2) Advanced & Emerging Technology—This function is responsible for evaluating and exploring new hardware and software technology being introduced into the data processing environment to determine its impact and viability in the government sector.

(3) Administration—This function provides staff support to ensure the smooth and efficient operation of the line functions. Services include: procurement, contract administration, budget and billing, training, personnel, fiscal services, and general administrative and management services.

10 TAHOE REGIONAL PLANNING AGENCY

Program Objectives Statement

The Tahoe Regional Planning Agency (TRPA) was established by an interstate compact between California and Nevada and approved by Congress. The purpose of the agency is to provide coordinated planning and enforceable regulations designed to preserve and enhance the environment and resources of the Lake Tahoe Basin. The compact was amended in 1980 requiring, among other things, the adoption of a new regional plan and ordinances. The new regional plan was adopted in April, 1984. Funding for this bi-state agency, according to the compact, is shared between the State of Nevada (one-third) and the State of California (two-thirds).

Budget Adjustments

In 1991-92, the following budget adjustments are proposed from the California Environmental License Plate Fund:

- \$12,000 to continue the evaluation of threshold standards.
- \$70,000 to continue the community planning process.
- \$9,000 to continue mapping of stream environment zones.
- \$62,000 to continue the development of the Tahoe Environmental Geographic Information System (TEGIS).
- \$379,000 to continue the Lake Tahoe Regional Integrated Monitoring Program.
- \$268,000 to develop and install the Geographic Information System.

Authority

Chapter 1589, Statutes of 1967 as amended by Chapter 988, Statutes of 1968, Chapter 1064, Statutes of 1973, and Chapter 872, Statutes of 1980.

30 SEA GRANT PROGRAM

Program Objectives Statement

This program provides state assistance to California institutions of higher education in order to provide the necessary matching funds for selected projects under the Federal Sea Grant Program. Chapter 1617, Statutes of 1988, extended this program through the 1993-94 fiscal year, and established the annual allocation from the General Fund at \$525,000. The Sea Grant Program in California, administered by the University of California and University of Southern California, is intended to encourage research and education in the fields of marine resources and technology.

Budget Adjustments

For 1991-92, the budget continues the \$100,000 augmentation from the California Environmental License Plate Fund to assist the University of California Sea Grant advisory program in the development and transfer of research information necessary to improve fishery and wildlife resources and wisely manage and protect other coastal resources.

Authority

Public Resources Code, Section 6217.

## 3125 CALIFORNIA TAHOE CONSERVANCY

**Program Objectives Statement**

The California Tahoe Conservancy was established by Chapter 1239, Statutes of 1984 within the Resources Agency with the objective to develop and implement programs to maintain an equilibrium between the natural endowment and the man-made environment of the Lake Tahoe region. This involves a program of acquisition and management of land for the purposes of protecting the natural environment, provision of public access and recreational facilities and preservation of wildlife habitat areas. The California Tahoe Conservancy is designated as the principal agency for implementation of the Lake Tahoe Acquisitions Bond Act.

More specifically, the California Tahoe Conservancy is empowered to:

- (a) acquire land or interests in land for the purposes of its programs;
- (b) provide for the proper management of acquired lands;
- (c) undertake land restoration and improvement projects needed to achieve the purposes of its programs; and
- (d) award grants to other public agencies and nonprofit organizations for the purposes of its programs.

**Budget Adjustments**

In 1991-92, the following budget adjustments are proposed:

- \$3,500,000 Outer Continental Shelf Land Act, Section 8(g), Revenue Fund to continue the Conservancy's soil erosion control voluntary applications grants program.
- 1.0 position (1.0 personnel year) on a two-year limited term basis and \$204,000 (\$103,000 Outer Continental Shelf Land Act, Section 8(g), Revenue Fund and \$101,000 Lake Tahoe Acquisition Fund) for installation and development of an enhanced computer system.

\* Dollars in thousands, excluding salary range.

3125 CALIFORNIA TAHOE CONSERVANCY—Continued

- \$198,000 (\$188,000 Outer Continental Shelf Land Act, Section 8(g), Revenue Fund and \$10,000 Tahoe Conservancy Fund) for property management purposes.
- 1.0 position (1.0 personnel year) on a two-year limited term basis and 2.0 personnel years (temporary help) and \$121,000 from various funds to handle workload increases in various programs of the Conservancy.

Authority

Government Code, Title 7.42, commencing with Section 66905 and Title 7.43 commencing with Section 66950.

## 3180 GEOTHERMAL RESOURCES DEVELOPMENT PROGRAM

## Program Objectives Statement

Chapter 6 (commencing with Section 3800) of Division 3 of the Public Resources Code, created the Geothermal Resources Development Account in the General Fund in 1980 and requires all moneys received by the State for geothermal leases on federal lands be deposited in the account. In addition, subsequent legislation provides that 50 percent of all revenues received by the State Lands Commission from the lease of State indemnity lands for geothermal development shall be deposited in this account. Funds in the account are allocated as follows:

- Forty percent of the revenues deposited in the account from rents and royalties is disbursed to all counties of lease origin in proportion to the amounts of revenues derived from existing leases within each county of origin.
- Thirty percent of the revenues received and deposited in the account is available for expenditure by the State Energy Resources Conservation and Development Commission as grants or loans to local jurisdictions having geothermal resources. Five percent of this amount, not to exceed \$100,000, may be used to provide direct technical assistance to local jurisdictions eligible for grants.
- Thirty percent of the revenues received and deposited in the account is transferred to the Renewable Resources Investment Fund where, upon appropriation by the Legislature, it shall be available for the purposes of Section 34000 of the Public Resources Code.
- Specific expenditure information will be found in the budgets for those departments or programs with expenditures reflected in the following Geothermal Resources Development Account fund condition statement.

<sup>1</sup> This fund contains tax proceeds subject to the State Appropriations Limit, Article XIIIB of the Constitution. In addition to the amounts reflected as expenditures in this statement, appropriations subject to the limit are adjusted for increases or decreases in the fund's Reserve for Economic Uncertainties and do not include any amounts expended for debt service, subventions to local government, compliance with federal or court mandates and from appropriations made in previous years (carryovers). Additional information on the State Appropriations Limit is provided in the Governor's Budget Summary.

## 3210 ENVIRONMENTAL PROTECTION PROGRAM

The Marks-Badham Environmental Protection and Research Act of 1970 established the California Environmental Protection Program. The source of revenue for this program is the sale of personalized motor vehicle license plates by the Department of Motor Vehicles. Revenues are deposited in the California Environmental License Plate Fund. By authority of Chapter 1105, Statutes of 1979, the program is administered by the Secretary for Resources. Funds expended pursuant to Division 13.5 of the Public Resources Code shall have one or more of the following purposes:

- a. The control and abatement of air pollution, including all phases of research into the sources, dynamics and effects of environmental pollutants.
- b. The acquisition, preservation, restoration, or any combination thereof, of natural areas or ecological reserves.
- c. Environmental education, including formal school programs and informal public education programs.
- d. Protection of nongame species and threatened and endangered plants and animals.
- e. Protection, enhancement, and restoration of fish and wildlife habitat and related water quality, including review of the potential impact of development activities and land use changes on that habitat.
- f. The purchase, on an opportunity basis, of real property consisting of sensitive natural areas for the state park system and for local and regional parks.
- g. Reduction or minimization of the effects of soil erosion and the discharge of sediment into the waters of the Lake Tahoe region, including the restoration of disturbed wetlands and stream environment zones.

The appropriations and expenditures for programs and projects funded from the California Environmental License Plate Fund are contained in the budgets of the various State boards, commissions and departments identified in the narrative provided below.

### SUMMARY OF PROGRAM REQUIREMENTS

1989-90\* 1990-91\* 1991-92\*

Environmental Protection Program (California Environmental License Plate Fund) .....	\$21,698	\$37,150	\$23,608
--	----------	----------	----------

### 0540 SECRETARY FOR RESOURCES

CTRPA Administration.....	(\$75)	(\$75)	(\$75)
---------------------------	--------	--------	--------

The Secretary of Resources has been designated by law as the successor to the California Tahoe Regional Planning Agency (CTRPA) upon its deactivation. The 1991-92 budget proposes \$75,000 from the ELPF to the Resources Agency for continuation of permit administration costs.

### 1110 DEPARTMENT OF CONSUMER AFFAIRS

• Alternative Eradication Methods for Structural Pest Control .....	(-)	(\$250)	(-)
---	-----	---------	-----

### 3110 SPECIAL RESOURCES PROGRAMS

The Tahoe Regional Plan, as amended under the 1987 litigation settlement, has expanded the Tahoe Regional Planning Agency (TRPA) functions.

In 1991-92, continued funding will be provided for the:

• Community Planning Process.....	(\$80)	(\$40)	(\$70)
• Lake Tahoe Region Integrated Monitoring Program .....	(\$280)	(\$280)	(\$379)
• Tahoe Environmental Information Geographic Information System (TEGIS) ..	(\$26)	(\$68)	(\$330)

Other projects funded:

• Integrated Floodplain/Stream Environmental Zone Mapping .....	(\$60)	(\$60)	(\$9)
• Environmental Threshold Carrying Capacities Evaluation .....	(\$33)	(\$67)	(\$12)
• Resource Enhancement Activities in California Sea Grant .....	(-)	(\$100)	(\$100)
• Individual Parcel Evaluation System (IPES) and Related Water Quality Monitoring .....	(\$50)	(\$50)	(-)

### 3125 CALIFORNIA TAHOE CONSERVANCY

• Soil Erosion Control Grants .....	(\$1,000)	(\$1,000)	(-)
-------------------------------------	-----------	-----------	-----

Funding is for erosion control local assistance grants designed to improve Lake Tahoe's water quality.

• Lake Tahoe Region Land Acquisition and Site Preservation (Chapter 1623/88) ..	(\$78)	(\$2,222)	(-)
---	--------	-----------	-----

### 3400 AIR RESOURCES BOARD

• Consumer Products Test Method Development and Compliance Testing .....	(-)	(-)	(\$900)
--	-----	-----	---------

Funding is proposed to develop test methods and to test consumer products for volatile organic compounds pursuant to the California Clean Air Act.

• San Joaquin Valleywide Air Quality Study .....	(\$250)	(-)	(-)
--	---------	-----	-----

This study was a multiyear effort to measure air pollutant levels and conduct air quality modeling studies for the purpose of attaining air quality standards.

• Motor Vehicle Alternative Fuels Program .....	(-)	(\$896)	(\$504)
---	-----	---------	---------

This program's objective is to regulate motor vehicle alternative fuels and to determine the impact of alternative fuels on the public.

• Pro Rata .....	(\$39)	(\$217)	(-)
------------------	--------	---------	-----

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 3210 ENVIRONMENTAL PROTECTION PROGRAM—Continued

## 3460 COLORADO RIVER BOARD

1989-90\*

1990-91\*

1991-92\*

● Salinity Control Forum.....	(\$7)	(\$8)	(\$9)
For 1991-92, \$9,000 is proposed to continue funding for the State's share for the Colorado River Basin Salinity Control Forum.			
● Pro Rata .....	(\$3)	(-)	(-)

## 3480 DEPARTMENT OF CONSERVATION

● Mariposa Mineral Exhibit .....	(-)	(\$50)	(-)
----------------------------------	-----	--------	-----

## 3540 DEPARTMENT OF FORESTRY AND FIRE PROTECTION

● Forest Pest Management .....	(-)	(-)	(\$464)
--------------------------------	-----	-----	---------

This program is designed to minimize environmental damage to the State's forest wildlife and watershed resources from forest insects and diseases.

● Wildlife Habitat Planning and Assessment .....	(-)	(-)	(\$1,019)
--	-----	-----	-----------

Funding for research and wildlife habitat mapping to assess forest and range management activities, including the impact of timber harvesting on the Northern Spotted Owl.

● Forest Practice Act Corrective Actions .....	(-)	(\$50)	(\$50)
--	-----	--------	--------

These funds are used to support activities needed to correct environmental damage caused by violations of the Forest Practice Act.

● Vegetation Management .....	(\$3,387)	(\$3,608)	(\$3,657)
-------------------------------	-----------	-----------	-----------

In 1991-92, funding is proposed to continue the department's vegetation management program. Through techniques such as prescribed burning, losses to the State's valuable forest and watershed resources because of wildland fires can be minimized and habitat enhancement for wildlife can be realized.

● Natural Resources and Rangeland Research .....	(\$444)	(\$468)	(\$468)
--	---------	---------	---------

The proposed funding is to continue support for the integrated hardwood range land program and university forestry research grants.

● Project Learning Tree .....	(\$95)	(\$94)	(\$95)
-------------------------------	--------	--------	--------

This K-12 educational program is designed to develop knowledge and awareness of the forest environment and to foster conservation skills and habits by clarifying issues surrounding the uses of our natural resources.

● Chapparal Die Back .....	(-)	(\$100)	(\$100)
----------------------------	-----	---------	---------

These funds are used to study dying Ceanothus Chapparal and its impact on the environment.

● Timber Products Museum .....	(\$175)	(-)	(-)
--------------------------------	---------	-----	-----

The Carter House Natural Science Museum and National Logging and Timber Products Museum in Redding will construct outdoor environmental education exhibits of native plants and a demonstration forest stressing the origin and importance of timber products.

● Pro Rata .....	(\$122)	(\$138)	(\$234)
------------------	---------	---------	---------

## 3560 STATE LANDS COMMISSION

● Owens Dry Lake Air Pollution Control .....	(\$675)	(\$675)	(\$150)
--	---------	---------	---------

Funding for the third phase of a project implemented in 1989-90 for the Great Basin Unified Air Pollution Control District to explore the feasibility of using sprinkler systems to mitigate dust problems at Owens Lake.

● Historical Shipwreck Research .....	(-)	(\$24)	(-)
---------------------------------------	-----	--------	-----

Funding for the enhancement of an existing database to provide staff with a means to assess cultural resources and impacts associated with project proposals for the use of State lands.

● Upper San Joaquin River Boundary Determinations .....	(-)	(\$105)	(-)
---	-----	---------	-----

Funding to complete topographic mapping for 42 miles of the upper San Joaquin River.

● Pro Rata .....	(-)	(-)	(\$59)
------------------	-----	-----	--------

## 3600 DEPARTMENT OF FISH AND GAME

● Nongame Fish and Wildlife Activities .....	(-)	(-)	(\$4,621)
--	-----	-----	-----------

Funding for various functions related to the protection and maintenance of nongame species of fish, wildlife, plants and natural communities.

● Turboprop Aircraft Engine Overhaul .....	(-)	(-)	(\$33)
--	-----	-----	--------

These funds will allow the Department to contract for engine overhauls and perform 5-year inspections on two turboprop aircraft.

● Natural Diversity Data Base Contract Staff Conversion .....	(-)	(-)	(\$321)
---	-----	-----	---------

This proposed funding will enable the Department to convert 16 Natural Diversity Data Base contract personnel to permanent civil service staff.

\* Dollars in thousands, excluding salary range.

## 3210 ENVIRONMENTAL PROTECTION PROGRAM—Continued

	1989-90*	1990-91*	1991-92*
● Geographic Information System .....	(-)	(-)	(\$105)
Funding is proposed for the acquisition of additional equipment to support the increased number of requests for information on threatened and endangered species locational records.			
● Threatened and Endangered Bird/Mammal Program .....	(-)	(-)	(\$120)
This proposed funding would provide support for the Threatened and Endangered Bird and Mammal program which is responsible for coordinating studies, research, and recovery activities for State and Federally listed threatened and endangered species.			
● Maintenance of Grizzly Island Wildlife Area .....	(-)	(-)	(\$51)
Funding will provide the resources to accomplish habitat improvement work for wildlife including nongame and threatened and endangered species on Grizzly Island Wildlife Area.			
● Sea Otter Population Assessment .....	(-)	(-)	(\$143)
This program's objectives are to monitor and assess the status of the sea otter which is a fully protected species under State law, and is classified as a threatened species under federal law.			
● Bay Delta Augmentation (FSR) .....	(-)	(-)	(\$7)
These funds will, in part, support the development of a Feasibility Study Report to determine the best approach to manage the collection and evaluation of data relating to species in the Delta waterways and the San Francisco Bay.			
● Northern Grassland Wildlife Area .....	(-)	(-)	(\$127)
These funds will support the Department's efforts to develop and manage wetlands in the Northern Grassland and Wildlife Area in compliance with the Kesterson Mitigation agreement and support the North American Waterfowl Management Plan.			
● Upper Butte Sink Wildlife Area .....	(-)	(-)	(\$137)
These funds will enable the Department to initiate the conversion of approximately 1,400 acres of agricultural lands to wetlands and allow for the near completion of the new wetlands development goals for the Butte Basin under the North American Waterfowl Management Plan.			
● Fisheries Restoration Fund Shift .....	(-)	(-)	(\$56)
Funding is proposed as an offset to Fish and Game Preservation Funds, Federal Funds and reimbursements to continue the Fisheries Restoration Program that was established by Chapter 1325/87.			
● Natural Areas Program .....	(\$895)	(\$1,218)	(\$1,229)
The Natural Areas Program is comprised of the Geographic Information System, the Natural Diversity Data Base (NDDDB), and the NDDDB Mapping System. The Program assists in the preservation of the natural diversity found throughout the State in areas such as critical habitats for rare and endangered species, habitats of vulnerable and threatened plants and animals, unique geologic and pedologic features, ecosystems of high species diversity, and representative examples of California's plant and animal communities. This is accomplished through a statewide identification and inventory program of the significant natural areas in California.			
● Endangered/Rare Wildlife .....	(\$24)	(\$149)	(\$153)
This program was developed to carry out activities related to the conservation and recovery of over 30 species of birds and mammals, including the California Condor, Bald Eagle, Peregrine Falcon, San Joaquin Kit Fox, Least Tern, Least Bell's Vireo, Light-footed Clapper Rail.			
● Endangered and Rare Fish .....	(\$124)	(\$132)	(\$138)
The Endangered and Threatened Fish Project was developed to carry out the Department's program for the recovery and management of Endangered and Threatened invertebrates, fishes, amphibians, and reptiles. This program is mandated by the California Endangered Species Act/Federal Endangered Species Act through a Cooperative Agreement with the U.S. Fish and Wildlife Service.			
● California Wildlands Program .....	(-)	(\$409)	(\$417)
These funds are used to establish and maintain visitor personnel and interpretive programs at wildlife areas, ecological reserves, and fish hatcheries operated and maintained by the Department of Fish and Game.			
● Wildlife Habitat Improvement on Federal Lands .....	(\$612)	(\$294)	(\$294)
These funds provide for the continued support to expand and carry out fish and wildlife habitat improvement projects for game and nongame species on the State's 20 million acres of National Forest lands and 16 million acres of Bureau of Land Management lands. Benefits of this program include increased fish and wildlife resources on Federal lands through direct habitat improvement and intensified resource protection and management activities; improved and sustained ecological diversity; and enhanced economic and recreation values from the resources.			
● Bighorn Sheep Management .....	(\$277)	(\$298)	(\$299)
These funds support the management of the bighorn sheep. Activities of this program include helicopter surveys of bighorn sheep herds, transplanting sheep, diagnosing disease occurrence, lamb mortality studies and studying competing land use as it relates to the sheep.			
● Condor Enhancement Program .....	(\$277)	(\$283)	(\$283)
This Program provides state support to the cooperative efforts to breed in captivity and release successfully California Condors back to the wild.			
● Suisun Resource Conservation District .....	(\$38)	(\$38)	(\$38)
These funds provide for the support for the Suisun Resource Conservation District to assist the district in implementing the provisions set forth in the Suisun Marsh Preservation Act of 1977 (Chapter 1155/77).			
● Ongoing Maintenance of Ecological Reserves .....	(\$1,023)	(\$1,143)	(\$1,148)
The Ecological Reserves maintenance program maintains, operates, and improves lands acquired by the Department for the preservation, restoration and enhancement of habitat for nongame species.			

\* Dollars in thousands, excluding salary range.

## 3210 ENVIRONMENTAL PROTECTION PROGRAM—Continued

	1989-90*	1990-91*	1991-92*
• Departmental Administration.....	(\$1,299)	(\$2,471)	(\$2,405)
Administrative programs provide support services like budgeting, information systems, and contracts preparation for environmentally-based programs, and the costs are charged to administration. ELPF funds within the Department are spread throughout various programs.			
• Project Wild.....	(\$85)	(\$90)	(\$90)
The objective of this educational project is to provide grade school students in K-12 with a greater appreciation and understanding of wildlife and wildlife habitat preservation.			
• Comparative Demography of the Spotted Owl in California .....	(-)	(\$274)	(-)
Funding is provided for Humboldt State University to provide for color banding and relocation of previously marked owls in four populations. Additionally, this project will provide annual assessment of reproduction, survival and retention of owls in the new relocated populations.			
• Mono Lake Creek Studies (Chapter 1241/89).....	(\$614)	(\$136)	(-)
• Timber Harvest Plan Review Staffing (Chapter 1241/89).....	(\$1)	(\$99)	(-)
• Environmental Review and Evaluation .....	(\$3,261)	(\$6,517)	(-)
The Environmental Review and Evaluation Program is designed to prevent adverse impacts on fish and wildlife from projects affecting the land, water, and water quality of California. Federal and State laws require review by the department of projects proposed or permitted by federal, State, or local agencies.			
• Salmon and Steelhead Habitat Restoration.....	(\$1,020)	(\$991)	(-)
The Salmon Habitat Restoration project funds a contract with the California Conservation Corps (CCC) to provide a special crew for stream restoration and rehabilitation on California's north coast.			
• Stream Flow Assessments.....	(\$511)	(\$564)	(-)
This program's objectives are to minimize the impacts of water development projects on fish and wildlife by establishing stream flow needs for fish habitats.			
• Instream Flow Studies.....	(\$209)	(\$213)	(-)
The Instream Flow Evaluation Program is established pursuant to Chapter 1259/85 to determine the requirements for preserving, maintaining, and enhancing fish and wildlife resources and habitats in specific streams. The focus is on evaluation methodologies and assistance to the Regions on current individual studies.			
• Salmon, Steelhead Trout, and Anadromous Fisheries .....	(\$75)	(\$70)	(-)
These funds are to increase the natural production of salmon and steelhead trout by the end of the century, and to encourage the participation of California citizens in the preservation of, and increase in, naturally spawning salmon and steelhead trout resources.			
• Marine Water Quality Investigation.....	(-)	(\$47)	(-)
Contamination and pollution of marine life is an increasing concern of the public and public officials as California's coastline and marine dependent industries grow. The purpose of the marine water quality investigations is to gather and categorize information on the non-market damage costs to living resources from oil spills.			
• Mott Preserve Expansion for Stephen's Kangaroo Rat Habitat Conservation Plan (City of Riverside).....	(-)	(\$500)	(-)
Funding is provided for acquisition of natural habitat vital to the preservation of the endangered Stephen's Kangaroo Rat.			
• Minor Capital Outlay Projects.....	(-)	(\$60)	(-)
• Lake Merritt Wildlife Observation Deck (Chapter 1241/89) .....	(-)	(\$234)	(-)
• Shell Marsh Interpretive Center (Chapter 1241/89).....	(-)	(\$60)	(-)
• Coyote Point Museum Wildlife Center .....	(\$175)	(-)	(-)
Funding will support construction of an ecologically sound facility which will house small native animals and communicate a caring attitude for wildlife and preservation of their habitats.			
• Chula Vista Nature Center Salt Marsh Restoration.....	(\$50)	(-)	(-)
The nature center will construct a greenhouse to propagate native plants for restoration and enhancement of the Sweetwater Marsh and develop instructional materials to integrate restoration ecology into the primary and secondary science curriculum.			
• Experimental Gear Observations .....	(\$40)	(-)	(-)
This program is in response to legislative requirements (Chap. 910/86 and Chapter 1298/87) to evaluate the use of alternative commercial fishing gear in areas closed to gill net fishing off the central California coast.			
• Jepson Manual of Vascular Plants of California .....	(\$250)	(-)	(-)
The University of California will publish The Jepson Manual for the identification and description of all plants that grow wild in California.			
• Pro Rata .....	(\$499)	(\$636)	(\$448)

## 3640 WILDLIFE CONSERVATION BOARD

• Transfer to the Habitat Conservation Fund.....	(-)	(-)	(\$5,440)
--	-----	-----	-----------

This revenue transfer is necessary to meet the requirements of the California Wildlife Protection Act of 1990 (Proposition 117). The funds will be used to enter into Interagency Agreements with various departments.

\* Dollars in thousands, excluding salary range.

## 3210 ENVIRONMENTAL PROTECTION PROGRAM—Continued

	1989-90*	1990-91*	1991-92*
● Acquisition and Development—Ecological Reserves .....	(\$619)	(\$1,217)	(-)
The objective of this program is to acquire key habitat areas where preservation will provide at least minimal support for the area's native wildlife.			
● Lake Earl Wildlife Area (Del Norte County) .....	(\$47)	(\$3)	(-)
● Suisun Marsh .....	(\$250)	(\$250)	(-)
● Santa Lucia Mountains Acquisition (Chapter 1241/89) .....	(-)	(\$450)	(-)
● San Joaquin Valley Acquisition (Chapter 1241/89) .....	(-)	(\$500)	(-)

## 3720 CALIFORNIA COASTAL COMMISSION

● Coastal Access Program .....	(\$285)	(\$308)	(\$314)
Pursuant to the California Coastal Act, the California Coastal Commission promotes public access to California's scenic coastal areas through inclusion of access elements in Local Coastal Programs (LCPs) and by including conditions for public access in the coastal development permits approved by the Commission.			

● Coastal Resource Information Center and Guide to Coastal Resources .....	(\$127)	(\$132)	(\$134)
--	---------	---------	---------

Chapter 1470/82 directs the Commission to establish a Coastal Resource Information Center and to publish a "Guide to Coastal Resources". Funding is provided to investigate automated approaches to data storage and retrieval, inventory relevant studies and data bases, and provide assistance to other agencies, local government, and the public.

● Coastal Management Program .....	(-)	(\$651)	(\$651)
------------------------------------	-----	---------	---------

This funding is used to augment the California Coastal Commission's coastal management activities.

● Pro Rata .....	(\$17)	(\$11)	(\$11)
------------------	--------	--------	--------

## 3760 STATE COASTAL CONSERVANCY

● Mission Bay Park, South Shores Development (Chapter 1241/89) .....	(-)	(\$350)	(-)
--	-----	---------	-----

## 3790 DEPARTMENT OF PARKS AND RECREATION

● Various Administrative Costs .....	(-)	(-)	(\$25)
● City of Redding Museum Complex .....	(\$365)	(-)	(-)

Pursuant to Chapter 1241/89 this funding is for preliminary plans, working drawings, and site development.

● Ben Overturf Trail Rehabilitation, City of Monrovia (Chapter 1241/89) .....	(-)	(\$50)	(-)
● Millerton Lake Recreation Area and Lost Lake Recreation Area Project .....	(-)	(\$500)	(-)

Pursuant to Chapter 1241/89 this funding is for trail development projects and for environmental studies for the San Joaquin Parkway general plan.

● Our Urban Environment Project .....	(\$250)	(-)	(-)
---------------------------------------	---------	-----	-----

This project will develop an exhibit which will examine environmental issues of concern to citizens of California and the nation. Concepts dealing with air, water, land and waste management will be presented including the importance of water in the development of Southern California.

● Jack London Ranch Restoration .....	(\$50)	(-)	(-)
● Emerald Bay State Park .....	(-)	(\$56)	(-)
● Alexander Lindsay Junior Museum .....	(-)	(\$300)	(-)
● California Academy of Sciences .....	(-)	(\$493)	(-)
● Oakland Museum, Aquatic Biology Hall .....	(-)	(\$394)	(-)
● Garden Grove-Twin Lakes Park Pumping System .....	(-)	(\$40)	(-)
● Harbor Regional Park/Machado Lake Plan .....	(-)	(\$197)	(-)
● Mariposa Mineral Exhibit Building .....	(-)	(\$123)	(-)
● California Heritage Access Mapping .....	(-)	(\$20)	(-)
● Capitol Tours Program .....	(-)	(\$20)	(-)
● South Yuba Independence Trail .....	(-)	(\$125)	(-)

Funding for preliminary plans, working drawings, and construction.

● Adjustment to Capital Outlay Expenditures .....	(-\$30)	(-)	(-)
---	---------	-----	-----

## 3860 DEPARTMENT OF WATER RESOURCES

● Urban Streams Restoration Program .....	(\$294)	(-)	(\$300)
---	---------	-----	---------

Funding for the administration of the Urban Streams Restoration Program.

● Fund shift from RRIF (Urban Water Conservation) .....	(-)	(\$718)	(-)
● Trinity River Restoration Plan .....	(\$24)	(\$1,276)	(-)

Funds were used to finance the Department's share of local support for the Trinity River Fish and Wildlife Restoration Program.

● Sacramento River Riparian Vegetation Acquisition .....	(-)	(\$752)	(-)
● Lake Success Study .....	(-)	(\$25)	(-)
● Evaporation Ponds Study .....	(\$292)	(-)	(-)

\* Dollars in thousands, excluding salary range.

## 3210 ENVIRONMENTAL PROTECTION PROGRAM—Continued

## 3940 STATE WATER RESOURCES CONTROL BOARD

1989-90\* 1990-91\* 1991-92\*

- Lake Merced Water Quality and Level ..... - (\$75) (-)
- Pursuant to Chapter 1241/89 to the City of San Francisco to address water quality and level problems at Lake Merced.
- San Diego Bay Interagency Panel ..... (\$75) (-) (-)
- Pursuant to Chapter 1241/89, to the San Diego Regional Water Control Board for staffing for the San Diego Bay Interagency Panel to address water quality problems in San Diego Bay.

## 6100 DEPARTMENT OF EDUCATION

- Environmental Education ..... (\$515) (\$515) (\$804)
- The Department of Education conducts a minigrant program to establish environmental education programs throughout the State. Grants are made available to schools and governmental agencies, museums, and non-profit educational associations.
- Environmental Education Pilot Program (Chapter 1241/89) ..... (\$250) (-) (-)
- Funding to develop an experimental curriculum in environmental education for grades six through nine.

## 9900 GENERAL FUND CREDITS FROM SPECIAL FUNDS (PRO RATA)

- Recovery of Statewide General Administrative Expenditures ..... (\$30) (\$28) (\$22)
- Pursuant to Government Code Section 13332.03, funds are proposed to pay pro rata costs for those departments which no longer have Budget Act appropriations from the Environmental License Plate Fund.

## FUND CONDITION STATEMENT

## 140 California Environmental License Plate Fund

1989-90\* 1990-91\* 1991-92\*

BEGINNING RESERVES .....	\$11,211	\$14,636	\$2,750
Prior year adjustments .....	1,328	-	-
Reserves, Adjusted .....	\$12,539	\$14,636	\$2,750

## REVENUES AND TRANSFERS

## Receipts:

## Revenues:

143000 Personalized license plates .....	30,470	31,812	32,766

<sup>1</sup> Assumes legislation will be introduced and chaptered to forgive the \$3,556,000 past year loan (including interest) to the Department of Fish and Game.

<sup>2</sup> Assumes legislation will be introduced and chaptered to transfer \$2,342,000 from the Environmental License Plate Fund to the Habitat Conservation Fund to satisfy the requirements of the California Wildlife Protection Act of 1990 (Proposition 117).

## 3340 CALIFORNIA CONSERVATION CORPS

The California Conservation Corps (CCC) is a disciplined work force that assists federal, State, local agencies, and nonprofit entities in conserving and improving California's natural resources while providing employment, training, and educational opportunities for the young men and women of the State.

Since the inception of the CCC in 1976, the corpsmember population has reached an annualized strength of approximately 1,825 corpsmembers who provide nearly three million hours of conservation work each year. In addition to tree planting, stream clearance, trail building, park development, landscaping, home weatherization, and wildlife habitat restoration, the CCC responds to emergencies such as fires, floods, earthquakes, and other natural disasters.

Among the accomplishments of the Corps are the planting of more than 16 million trees and the enhancement of over 752 miles of salmon and steelhead streams. Needed trail rehabilitation is accomplished each year on portions of California's 20,000 plus miles of trails, providing increased public access to wilderness areas. The Corps also restores historic buildings, including early California missions and local landmarks.

The CCC's native plant nursery grows thousands of seedlings each year for the revegetation and stabilization of sand dunes, and the enhancement of other natural areas throughout California. One center concentrates on energy conservation efforts through the production and installation of solar panels, and the retrofitting of State and other public facilities to reduce energy consumption.

The essence of the CCC is young people performing physically demanding work to conserve and improve California's natural resources. The CCC acts as a ready and available labor pool for other State agencies, assisting with flood prevention for the Department of Water Resources, landscape improvements for the Department of Transportation, reforestation and firefighting for the Department of Forestry and Fire Protection, salmon habitat restoration for the Department of Fish and Game, and park development and maintenance for the Department of Parks and Recreation. Corpsmembers contribute to the trail maintenance program of the National Park Service, and to the park maintenance and development efforts of many local governments.

In addition to physical work, the CCC provides programs to enhance corpsmembers' employability and increase access to educational opportunities. Major areas of concentration are literacy, education at the high school and community college level, conservation awareness, and career development. Generally corpsmembers participate in these programs after the work day.

The CCC provides substantial benefits not only to natural and human resources but to the economy as well. Every dollar invested in the CCC returns \$1.77 in overall benefits to the State of California. The North Coast stream habitat improvement projects for the Department of Fish and Game, for instance, are estimated to return over approximately \$3.5 million to the commercial and recreational fishing industries.

## SUMMARY OF PROGRAM REQUIREMENTS

	1989-90*	1990-91*	1991-92*
10 Training and Work Program.....	\$58,035	\$57,085	\$57,728
20 Administration.....	4,304	4,681	4,770
Distributed Administration.....	—4,304	—4,681	—4,770
TOTALS, PROGRAMS.....	\$58,035	\$57,085	\$57,728
Reimbursements .....	—11,054	—10,385	—10,492
Natural Disaster Reimbursements - Loma Prieta.....	—474	—	—
Unallocated trigger reduction.....	—	—	—910
NET TOTALS, PROGRAMS.....	\$46,507	\$46,700	\$46,326
General Fund .....	40,473	40,566	40,070
Public Resources Account, Cigarette and Tobacco Products Surtax Fund.....	213	214	234
Energy Resources Programs Account, General Fund.....	5,821	5,920	6,022
Personnel years .....	419	438.4	438.4

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

3340 CALIFORNIA CONSERVATION CORPS—*Continued*

## 10 TRAINING AND WORK PROGRAM

## Program Objective and Description

*Corpsmembers:*

The CCC hires 18 to 23 year old California residents who reflect the diversity of the State's population, including disabled youth. At entry, corpsmembers are paid minimum wage, from which the partial cost of room, board, and insurance benefits are deducted. After achieving specified competencies, corpsmembers can earn a Merit Salary Adjustment after four months in the CCC. In addition, corpsmembers can take advantage of the CCC's scholarship/bonus program upon successful completion of one year.

*Benefits to Corpsmembers:*

The CCC fosters an appreciation for the value of disciplined work habits and conservation of California's natural resources. Particular emphasis is placed on projects that offer job training and skill development for corpsmembers.

Opportunities exist outside the normal workday which enhance the employability of corpsmembers. Classes are mandatory for all corpsmembers; those without high school diplomas must study for equivalency diplomas (GEDs), take remedial education classes or classes in English as a Second Language (ESL), and high school graduates must participate in other education programs, such as community college or technical skills courses. Corpsmembers are required to practice writing skills every day. Workshops, speakers, and activities are provided to acquaint corpsmembers with the basic principles of conservation and career opportunities. All centers are working in conjunction with the California Community Colleges and/or other educational entities to provide educational opportunities. Classes and services concentrate on the following categories: GED preparation, ESL, remediation and basic skills improvement, conservation awareness, career development, vocational skills, development, academic assessment, financial aid, and general education. Each center will have a learning center which may result in an acceleration in the learning rate.

Corpsmembers are encouraged to develop good citizenship through volunteer activities, donating blood, and by registering to vote.

Each center has second-year "supergrade" positions which allow corpsmembers to gain additional experience. Those corpsmembers with leadership potential may be promoted to crewleaders. Corpsmember "specialists" receive specific training in areas ranging from food service to vehicle maintenance to energy conservation. Opportunities to participate in national and international exchange programs, wilderness backcountry work, and Helitack firefighting are also available to corpsmembers meeting specified criteria.

In response to the Loma Prieta Earthquake of October 17, 1989, the CCC expended an additional \$474,000 to assist in emergency response and recovery. These costs were reimbursed by the Office of Emergency Services with funds received from the Federal Emergency Management Agency (FEMA).

## 10.10 Training Academy

## Program Element Statement

*CCC Academy:*

The Training Academy in San Luis Obispo introduces new corpsmembers to the expectations of the CCC during two weeks of rigorous training and orientation. These two-week training sessions are usually conducted twice a month. A strong emphasis is placed on physical conditioning. Along with physical readiness, entering corpsmembers are also assessed in terms of academic skills and vocational interests.

Corpsmembers are trained in tool use and safety, first aid, fire fighting, flood control and water safety. In addition to corpsmember training, technical and certification training for entry level staff and crewleader candidates is conducted throughout the year at the Academy.

Corpsmembers who complete the two-week training are assigned to one of the CCC centers located throughout the State.

Performance Measures				1989-90	1990-91	1991-92			
Academy Graduates

## 3340 CALIFORNIA CONSERVATION CORPS—Continued

## 10.20 Base Centers

## Program Element Statement

Currently, there are 17 residential base centers and 30 satellite locations.

## Residential Centers:

Residential centers have 24-hour emergency response capability. Temporary base locations and "spike camps" are established when the travel to a project is beyond reasonable commuting distance.

The Salmon Restoration Project is operated through an interagency agreement with the Department of Fish and Game in conjunction with the CCC's Humboldt Center. Corpsmembers clear North Coast streams and revegetate stream banks in an effort to increase the spawning habitat of anadromous fish, particularly salmon and steelhead.

## Non-Residential Satellites:

Non-residential satellites, where corpsmembers live at home and commute to work each morning, allow the CCC to expand its service area, and provide Corps experience to young people who are not able to participate in the residential program.

## Performance Measures

Public Service Conservation Work (PSCW) Projects:	1989-90	1990-91	1991-92
Conservation work (CM hours).....	2,430,900	2,430,000	2,430,000
Emergency response (CM hours).....	145,854	121,000	121,000
Tree planting (trees).....	596,950	500,000	500,000
Native plant propagation (plants).....	145,000	150,000	150,000
Fish habitat restoration (miles).....	37	39	39
Stream enhancement (hours).....	57,502	61,000	61,000
Trail construction/rehabilitation (number of miles).....	223	223	223
Helitack Fire Fighting Program (hours).....	87,696	83,000	83,000
Training (hours).....	162,060	162,000	162,000

## 10.30 Energy Program

## Program Element Statement

## Energy Conservation Program:

The CCC operates an energy program with specially selected corpsmembers who receive three months of classroom and on-the-job training, and learn to conduct energy audits, install energy conservation devices, weatherize low-income homes, and retrofit public facilities for State and local agencies. Corpsmembers in the energy program acquire a variety of skills and receive a vocational certificate from a community college, which makes them highly competitive for employment in the building trades, solar industry, and other energy related fields.

Performance Measures	1989-90	1990-91	1991-92
Energy audits/retrofits (sq. ft. of space).....	1,500,000	1,700,000	1,700,000
Solar panel installation/maintenance (number of panels).....	26	26	26
Energy Conservation project hours.....	25,555	25,000	25,000
Conservation work hours (non-energy related).....	20,910	21,000	21,000
Training (hours).....	6,403	8,000	8,000

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures.....	20.4	21.4	21.4	\$2,928	\$2,969	\$2,993
General Fund.....				139	142	143
Energy Resources Programs Account, General Fund.....				2,152	2,188	2,205
Reimbursements.....				637	639	645

## 10.40 Local Corps Program

## Program Element Statement

## Non-Residential Local Conservation Corps Program:

In 1984, the CCC expanded its nonresidential program to provide the CCC's work ethic, youth employment and educational opportunities to young people in primarily urban areas. The Corps contracts with local private, non-profit conservation corps and local government entities to expand urban services.

Performance Measures	1989-90	1990-91	1991-92
Number of Conservation Project hours.....	227,640	162,600	162,600
Corpsmembers hired (full-time equivalents).....	171	131	131

\* Dollars in thousands, excluding salary range.

## 3360 ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION

The Energy Resources Conservation and Development Commission is working to ensure the continuance of a reliable supply of energy at a level consistent with California's needs, while complying with environmental, safety and land use goals. The Commission's programs are aimed at processing applications for siting new power facilities, encouraging measures to reduce wasteful and inefficient use of energy and monitoring alternative ways to conserve, generate and supply energy.

## 10 REGULATORY AND PLANNING PROGRAM

## Program Objectives Statement

The primary objectives of the Regulatory and Planning Program are: (1) to ensure the maintenance of adequate statewide energy supplies through the development of accurate long range forecasts of future energy supply and demand; (2) to maintain a current knowledge of the statewide electrical generation and fossil fuels supply and demand situation; (3) to assess the need for and certify new energy facilities in conformance with state energy policies as required by statute; (4) to develop an informed state energy policy through the Biennial Report process on issues derived from the economic, financial, security and environmental implications of supply, demand and price forecasts; (5) to disseminate information from the Biennial Report regarding the State's energy future, price projections and related issues.

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- 2.0 positions (1.9 personnel years) from a redirection of \$85,000 in Energy Resources Programs Account contract funds, to meet the increased workload associated with complex changes in electricity planning and model development.
- 10.5 positions (10.1 personnel years) and \$929,000 Energy Resources Programs Account, in accordance with Chapter 967, Statutes of 1990, to provide energy analysis of transportation and stationary clean air incentives and control measures, and to provide a workload adjustment for monitoring compliance of certified power plants.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 3360 ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION—Continued

In 1991-92, the following budget adjustments are proposed:

- 2.0 positions (1.9 personnel years) and a redirection of \$100,000 in Energy Resources Programs Account contract funds, to meet the increased workload associated with complex changes in electricity planning and model development.
- 10.5 positions (10.1 personnel years) and \$929,000 Energy Resources Programs Account to continue the provisions of Chapter 967, Statutes of 1990.

**Authority**

Public Resources Code Division 15, Chapter 4, commencing with Section 25300, Chapters 5, 6, 7, 8 and 10.

Reimbursements .....				13	35	35

## 10.10 Power Plant Siting and Certification

**Program Element Statement**

The power plant siting process and local permitting procedures protect California ratepayers by assuring that proposed electricity generating facilities are needed and technically sound. At the same time environmental impacts are reviewed to ensure that adverse effects are minimized or eliminated. Approved power plants are monitored for compliance with the Commission's conditions of certification.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	81.5	90.8	89.4	\$8,690	\$9,791	\$10,046
Energy Resources Programs Account, General Fund .....				8,677	9,756	10,011
Reimbursements .....				13	35	35

## 10.15 Siting and Permit Assistance

**Program Element Statement**

Thermal power plants below 50 megawatts and non-thermal generating facilities are not subject to CEC siting authority. Grant funds and technical assistance are provided to local and state agencies to identify and resolve constraints to siting energy facilities not subject to the CEC siting process.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	1.8	2.9	2.9	\$479	\$579	\$589
Energy Resources Programs Account, General Fund .....				479	579	589

## 10.20 Electricity Resource Planning

**Program Element Statement**

Electricity Resource Planning activities include assessing utility resource plans, alternative methods to meet forecasted electricity demands and energy trends which provide a basis for determining whether power plants proposed in the siting certification process are needed.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	21.5	24.3	24.0	\$2,179	\$2,502	\$2,470
Energy Resources Programs Account, General Fund .....				2,179	2,502	2,470

## 10.30 Demand Forecasting

**Program Element Statement**

Demand Forecasting prepares 20-year forecasts of demand for all forms of energy including electricity, natural gas and gasoline. The impacts of energy conservation activities in California are forecasted; energy consumption statistics are collected and published and energy consumption in all economic sectors (residential, commercial, industrial and agricultural) are monitored and evaluated. Products include California Energy Demand, Forecasts and Energy Watch.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	23.7	27.6	27.2	\$2,752	\$3,359	\$3,253
Energy Resources Programs Account, General Fund .....				2,752	3,359	3,253

## 10.40 Fossil Fuels Planning

**Program Element Statement**

Fossil fuels supply almost 90 percent of all energy consumed in California. The Fossil Fuels Planning Element develops 20-year forecasts of crude oil, natural gas and coal prices and supplies; closely monitors California natural gas petroleum industry operations; and analyzes existing and proposed fossil fuels policies. Information and analyses are published in the Quarterly Oil Report and the Biennial Fuels Report.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

\* Dollars in thousands, excluding salary range.

## 3360 ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION—Continued

## 10.50 Technology Assessment

## Program Element Statement

Technology Assessment develops basic information on efficiency, commercial status, costs, availability, emissions and energy savings for a wide range of energy technologies including electrical generation, energy conservation and transportation for use in forecasting energy supplies and demand.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	2.8	2.9	2.9	\$274	\$279	\$289
Energy Resources Programs Account, General Fund .....				274	279	289

## 10.80 Management and Support

## Program Element Statement

The Management and Support element provides the policy and management direction and technical and clerical support necessary to successfully attain the goals of the Regulatory and Planning Program.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	28.7	29.8	29.3	\$2,843	\$2,856	\$2,930
Energy Resources Programs Account, General Fund .....				2,843	2,856	2,930

## 20 ENERGY RESOURCES CONSERVATION PROGRAM

## Program Objectives Statement

Under the Energy Resources Conservation Program, the Commission's primary objectives are to: (1) develop a set of policies and activities to improve efficiency of fuel and electrical energy use, with emphasis placed upon those sectors of the economy which exhibit the highest levels of consumption, the greatest potential for cost-effective conservation and the most direct opportunities for efficiency and usage to be influenced; (2) coordinate and monitor utilities' implementation of mandated conservation programs; (3) implement statewide conservation programs that create employment opportunities within the State and stimulate investment within the State by reducing the need for imported fuel supplies; and (4) fully implement mandated Petroleum Violation Escrow Account programs.

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- 2.0 positions (1.9 personnel years) from a redirection of \$80,000 in Energy Resources Programs Account contract funds to enhance California's preparedness for energy emergencies.
- 4.0 positions (3.8 personnel years) and \$361,000 Energy Resources Programs Account, in accordance with Chapter 967, Statutes of 1990, to improve conservation quantification capability and to evaluate air quality conservation plans and additional conservation opportunities for existing buildings.

In 1991-92, the following budget adjustments are proposed:

- 2.0 positions (1.9 personnel years), and an \$80,000 redirection in Energy Resources Programs Account contract funds, to enhance California's preparedness for energy emergencies.
- \$3,100,000 Petroleum Violation Escrow Account to augment the small school districts energy assistance program which provides specialized assistance to small school districts to identify, implement and monitor energy efficiency projects in their schools.
- \$1,000,000 Petroleum Violation Escrow Account to augment the farm energy assistance program, which assists farmers in identifying and implementing energy conserving farming practices.
- 1.0 position (1.0 personnel year) limited term to June 30, 1993 and \$3,066,000 Petroleum Violation Escrow Account to establish the special district technical assistance program to provide technical assistance to special districts to identify and implement energy saving opportunities.
- 4.0 positions (3.8 personnel years) and \$361,000 Energy Resources Programs Account to continue the provisions of Chapter 967, Statutes of 1990.

## Authority

## 20.10 Buildings

## Program Element Statement

The goal of the building program is to reduce energy costs by improving energy use in new and existing buildings. The program seeks to accomplish this by developing and implementing: 1) minimum building energy use through efficiency standards, 2) technical assistance and training in understanding and complying with the standards, and 3) periodic revisions of existing residential and non-residential efficiency standards to simplify compliance.

\* Dollars in thousands, excluding salary range.

## 20.20 Appliances and Equipment

## Program Element Statement

The primary goal of the appliance program is to reduce customer energy bills and reduce the growth of energy demand through policies and programs which stimulate sales of energy efficient appliances. Programs are designed to develop and implement: 1) minimum cost effective appliance efficiency standards, 2) information and incentive programs to encourage sales of the most efficient appliances and, 3) research and demonstration of more efficient appliances.

## 20.30 Energy Projects Evaluation and Assistance

## Program Element Statement

The goal of the Energy Projects Evaluation and Assistance program is to ensure that cost effective energy options are implemented to the maximum extent possible in end-use sectors. These sectors include schools, hospitals, local governments, agriculture and multi-family housing. This element provides for administration of technical assistance, grant and loan programs which serve these sectors and implements the Petroleum Violation Escrow Account programs.

## 20.40 Demand Side Program Evaluation

## Program Element Statement

The primary goal of Demand Side Program Evaluation is to carry out objective, quantitative evaluations of conservation programs administered by utilities and public organizations through the development of the Standard Practice Manual; analysis of uncommitted conservation used in the evaluation of power plants in the Electricity Report; verification of existing conservation program savings and quantification of program savings, impacts and costs; and determination of how much conservation could substitute for electricity generation technologies.

## 20.60 Contingency Planning

## Program Element Statement

The mission of the Contingency Planning Element is to establish and maintain an effective state government capability to handle energy emergencies and their subsequent impacts by: maintaining the energy emergency plan in a state of operational readiness; improving local government capabilities to deal with energy shortages; and developing state energy emergency response programs.

## 3360 ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION—Continued

## 30 DEVELOPMENT PROGRAM

## Program Objectives Statement

The principal objectives of the Energy Technology Development Program are to conduct research, development and demonstration on new and existing energy technologies to ensure that future energy supplies are cost-effective, more secure and reliable, enhance environmental quality and promote state and local economic development. These goals are pursued through programs that provide technical assistance, financial assistance, direct technology research and demonstration, technology forecasting, technology analysis and evaluation and information transfer.

In 1990-91 the following budget adjustments are reflected:

- 1.0 position (0.5 personnel year), and \$25,000 General Fund to implement the alternative fuel vehicle tax credit program established by Chapter 1611, Statutes of 1990.
- 4.0 positions (3.8 personnel years) and \$290,000 Energy Resources Programs Account, in accordance with Chapter 967, Statutes of 1990, to implement a tax credit program for commercial solar installations, evaluate clean diesel fuels and technologies, and meet increased workload associated with the Energy Technologies Advancement Program.

In 1991-92 the following budget adjustments are proposed:

- 3.0 positions (2.9 personnel years), limited term through June 30, 1993, and \$170,000 Petroleum Violation Escrow Account to continue an alternative fuels demonstration program emphasizing compressed natural gas, electric vehicles and fuel flexible vehicles technologies.
- 2.0 positions (1.9 personnel years) limited term through June 30, 1995, and \$116,000 Katz Schoolbus Fund to support the Katz Schoolbus Program.
- 2.0 positions (1.9 personnel years) limited term through June 30, 1993, and \$1,123,000 Motor Vehicle Account, including \$1,000,000 project co-funding, for the Transportation Energy Technology Innovation Program.
- 4.0 positions (3.8 personnel years), limited term through June 30, 1993 and \$2,206,000 Petroleum Violation Escrow Account to fund demonstration projects for compressed natural gas, electric and fuel flexible vehicles and to support a methanol refueling network.
- 1.0 position (0.9 personnel year), limited term through June 30, 1995, and \$33,000 Energy Resources Programs Account to continue funding for the Alternative Fuel Vehicle Tax Credit Program established by Chapter 1611, Statutes of 1990.
- 1.0 position (1.0 personnel year), limited term through June 30, 1995, and \$143,000 Local Government Geothermal Resources Revolving Subaccount, Geothermal Resources Development Account, including one time funding of start-up costs of \$35,000 and \$50,000 to match a U.S. Department of Energy grant of \$50,000 for ongoing support of a host site for the International Geothermal Association Secretariat.
- 4.0 positions (3.8 personnel years) and \$290,000 Energy Resources Programs Account to continue the provisions of Chapter 967, Statutes of 1990.

## 30.20 Transportation Technology and Fuels

## Program Element Statement

Transportation Technology and Fuels conducts demonstrations of near-term alternatives to petroleum-based fuels and technologies for transportation. These demonstrations test the cost-effectiveness, technical viability and emissions of these alternatives in light and heavy-duty vehicle applications. The current demonstrations include methanol, compressed natural gas, clean diesel and electric vehicle technologies

## 30.30 Research and Development

## Program Element Statement

Research and Development provides co-funded financial assistance to the private sector and local governments to make new and existing energy technologies more efficient and cost-effective and analyzes the commercial readiness of energy technologies. The Energy Technologies Advancement Program provides loans and contract research funding for a broad range of energy technologies. The Geothermal Resources Development Program provides loans and grants to local governments to accelerate the use of this technology. The Small Business Technical Assistance and Loan Program

\* Dollars in thousands, excluding salary range.

## 3360 ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION—Continued

provides technical assistance and loans to small business to accelerate the demonstration of innovative energy technologies and mitigate specific energy problems. This element also compiles comprehensive technical, economic, environmental and performance data on over 280 energy technologies, which is updated and published regularly. This data is used by private industry and government to focus research and development efforts on the major problems affecting the use of promising technologies.

## 30.40 Technology Evaluation

## Program Element Statement

Technology Evaluation assesses future technical and economic potential of generation, efficiency, and automotive technologies, and alternative fuels. The benefits and costs of these technologies are evaluated against all energy options, to identify the mix of energy resources and technologies which will have the greatest benefit to California citizens. This element also provides assistance to California's energy industries to help them market their advanced technology products and services abroad. This element also leads interagency evaluations of how to mitigate the effects of global warming on California.

## 99 LOAN REPAYMENT PROGRAM

## Program Objectives Statement

The Loan Repayment Program consists of repayments of loans made in the Conservation and Development programs. The money collected is made available for loans to local governmental entities and to private industry for energy conservation and residue conversion, respectively. The funds result from the repayment of previously approved loans, which are deposited in either (1) the State Energy Conservation Assistance Account to provide loans

\* Dollars in thousands, excluding salary range.

## 3360 ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION—Continued

to schools, hospitals and local governments for energy conservation measures, or (2) the Agricultural and Forestry Residue Utilization Account to promote the involvement of private industry in the development and implementation of technologies directed toward the use of agricultural, forest and urban residue for energy generation purposes.

<sup>1</sup> This fund contains tax proceeds subject to the State Appropriations Limit, Article XIIIB of the Constitution. In addition to the amounts reflected as expenditures in this statement, appropriations subject to the limit are adjusted for increases or decreases in the fund's Reserve for Economic Uncertainties and do not include any amounts expended for debt service, subventions to local government, compliance with federal or court mandates and from appropriations made in previous years (carryovers). Additional information on the State Appropriations Limit is provided in the Governor's Budget Summary.

## 3370 RENEWABLE RESOURCES INVESTMENT PROGRAM

Chapter 1104, Statutes of 1979, established the Renewable Resources Investment Program and created the Renewable Resources Investment Fund. The bill initially transferred \$10 million from the General Fund to the Renewable Resources Investment Fund.

This program also receives annual funding from 30 percent of the royalties deposited in the Geothermal Resources Development Account (General Fund) from monies received by the State from the Federal Government for geothermal leases. Renewable Resources Investment Funds may only be expended for the following purposes:

- (a) For salmon and steelhead hatchery expansion and fish habitat improvement.
- (b) For forest resource improvement projects pursuant to the California Forest Improvement Act of 1978.
- (c) For urban forestry projects pursuant to the California Urban Forestry Act of 1978.
- (d) For agricultural soil drainage programs.
- (e) For support of technical assistance programs which will prevent soil erosion.
- (f) For agricultural, industrial and urban water conservation programs.
- (g) For wildland fire protection programs pursuant to the Wildland Fire Protection and Resources Management Act of 1978.
- (h) For coastal resource enhancement projects.

Specific project and program expenditures for the Renewable Resources Investment Program are included in the budgets for the Department of Fish and Game, the Department of Water Resources and the California Water Resources Control Board (See Table 1).

### Authority

Fish and Game Code, Division 6, Part 2, Chapter 1, Article 3, Section 7150.6.

Public Resources Code, Section 3825.

Public Resources Code, Division 24, Section 34000.

## 3380 CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD

As authorized by Chapter 1095, Statutes of 1989 (AB 939) the major purpose of the California Integrated Waste Management Board is to promote the following waste management practices in order of priority:

- 1) Source reduction.
- 2) Recycling and composting.
- 3) Environmentally safe transformation or land disposal.

Another major aim of the Board is to protect public health and safety through improved regulation of existing solid waste landfills, ensuring that new solid waste landfills are environmentally sound, and streamlining permitting procedures for solid waste management facilities.

These goals will be accomplished through the following activities: enforcement of State standards at waste facilities by Board designated local agencies; technical assistance to local governments and private entities; review and approval of county integrated waste management plans; coordinated development of city/county source reduction and recycling plans; studies and investigations of new or improved methods of solid waste handling, disposal, or reclamation; public awareness and education programs; studies of litter control and reduction methods; development and implementation of a statewide information and retrieval system; and promotion of alternatives to landfill disposal.

The Board is also implementing the California Tire Recycling Act, as authorized by Chapter 974, Statutes of 1989. The goal of the Act is a 25% reduction in disposed/stockpiled used tires.

Proposals for significant program enhancements have not been included in the 1991-92 expenditure plan at this time. Such proposals are anticipated to be submitted for FY 1991-92 in the Spring of 1991, following the seating of all six members of the Board.

## 10 PLANNING AND ENFORCEMENT

## Program Objectives Statement

The objective of the Planning and Enforcement Program is to ensure that all non-hazardous solid wastes are stored, collected, processed and disposed of in a sanitary, safe and environmentally sound manner. This is accomplished through a program for the enforcement of environmental and health standards at solid waste facilities, and the development and maintenance of local solid waste management plans.

County and city governments are responsible for local planning under State guidelines. Local enforcement agencies (LEAs) are responsible for issuing permits to new facilities and enforcing compliance with permit conditions and State standards. LEA's are required to meet specific Board certification requirements and to work closely with Board staff in maintaining minimum standards for facility operations. For each enforcement jurisdiction, the Board is responsible for designating an appropriate local agency (e.g., county environmental health department) as the LEA. In addition, the Board provides technical assistance and training in planning, enforcement and facility operations; monitors and evaluates LEAs; acts as the LEA when no local agency has been designated; conducts research to improve disposal operations and reviews relevant plans and environmental documents; inspects all solid waste facilities on a fixed schedule; and maintains an inventory of solid waste facilities that violate State standards. The Board also investigates illegal, abandoned or closed disposal sites.

## 15 DISPOSAL SITE CLEAN-UP AND MAINTENANCE

## Program Objectives Statement

The objective of the Disposal Site Clean-up and Maintenance Program is to ensure that today's solid waste facilities do not become tomorrow's problems. Current efforts of the Board are focused on developing and adopting regulations for closure/postclosure plans, loan guarantees to solid waste facilities, grants designed to reduce the amount of household hazardous waste disposed of at solid waste facilities, contracts for corrective actions and grants to local enforcement agencies. Annual fees from solid waste facility operators support these activities.

## 20 WASTE REDUCTION AND RESOURCE RECOVERY

## Program Objectives Statement

The objectives of the Waste Reduction and Resource Recovery Program are to reduce the amount of waste generated, to promote the recovery and re-use of recyclable materials from the wastestream and to promote the integration of source reduction, recycling and composting into local integrated waste management systems. Activities of this program include: Waste Reduction, Market Development, Recycled Product Procurement and Recovery and Transformation. In addition to these actions, the Waste Reduction and Resource Recovery Program is embarked on a statewide public education effort to promote integrated waste management and recycling programs.

## Authority

Public Resources Code Section 40000 et seq. and Health and Safety Code Section 4500.

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- An increase of \$33,000 to implement a certification process for sellers of plastic trash bags authorized by Chapter 1452, Statutes of 1990.
- An increase of \$33,000 to conduct a study on the disposal and potential recyclability of household batteries authorized by Chapter 1631, Statutes of 1990.
- An increase of \$33,000 to develop and administer a used oil demonstration grant program authorized by Chapter 1657, Statutes of 1990.

In 1991-92, the following budget adjustments are proposed:

- An increase of \$117,000 for continued implementation of Chapter 1452, Statutes of 1990.
- An increase of \$117,000 for continued implementation of Chapter 1631, Statutes of 1990.
- An increase of \$967,000 for continued implementation of Chapter 1657, Statutes of 1990.
- An increase of \$5,000,000 to the Board, to provide low interest loans to local government and private businesses to expand recycling efforts as authorized by Chapter 1543, Statutes of 1990.
- An increase of \$187,000 and 3 positions (2.8 personnel years) to provide programmatic support to implement the provisions of Chapter 1543, Statutes of 1990.

## 25 TIRE RECYCLING

## Program Objectives Statement

The purposes of the Tire Recycling Program are to reduce landfill disposal and stockpiling of used whole tires by 25% within 4 years of full program implementation, to recycle and reclaim used tires and used tire components to the greatest extent possible in order to recover valuable natural resources and to eliminate illegal dumping and unnecessary stockpiling of used tires. This program was initiated in FY 1900-91.

3400 AIR RESOURCES BOARD

The Air Resources Board has primary responsibility for protecting air quality in California. This responsibility includes establishment of ambient air quality standards for specific pollutants, administration of air pollution research studies, evaluation of standards adopted by the U.S. Environmental Protection Agency and development and implementation of the State Implementation Plan for the attainment and the maintenance of these standards. The plan includes emission limitations for vehicular and industrial sources established by the Board and local air pollution control districts.

<b>SUMMARY OF PROGRAM REQUIREMENTS</b>	<b>1989-90*</b>	<b>1990-91*</b>	<b>1991-92*</b>

## 10 AIR POLLUTION CONTROL PROGRAM

## Program Objectives Statement

Air pollution impacts the health of California's citizens, impairs productivity, damages crops and reduces their yields, and lessens our enjoyment of our surroundings. Control of air pollution, while ensuring that growth and needed development may occur, is the objective of the Air Resources Board. In order to meet that objective, the Board develops and implements a variety of control strategies.

The Technical Support element provides the Board, local air pollution control districts and general purpose local government agencies with technical information on emissions, air quality trends, the interaction of air pollutants in the air, the relationship of emissions to air quality and the effectiveness of control strategies.

The Stationary Source element focuses on developing and evaluating procedures and strategies to monitor and control emissions from new and existing nonvehicular air pollution sources, and works with local air pollution control districts to promote the adoption and implementation of effective control measures.

The Mobile Source element develops, implements and enforces laws and regulations controlling emissions from new and in-use vehicles.

The Compliance element investigates complaints against polluters, assists local districts in enforcing emission requirements against major sources of pollution and prepares documentation on chronic and flagrant violations for referral to local or State prosecutors.

The Research element conducts and sponsors research on the composition, the chemical process and the distribution trends of pollution in the atmosphere; the effects of air pollution on human health, vegetation and the economy of the State; and measures for the control of such pollution.

The Monitoring and Laboratory element collects and analyzes air quality data which are needed to develop and evaluate air pollution control strategies, make daily agricultural burn decisions and predict severe air pollution episodes. In addition, it provides sampling and analysis to other elements of the Air Pollution Control Program.

The General Support element provides executive leadership, policy guidance and administrative services.

## 10.10 Technical Support

## Program Element Statement

This element provides the Board, air pollution control districts and other local government agencies with technical information on emissions and air quality trends, the interaction of air pollutants in the air, the relationships of emissions to air quality, the effectiveness of control strategies and daily suitability of atmospheric conditions for agricultural burning. It uses computer-based techniques and provides data processing services to all Board elements.

Under this element the Board supports air pollution control programs throughout the State. The functions performed include the following:

1. Compile and maintain an up-to-date inventory of the kinds, amounts and distribution of emissions from air pollution sources in California;
2. Analyze emission, air quality, meteorological and demographic data to assess air pollution control progress and needs for additional control strategy development;
3. Compile, verify and publish ambient air quality data for criteria and toxic pollutants and for special monitoring activities statewide;
4. Conduct advanced air quality modeling to assess the impacts of State implementation plan control strategies for the Board and local agencies; perform modeling studies to support the Board's air toxic programs; update and improve air quality models to enhance prediction reliability;
5. Issue daily agricultural burning control notices based on evaluation of real-time aerometric data and establish meteorological criteria for 11 California air basins;

\* Dollars in thousands, excluding salary range.

## 3400 AIR RESOURCES BOARD—Continued

6. Define interbasin pollutant transport routes and make daily predictions of air quality in specific air basins during seasons when potentially severe air pollution episodes may occur; and
7. Develop, plan, maintain, operate and support computer-based information services and systems for the Board and coordinate with local, State and federal agencies to produce compatible systems.

**Budget Adjustments**

In 1991-92, the following budget adjustments are proposed:

- An increase of 2 positions (1.9 personnel years) and \$161,000 to improve motor vehicle emission inventories.
- An increase of 1 position (1.0 personnel year) and \$89,000 to develop incentive-based regulatory policies to significantly reduce vehicle miles.
- A continuation of \$300,000 to provide an additional year of funding for computer resources needed to implement the California Clean Air Act (Chapter 1568, Statutes of 1988).
- A continuation of \$463,000 to provide an additional year of funding for computer resources necessary to implement the Toxics "Hot Spots" Act (Chapter 1252, Statutes of 1987).
- An increase of 4 positions (3.8 personnel years) and \$924,000 to assist agencies involved in transportation planning to reduce emissions from transportation sources.
- An increase of \$3,000 to replace worn equipment.

## 10.20 Stationary Source

**Program Element Statement**

Under this element the Board works with air pollution control districts and the business and scientific communities to ensure that measures for reducing emissions from stationary sources are implemented to the extent necessary to comply with State and federal laws. The functions performed include the following:

1. Develop measures for reducing emissions from motor vehicle fuels, stationary sources and other sources as required by the California Clean Air Act, and work with local air pollution control districts to implement measures as needed to achieve and maintain State and federal ambient air quality standards;
2. Identify substances as toxic air contaminants;
3. Develop measures for the control of emissions of toxic air contaminants as required by State law;
4. Provide guidance on control technology for stationary sources;
5. Review and comment on environmental impact reports relating to general projects, as required by the Public Resources Code, and the National Environmental Policy Act, and provide technical assistance to local and regional agencies;
6. Assist industries wishing to locate or expand in California and provide comments to lead agencies and districts on applications for permits to construct or modify major sources of air pollution;
7. Develop and implement, in conjunction with districts, a new source siting program for California that meets Federal Clean Air Act and State requirements; and
8. Provide technical assistance to districts on source specific toxic (or potentially toxic) air contaminant exposure assessment.

The State allocates local assistance funding to local air pollution control districts engaged in the reduction of air contaminants pursuant to basinwide air pollution control plans and related implementation programs. This funding is allocated by the Board to local districts according to a statutory formula.

**Budget Adjustments**

In 1991-92, the following budget adjustments are proposed:

- An increase of \$150,000 to determine intermedia transfer factors for use in health risk assessments of air emissions.
- An increase of \$250,000 to evaluate the potential of consumer products to emit volatile organic compounds (VOCs) and to evaluate test methods for determining VOC content.

## 3400 AIR RESOURCES BOARD—Continued

## 10.30 Mobile Source

## Program Element Statement

Motor vehicles and the many other uses of the internal combustion engine are major sources of carbon monoxide emissions as well as very significant sources of photochemically reactive pollutants. These pollutants, primarily oxides of nitrogen and hydrocarbons, react together in sunlight to produce the air pollution commonly referred to as smog. Violations of the air quality standards for mobile source related pollutants occur throughout California. The worst example continues to be the South Coast Air Basin (generally, the Los Angeles Metropolitan area but including the San Bernardino-Riverside areas as well) where the worst photochemically-generated air pollution in the United States exists. This element is directed at controlling emissions from internal combustion engines. Activities of this element include the following:

1. Develop, implement and enforce laws and regulations limiting emissions from new and in-use vehicles. Surveillance of both new and in-use vehicles is performed to assess the effectiveness of established procedures. In addition, the effects of replacement parts, retrofitted emission control devices and fuel additives on emissions are also studied.
2. Develop test and evaluation procedures for vehicles, engines, emission control components, fuel additives and test equipment to assure emission standards are met for the useful life of required emissions control components.
3. Coordinate with federal, State and local agencies and the regulated industries in the control of emissions from internal combustion engines.
4. Conduct information and training seminars for vehicle dealers, mechanics and members of the public on vehicle emissions and the resulting air pollution.
5. Develop inspection standards, perform effectiveness evaluations and provide analytical capabilities for unplanned projects and for California's motor vehicle inspection and maintenance program.
6. Develop regulations for presently unregulated modes of internal combustion engine use, as well as other mobile sources.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- An increase of 3 positions (2.9 personnel years) and \$266,000 to improve mobile source emission inventories.
- An increase of 1 position (0.9 personnel year) and \$226,000 to implement the ARB/DMV Recall/Registration Renewal program.
- An increase of \$458,000 to replace worn equipment.
- An increase of \$562,000 to replace air conditioning units at the Haagen-Smit Laboratory.
- An increase of 4 positions (3.8 personnel years) and \$416,000 to implement a heavy-duty vehicle inspection program hearing process pursuant to Chapter 1433, Statutes of 1990.

Reimbursements.....				399	412	417

## 10.40 Compliance

## Program Element Statement

The objectives of this element are:

1. Review local district programs for conformity to State and federal requirements;
2. Assure efficient and effective enforcement of laws and regulations controlling health related emissions from stationary sources, agricultural burning, gasoline vapor recovery and major existing and new point sources;
3. Identify, document and refer stationary source and fuels regulation violations for prosecution;
4. Assure adequate training for State and local air pollution enforcement personnel; and,
5. Assist industry and air pollution control districts by providing rule-specific inspection manuals and industry self-audit guidelines. The staff also compiles quarterly and annual reports for the U.S. Environmental Protection Agency's national compliance data system, conducts complaint investigations and reviews variances for conformance with state law.

## Budget Adjustments

In 1991-92, the following budget adjustment is proposed:

- An increase of \$18,000 to replace worn equipment.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

## 10.50 Monitoring and Laboratory

## Program Element Statement

A cost-effective air pollution program requires timely and accurate ambient and source level measurements to define the nature, extent and trend of the air pollution problem. This element supports the State Board by collecting and documenting air measurements of ambient and source level pollutant data for use in developing and evaluating air pollution control strategies. This element operates the Board's statewide ambient and source air monitoring program, quality assurance program, the Northern Laboratory in Sacramento, the Southern Laboratory in El Monte and continuously supports the Air Pollution Control Program through the following activities:

\* Dollars in thousands, excluding salary range.

## 3400 AIR RESOURCES BOARD—Continued

1. Continuously monitor ambient air pollutant concentrations in various parts of the State; coordinate statewide air pollution monitoring efforts through the Board's Air Monitoring Technical Advisory Committee;
2. Conduct a statewide quality assurance program to assure the accuracy and precision of air quality data;
3. Cooperate with local agencies to improve the accuracy of air quality data by oversight of the statewide monitoring network to ensure the stated objectives are being met and the exposure of the stations meet given criteria;
4. Conduct special ambient/source level and interlaboratory analysis studies;
5. Provide laboratory analyses of particulate pollutant material, acid deposition samples and toxic substances; provide air monitoring instrument calibration, method evaluation and gas standards certification to other Board elements and local air pollution control districts;
6. Provide another of the Board's elements with real-time ambient air data in order to issue daily agricultural burning control notices for eleven California air basins;
7. Provide guidance on control technology for stationary sources;
8. Test, evaluate and where required by law, certify new stationary source continuous monitoring equipment;
9. Conduct source testing of stationary sources to assure a valid technical basis for the development of emission control measures.
10. Develop and test analytical procedures for emission evaluation of stationary sources;
11. Provide technical assistance, such as source testing, source specific toxic (or potentially toxic) air contaminant exposure assessments, review test protocols, and provide engineering support to districts and other government agencies that request such assistance; and
12. Provide technical support in the form of laboratory and special field sampling tests and services for regulatory activities undertaken by elements of the Board.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- An increase of \$736,000 to replace worn equipment.
- An increase of 2 positions (1.9 personnel years) and \$570,000 for motor vehicle fuel analysis.
- An increase of 2 positions (1.9 personnel years) and \$598,000 to improve the quality of air monitoring data.
- An increase of 4.5 positions (4.3 personnel years) and \$1,069,000 for consumer products test method development.

## 10.60 Research

## Program Element Statement

As a basis for its regulatory and standards-setting decisions, the Air Resources Board requires the fullest and most accurate scientific and technical information on air pollution and its control. Access to the knowledge and skills of a broad range of disciplines is required to assemble this information. The Research element provides the Board with the scientific and technical information necessary to formulate regulations and standards by maintaining the following activities:

1. Sponsor extramural research in various aspects of air pollution, including its effects and its control;
2. Monitor air pollution research conducted by federal agencies and other organizations;
3. Establish appropriate air quality standards for California and coordinate the review of federal and State ambient air quality standards;
4. Document total pollution exposures and assess their health impacts;
5. Evaluate the socioeconomic impacts of air pollution and of control measures designed to reduce those impacts;
6. Develop and operate the Board's reference library, which provides reference services and disseminates technical information to the Board staff and others.

## Budget Adjustment

In 1991-92, the following budget adjustment is proposed:

- An increase of 1 position (0.9 personnel year) and \$87,000 to develop incentive-based regulatory policies to significantly reduce vehicle miles.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

## 20 ENVIRONMENTAL AFFAIRS PROGRAM

## Program Objectives Statement

The State's environmental programs are administered by the Office of Environmental Affairs. The Secretary of Environmental Affairs, a member of the Governor's Cabinet, advises the Governor on major policy and program matters and oversees the operations of the three environmental boards: Air Resources Board, State Water Resources Control Board and California Integrated Waste Management Board. In addition, the Secretary is responsible for supervision and coordination of all offshore leasing, exploration and development.

## Authority

Health and Safety Code, Section 39511.

## Budget Adjustments

In 1991-92, the following budget adjustment is proposed:

- The reestablishment of 1.5 positions (1.5 personnel years) and \$500,000 (net increase over 1990-91 funding level of \$466,000) to continue the program to mitigate the cumulative impacts on the commercial fishing industry from offshore oil and gas development.

## 3460 COLORADO RIVER BOARD OF CALIFORNIA

The principal objective of the Colorado River Board is to protect California's rights and interests in the water and power resources of the Colorado River system. This is accomplished through investigations and through working with the other Colorado River Basin states, federal agencies, the Congress, and the courts. Activities include analyses of the engineering, legal and economic matters concerning the Colorado River resources of the seven Basin states (Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming) and all factors involved in the 1944 U.S.-Mexico Water Treaty obligation to deliver Colorado River water to Mexico. The Board develops a single position among the California agencies having the major established water and power rights in the Colorado River. The Board also collaborates with other California agencies, primarily the Department of Water Resources, State Water Resources Control Board, and Department of Fish and Game, and works closely with the Attorney General, the Board's counsel.

By statute, the Board consists of ten members that are appointed by the Governor: one from each of the six major public agencies having rights to the use of water or power from the Colorado River, two from the general public, and the Directors of the Departments of Water Resources and Fish and Game. The six public agencies are: Palo Verde Irrigation District, Imperial Irrigation District, Coachella Valley Water District, the Metropolitan Water District of Southern California, San Diego County Water Authority, and the Department of Water and Power of the City of Los Angeles. These agencies provide two-thirds of the Board's funding, with the remaining one-third derived from State funds.

10 PROTECTION OF CALIFORNIA'S  
COLORADO RIVER RIGHTS AND INTERESTS

## Program Objectives Statement

California's rights and interests in the Colorado River Basin must be preserved in order to continue the successful irrigation of about 650,000 acres in the Imperial, Coachella, Palo Verde, and Yuma Valleys of California, and to furnish municipal, industrial, and agricultural water supplies and hydroelectric energy to seven counties in southern California. The area served with Colorado River water and power has a population of approximately fifteen million—more than half the State's population—and represents more than half the State's assessed valuation. The public agencies having the rights to use Colorado River water and power have invested about \$800 million in facilities for diversion and beneficial use of nearly five million acre-feet of water per year and for the generation and transmission of three and one-half billion kilowatt-hours of hydroelectric energy annually.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 3460 COLORADO RIVER BOARD OF CALIFORNIA—Continued

Protection of California's Colorado River rights, including water quantity, water quality, and hydroelectric power, requires a continuous effort because planned use of water by the seven Basin states plus deliveries to Mexico exceed the available supply. California's present uses of Colorado River water amount to approximately 65 percent of the water used in southern California. As the other states increasingly use their apportionments of Colorado River water, the river's problems will become more severe.

A significant change in the procedures used to determine deliveries to California occurred with the commencement of Central Arizona Project deliveries in 1985. California can no longer divert, on a dependable basis, all the water it can beneficially use. Its dependable river supply is now limited to its basic apportionment of 4.4 million acre-feet per year. It is essential to the well-being of California's Colorado River water users and the State's overall water supply situation that continuous efforts be undertaken to maximize its river's resources.

Fulfillment of the Board's functions and obligations is a continuing program, requiring analysis and action on dynamically changing factors affecting Colorado River water and power supplies.

The major objectives of the program are as follows:

1. Maintain or increase the quantity of California's Colorado River water resources by (a) obtaining credit for all surface and subsurface return flows to the river, (b) assuring that the Federal Government's operating rules and plans for Colorado River reservoirs optimize the projects' purposes and maximize California's river resources, (c) working with California's Colorado River contractors to implement water conservation measures, system improvements and other means that allow for increased beneficial use of California's river resources, (d) identifying and implementing an affordable water supply for municipal, industrial and recreational users in California along the Colorado River with insufficient or no water rights, (e) achieving an amicable settlement of basic disagreements between the Colorado River Basin states over interpretation of the Colorado River Compact and other water rights issues, (f) establishing and maintaining, in cooperation with other governmental agencies, an effective floodway in the lower Colorado River to protect public safety, natural resources, and water conservation, (g) fostering federal studies of weather modification and vegetation management in the Colorado River Basin that would augment the river's flow, and (h) developing and implementing plans for water conservation and reuse, maximizing the State's use of Colorado River water and the coordinated use of Colorado River and State Water Project waters.

2. Maintain Colorado River salinity at or below the Basin states'-adopted and federally-approved salinity standards through continual review, improvement, and implementation of the basin-wide federal-state salinity control program, cooperatively developed by the interstate Colorado River Basin Salinity Control Forum and federal agencies. The Forum's major objective is to expedite the basin-wide Colorado River salinity control program. California's share of the Forum's budget is funded through the Board's budget, one-third from the California Environmental License Plate Fund and two-thirds from reimbursements.

3. Maintain California's Colorado River resources that are impacted by the U.S.-Mexico Water Treaty through cooperative efforts with the U.S. International Boundary and Water Commission and other states.

## 3480 DEPARTMENT OF CONSERVATION

The Department of Conservation is responsible for promoting the development and wise management of the State's land, energy, and mineral resources. The Department provides services and disseminates information in the following areas: geology and seismology, mineral resources, geothermal and petroleum resources, agricultural and open space land, and container recycling and litter reduction.

These services and information are critical to the public and private sectors for land use decisions, siting of facilities, regulation and conservation of petroleum resources, protection of agricultural and open space land, optimum utilization of mineral resources consistent with sound conservation practices, and conservation of soil resources.

## SUMMARY OF PROGRAM REQUIREMENTS

	1989-90*	1990-91*	1991-92*
10 Geologic Hazards and Mineral Resources Conservation .....	\$11,851	\$14,443	\$15,298
20 Oil, Gas and Geothermal Protection .....	9,194	9,740	10,094
30 Land Resource Protection .....	1,221	1,433	1,401
40 Administration .....	4,086	5,601	6,089
Distributed Administration .....	—4,076	—5,601	—6,089
50 Beverage Container Recycling and Litter Reduction Program .....	193,047	282,066	310,455
<b>TOTALS, PROGRAMS .....</b>	<b>\$215,323</b>	<b>\$307,682</b>	<b>\$337,248</b>
Reimbursements .....	—880	—2,333	—1,427
Unallocated trigger reduction .....	—	—	—106
<b>NET TOTALS, PROGRAMS .....</b>	<b>\$214,443</b>	<b>\$305,349</b>	<b>\$335,715</b>
General Fund .....	14,727	15,298	15,545

Strong-Motion Instrumentation Special Fund .....	3,157	4,067	3,513
Methane Gas Hazards Reduction Acct. ....	190	—	—
Federal Trust Fund <sup>1</sup> .....	305	508	513
Personnel years .....	470.9	528.8	570.7

<sup>1</sup> Effective October 2, 1989, as authorized by Chapter 1339, Statutes of 1989, the Redemption Bonus Account was renamed the Redemption Account.

## 10 GEOLOGIC HAZARDS AND MINERAL RESOURCES CONSERVATION

## Program Objectives Statement

The goals of the Geologic Hazards and Mineral Resources Conservation program are to prevent or minimize injury, death, and property damage resulting from geologic hazards and to encourage the development and utilization of California's mineral resources consistent with sound conservation practices. Through the efforts of five subsidiary programs, the Division of Mines and Geology develops and disseminates information and advice concerning the geologic, engineering geologic, seismologic, volcanologic, earthquake engineering, and mineral resource issues of California. This information and advice is used by government agencies, private enterprises, and the general public who are involved in making land-use decisions which relate to the development of mineral resources, effective reclamation of mined lands, and the safety of persons and property from geologic hazards. The Division manages and maintains the State's repository on California's geology, seismology, and mining activity.

## 3480 DEPARTMENT OF CONSERVATION—Continued

## Authority

Public Resources Code, Division 1, Chapter 2, Article 3, and Division 2.

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- 8 positions (3.8 personnel years) administratively established and a \$350,000 loan from the Strong Motion Instrumentation Special Fund pursuant to Chapter 1097, Statutes of 1990, to augment Surface Mining and Reclamation Compliance.
- 1 position (0.8 personnel year) administratively established and \$1,142,000 reimbursement expenditure authority to prepare and complete required environmental documents.
- 1.0 position (0.7 personnel years) abolished effective November 1, 1990 as a result of General Fund reductions.

In 1991-92, the following budget adjustments are proposed:

- 12.5 positions (11.9 personnel years limited term through June 30, 1993) and \$1,095,000 (\$950,000 Mine Reclamation Account; and \$145,000 reimbursement expenditure authority) to augment Surface Mining and Reclamation Compliance pursuant to Chapters 1097 and 1101, Statutes of 1990.
- 15.4 positions (14.6 personnel years) and \$1,188,000 Seismic Hazards Identification Fund to implement a statewide seismic hazards mapping and technical advisory program to reduce future losses from seismic shaking, liquefaction, and earthquake-induced landslides pursuant to Chapter 1168, Statutes of 1990.
- \$182,000 Strong Motion Instrumentation Special Fund through June 30, 1993, for increased analysis of earthquake data.
- 2 positions (1.9 personnel years limited term through June 30, 1993), and \$250,000 in reimbursements to continue the performance of seismic instrumentation of bridges and hospitals.

## 10.16 Mineral Resources Development

## Program Element Statement

The Mineral Resources Development Program, which is comprised of the Mineral Land Classification Project, and the Mineral Resource Analysis Project, provides government decision makers, industry, and the general public with up-to-date information regarding mineral potential and mining activity in California. Emphasis is placed on providing information which can be used to make prudent land-use decisions with regard to responsible development of the State's finite mineral resources. Program geologists work directly with staff of local, state, and federal agencies and are accessible to the general public to provide technical assistance.

## 10.26 Environmental Review and Reclamation

## Program Element Statement

The Environmental Review and Reclamation Program includes the Environmental Review Project, the Hospital, School Project; the Timber Harvest Plan Review Project; and the Mined-land Reclamation Project. These projects review and provide advisory comments on environmental documents including environmental impact reports; hospital, school, and essential services site reports; timber harvesting plans; and mined-land reclamation plans to minimize potential adverse effects of proposed land-use activities.

## 3480 DEPARTMENT OF CONSERVATION—Continued

## 10.36 Geohazards Assessment

## Program Element Statement

The Geohazards Assessment Program includes the Alquist-Priolo Fault Evaluation and Zoning Project, the Landslide Hazard Assessment Project, the Earthquake Shaking Assessment Project, the Earthquake Damage and History Project, and the Earthquake Prediction and Early Warning Project. These projects evaluate what geologic or seismic hazards are likely to occur in an area, estimate their likelihood of occurring, and work with local, state, and federal agencies, university researchers, and the private sector to implement procedures to reduce or mitigate the identified hazards. The projects produce maps and reports for distribution and provide site-specific investigations of hazardous areas during emergencies.

## 10.46 Earthquake Engineering

## Program Element Statement

The Earthquake Engineering Program is comprised of the statewide, the hospital, and the transportation structures strong motion instrumentation projects, as well as the structural response, ground response, and data utilization projects. These projects install and maintain strong motion instruments, and record, interpret, and disseminate strong motion data which are used by engineers to improve engineering design of structures and by seismologists to advance the understanding of site-specific local effects on ground motion attenuation.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

Reimbursements .....				62	214	256

## 10.56 Geologic Information/Support

## Program Element Statement

The Geologic Information and Support Program is composed of the regional geologic mapping project, the applied geophysics project, publication and information services, and library services. Program responsibilities include gathering, synthesizing, and interpreting regional geological and geophysical data, providing the private and public sectors with useful information about California's geology, mineral resources, and geologic hazards, and furnishing library research, geologic mapping assistance, and geophysical mapping support to the other DMG programs.

## 20 OIL, GAS, AND GEOTHERMAL PROTECTION

## Program Objectives Statement

The Division of Oil and Gas regulates the oil, gas, and geothermal resources operations within the State. This program is concerned with the administration of State laws for the conservation of oil, gas, and geothermal resources and to prevent damage to life, health, property and natural resources. Compliance activities include review of applications and issuance of well operation permits, and on-site surveillance and monitoring of: (1) drilling and abandonment operations, both onshore and offshore; (2) enhanced oil recovery, gas storage, and wastewater disposal operations; and (3) operations for the abatement of subsidence of lands overlying hydrocarbon and geothermal fields. The State is fully reimbursed for these activities by annual assessments and fees from the respective industries.

The program's main objectives are to prevent damage to the hydrocarbon or geothermal reservoirs, to the environment, and to other natural resources; to prevent contamination of freshwater deposits; to prevent conditions that may be hazardous to life or health; and to encourage the wise development of oil, gas, and geothermal resources.

## Budget Adjustments

In 1990-91, a baseline adjustment of \$130,000 has been made to align budgets with projected federal fund resources.

In 1991-92, the following budget adjustments are proposed:

- 4 positions (3.8 personnel years) and \$209,000 General Fund to handle the additional workload associated with the Construction Site-Review Program.
- 2 positions (1.9 personnel years) and \$108,000 General Fund increased workload associated with the abandonment of idle oil, gas, and injection wells, pursuant to Chapter 1604, Statutes of 1990.

\* Dollars in thousands, excluding salary range.

## 20.10 Regulation of Oil and Gas Operations

## Program Element Statement

The purpose of this element is to prevent damage to underground and surface waters; prevent other surface environmental damage, including subsidence; prevent conditions that may be hazardous to life or health; protect correlative rights so that landowners, royalty owners, producers, and the general public realize and enjoy the greatest possible benefits from these vital resources; and prevent damage to and waste of underground oil and gas deposits; prevent loss of oil and gas reservoir energy; and encourage the wise development of oil and gas resources through good conservation and engineering practices. In March 1983, the Division of Oil and Gas was granted primacy by the federal Environmental Protection Agency (E.P.A.) in the regulation of Class II underground injection wells under the federal Safe Drinking Water Act. The division is partially reimbursed by the E.P.A. for this program.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

## 20.20 Regulation of Geothermal Operations

## Program Element Statement

Geothermal energy is indigenous to California and has the potential to lessen—when developed—California's dependence on imported fuels. It can be developed within acceptable environmental standards when due consideration is given to proper mitigating measures.

The purpose of this element is to prevent damage to underground and surface waters suitable for irrigation or domestic use; prevent other surface environmental damage, including subsidence; prevent conditions that may be hazardous to life or health; prevent loss of geothermal reservoir energy; encourage the wise development of geothermal resources through good conservation and engineering practices; protect correlative rights so that landowners, royalty owners, producers, and the general public realize and enjoy the greatest possible benefits from this important resource; and prevent damage to and waste of underground geothermal deposits. Chapter 1271/78 assigned lead agency responsibility to the department under the California Environmental Quality Act for all exploratory geothermal well projects.

## 30 LAND RESOURCE PROTECTION

## Program Objective Statement

California soil is one of the State's most valuable and threatened resources.

There is a need to provide information on the conversion of agricultural land in California, and to provide incentives to farmers and ranchers to conserve soil productivity and to retain agricultural and open space lands. These goals are accomplished through a subvention program to local government which encourages the long-term protection of productive agricultural land and open space, by providing current land use information to government, and the implementation of a State soil conservation plan. Elements which address these concerns on an ongoing basis are Open-Space Subvention Administration, Farmland Mapping and Monitoring, and Soil Resource Protection.

## Authority

## 3480 DEPARTMENT OF CONSERVATION—Continued

## 30.10 Open-Space Subvention Administration

## Program Element Statement

Agricultural watershed and open space lands of statewide significance must be conserved for the continued economic and social well being of the people of California. Local government is encouraged to conserve this land by the Open-Space Subvention Program which is administered by the Department of Conservation for the Secretary for Resources. Under this program cities and counties are reimbursed, in part, for tax revenue losses resulting from reduced assessments of land restricted to agricultural and open space uses under the provisions of the California Land Conservation Act (Williamson Act). This land is then assessed on the basis of income produced rather than market value.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (General Fund).....	1.4	5.7	5.7	\$106	\$222	\$224

## 30.20 Farmland Mapping and Monitoring

## Program Element Statement

This element focuses on quantitative mapping, monitoring and reporting on crop and grazing land vital to sustaining California's \$17.5 billion per year agricultural industry. The objective of this element is to provide accurate up-to-date land use data, in the form of important farmland maps and decrease conversion statistics, to local, state and federal governments; to assist them in making informed decisions for the best utilization of our remaining agricultural land. Base year for reporting purposes is 1984. Project coverage began with 36 counties in 1982 and is expanding; 45 counties are currently being monitored.

Reimbursements.....				2	—	—

## 30.40 Soil Resource Protection

## Program Element Statement

This element focuses on the conservation and enhancement of the State's nonrenewable soil resource. Work activities within this element are directed towards ensuring the long term productivity of the State's soil resources through the continued implementation of the State Soil Conservation Plan. Staff gathers data on soil conservation problems; work towards current law affecting the structure and organization of the Department's soil conservation activities and also those of the local resource conservation districts; promote the completion and utilization of soil surveys; and, provide basic advisory services on soil conservation to the Department. Work activities are oriented towards supporting resource conservation districts implementing the objectives of the Soil Conservation Plan at the local level.

## 40 ADMINISTRATION

## Budget Adjustments

In 1990-91, the following adjustment is reflected:

- 3.5 positions (1.3 personnel years) administratively established and \$130,000 (\$118,000 Strong Motion Instrumentation Program Fund and \$12,000 California Beverage Container Recycling Fund) to handle the increased administrative workload associated with department program increases.

In 1991-92, the following adjustments are proposed:

- 6.5 positions (6.2 personnel years) of which 4 are two year limited-term and \$341,000 from various funds to handle the increased administrative workload associated with department program increases.
- \$354,000 from various funds for facilities operations increases.

## 50 BEVERAGE CONTAINER RECYCLING AND LITTER REDUCTION

## Program Objectives Statement

The objective of the Beverage Container Recycling and Litter Reduction program is to administer the California Beverage Container Recycling and Litter Reduction Act. This program promotes the recycling of beverage containers in the State, provides a convenient method of recycling for consumers, and decreases the amount of litter in the State, as well as the amount of waste going to landfills. The Division's goal is to achieve an 80 percent recycling rate for beverage containers sold in California.

Chapter 1339, Statutes of 1988, amended the California Beverage Container Recycling and Litter Reduction Act to increase the refund value of beverage containers redeemed by consumers from one cent to five cents for every two containers redeemed, effective January 1, 1990. Also, effective November 1, 1989, the redemption value paid by distributors increased from one cent to two cents for each container sold or offered for sale in the State. It is anticipated that the increase in the refund value will provide an economic incentive to consumers to encourage recycling of beverage containers thereby reducing the amount of containers entering the waste stream for landfill disposal. In 1989-90, revenues were \$220 million. The Department pays a processor of recycled beverage containers the redemption value of each container. In turn, the processor reimburses the recycling center which paid the consumer. Monies not paid for redemption values are expended for administration; litter reduction, recycling and education grants; and convenience incentive payments.

Major activities for the 1991-92 Fiscal Year include contract management for recycling information, education, and promotion; grant management for litter abatement, recycling, and related activities; enforcement of regulations and auditing/accounting activities to protect the integrity of the California Beverage Container Recycling Fund; issuance of determinations relating to redemption and recycling rates; analysis of markets for recyclable materials; preparation of the Program's annual report to the Governor and the Legislature; analysis and various reports to the Legislature on technical aspects of the program.

## Budget Adjustments

In 1990-91, the following adjustment from the California Beverage Container Recycling Fund is reflected:

- 15 positions (6.0 personnel years) administratively established and \$319,000 to enforce new recycled glass requirements; compile data and investigate the importation of Out-of-State beverage containers; compile and publish volumetric information for curbside recycling programs, certified recycling centers, and convenience incentive payments; implement a market development program for users and sellers of glass cullet; and increase the fiscal intermediary contract (\$52,000).

In 1991-92, the following adjustments from the California Beverage Container Recycling Fund are proposed:

- 7.5 positions (7.0 personnel years) of which 2.0 are limited-term through June 30, 1993 and \$648,000 to handle increased workload associated with fraud investigations; program participant accounting and reporting procedure audits; time and motion surveys for processing fee calculations; and beverage container labeling, packaging, and market research development. Also included is the redirection or \$50,000 in Consulting and Professional Services-external funds for a contract to evaluate recycled product technology, on a two-year basis.
- 2 positions (1.9 personnel years) limited-term through June 30, 1993 and \$177,000 to enforce new recycled glass requirements mandated by Chapter 1094, Statutes of 1990.
- 2 positions (1.9 personnel years) limited-term through June 30, 1993 and \$437,000 to compile data and investigate the importation of out-of-state beverage containers pursuant to Chapter 1148, Statutes of 1990, and to provide for an interagency agreement with the Department of Food and Agriculture.
- 1.5 positions (1.4 personnel years) limited-term through June 30, 1993 and \$132,000 to compile and publish volumetric information for curbside recycling programs, certified recycling centers, and convenience incentive payments pursuant to Chapter 1273, Statutes of 1990, and the redirection of \$50,000 in Consulting and Professional Services-external funds to increase a contract with the fiscal intermediary on a two-year basis.
- 9.5 positions (9.0 personnel years) of which 6.5 are limited-term through June 30, 1993 and \$900,000 to implement a market development program for users and sellers of glass cullet, conduct additional audits, handle the increased workload associated with the exemption process, pursuant to the requirements of Chapter 1274, Statutes of 1990, and increase the fiscal intermediary contract (\$125,000).

## 3480 DEPARTMENT OF CONSERVATION—Continued

## 50.10 Enforcement

## Program Element Statement

This element provides the enforcement of the rules and regulations governing the California Beverage Container Recycling and Litter Reduction Act (Act) to ensure compliance with the goals and objectives of the program. It includes the financial and compliance examinations of all entities coming under the purview of the Act. Examinations are required to ensure the integrity of the California Beverage Container Recycling Fund. Entities to be examined include container manufacturers, beverage manufacturers, beverage distributors, processors, and recyclers. The management of the Payment and Report Processing System which receives and disburses monies from the Beverage Container Recycling Fund is also part of this element.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Continuing Administrative Costs .....	65.1	93.2	102.3	\$9,168	\$10,462	\$12,311

California Beverage Container Recycling Fund .....				138,919	232,100	245,031

## 50.20 Education and Motivation

## Program Element Statement

The Education and Motivation Element is responsible for the implementation of the Division of Recycling's marketing campaigns, components of which include public education, the distribution of information, promotional and media relations activities. The emphasis of this element is to inform and motivate Californians to recycle beverage containers. The majority of these marketing, information and public education projects are performed under contracts with marketing/advertising firms, certified recyclers, non-profit organizations, and private industry. The products of this element include television, radio and print advertisements; public service messages and program participation; promotional activities aimed at identified target groups; legislative information and participation programs; information distribution through the media; and the design and production of a wide array of information, education and motivational materials (brochures, signs, kits, reports, flyers, etc.)

This element is also responsible for planning and coordinating public events and news conferences; publishing an industry newsletter; designing and staffing informational exhibits and displays at trade shows, workshops and conferences; responding to inquiries from the media, individuals, groups and organizations; and, distributing information and providing referrals to inquiries regarding recycling and recycling center locations via two toll free services—one to provide program information for industry, special interest, and nonprofit organizations and the second as a referral service for consumers.

California Beverage Container Recycling Fund .....				6,481	6,291	6,272
Redemption Account, California Beverage Container Recycling Fund .....				902	—	—

## 50.30 Economic Analyses

## Program Element Statement

The Economic Analyses Element functions include calculation of processing fees and economic analyses of the beverage container and recycling industries, as well as container labeling requirements and recycling program reports. The calculation of processing fees and program reporting are two of the most sensitive areas included in the California Beverage Container Recycling and Litter Reduction Act and require substantial amounts of investigation, analysis, and contact with industry. This element also awards funds to provide financial assistance to certified recycling centers through the Convenience Incentive Payment Program.

## 50.40 Certification

## Program Element Statement

This element assures that recyclers, processors, and beverage dealers meet the certification and other legal requirements for participation in the State's various recycling programs. In this cooperative effort, the Division works with full-line supermarkets and other beverage dealers, recycling programs, processors, local governments, and environmental groups. This element certifies new recycling centers, programs, processors and performs program reviews of applicant and certified recycling programs; maintains a data base of program participants, facilities, convenience zones, exemptions of convenience zones and alternative means of convenience. Also included is convenience zone map production, and surveys to identify and verify supermarket, beverage dealer, and certified recycling center locations.

\* Dollars in thousands, excluding salary range.

3480 DEPARTMENT OF CONSERVATION—*Continued*

This element also awards funds for recycling and litter abatement activities in the form of grants to community conservation corps and local conservation organizations. Grants are also awarded to statewide nonprofit organizations for recycling information, education and promotion programs. This element also provides technical assistance to recyclers, processors, industry and environmental groups and communities to establish curbside and various other recycling collection programs.

## 3540 DEPARTMENT OF FORESTRY AND FIRE PROTECTION

The Department of Forestry and Fire Protection, under the policy direction of the State Board of Forestry, is responsible for providing fire protection and watershed management services for private and State-owned watershed lands known as State Responsibility Areas (SRA).

The primary objectives of the department are to:

1) Maintain a fire prevention program that minimizes fire losses due to human causes.

2) Provide an efficient fire control system that holds damages from wildfire to a level that will not seriously impair the economic, environmental, and social benefits derived from the SRA.

3) Maintain and improve the quality of land and vegetative resources in order to maximize the economic and social benefits that are derived from these resources now and in future generations.

In addition, the Department of Forestry and Fire Protection provides fire protection services for some local governments on a cost reimbursement basis. Departmental employees and equipment are also used for other emergencies such as floods and earthquakes.

## 3540 DEPARTMENT OF FORESTRY AND FIRE PROTECTION—Continued

## 11 FIRE PROTECTION

## Program Objectives Statement

California's forest, brush, and grass covered wildlands provide a rich but limited abundance of natural resources which require protection from potential damages resulting from uncontrolled fire. The fire protection program is managed by the Department of Forestry and Fire Protection for the purposes of providing the required protection on private and State-owned lands of statewide interest and of enhancing the quality and usefulness of the resources.

The department maintains an integrated and balanced fire protection program designed to provide "basic fire protection" to SRA and other wildland areas which the department protects under contract with other agencies, and to hold fire damage at or below the 15-year average and minimize the impairment of economic, social and environmental benefits. As designed, fire protection recognizes that uncontrolled fire must be abated as a public nuisance by a combination of fire prevention, fire control, cooperative fire protection, and conservation camps.

In response to the October 17, 1989 Loma Prieta earthquake, the Department expended an additional \$2.4 million for emergency response. Of this amount, \$1,031,000 was reimbursed by the Office of Emergency Services with funds received from the Federal Emergency Management Agency (FEMA).

## Budget Adjustments

In 1990-91, the following adjustments are reflected:

- A reduction of \$6,149,000 to allocate this program's share of the three percent General Fund unallocated reduction pursuant to Section 3.80 of the Budget Act of 1990 by increasing salary savings for phased-in reduction of fire protection personnel (\$1,848,000) along with reductions in telecommunications (\$2,000,000), air operations (\$277,000), mobile fleet equipment (\$1,212,000), and facilities repairs (\$550,000), and contract counties (\$262,000).
- \$83,750,000 General Fund augmentation for emergency fire suppression activities.
- \$28,000,000 Federal Trust Fund augmentation for emergency fire suppression activities on Federal responsibility area lands.
- 105 personnel years and \$5,977,000 General Fund to augment firefighting staffing and related operating expenses for the 1990 summer fire season.
- A reduction of \$142,000 General Fund (2.2 personnel years) which are redirected to fund workload increases in delegated testing in Program 20, and the redirection of \$365,000 within this program to fund workload and cost increases in workers compensation (\$184,000) and fleet insurance (\$181,000).
- One-half personnel year and increased reimbursement expenditure authority of \$156,000 to conduct California Environmental Quality Act (CEQA) reviews for the Department of Corrections.
- \$3,600,000 General Fund augmentation for firefighting services provided to Butte County.
- 135.5 positions (128.7 personnel years) and \$7,459,000 increased reimbursement expenditure authority to support local government contract increases.

In 1991-92, the following budget adjustments are proposed:

- A net increase of \$460,000 General Fund to reflect a revision to the allocation of the Section 3.80, Budget Act of 1990, reduction of \$6,149,000 within this program to a reduction of \$5,689,000 and 49 positions (47.4 personnel years) by restoring the prior reduction then reducing conservation camp personnel (\$1,154,000 and 29.4 personnel years), fire lookouts (\$471,000 and 18 personnel years), telecommunications equipment (\$1,156,000), mobile equipment (\$1,391,000), overtime (\$202,000), facility repairs (\$550,000), contract counties (\$297,000) and increasing salary savings (\$468,000).
- \$322,000 increased reimbursement expenditure authority for increased workers compensation costs (\$270,000) and uniform allowance increases (\$52,000).
- 7 positions (6.9 personnel years) limited term to June 30, 1994 and \$233,000 Federal Trust Fund for fire cost recovery staff.
- 211.5 positions (200.9 personnel years) and \$11,692,000 increased reimbursement expenditure authority to support local government contract agreements.
- A reduction of 7.0 positions and a partial year adjustment for an increase of 0.8 personnel years and a reduction of \$1,122,000 in reimbursement expenditure authority to reflect revised conservation camp expansion activation dates.
- Four positions (3.8 personnel years) limited term to June 30, 1994 and \$223,000 Special Account for Capital Outlay (SAFCO) for increases in telecommunications systems workload.
- \$1,413,000 General Fund for fixed cost increases in: fixed wing contract costs (\$780,000), vehicle insurance (\$68,000), workers compensation (\$221,000), correction of hazardous materials contamination (\$250,000), inoculation of employees against Hepatitis B (\$23,000), and mandatory water testing and permit fees (\$71,000).
- \$278,000 General Fund redirected from contracted services to fund increased workers compensation costs.
- 32.6 positions (9.8 personnel years) and redirection of \$491,000 operating expense and equipment funds to replace contract protection of state responsibility area with Department of Forestry and Fire Protection staff.
- Reappropriation of \$5,000,000 Special Account for Capital Outlay (SAFCO) from 1990-91 to begin replacement of the department's fixed wing aircraft.
- \$30,000,000 General Fund for emergency fire suppression and detection activities.

## 3540 DEPARTMENT OF FORESTRY AND FIRE PROTECTION—Continued

## 11.10 Fire Prevention

## Program Element Statement

The Legislature has defined fire prevention as "the employment of the most effective methods, material, and procedures in the dissemination of information, to remove or mitigate physical risk and hazards, and the enforcement of pertinent laws for the reduction of fire incidence". The term "fire prevention" shall connote an action program designed to reduce the occurrence of human-caused fires.

Fire cause investigations show that 75 percent of California's human-caused wildfires are preventable. This element provides fire prevention personnel to educate the public in the safe use of fire and to regulate the use of fire or potential ignition sources in such a way that "uncontrolled fires", as defined in Section 4104 Public Resources Code, are restricted to an acceptable level.

Federal Trust Fund <sup>f</sup> .....				198	200	200

## 11.30 Fire Control

## Program Element Statement

The objective of this element is to detect, respond to, and suppress each wildland fire occurring in or threatening State Responsibility Area lands within a time and size which will hold net damages to natural resources and exposed life and property within reasonable economic and social limits. Fire control is accomplished through a balanced and integrated system of detection, dispatch and communications, ground attack, air attack, and mutual aid.

The fire control element includes 223 forest fire stations, 61 lookouts, 9 helitack units, 13 primary air attack bases, and fire crews located at 52 Departments of Corrections and Youth Authority and county conservation camps, including Training Centers, and one California Conservation Corps fire center. This system is designed to meet the objective of holding the average number and acres burned by large damaging fires within the State Responsibility Area to no more than the current 15-year average. The emphasis of fire control is the protection of high-value areas; i.e., commercial timberlands, critical watershed, high-value recreation areas, areas with a high density of exposed life and property, and areas with unique wildland value. Also included is participation in non-fire emergency situations.

## 11.40 Cooperative Fire Protection

## Program Element Statement

The Department of Forestry and Fire Protection provides life and property protection under cooperative agreement with local governments within and adjacent to state responsibility areas. This program is commonly referred to as the Schedule A program.

In addition, the department contracts with six counties for the protection of lands classified as State responsibility.

Based upon established protection boundaries between the department and the U.S. Forest Service and Bureau of Land Management, the department protects certain federal lands, and in turn, receives federal protection on certain state responsibility lands. The department also protects other scattered and intermingled federal lands under jurisdiction of the Bureau of Reclamation and others.

Reimbursements .....				58,958	76,099	81,901

## 11.60 Conservation Camps

## Program Element Statement

The Department of Forestry and Fire Protection operates 35 adult conservation camps and three adult training centers in cooperation with the Department of Corrections, eight youth conservation camps and two youth training centers in cooperation with the Department of the Youth Authority, two camps in cooperation with San Diego County and one camp in cooperation with Shasta County. Additionally, the department operates one fire center in cooperation with the California Conservation Corps.

This element provides the primary fire crew labor force for firefighting and other emergency assignments. When not engaged in firefighting, other emergency assignments and training, camp inmates and wards, under the department's supervision, work on in-camp projects and fire defense improvements for the department and conservation projects for State, federal, and local government agencies.

## 3540 DEPARTMENT OF FORESTRY AND FIRE PROTECTION—Continued

## 11.80 Emergency Fire Suppression

Pursuant to established guidelines, the Department of Forestry and Fire Protection is authorized to make emergency fire suppression expenditures when the size and number of fires exceed the capability of the department's budgeted initial attack resources.

## 12 RESOURCE MANAGEMENT

## Program Objectives Statement

The purpose of this program is to protect California's State and private forest, brush range and watershed lands from pests, deterioration and human misuse, and to enhance the management and use of these lands.

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- A reduction of \$320,000 General Fund by reducing \$273,000 in operating expenses and equipment and increasing salary savings by \$47,000 to allocate the three percent General Fund reduction pursuant to Section 3.80 of the Budget Act of 1990.
- 16 positions (15.8 personnel years) administratively established by redirecting funds (\$556,000) from operating expense and equipment for increased efficiency in Forest Pest Management.
- A reduction of \$104,000 which has been redirected to fund workload increases in delegated testing in Program 20, and the redirection of \$16,000 within this program to fund cost increases in workers compensation.
- 1 position (0.9 personnel year) limited term to June 30, 1992 and \$88,000 Federal Trust Fund for the cooperative project for utilization and marketing of forest products.

In 1991-92, the following budget adjustments are proposed:

- A net reduction of \$183,000 General Fund to reflect a revision to the allocation of the Section 3.80, Budget Act of 1990, reduction of \$320,000 within this program to \$503,000 by restoring the prior reduction then reducing 1 position (0.9 personnel year) and \$58,000 at Latour State Forest, \$400,000 in operating expenses and equipment, \$6,000 in overtime, and \$39,000 increased salary savings.
- \$373,000 fund shift from Public Resources Account, Cigarette and Tobacco Products Surtax Fund, to Forest Resources Improvement Fund for demonstration state forest recreation and development.
- 1 position (0.9 personnel year) and \$66,000 Forest Resources Improvement Fund for increases in timber sales workload and to address the growing complexity of forest management at the Jackson Demonstration Forest.
- 1 position (0.9 personnel year) limited term to June 30, 1993 and \$46,000 increased reimbursement expenditure authority (from California Tahoe Conservancy) for developing and maintaining healthy timber stands that will benefit the water quality of Lake Tahoe.
- 1 position (0.9 personnel year) limited term to June 30, 1992 and \$88,000 Federal Trust Fund for the cooperative project for the utilization and marketing of forest products.
- 3 positions (2.8 personnel years) limited term to June 30, 1993 and \$211,000 General Fund for new workload associated with the processing of timberland conversions (Chapter 1237/90).
- 13 positions (12.8 personnel years) limited term to June 30, 1994 and \$822,000 Outer Continental Shelf Land Act, Section 8(g) Revenue Fund for additional staff to control the outbreak of Dutch Elm Disease in Alameda and Sacramento counties.
- 8 positions (7.6 personnel years) and \$499,000 Cigarette and Tobacco Products Surtax Fund, Public Resources Account to support increased Forest Practice Program clerical workload and funding to monitor the effects of timber harvesting on water quality.
- 4 positions (3.8 personnel years) and \$1,395,000 (\$1,019,000 Environmental License Plate Fund, \$376,000 Cigarette and Tobacco Products Surtax Fund, Public Resources Account) to provide long-range strategic planning and assessment of effects of forest and range management activities on wildlife and habitat conditions, including the impact on the Northern Spotted Owl from timber harvesting.
- 6 positions (5.7 personnel years) and \$464,000 Environmental License Plate Fund to handle pest control workload and provide statewide leadership in pest management and forest health issues.
- \$42,000 General Fund for increased workers compensation costs.

## 12.10 Resources Protection and Improvement

The objective of this element is to improve forest lands. Activities include: the detection, evaluation, and control of forest pests; growing and sale of tree seedlings from three State nurseries for reforestation and soil erosion control; genetic tree improvement; advice and assistance to nonindustrial owners of forest lands on management of forests and improved harvesting practices; management of demonstration State forests; implementation of the California Forest Improvement Act of 1978, and demonstration of the use of wood waste and forest growth for increased use of forest products.

\* Dollars in thousands, excluding salary range.

## 3540 DEPARTMENT OF FORESTRY AND FIRE PROTECTION—Continued

The objective of vegetation management is to assist public and private landowners to achieve land use objectives by reducing damage from wildland fires, increasing wildlife habitat, increasing productivity of forest and rangelands, improving water yields and air quality and maintaining desirable ecosystems. The Department of Forestry and Fire Protection works with federal, State and local agencies and private property owners to develop and achieve land use objectives. Activities include the removal, rearrangement, conversion or improvement of vegetation using various treatment measures such as prescribed fire and mechanical, manual, biological and chemical methods.

## 12.30 Forest Practice Regulations

The goal of this element is to achieve the maximum sustained production of high-quality timber while protecting soil, water, wildlife, recreation, and other values associated with forest land. Activities include regulating timber harvesting operations on non-federal timberlands, carrying out studies of causes and effects of soil erosion, issuing licenses to timber operators and assisting taxing agencies in their administration of taxes on timber and timberland.

## 12.40 Forest Resource Inventory and Assessment

The objective of this element is to provide information that will assist in the formulation and analysis of resource policies and practices at the State and federal level. Activities include assessing forest and range land conditions; identifying policy options for improving conditions; designing and conducting inventories to gather forest and range land data; developing a data storage, retrieval and analytical system for these resources; producing maps displaying soil and vegetation types; and providing input for and comment on U.S. Forest Service Resources Planning Act, National Forest Management Act, and Soil Conservation Service Resource Conservation Act processes.

Public Resources Account, Cigarette and Tobacco Products Surtax Fund				—	688	1,071
Federal Trust Fund <sup>f</sup>				2	—	—

## 12.50 Foresters Licensing

The goal of professional foresters registration is the protection of forest resources and the public through the licensing of competent professional foresters. Working through the Board of Forestry, activities include: development of rules, regulations and policies to effectuate the professional foresters law (PF law); reviewing, examining and licensing of applicants; receiving and investigating malpractice complaints; taking disciplinary actions for censure, suspension and/or revocation of licenses; filing of criminal complaints for violation of the PF law; and recommending legislative action related to licensing.

Expenditures (Professional Foresters Registration Fund)	1.5	1.5	1.5	\$140	\$157	\$165

## 20 MANAGEMENT SERVICES

## Program Objectives Statement

The objective of this program is to provide executive leadership, policy direction, and administrative services required for the successful completion of the department's objectives. Administrative activities are performed at several organizational levels within the department.

Department headquarters provides leadership through the executive office and through central services in accounting, budgeting, business services, personnel and technical services. Department field units provide localized general support services throughout a variety of locations in the State. The training academy is also included within management services.

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- A reduction of \$533,000 and 4.2 personnel years to allocate this program's share of the three percent General Fund unallocated reduction pursuant to Section 3.80 of the Budget Act of 1990 by increasing salary savings (\$219,000) along with reductions in the disability blanket (\$200,000) and general operating expenses (\$114,000).

\* Dollars in thousands, excluding salary range.

## 3540 DEPARTMENT OF FORESTRY AND FIRE PROTECTION—Continued

- 8 positions (7.6 personnel years) administratively established and \$246,000 which has been redirected from other programs and \$124,000 funded by redirection from within this program to provide staffing for increased workload in delegated testing and validation.
- 1.5 positions (1.5 personnel years) administratively established and funded by redirection from contracted services for a nurse practitioner and a clerical position in the medical office.
- 1 position (1 personnel year) administratively established and funded by redirection from contracted services for a stenographer position for the Board of Forestry due to increased workload.

In 1991-92, the following adjustments are proposed:

- A net reduction of \$277,000 General Fund to reflect a revision to the allocation of the Section 3.80, Budget Act of 1990, reduction of \$533,000 within this program to a reduction of \$810,000 and 7.9 personnel years by restoring the prior reduction then reducing overtime (\$17,000), disability blanket (\$200,000, 4.2 personnel years), operating expenses and equipment (\$328,000), and four positions (\$172,000, 3.7 personnel years).
- 11.1 positions (10.4 personnel years) funded by redirection from contracted services for various positions in the Accounting, Business Services, Medical, Personnel, Health and Safety Offices and Board of Forestry to handle increased workload.
- \$299,000 General Fund for increased costs to correct hazardous materials contamination (\$200,000) and workers compensation (\$99,000).

## 3560 STATE LANDS COMMISSION

The State Lands Commission administers policies established by the Legislature and the State Lands Commission for the management and protection of all statutory lands which the State has received from the federal government upon its entry into the Union. Such lands include the beds of all naturally navigable waterways such as major rivers, streams and lakes; tide and submerged lands in the Pacific Ocean which extend from the mean high tide line seaward to the three-mile limit; swamp and overflow lands; vacant state school lands; and granted lands.

California's growing population continues to make increasing demands upon the State's land resources. The State Lands Commission is responsible for comprehensive land management activities involving more than 4,000,000 acres of State-owned lands. The State Lands Commission authorizes the use of Public lands subject to reasonable rules and regulations and the determination of fair and adequate compensation. Their decisions are reached at public hearings and are based upon environmental, health and safety, and public benefit considerations.

The primary objectives established by the Legislature and implemented by the State Lands Commission are to:

- Develop comprehensive land use plans which determine potential users of State lands and provide for the conservation, preservation and protection of irreplaceable resources.
- Locate the precise boundaries of tide, submerged and other land areas to assure protection of the State's interest.
- Regulate the production of oil, gas, geothermal and other mineral resources through the administration of policies and active management of programs designed to assure protection of the environment, optimize yield of the limited resources and maximize revenue to the state.
- Provide surveillance necessary for effective management and title protection of these lands, and if necessary, pursue litigation in the courts, to protect the State's sovereign interests.
- Maintain records on the acquisition and disposition of the lands and on uses of the lands, and maintenance of an environmental inventory of the lands.
- Develop and administer leasing policies and rules, regulations and guidelines for review and inspection of all marine terminals and marine facilities in the state to insure the best achievable protection of the public health and safety, and of the environment.

The State Lands Commission land management program is accomplished through the efforts of three basic programs: Mineral Resources Management, Land Management, and Marine Facilities Management. The Executive and Administration program provides executive, legal, planning, administrative and technical support services.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 10 MINERAL RESOURCES MANAGEMENT

## Program Objectives Statement

The State Lands Commission oversees any extractive development of mineral resources which are located on State lands. The Commission also controls the development and operation of the Long Beach tidelands oil operations. The objectives of the Mineral Resources Program are to manage the orderly extraction of oil, gas, geothermal resources and other minerals; to maximize the revenue generated from extractive activities consistent with the best interests of the State; and to ensure the efficient development of these resources consistent with public safety considerations and environmental protection.

## Authority

Division 6, Public Resources Code; Chapter 29, Statutes of 1956 (1st Ex. Sess.); Chapter 138, Statutes of 1964 (1st Ex. Sess.).

## 10.10 Mineral Resources Management—State Leases

## Program Element Statement

This program involves the administration and management of over 150 leases, agreements, permits and entitlements for the exploration and production of geothermal, oil and gas, mineral resources and the supervision and control of operational activities and State's royalty share from existing leases. Management of existing leases includes maximization of revenue by sales of the State's royalty share of production and planning and permitting of enhanced resource recovery procedures. Evaluation of State resource lands are conducted to enhance land management policy decisions. Program staff also participate in environmental reviews, joint agency panels, technical boards and permitting studies. Protection of the coastal tidelands and inland waters from oil-related mishaps from platforms is provided by close regulation, review and inspection of petroleum drilling and production facilities to insure that design is adequate, that operations are conducted safely, that safety systems and devices are functioning properly, that drilling, well-work and operating personnel are trained in well-control and oil spill prevention, and that oil spill cleanup equipment, procedures and training are maintained.

Revenue data for the Mineral Resources Management-State Leases Element are shown below:

	1989-90*	1990-91*	1991-92*
Revenue .....	\$29,373	\$40,460	\$34,560

\* Dollars in thousands, excluding salary range.

## 3560 STATE LANDS COMMISSION—Continued

## Budget Adjustments

- In 1990–91, \$66,000 in increased reimbursement authority and 1.0 personnel year were authorized to implement a policy of full recovery of actual costs for state lands lease and processing activities performed for other agencies and the public.

In 1991–92, the following budget adjustments are proposed:

- \$129,000 in increased reimbursement authority and 2.1 personnel years to continue the lease and processing activities for other agencies and the public.
- \$463,000 for the second phase of acquisition for the Petroleum Engineering and Analysis Computer System which will enhance revenue recovery from existing extractive leases.
- \$243,000 in increased reimbursement authority and 4.1 personnel years for environmental impact analysis of proposed projects.
- \$54,000 and 1.0 personnel year to continue the on-site inspection of State leases in the Geysers Geothermal Field.
- \$150,000 from the Environmental License Plate Fund to complete the dust abatement project at Owens Lake.
- \$50,000 from the Outer Continental Lands Act Section 8(g) Fund to interpret geophysical data use in reservoir simulations and analysis.

Reimbursements .....				974	681	595

## 10.20 Mineral Resources Management—Long Beach Operations

## Program Element Statement

The State tidelands along the Long Beach shoreline are granted in trust to the City of Long Beach. Chapter 29, Statutes of 1956 (1st E.S.), originally defined the role of the State in the development of oil and gas from these tidelands. The passage of Chapter 138, Statutes of 1964 (1st E.S.), gave the State a more active and prominent role in such development and increased the State's revenue. Under Chapter 138, the State was given control over the plan and budget of the field contractor who develops and operates the tidelands oilfield.

## Workload Information

The Long Beach Operations staff maintains economic control over the Long Beach Unit Plan of Operations and Development. The staff also reviews and evaluates production programs and water injection operations for other adjacent tideland oil and gas leases. Average daily production in these tideland developments is approximately 57,000 barrels per day.

## Performance Measures

The Long Beach Operations staff performs economic analysis of the development and operation activities of the Long Beach tidelands. Output includes control of expenditures through the plan and budget of the Long Beach Unit. This control is exercised by itemizing and monitoring the use of budget funds and through approvals for new wells and redrills, budget-fund transfers and augmentations. The plan and budget is prepared jointly by the City of Long Beach and the staff of the State Lands Commission and is subject to the approval of the State Lands Commission. The Long Beach staff also exercises control as a voting member of the Long Beach Unit.

A program has been initiated to improve oil recovery and State revenue from the Long Beach Unit.

Revenue data for the Mineral Resources Management Long Beach Operations element are shown below:

				1989-90*	1990-91*	1991-92*
Revenue .....				\$119,800	\$205,000	\$135,000

General Fund .....				2,151	2,200	2,247
Reimbursements .....				700	720	703

## 20 LAND MANAGEMENT

## Program Objectives Statement

The State Lands Commission provides:

1. Management of all state sovereign lands to ensure use of the lands consistent with the public trust and prudent land use practices.
2. Management of all state school lands to ensure the maximum return to the State Teachers' Retirement System (STRS).

Program objectives are to:

- Plan for and control use of both sovereign and school lands in order to protect the State's interests;
- Maintain a program of land use to meet orderly land planning requirements;
- Assure appropriate compensation for use of State lands;
- Minimize commercial and recreational trespass on State lands;
- Perfect title to the lands the State owns; and
- Review activities on lands granted to local entities.

## Authority

Division 6 and 7.7 Public Resources Code, Chapter 1213, Statutes of 1983.

\* Dollars in thousands, excluding salary range.

## 3560 STATE LANDS COMMISSION—Continued

<b>Program Elements</b>						
20.10 Ownership Determination .....	54.4	54.6	57.0	4,556	4,832	4,847
20.20 Land Management .....	33.6	29.4	32.5	4,678	3,143	3,294

## 20.10 Ownership Determination

## Program Element Statement

Effective management of State-owned tide and submerged lands requires that real property boundaries be identified and located. Ownership determination usually involves extensive engineering, title and legal research studies. In general, boundary claim lines are identified and located by surveying and mapping, and ultimately finalized by land exchange, boundary line agreement, litigation, or title settlements as defined below:

1. Exchange. An exchange of property interests between parties requires an identification of the title conditions of both the parcel currently owned by the State and the parcel to be received in the exchange. An appraisal of both parcels is required to determine that the value to be received is as great or greater than the value relinquished.

2. Boundary Line Agreement. When the location of the common boundary between the State and a private owner cannot be determined, the State, acting by and through the State Lands Commission, is empowered to enter into a negotiated settlement of the boundary.

3. Litigation. Case preparations includes the search for, identification of, and analyses of facts for the consideration of and presentation into evidence by the Attorney General. Court appearances by Commission staff members to present testimony are occasionally required.

Other property related activities include:

1. School Land Disposals/Acquisition pursuant to School Land Bank Act. Sale revenues from school lands are now deposited into this fund for reinvestment in other lands to provide additional benefits to the State Teachers Retirement System.

2. Property Acquisition pursuant to Kapiloff Land Bank Act. In lieu of accepting real property in exchange for clearing state titles, the state may accept monetary payments into the Kapiloff Land Bank. The Commission must determine if the state has any interest in the property to be acquired and deduct the economic value of that interest from the economic value of the acquisition.

3. Title Settlements in Lieu of Litigation. Where the nature and extent of the State's sovereign ownership in real property resulting from its tidelands or submerged lands character is in dispute by other parties claiming title, the titles may be established by title settlement agreements in lieu of the costs, uncertainties, and delays of proceeding to final judgment by the courts.

## Budget Adjustments

- In 1990-91, \$124,000 in increased reimbursement authority and 2.4 personnel years were authorized to implement a policy of full recovery of actual costs for state lands lease and processing activities performed for other agencies and the public.
- The 1991-92 budget proposes \$255,000 in increased reimbursement authority and 5.0 personnel years to continue the lease and processing activities for other agencies and the public.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	54.4	54.6	57.0	\$4,556	\$4,832	\$4,847
General Fund .....				4,556	4,359	4,465
Environmental License Plate Fund .....				—	105	—
Reimbursements .....				—	368	382

## 20.20 Land Management

## Program Element Statement

Land management activities include:

1. Appraisal. Appraisals are essential in settlements of litigation of title and boundary agreements in which exchanges are involved. Lands being received must be at least of equal value to the interest being given up. Sales and leases also require appraisal to determine the consideration to be received.

2. Leases. State lands are leased for commercial, industrial, recreational and environmental purposes and rights-of-way to accommodate public utility and various types of pipelines which utilize tide and submerged lands and state school lands.

3. Indemnity Selections. The State is indemnified for loss to the school land grant by selection of desirable federal land.

4. Inventory, Classifications and Management Plan. The Commission has directed its staff to inventory, classify and plan prudent management for the 600,000 acres of school land. The Legislature has also required an inventory of all lands under commission jurisdiction and an identification of those lands having significant environmental values of statewide interest.

5. Land Title Information. This component provides all information required by law to be kept by the Commission, as well as the working data necessary to properly administer, manage and protect the lands under its jurisdiction.

6. Reforestation and Timber Management. The objective of this component is to optimize timber stand improvement, erosion control and harvest of merchantable timber on lands under the Commission's jurisdiction.

7. Sales. A land sale requires an identification of the title conditions and an appraisal of the land authorized to be sold. Whether a parcel of land is susceptible to sale depends upon the policies adopted as a result of a completed environmental inventory. Only those lands unsuitable for public retention are considered for potential sale.

All Commission costs for administering school lands are deducted from revenues received from these lands and deposited in the General Fund. All net school lands revenues will be deposited in the Teachers Retirement Fund pursuant to Chapter 1213, Statutes of 1983.

	1989-90*	1990-91*	1991-92*

## 3560 STATE LANDS COMMISSION—Continued

## Budget Adjustments

● In 1990-91, \$189,000 in increased reimbursement authority and 3.8 personnel years were authorized to implement a policy of full recovery of actual costs for state lands lease and processing activities performed for other agencies and the public.

In 1991-92 the following budget adjustments are proposed:

- \$371,000 and 7.3 personnel years to continue the lease and processing activities for the other agencies and the public.
- \$54,000 and 1.0 personnel year, on a two year limited term, and \$56,000 contract services to provide effective management and restructuring of school lands program.

## 30 EXECUTIVE AND ADMINISTRATION

## Program Objectives Statement

The primary objective of the Executive and Administrative Program is to provide management, policy direction and administrative support to the line programs of the Commission. The executive staff includes the executive, legal, legislative, and comprehensive planning and research. The administrative and a technical services staff is comprised of six components, four of which (budgeting, personnel and training, accounting and business services, and data processing and records), provide direct staff support to the line programs; and two (auditing and program analysis), emphasize improving the State's fiscal position and assuring effective and efficient operation of all Commission programs.

## 40 MARINE FACILITIES MANAGEMENT

## Program Objectives Statement

The State Lands Commission adopts rules, regulations, guidelines and leasing policies for leasing and operation of existing and proposed marine terminals within California. The Commission also inspects all marine facilities, reviews oil spill contingency plans and marine facility operations manuals.

## Authority

Division 1 of Title 2, Government Code, Division 7.8, Public Resources Code; Chapter 1248, Statutes of 1990

## Budget Adjustments

- In 1990-91, \$1,600,000 and 15.2 personnel years were authorized for the implementation of the Oil Spill Prevention, Abatement and Response Act as required by Chapter 1248, Statutes of 1990 (SB 2040).
- The 1991-92 budget proposes \$1,600,000 and 29.8 personnel years which is the same level as in the 1990-91 fiscal year to continue the requirements of the Act. However, the total funding level to fulfill the Commission's responsibilities is still under review and the full funding of the program will be submitted to the Legislature for consideration in the spring revision of the budget.

## 3580 SEISMIC SAFETY COMMISSION

## Program Objectives Statement

The purpose of the Seismic Safety Commission is to improve earthquake safety in California. To accomplish this, the Commission works with federal, state and local agencies, as well as the private sector, on a variety of activities including issuing policy studies, sponsoring legislation, and coordinating seismic safety activities through oversight and leadership. The Commission is also responsible for: (1) annually revising the California Earthquake Hazards Reduction Program; (2) implementing Chapter 250, Statutes of 1986, which requires local governments to inventory hazardous buildings, develop a mitigation plan, and report to the Commission; (3) reviewing the state's progress in preparing for the inevitable earthquakes; (4) pursuing programs to strengthen state-owned buildings that lack seismic resistance; and (5) continue studying the effects of the 1989 Loma Prieta (Bay Area) Earthquake to assist in the preparation for earthquakes of an equal or greater magnitude.

## 3600 DEPARTMENT OF FISH AND GAME

The Department of Fish and Game is responsible for the maintenance of all native fish, wildlife, plant species and natural communities for their intrinsic and ecological values as well for their direct benefits to people. Implied in this objective is that habitat must be protected and maintained in sufficient amount and quality to ensure the survival of all species and natural communities. The Department is also responsible for the diversified use

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 3600 DEPARTMENT OF FISH AND GAME—Continued

of fish and wildlife including recreational, commercial, scientific and educational uses. It is the intent of the Department that all legitimate uses be satisfied to the greatest extent possible, consistent with the maintenance of all species. It is also intended that resources be allocated equitably among users and that conflicts among them be minimized.

In Fiscal Year 1991-92, the Department's program structure has been revised to reflect personnel years and expenditures in a manner more consistent with the activities and objectives performed by and mandated for the Department. The revisions improve the program structure by consolidating related activities and functions within new programs, thereby providing a means to improve fiscal accountability. Additionally, the revisions will simplify the conversion of the Department's accounting processes to the California State Accounting and Reporting System (CALSTARS). The major revisions are as follows:

- (1) Activities formerly reflected in Program 15-Licensing are now displayed in Program 70-Administration.
- (2) Activities formerly reflected in Program 20-Wildlife Management are now displayed in Element 35.10 within Program 35-Wildlife and Natural Heritage.
- (3) Activities formerly reflected in Program 25-Natural Heritage are now displayed in Element 35.20 within Program 35-Wildlife and Natural Heritage Management.
- (4) Activities formerly reflected in Program 30-Inland Fisheries are now displayed in Element 55.10 within Program 55-Fisheries Management.
- (5) Activities formerly reflected in Program 40-Anadromous Fisheries are now displayed in Element 55.10 within Program 55-Fisheries Management.
- (6) Activities formerly reflected in Program 50-Marine Resources are now displayed in Element 55.20 within Program 55-Fisheries Management.
- (7) Program 60-Environmental Services reflects the transfer of expenditures and personnel years for environmental review activities conducted by staff whose other activities are displayed in other programs. These costs were formerly displayed in other programs.
- (8) Activities in the new Program 35-Wildlife and Natural Heritage Management display activities formerly reflected in Program 20-Wildlife Management and Program 25-Natural Heritage.
- (9) Activities in the new Program 55-Fisheries Management display activities formerly reflected in Program 30-Inland Fisheries, Program 40-Anadromous Fisheries, and Program 50-Marine Resources.
- (10) Activities in the new Program 65-Oil Spill Prevention and Response reflect the activities necessary to implement the new oil spill program authorized pursuant to the provisions of Chapter 1248, Statutes of 1990.

**Authority**

The authority for the department to protect, restore, enhance, and maintain fish and wildlife resources is specified in the Constitution of California, the Fish and Game Code, the Public Resources Code and regulations prepared by the Fish and Game Commission.

**10 ENFORCEMENT OF LAWS AND REGULATIONS****Program Objectives Statement**

The primary objective of this program is to insure that the provisions and regulations pursuant to the Fish and Game Code are enforced to help ensure that the State's fish and wildlife resources are managed for optimum sustained yield, utilization and benefit to the public. These provisions and regulations are enforced primarily by means of an extensive network of wardens. Activities in this program include the protecting of habitat, as well as fish and wildlife species, from willful or negligent destruction; monitoring public and commercial fishing and hunting practices; conducting a hunter safety program; and regulating the importation, transportation and possession of exotic animals in the State.

\* Dollars in thousands, excluding salary range.

## 3600 DEPARTMENT OF FISH AND GAME—Continued

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- 4.0 positions (4.0 personnel years) and \$250,000 Fish and Game Preservation Fund for the restoration of base programs that were eliminated due to previous revenue shortfalls in the nondedicated portion of the Fish and Game Preservation Fund.
- \$110,000 of Fish and Game Preservation Fund (commercial fees) to implement Chapter 1703, Statutes of 1990, related to new commercial fishing license requirements.

In 1991-92, the following budget adjustments are proposed:

- 4.0 positions (3.8 personnel years) and a net increase of \$250,000 to restore base programs that were eliminated due to previous revenue shortfalls in the nondedicated portion of the Fish and Game Preservation Fund. Included is a redirection to this program of \$400,000 General Fund and \$1,924,000 California Environmental License Plate Fund, a redirection out of this program of \$2,324,000 Fish and Game Preservation Fund (nondedicated), and the addition of \$250,000 Fish and Game Preservation Fund (dedicated).
- \$125,000 (\$25,000 Oil Spills and Abatement Account and \$100,000 Fish and Game Preservation Fund) for the repair of vehicles, radios, and office equipment; and for purchasing Pollution Investigation Kits.
- \$96,000 Fish and Game Preservation Fund to fund overtime expenses to implement Chapter 1703, Statutes of 1990, related to new commercial fishing license requirements.
- 17.3 positions (17.3 personnel years) and \$1,369,000 Fish and Game Preservation Fund (environmental review fees) have been transferred to the Environmental Services Program to reflect environmental review activities conducted by enforcement staff.

## 10.10 Protection and Use Regulation of Game Fish and Wildlife

## Program Element Statement

Enforcement is used to protect the game species of fish and wildlife and regulate their use for maximum public benefit. A staff of wardens patrol to prevent infractions of game laws, wildlife bag limits, seasons, closed areas, and license requirements by individual hunters and fishermen as well as the commercial fishing industry. Administration of hunting club programs is a warden function. Additional protection of wildlife and habitat is accomplished by the issuance of permits for special purposes such as scientific collections, research, suction dredges, and the related follow-up inspection to assure compliance of permit terms. Preventive enforcement is accomplished through personal appearances before hunting and fishing organizations and field contacts.

## 10.40 Nongame Fish, Wildlife and Plant Protection

## Program Element Statement

This element of the enforcement program protects the nongame species of fish, wildlife, plants, marine mammals and birds of the State. Wardens patrol and enforce laws relating to the protection and preservation of those species legally classified as "rare, threatened, or endangered" or other "nongame" species.

## 10.50 General Enforcement Activities

## Program Element Statement

This element provides various activities which are not classified as either "game" or "nongame", or include characteristics of both. Such activities include: support (indirect cost activities); maintenance and care of DFG vehicles, boats, radio equipment, etc.; control of raptors and exotic/prohibited species, including airport terminal and pet shop inspections; water pollution, streambed and/or lakebed alterations, and detection and/or investigation of actual or impending damage to fish and wildlife from the spillage of oil and other hazardous or toxic materials; response to the needs of other law enforcement agencies for assistance, e.g., search and rescue, traffic control, etc.; and emergency services such as public assistance during civil defense and natural disasters.

## 15 LICENSE AND REVENUE

## Program Objective Statement

This program establishes and markets the licenses for the consumptive and non-consumptive use of the State's fish and wildlife resources. Those who wish to take advantage of the recreational, educational, and economical benefits provided by California's fish and wildlife resources are required to contribute to the conservation and management of these resources through the purchase of various types of fish and game licenses. The license fees provide the major support of California's fish and wildlife conservation programs. The program also provides special big game permits and reservations at State-operated wildlife areas.

## Budget Adjustments

In 1991-92, the following budget adjustment is proposed:

- 50 positions (48.5 personnel years) and \$3,102,000, Fish and Game Preservation Fund, have been transferred to Program 70 Administration.

Program Requirements	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

## 20 WILDLIFE MANAGEMENT

## Program Objectives Statement

The program objectives are to maintain all species of wildlife and associated habitat in the State, and to provide wildlife-oriented recreational and educational opportunities to the public. Projects include surveys and inventories aimed at gathering management data for big game, upland game, waterfowl, and nongame wildlife; disease research; wetlands enhancement; and habitat development and management on 76 designated State-owned wildlife areas and other public lands.

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- \$208,000 increased reimbursement expenditure authority to implement various reimbursable contracts.
- 70.0 positions (69.1 personnel years) and \$3,500,000, Fish and Game Preservation Fund, related to the restoration of base programs that were eliminated due to previous revenue shortfalls in the nondedicated portion of the Fish and Game Preservation Fund.

In 1991-92, the following budget adjustment is proposed:

- 135.4 positions (129.8 personnel years) and \$14,145,000 have been transferred to Element 35.10 within Program 35—Wildlife and Natural Heritage Management.

\* Dollars in thousands, excluding salary range.

## 20.10 Game Species Improvement and Preservation

## Program Element Statement

This element strives to provide data to properly manage all game species of wildlife for esthetic and recreational use. Major efforts are directed to all species of big game, upland game and waterfowl, with emphasis on gathering and analyzing life history and habitat trends; habitat preservation and enhancement; species surveys and inventories; and hunter use data and disease investigations.

## 20.20 Nongame Species Improvement and Preservation

## Program Element Statement

The activities of this element strive to maintain and preserve California's endangered and threatened birds and mammals and other nongame wildlife. Activities include habitat improvement and preservation; species inventories; and preparation and distribution of information on nongame species and disease investigations. It includes staff time spent on the preservation and management of species which are neither trapped nor hunted.

## 20.30 General Wildlife Management Activities

## Program Element Statement

This element contains various activities which are not classified as either "game" or "nongame", or include characteristics of both. Activities include: support (indirect cost activities); acquisition of land and easements; surveys for federal, state or local investigation of oil and hazardous chemical spills; and managing wildlife areas to provide public use and minimize conflicts on surrounding areas and provision of services for the nonappropriate use of wildlife resources by the public.

## 25 NATURAL HERITAGE

## Program Objectives Statement

The program objectives are to conserve native nongame species of wildlife and plants and their habitats at levels sufficient to assure their survival in perpetuity for their intrinsic ecological value and for their aesthetic, educational, and other beneficial uses. Subprograms include maintenance of a statewide inventory of the occurrence of rare and threatened native nongame species and natural communities; identification and protection of endangered and threatened species and significant natural areas; acquisition and management of land; and interpretation of natural diversity for the citizens of the State.

\* Dollars in thousands, excluding salary range.

## 3600 DEPARTMENT OF FISH AND GAME—Continued

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- 1.0 position (0.9 personnel year) and \$70,000 Federal Trust Fund for support of the Elkhorn Slough National Estuarine Research Reserve.
- \$212,000 increased reimbursement expenditure authority related to increased Natural Diversity Data Base locational record sales.
- 1.0 position and 2.2 Temporary Help positions (3.1 personnel years) and \$221,000 Federal Trust Fund for the coastal Marine Mammal Program.
- \$294,000 California Environmental License Plate Fund to implement Chapter 1241, Statutes of 1989, for the Shell Marsh Interpretive Center feasibility study, and for the Lake Merritt wildlife observation deck.

In 1991-92, the following budget adjustment is proposed:

- 68.4 positions (66.9 personnel years) and \$9,169,000 have been transferred to Element 35.20 within Program 35—Wildlife and Natural Heritage Management.

## 30 INLAND FISHERIES

## Program Objectives and Description

This program provides diversified fishing opportunities for anglers, while ensuring the perpetuation of the State's native fish fauna. The department operates seventeen fish hatcheries for the purpose of producing trout and other game fish species. The fish produced are distributed and planted in various lakes, rivers, reservoirs and streams. Other important program activities are directed toward the management and research of game fish and nongame species (including rare, threatened or endangered fish, amphibians, reptiles and invertebrates), and for the management and protection of their respective environments. Management activities include fish population and habitat inventories, habitat acquisition and improvement, fish population manipulation to increase yield, fish salvage, disease control, development of private aquaculture, and development of angling regulations for resident and migratory fish.

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- \$151,000 Public Resources Account, Cigarette and Tobacco Products Surtax Fund, to implement Chapter 1241, Statutes of 1989, related to Urban Fishing Enhancement.
- 6.1 positions (6.1 personnel years) and a net increase of \$800,000 Fish and Game Preservation Fund related to the restoration of base programs that were eliminated due to previous revenue shortfalls in the nondedicated portion of the Fish and Game Preservation Fund. Included is a redirection to this program of \$326,000 Fish and Game Preservation Fund (nondedicated) and the addition of \$624,000 Fish and Game Preservation Fund (environmental review fees).
- \$4,000 increased reimbursement expenditure authority for implementation of a mitigation agreement with Pacific Gas and Electric Company for the cost of fish planted in water affected by the McCloud-Pit development.

In 1991-92, the following budget adjustment is proposed:

- 255.9 positions (248.0 personnel years) and \$20,649,000 have been transferred to Element 55.10—Inland Fisheries within Program 55—Fisheries Management.

Program Requirements	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

## 30.30 Nongame Species Management and Research

## Program Element Statement

This element strives to insure the perpetuation of California's "rare, threatened, or endangered" or other "nongame" species of inland fish, reptiles, invertebrates, and amphibians. Management includes planning, conducting and reporting on lake, stream and terrestrial surveys to obtain information for management plans. Also included are planning and evaluating habitat improvements for such species as the desert pupfish, as well as stream and terrestrial rehabilitation.

\* Dollars in thousands, excluding salary range.

## 30.50 Game Species Management, Research, Production and Distribution

## Program Element Statement

This element is to insure the perpetuation of California game fisheries in inland waters. Management includes planning, conducting, and reporting on lake and stream surveys, creel censuses and use counts for trout and other game fish. This element provides for the production of fish to meet the demand of California anglers with respect to inland species of game fish. Research includes determining life histories, population dynamics, fish disease transmission, migration and distribution of resident species, etc. Through its network of fish hatcheries, the department propagates and stocks catchable-sized fish (trout, black bass, catfish, etc.), subcatchables and fingerlings in suitable lakes and streams. Production covers rearing, trapping and spawning, compiling hatchery records and preparing cost and production reports. Distribution includes loading, planting and keeping and compiling planting records and preparing planting reports. Also included in this element are planning and evaluating habitat improvements; stream rehabilitation, erosion and weed control; advice to owners of private fishing waters and hatcheries; and monitoring of commercial catches.

## 35 WILDLIFE AND NATURAL HERITAGE MANAGEMENT PROGRAM

## Program Objectives Statement

The objectives of this program are to maintain, restore and enhance all species of wildlife and plants and their associated habitat in the State at levels sufficient to assure their survival in perpetuity. Wildlife-oriented recreational opportunities are provided where appropriate. Special attention is given to native species that are threatened, endangered and rare.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- 1.0 position (0.9 personnel year) and \$47,000 redirected from operating expense and equipment for management of the Hill Bill program.
- 3.2 temporary help personnel years and \$253,000 Fish and Game Preservation Fund (\$168,000 nondedicated and \$85,000 dedicated) to assist in the development of quality environmental documents.
- \$523,000 increased reimbursement expenditure authority to implement contracts for the Waterfowl Habitat Program.
- \$82,000 Waterfowl Habitat Preservation Account for implementation of additional waterfowl habitat programs.
- 1.0 position (0.9 personnel year) and \$127,000 California Environmental License Plate Fund for implementation of developing, managing and providing public services to the North Grasslands Wildlife Area wetlands.
- 1.0 position (0.9 personnel year) and \$137,000 California Environmental License Plate Fund for implementation of developing, managing and providing public services to the Upper Butte Sink Wildlife Area wetlands.
- 1.0 positions (0.9 personnel year) and \$51,000 California Environmental License Plate Fund for implementation of assistance in habitat work including all wildlife nongame and endangered species.
- 1.0 position and 0.6 temporary help position (1.5 personnel years) and \$138,000 Fish and Game Preservation Fund for implementation of the Elk Management Program.

\* Dollars in thousands, excluding salary range.

## 3600 DEPARTMENT OF FISH AND GAME—Continued

- 0.5 temporary help personnel year and \$384,000 Fish and Game Preservation Fund for the Spenceville Wildlife Area implementation of compliance with the regulations imposed by the Toxic Pits Cleanup Act of 1984.
- 70.0 positions (69.1 personnel years) and a net increase of \$3,500,000 related to the restoration of base programs that were eliminated due to previous revenue shortfalls in the nondedicated portion of the Fish and Game Preservation Fund. Included is a redirection to this program of \$4,320,000 Fish and Game Preservation Fund from various programs and a reduction of \$820,000 California Environmental License Plate Fund.
- 11.1 positions (11.1 personnel years) and \$2,973,000 Fish and Game Preservation Fund (environmental review fees) have been transferred to the Environmental Services Program for environmental review activities conducted by Wildlife Management Staff.
- 135.4 positions (129.8 personnel years) and \$14,145,000 have been transferred from Program 20—Wildlife Management.
- 1.0 position (0.9 personnel year) and \$523,000 Fish and Game Preservation Fund to pay counties in-lieu property tax assessments on properties managed by the Department as wildlife areas.
- 1.0 position (0.9 personnel year) and \$57,000 Federal Funds for support of the Elkhorn Slough National Estuarine Research Reserve.
- 16.0 positions and 3.1 Temporary Help positions (18.3 personnel years) and \$321,000 California Environmental License Plate Fund to convert the Natural Diversity Data Base contract staff to civil service staff.
- \$105,000 California Environmental License Plate Fund for Geographic Information System equipment expansion.
- \$120,000 California Environmental License Plate Fund for the Threatened and Endangered Bird and Mammal Program.
- \$83,000 Fish and Game Preservation Fund have been transferred to the Environmental Services Program to reflect environmental review activities conducted by Natural Heritage Staff.
- 68.4 positions (66.9 personnel years) and \$9,169,000 have been transferred from Program 25, Natural Heritage.

**Authority**

## 35.10 Wildlife Management Program

**Program Element Statement**

This element includes the Department's efforts to maintain, restore and enhance all species of wildlife and associated habitat in the State, and to provide wildlife-oriented recreational and educational opportunities to the public. Projects include surveys and inventories aimed at gathering management data for big game, upland game, waterfowl, and other wildlife; disease research; wetlands enhancement; and habitat development and management on State-owned wildlife areas and other public lands.

## 35.20 Natural Heritage

**Program Element Statement**

This element includes the Department's efforts to conserve native species of wildlife and plants and their habitats at levels sufficient to assure their survival in perpetuity for their intrinsic ecological value and for their aesthetic, educational, and other beneficial uses. Activities include the maintenance of a statewide inventory of the occurrence of rare and threatened native species and natural communities; identification and protection of endangered and threatened species and significant natural areas; acquisition and management of land; and interpretation of natural diversity for the citizens of the state.

## 3600 DEPARTMENT OF FISH AND GAME—Continued

## 40 ANADROMOUS FISHERIES

## Program Objectives Statement

The primary purpose of this program is to maintain, restore and improve anadromous fish populations (principally salmon, steelhead, striped bass, shad and sturgeon); provide for their optimum recreational and, where appropriate, commercial harvest; and provide for their educational and scientific use. Where habitat has been lost by water development, hatcheries are operated to replace natural reproduction. The population sizes of key anadromous species are monitored to detect changes in abundance and related causative factors. The Sacramento-San Joaquin Estuary is being studied to determine the optimum way to protect it (and the anadromous fishes that use it) from the effects of water development.

Anadromous fish resources support an estimated 3 million angler days of recreational fishing annually in marine and inland waters, and the salmon resource provides a commercial catch averaging 8 million pounds annually with a current net worth between \$40 to \$60 million. The contribution of these resources to the economy of the State and the enjoyment of its citizens justifies research and management programs to maintain and improve existing anadromous populations.

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- 2.0 positions (2.0 personnel years) and \$150,000 Fish and Game Preservation Fund related to the restoration of base programs that were eliminated due to the previous revenue shortfall in the nondedicated portion of the Fish and Game Preservation Fund.
- 2.0 positions (1.9 personnel years) and \$170,000 increased reimbursement expenditure authority for implementation of a contract to conduct impact analyses associated with the development of water project facilities planned by the Department of Water Resources.
- 4.7 temporary help personnel years and \$580,000 Fish and Game Preservation Fund redirected from general expense to temporary help (\$80,000) and equipment (\$500,000) to allow approved Salmon Stamp projects to be carried out in a timely and efficient way.
- 2.6 personnel years of temporary help and \$62,000 increased reimbursement expenditure authority for an emergency contract to trap adult chinook salmon in the American River and relocate them to holding facilities.
- \$165,000 Fish and Game Preservation Fund (dedicated) to implement Chapter 1325, Statutes of 1987, related to Fisheries Restoration.
- A reduction of \$1,821,000 reimbursement expenditure authority related to the Harvey O. Banks Delta Pumping Plant which will not be received because the Department of Water Resources will pay for the costs of mitigation.

In 1991-92, the following budget adjustment is proposed:

- 271.8 positions (264.3 personnel years) and \$28,218,000 have been transferred to Element 55.10—Inland Fisheries within Program 55—Fisheries Management.

## 40.40 Game and Commercial Species Management, Research, Production and Distribution

## Program Element Statement

Element activities are aimed at maintaining and doubling existing populations of anadromous fish. Management includes planning and monitoring the population sizes, the magnitude and locations of sport and commercial catches; sampling landings of species, size and age information; and protection, maintenance, and improvement of the quality and quantity of spawning habitat. Research includes studying the behavior, life history and populations dynamics of anadromous fish species. The department operates 7 anadromous hatcheries constructed for mitigation purposes by federal, State and private entities to maintain those population segments of anadromous species whose habitat has been impacted by water development and one anadromous, state-operated hatchery for enhancement purposes. These hatcheries produce approximately 21 million salmon and 3.5 million steelhead.

Habitat maintenance and improvement activities include major efforts to replace spawning and nursery habitat, restore access to some 500 miles of existing habitat through barrier removal and installation of fish passage facilities, and screen major and significant water diversions.

## 3600 DEPARTMENT OF FISH AND GAME—Continued

## 40.50 General Anadromous Fisheries Activities

## Program Element Statement

This element provides for various activities which are not classified as either "game" or "nongame", or include characteristics of both. Such activities include support (indirect cost activities); provision of assistance to Program 10—Enforcement; participation in the Pacific Marine Fisheries Commission and the Pacific Fisheries Management Council; and detection and investigation of either damage and/or danger to fish from oil and hazardous chemical spills.

## 50 MARINE RESOURCES

## Program Objectives Statement

The objectives of this program are to maintain and enhance marine fish, plant and animal resources and to provide for the optimum harvest of these resources by sport and commercial fishers. Studies monitor the population sizes and fluctuations of marine fish, shellfish, and plants and examine the effects of the environment and human activities on these resources. Techniques are developed to assist private industry in culturing some shellfish species. Management recommendations are developed to protect marine resources and to provide for their wise use and enjoyment.

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- 1.0 temporary help personnel year and \$17,000 Federal Trust Fund redirected from operating expenses and equipment.
- 33.5 positions and 11.7 temporary help positions (42.4 personnel years) and \$2,550,000 Fish and Game Preservation Fund (commercial fees) related to the restoration of base programs that were eliminated due to previous revenue shortfalls in the nondedicated portion of the Fish and Game Preservation Fund.

In 1991-92, the following budget adjustment is proposed:

- 74.8 positions (71.5 personnel years) and \$8,111,000 transferred to Element 55.20-Marine Fisheries within Program 55-Fisheries Management.

## 50.10 Management and Research for Game Species

## Program Element Statement

Management and research activities are conducted to specifically maintain and enhance the various species of marine game fish and plants and to provide for the optimum harvest of these resources by sport and commercial fishers. Management activities include monitoring sport and commercial catches; analyzing data to determine fishing effort and localities; and developing management plans administering mariculture, oyster, and kelp leases on State lands.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

Fish and Game Preservation Fund .....				4,481	2,698	—
Federal Trust Fund <sup>f</sup> .....				1,925	2,789	—

## 50.20 Management and Research for Nongame Species

## Program Element Statement

Management and research activities are conducted to insure the continued existence of marine mammals and birds. Activities include studying the interaction of marine mammals and ocean fisheries; such interactions are one of several issues that must be defined before the federal government will return management authority for seals and sea lions to the State.

\* Dollars in thousands, excluding salary range.

## 55 FISHERIES MANAGEMENT PROGRAM

## Program Objectives Statement

The objectives of this program are to maintain, restore and enhance fish and aquatic resources and to provide for recreational and commercial uses where appropriate. Activities include management studies and inventories, operation of fish hatcheries and wildlife areas, researching and controlling diseases, and restoring and maintaining habitat.

## Budget Adjustments

In 1991-92, the following budget adjustments are proposed:

- 6.1 personnel years of temporary help and \$250,000 Fish and Game Preservation Fund to augment base temporary help, overtime and operating expenses for the Hatchery Program.
- 2.9 positions (2.8 personnel years) and a net increase of \$118,000 funded through a reduction of \$100,000 Federal Trust Fund and \$34,000 Fish and Game Preservation Fund, and an increase of \$252,000 reimbursement expenditure authority for implementation of the Little Kern River Golden Trout restoration, which is a threatened species.
- \$20,000 Fish and Game Preservation Fund for implementation of a study of the minimum pool need for fisheries and recreation at Kaweah Reservoir in Tulare County.
- \$10,000 Fish and Game Preservation Fund to implement Chapter 1706, Statutes of 1990, related to fee increases and the establishment of new fees to fully fund the Aquaculture Program.
- 8.2 positions (8.2 personnel years) and a net increase of \$950,000 related to the restoration of base programs that were eliminated due to previous revenue shortfalls in the nondedicated portion of the Fish and Game Preservation Fund. Included is a redirection to this program of \$968,000 Fish and Game Preservation Fund from various programs and a reduction of \$18,000 California Environmental License Plate Fund.
- Reduction of 1.0 position (0.9 personnel year) and redirection of \$532,000 from other operating expense (\$494,000) and personnel services (\$38,000) to equipment for the Sport Fish Restoration Act Program in order to ensure that funds are being used to maximize benefits to California's sport fisheries.
- \$3,000,000 California Wildlife, Coastal, and Park Land Conservation Fund for implementation of fisheries projects for fish habitat restoration and contract fish rearing.
- 16.7 positions (16.4 personnel years) and \$585,000 increased reimbursement expenditure authority to study the cause(s) of the Delta Smelt population decline.
- 2.0 positions (1.9 personnel years) and \$160,000 increased reimbursement expenditure authority to conduct impact analyses associated with the development of water project facilities planned by the Department of Water Resources.
- 10.9 positions (10.6 personnel years) and \$311,000 increased reimbursement expenditure authority for assumption of the fish salvage monitoring program at the John E. Skinner Delta Fish Protective Facility.
- 7.1 positions (6.9 personnel years) and \$235,000 increased reimbursement expenditure authority for implementation of the Delta Fish Facilities Research Program expansion.
- \$62,000 increased reimbursement expenditure authority to purchase equipment to complete the modernization of the Merced River Hatchery.
- 3.1 positions (3.0 personnel years) and \$181,000 Federal Trust Fund for implementation of the Coyote Dam expansion of the Warm Springs Fish Hatchery.
- 5.0 positions (4.7 personnel years) and \$400,000 Fish and Game Preservation Fund reduction due to the elimination of funding for the Central Valleys Hatchery and conversion to the Optical Pattern Recognition System.
- 1.0 position and 4.4 temporary help positions (5.3 personnel years) funded by a redirection of \$175,000 from operating expense and equipment including an augmentation to overtime (\$80,000) for the Striped Bass Stamp Program.
- 7.6 positions (7.5 personnel years) and \$239,000 Federal Trust Fund to augment the Trinity River Salmon and Steelhead Monitoring Program.
- \$2,022,000 increased reimbursement expenditure authority for the Trinity River Restoration Program (P.L. 98-541).
- 6.1 personnel years of temporary help and \$600,000 Fish and Game Preservation Fund (Augmented Salmon Stamp Account) redirected from general expense to temporary help (\$100,000) and equipment (\$500,000) for the Augmented Salmon Stamp Program.
- \$163,000 net increase funded from a reduction of Federal Trust Fund (\$51,000) and reimbursements (\$183,000) and an increase of \$56,000 California Environmental License Plate Fund and \$341,000 Renewable Resources Investment Fund to implement Chapter 1671, Statutes of 1990 related to the continuation of the Fisheries Restoration Program.

\* Dollars in thousands, excluding salary range.

3600 DEPARTMENT OF FISH AND GAME—Continued

- 7.8 positions (7.8 personnel years) and \$2,905,000 Fish and Game Preservation Fund (environmental fees) have been transferred to Environmental Services Program to reflect environmental review activities conducted by fisheries staff.
- 255.9 positions (248.0 personnel years) and \$20,649,000 have been transferred from Program 30 Inland Fisheries Program.
- 271.8 positions (264.3 personnel years) and \$28,218,000 have been transferred from Program 40, Anadromous Fisheries Program.
- 1.0 temporary help personnel year and \$17,000 Federal Trust Fund redirected from operating expense and equipment authority for federally funded projects.
- \$220,000 Fish and Game Preservation Fund (Sea Urchin Dedicated Account) for the continuation of a legislatively mandated study and for enhancement of the sea urchin fishery industry.
- 2.0 positions and 1.4 temporary help personnel years (3.3 personnel years) and \$143,000 California Environmental License Plate Fund for the continuation of the Sea Otter Project.
- \$65,000 Fish and Game Preservation Fund (environmental fees) transferred to the Environmental Services Program to reflect environmental review activities conducted by marine fisheries staff.
- 1.0 position and 0.5 temporary help personnel years (1.4 personnel years) and \$120,000 Federal Trust Fund for the continuation of the Coastal Marine Mammal Program.
- 32.5 positions and 16.6 temporary help personnel years (48.7 personnel years) and \$2,550,000 Fish and Game Preservation Fund (commercial fees) related to the restoration of base programs that were eliminated due to previous revenue shortfalls in the nondedicated portion of the Fish and Game Preservation Fund.
- 74.8 positions (71.5 personnel years) and \$8,111,000 have been transferred from Program 50, Marine Resources Program.

Authority

55.10 Inland Fisheries

Program Element Statement

This element includes the Department's efforts to maintain, restore, and improve inland and anadromous fish populations and to ensure the perpetuation of the State's native fish fauna. Where appropriate, it also provides diversified fishing opportunities for recreational anglers and commercial harvest. The department operates fish hatcheries for producing trout, salmon and other fish species. These fish are distributed and planted in various rivers, lakes, reservoirs and streams. The Sacramento-San Joaquin Estuary is being studied to determine optimum ways to protect it (and the fish that use it) from the effects of water development. Other important activities are directed toward the management and research of fish and other species (including rare amphibians, reptiles and invertebrates), and for the management and protection of their respective environments. Management activities include fish population and habitat inventories, habitat acquisition and improvement, fish population manipulation to increase yield, fish salvage, disease control, development of private aquaculture, and development of angling regulations.

## 60 ENVIRONMENTAL SERVICES

## Program Objectives Statement

The purpose of the Environmental Services program is to avoid or minimize the adverse impacts on fish and wildlife and their habitats from projects affecting the land, waters, and water quality of California. This program evaluates project alternatives and measures to offset or compensate for adverse impacts. Federal and State laws require review by the Department of projects proposed or permitted by Federal, State and local agencies. The review of all these projects and the protection of water quality and quantity mandated by the Fish and Game Code is accomplished in this program.

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- 9.0 positions (8.3 personnel years) and \$580,000 Fish and Game Preservation Fund for the restoration of base programs that were eliminated due to previous revenue shortfalls in the nondedicated portion of the Fish and Game Preservation Fund.
- 10.9 temporary help personnel years and \$535,000 increased reimbursement expenditure authority to support various reimbursement projects.
- \$48,000 California Environmental License Plate Fund to implement Chapter 1241, Statutes of 1989, to conduct Mono Basin studies.
- \$99,000 California Environmental License Plate Fund to implement Chapter 1241, Statutes of 1989, to support Timber Harvest activities.

In 1991-92, the following budget adjustments are proposed:

- 9.0 positions (8.3 personnel years) and a net increase of \$580,000 related to the restoration of base programs that were eliminated due to previous revenue shortfalls in the nondedicated portion of the Fish and Game Preservation Fund. Included is a redirection of \$400,000 General Fund and \$1,086,000 California License Plate Fund to other programs; a reduction of \$2,966,000 California Environmental License Plate Fund; and an increase of \$5,032,000 Fish and Game Preservation Fund (environmental fees).
- 36.2 positions (36.2 personnel years) and \$7,395,000 in various funds have been transferred from other programs for environmental review activities conducted by staff in those programs.
- 12.4 temporary help personnel years and \$535,000 increased reimbursement expenditure authority to support various reimbursement projects.

## 60.10 Environmental Review

## Program Element Statement

Included in this element are activities to maintain environmental quality at a level suitable for fish and wildlife and their habitats including those for rare, threatened and endangered species and habitats on land and in fresh and marine water environments and their use by the public. Staff from all departmental program areas assist the environmental services staff during: a) project review; b) preparation of mitigation measures and monitoring plans; and c) early consultation of Federal, State and local government projects or activities, domestic, commercial and industrial developments, mineral extraction activities, and projects to identify appropriate water quality. Federal, state and local area management plans are also reviewed.

## 3600 DEPARTMENT OF FISH AND GAME—Continued

## 60.20 Water Quality

## Program Element Statement

In order to maintain water quality suitable for fish and wildlife resources and their habitats, staff investigates problems and identifies damage caused by pollution incidents, help enforce pollution control laws which are within the Fish and Game Code, gathers water quality data including applied laboratory research on specific problems and provides technical and coordination assistance to entities such as state, local and private agencies responsible for health and water quality control.

## 60.30 Timber Harvest

## Program Element Statement

In order to identify potential impacts to fish and wildlife resources and their habitats as a result of timber harvesting activities, this element includes reviews of federal, state and private timber harvesting plans. Activities of this element include development and review of forest practice rules governing interdisciplinary task forces.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*

## 60.40 General Environmental Services Activities

## Program Element Statement

This element strives to maintain environmental quality at levels suitable for fish and wildlife populations and public use of fish and wildlife. The element includes work performed by staff from all departmental program areas in assisting the review of Federal, State and local governmental projects or activities. This element also provides various activities which are not classified as either "game" or "nongame" or include characteristics of both. Such activities include: support (indirect cost activities); contract services for water projects and water quality; water quality investigation and evaluation; detection and investigation of materials containment and removal of pollutant substances; and studies to determine longterm effects of these circumstances.

## 65 OIL SPILL PREVENTION AND RESPONSE

## Program Objectives Statement

The primary objectives are to prevent and respond to oil spills affecting the marine waters of the state. The overall goal is to protect sensitive environmental areas and the ecosystem including coastal waters, estuaries, bays, beaches, and fish and wildlife. These objectives are accomplished through spill removal, abatement, response, containment and prevention which includes the monitoring of marine facilities and tanker operations; and the development of regulations and contingency plans. The Administrator of the Office of Oil Spill Prevention and Response has the primary responsibility for implementing the new program. To provide the Administrator with maximum flexibility, only key and essential administrative positions have been established and a Spring Finance Letter will be sent detailing the allocation of resources.

## Budget Adjustments

In 1990-91, the following budget adjustment is reflected:

- 6.0 positions and 24.0 Temporary Help positions (15 personnel years) and \$6,062,000 Oil Spill Prevention and Administration Fund to implement Chapter 1248, Statutes of 1990.

In 1991-92, the following budget adjustment is proposed:

- 6.0 positions and 24.0 Temporary Help positions (29.7 personnel years) and \$5,054,000 Oil Spill Prevention and Administration Fund to establish the Office of Oil Spill Prevention and Response.

## Authority

Chapter 1248, Statutes of 1990.

## 70 ADMINISTRATION

## Budget Adjustments

In 1990-91, the following budget adjustments are reflected:

- \$92,000 increased reimbursement expenditure authority for increased subscription sales for the *Outdoor California Magazine*.
- 1.0 position (0.9 personnel year) and \$197,000 Public Resources Account, Cigarette and Tobacco Products Surtax Fund, to implement Chapter 1241, Statutes of 1989, to provide support for the "1601 Task Force."
- 3.0 positions (1.6 personnel years) and \$91,000 (environmental review fees) to implement the new environmental review program authorized pursuant to Chapter 1706, Statutes of 1990.
- 2.0 positions and 0.9 temporary help personnel year (2.0 personnel years) and \$158,000 Fish and Game Preservation Fund (commercial fees) to implement the new commercial fishing fee program authorized pursuant to Chapter 1703, Statutes of 1990.
- \$300,000 Fish and Game Preservation Fund related to the restoration of programs eliminated due to previous revenue shortfalls in the nondedicated portion of the Fish and Game Preservation Fund.

\* Dollars in thousands, excluding salary range.

## 3600 DEPARTMENT OF FISH AND GAME—Continued

In 1991-92, the following budget adjustments are proposed:

- \$92,000 increased reimbursement expenditure authority for increased subscription sales for the *Outdoor California Magazine*.
- 3.0 positions (2.8 personnel years) and \$126,000 Fish and Game Preservation Fund (environmental review fees) to implement the new environmental review program authorized pursuant to Chapter 1706, Statutes of 1990.
- 3.4 positions (3.3 personnel years) and \$165,000 Fish and Game Preservation Fund (commercial fees) to implement the new commercial fishing program authorized pursuant to Chapter 1703, Statutes of 1990.
- \$43,000 Fish and Game Preservation Fund for printing of waterfowl hunting reservations, permits, and stamps.
- 10.0 positions (10.0 personnel years) funded by a redirection of \$186,000 Fish and Game Preservation Fund and the conversion of 12.0 permanent intermittent positions to more effectively address work in the Licensing and Revenue Branch. This results in the net reduction of 2.0 personnel years.
- \$193,000 (\$36,000 Federal Trust Fund and \$157,000 Fish and Game Preservation Fund) for automation of the Marine Fisheries Statistical System.
- 4.0 positions (3.6 personnel years) and \$100,000 Fish and Game Preservation Fund related to increased license sales in the regional offices.
- 1.0 position (0.9 personnel year) and \$28,000 (\$5,000 Federal Trust Fund; \$3,000 increased reimbursement expenditure authority; and \$20,000 Fish and Game Preservation Fund) for the Eureka field office.
- 1.0 position (0.9 personnel year) and \$51,000 (\$9,000 Federal Trust Fund; \$5,000 increased reimbursement expenditure authority; and \$37,000 Fish and Game Preservation Fund) to provide data processing support for fiscal applications to improve fiscal accountability.
- 2.0 positions (1.9 personnel years) and \$157,000 (\$29,000 Federal Trust Fund; \$15,000 increased reimbursement expenditure authority; and \$113,000 Fish and Game Preservation Fund) to implement the Civil Penalty Program.
- \$51,000 (\$7,000 California Environmental License Plate Fund; \$9,000 Federal Trust Fund; \$8,000 increased reimbursement expenditure authority; and \$27,000 Fish and Game Preservation Fund) for the Bay Delta Automation Project Feasibility Study Report.
- Redirection of existing funds from temporary help to establish 1.0 permanent position to provide clerical support in the Fresno Field Office. This will result in a reduction of 0.1 personnel year.
- \$300,000 Fish and Game Preservation Fund related to the restoration of programs eliminated due to previous revenue shortfalls in the nondedicated portion of the Fish and Game Preservation Fund.
- 50.0 positions (48.5 personnel years) and \$3,102,000 have been transferred from Program 15-License and Revenue.
- \$250,000 (\$33,000 California Environmental License Plate Fund; \$46,000 Federal Trust Fund; \$36,000 increased reimbursement expenditure authority; and \$135,000 Fish and Game Preservation Fund) for engine overhauls on the turboprop aircraft.

## 80 LOAN REPAYMENT PROGRAM

## Program Objectives Statement

The loan repayment program consists of two loan repayments. In the 1989-90 FY a loan was made from the Fish and Game Preservation Fund (various dedicated accounts) to the Native Species Conservation and Enhancement Account because of a revenue shortfall in the California Wildlands Program pursuant to Chapter 1539, Statutes of 1988. In the 1989-90 FY a loan was made from the California Environmental License Plate Fund and the Off-Highway Vehicle Fund to the Fish and Game Preservation Fund (nondedicated) because of a revenue shortfall in the FGPF pursuant to Chapter 1681, Statutes of 1990 (AB 1327).

\* Dollars in thousands, excluding salary range.

## 3640 WILDLIFE CONSERVATION BOARD

## Program Objectives Statement

The Wildlife Conservation Board is involved in acquiring, conserving, developing, improving and providing access to our natural resources to accommodate the needs of the people who use and enjoy the State's fish and wildlife resources and compatible activities.

The Board is composed of the Director of Finance, the Director of the Department of Fish and Game, and the President of the Fish and Game Commission. The Board is advised by a joint interim investigating committee consisting of three Members of the Senate and three Members of the Assembly. Annually, \$750,000 is transferred to the Wildlife Restoration Fund from license fees collected for conducting horseraces. The Board is charged with the administration of this fund. Additional funding for the Board's activities result from the Fish and Wildlife Habitat Enhancement Act of 1984 and the California Park and Recreational Facilities Act of 1984, both approved by the voters in June, 1984. These Bond Acts provide a total of \$90,000,000 for the acquisition and development of the State's natural resources. In addition, the California Wildlife, Coastal, and Park Land Conservation Act (Proposition 70) was passed by the voters in June, 1988 and provides \$81.3 million in directly appropriated funds to the Board for the acquisition, preservation, protection, restoration, enhancement, or development of wetlands, riparian lands, and wildlife habitat. The Act also provides \$50 million for the Board to acquire, enhance, restore, or protect lands supporting California's unique, threatened or endangered plants, animals, and natural communities, all in accordance with the provisions of the Wildlife Conservation Law of 1947. In addition, the Board receives funding from the Habitat Conservation Fund. This fund was established by the California Wildlife Protection Act of 1990 (Proposition 117) passed in June of 1990. Funding is provided to protect, enhance and restore wetlands, fisheries and wildlife habitat. Funding is also provided from the California Environmental License Plate Fund and the Public Resources Account, Cigarette and Tobacco Products Surtax Fund for acquisition and preservation of valuable wildlife habitat for ecological reserves and for the protection, restoration, and enhancement of fish, water fowl, and wildlife habitat. For further project detail, please see the Capital Outlay budget section which follows.

Through its staff, the Board conducts necessary investigations and studies to determine the areas within the State most essential and suitable for wildlife production and preservation and which will provide recreational advantages. As a result of such studies, the Board determines which lands or rights in lands or waters should be acquired by the State to further the wildlife conservation and recreation program. The Board develops fishing piers and fishing access sites at lakes, on the ocean, and along the State's waterways and aqueducts. Development includes, as necessary, features such as boat ramps, parking areas, water supply, and sanitary facilities. Protection and improvement of the resource is accomplished by building fish screens, fish ladders and fish hatcheries, and preserving wildlife marshlands or ecological areas.

## Summary of Program Requirements

## 3640 WILDLIFE CONSERVATION BOARD—Continued

STATE BUILDING PROGRAM EXPENDITURES		Actual 1989-90*	Estimated 1990-91*	Proposed 1991-92*
<b>Public Resources Account, Cigarette and Tobacco Products Surtax Fund</b>				
The Tobacco Tax and Health Protection Act of 1988 (Proposition 99) passed in November, 1988, and provides funds through a newly created Public Resources Account to protect, restore, enhance, or maintain fish, waterfowl, and wildlife habitat.				
80.10.031	Cosumnes River Preserve—Acquisition and restoration .....	—	\$1,674	—
80.10.132	Deer Habitat—Acquisition .....	\$2,059	942	—
80.10.133	Waterfowl Habitat—Acquisition .....	—	1,560	—
80.10.137	Coyote Hills Wetland Project .....	—	250	—
TOTALS, PUBLIC RESOURCES ACCOUNT, CIGARETTE AND TOBACCO PRODUCTS SURTAX FUND .....		\$2,059	\$4,426	—
<b>Habitat Conservation Fund</b>				
The California Wildlife Protection Act of 1990 (Proposition 117) passed in June, 1990, established the Habitat Conservation Fund to protect, enhance, and restore wetlands, fisheries and wildlife habitat.				
80.10.010	Minor Projects (Comprehensive Wetland Habitat Project) .....	—	—	\$500
80.10.133	Waterfowl Habitat Acquisition, Restoration and Enhancement .....	—	\$940	2,000
80.10.134	Unallocated .....	—	9,860	—
80.10.216	Critical habitat areas pursuant to Fish and Game Code Section 2720(b) .....	—	—	1,682
TOTALS, HABITAT CONSERVATION FUND .....		—	\$10,800	\$4,182
<b>Wildlife Restoration Fund</b>				
Continuation of the acquisition and improvement of wildlife conservation projects is planned. The revenue of \$750,000 each fiscal year, as provided by the Business and Professions Code, Section 19632(a), has been or will be allocated to projects by the Wildlife Conservation Board. Fish and Game Code Section 1352 authorizes expenditures for the Wildlife Restoration Fund. The schedule reflects the estimated expenditures, based on anticipated allocations by the Wildlife Conservation Board. Commencing with the 1983-84 fiscal year, however, funds for these purposes are appropriated by the Legislature.				
In addition to the Wildlife Conservation Board's regular funding, it is expected that federal funds will become available on a reimbursable basis for qualifying projects, and such funds will be reported annually as received.

## 3680 DEPARTMENT OF BOATING AND WATERWAYS

The program objectives and responsibilities of the Department of Boating and Waterways are to develop and improve boating facilities throughout the State, to promote safety of persons and property connected with the operation of vessels on State waters and promote uniformity of law relating thereto, and to conduct a beach erosion control program in cooperation with the Federal Government and local governmental agencies.

The Department makes loans for small craft harbor development and grants for boat launching facilities, plans and provides funding for capital outlay projects, licenses yacht and ship brokers and for-hire vessel operators, and conducts a program of boating safety and regulation. The Department also participates with the U.S. Corps of Engineers and local agencies in the construction of beach erosion control projects.

The Department has a seven-person commission appointed by the Governor.

SUMMARY OF PROGRAM REQUIREMENTS		1989-90*	1990-91*	1991-92*
10 Boating Facilities .....		\$28,786	\$34,875	\$50,834

## 10 BOATING FACILITIES

## Program Objectives Statements

The objective of this program is to continue to plan, develop, and construct environmentally sound boating facilities in areas of demonstrated need throughout California.

To accomplish this objective, the Department functions as a central source of boating information by conducting special studies, assembling and compiling existing data, and disseminating the information to both public and private groups; contacts and meets with local governmental planning agencies and private individuals to plan local boating facilities development; provides technical assistance for new boating facilities projects; provides financial assistance to local governments in the form of loans for small craft harbors and grants for boat launching facilities and floating restrooms; provides financial assistance in the form of loans to private marina owners for development of recreational marinas; ensures that proper environmental safeguards are met in developing all boating facility projects; and acts as the lead agency for the State in the control of water hyacinth in the Sacramento-San Joaquin Delta and the Suisun Marsh.

The Department also plans, designs, and constructs boating facilities throughout the State Park System, on state water project reservoirs, and on other State lands. These projects are planned and coordinated to ensure proper recreational and environmental utilization. In addition, because marina-related concessions contribute to the financial feasibility of department-financed projects, the Department of Boating and Waterways reviews and approves concession proposals to ensure compatibility with departmental policies and objectives. Coordination with federal, state, and local governmental agencies, as well as private concerns, is maintained on all matters affecting navigation, boating, and boating's relationship with the environment.

## Budget Adjustments

In 1991-92, the following adjustments are proposed:

- \$8,093,000 Harbors and Watercraft Revolving Fund for local assistance launching facility grants.
- \$38,405,000 Harbors and Watercraft Revolving Fund for local assistance small craft harbor loans.
- 4.0 positions (3.0 personnel years) and \$259,000 Harbors and Watercraft Revolving Fund and a redirection of 1.0 personnel year of temporary help and \$26,000 to fund water hyacinth abatement activities in the Sacramento-San Joaquin Delta and its tributaries.
- 2.0 positions (1.9 personnel years) and \$136,000 Harbors and Watercraft Revolving Fund for additional support for the Boating Facilities Program.
- \$1,155,000 (\$405,000 Harbors and Watercraft Revolving Fund and \$750,000 Federal Trust Fund) for new and ongoing studies pertaining to boating facility development, wave and climate patterns, and wind data.
- \$20,000 Harbors and Watercraft Revolving Fund for additional support for the Department's Oceanographer stationed at the Scripps Institution of Oceanography.
- \$31,000 Harbors and Watercraft Revolving Fund for additional personal computers and peripherals.
- \$39,000 Harbors and Watercraft Revolving Fund for increased printing costs for boating facilities publications.

## Authority

Division 1, Harbors and Navigation Code.

Less transfer from the Federal Trust Fund <sup>f</sup> (reimbursement for previously completed projects).....				-2,262	-1,700	-1,700

## 10.10 Grant Program

This program provides grants to local governments and funds for joint State/federal projects in an effort to alleviate the shortage of safe and convenient boat launching facilities.

Grant expenditures are used to fund boat launching ramps and ancillary facilities including restrooms, lighting, car-trailer parking, ramp extensions, drinking fountains, utilities, boarding floats, safety signs, erosion protection, environmental enhancement and landscaping. In addition, the Department may grant funds to governmental agencies for the construction of floating restrooms when conventional restrooms cannot meet the needs of boaters and the presence of floating restrooms could lessen environmental degradation.

\* Dollars in thousands, excluding salary range.

## 3680 DEPARTMENT OF BOATING AND WATERWAYS—Continued

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures	4.5	5.7	5.7	\$6,220	\$6,590	\$8,811

Less transfers from the Federal Trust Fund <sup>f</sup> (reimbursement for previously completed projects)				-2,262	-1,700	-1,700

## 10.20 Loan Program—Local Government

This program provides loans to local governments in an effort to alleviate the shortage of safe and convenient small craft harbor facilities. California continues to experience increases in the boating population with its attendant demand for berthing spaces in small craft harbors throughout the State, especially in the south coastal area.

In addition to developing new small craft harbors, the Department places a high priority on the expansion of existing berthing facilities.

Loan program expenditures indicate the level of funding to local governmental jurisdictions. A harbor development project may include dredging, excavation, erosion control, environmental enhancement, landscaping and irrigation, as well as the construction of breakwaters, harbor master offices, rest rooms, boarding floats, fuel docks, sewage pump-out stations, mooring buoys, berths, public access areas, and utilities.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures	6.5	7.3	9.2	\$18,110	\$19,204	\$28,679
Harbors and Watercraft Revolving Fund <sup>c</sup>				18,110	19,204	27,913
Federal Trust Fund <sup>f</sup>				-	-	766

## 10.30 Loan Program—Private Recreational Marinas

Chapter 1307, Statutes of 1985 (Johnston), created a private marina loan program. The objective of the private marina loan program is to provide financial assistance to private marina owners to develop, expand, and improve the berthing and ancillary facilities in recreational marinas.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Harbors and Watercraft Revolving Fund <sup>c</sup> )	2.3	2.5	2.5	\$3,657	\$8,285	\$12,280

## 10.40 Capital Outlay Administration

The Capital outlay program consists of boating facilities development in the State park system, on State water project reservoirs, and on other State lands. The Department is responsible for the project location, scope, planning, and design of environmentally sound boating facilities within units of the State park system and at state water project reservoirs.

Surveys of boating facility needs throughout the State park system and the State water project reservoirs are conducted and priorities established by the Department in cooperation with the Departments of Parks and Recreation and Water Resources. The Department schedules the construction of boating facilities to meet the needs of the boating population in the various areas of the State.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Harbors and Watercraft Revolving Fund <sup>c</sup> )	4.0	3.9	3.9	\$454	\$476	\$482

## 10.50 Water Hyacinth Control

Chapter 263, Statutes of 1982 designated the Department of Boating and Waterways as the lead state agency for the purpose of cooperating with other public agencies in controlling water hyacinth in the Sacramento-San Joaquin Delta and the Suisun Marsh.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Harbors and Watercraft Revolving Fund <sup>c</sup> )	2.4	2.5	5.5	\$345	\$320	\$582

## 20 BOATING OPERATIONS

## Program Objectives Statement

The primary objective of the boating operations program is to reduce the loss of life, personal injury, and property damage resulting from boating accidents.

This program includes activities in uniform boating law enforcement, boater education, and boating safety. Problems of increased boating activity necessitate study and recommendations in waterway use and management practices. Aspects of the program involve gathering statistical information concerning boating accidents to enable the Department to monitor accident trends, and problem areas, and to research causal factors in such accidents. Additionally, the Department develops and implements programs for the elimination or marking of waterway hazards. Boating safety literature is also published and distributed to prevent problems before they occur. Coordination of boating educational programs is of major importance, too, in reducing accidents. Continuous coordination with over 700 municipal and justice courts and over 150 enforcing agencies ensures an acceptable level of uniformity in boating law enforcement.

## Authority

Division 1, Chapter 4 of the Harbors and Navigation Code.

\* Dollars in thousands, excluding salary range.

## 3680 DEPARTMENT OF BOATING AND WATERWAYS—Continued

## Budget Adjustment

In 1991-92, the following budget adjustment is proposed:

- \$61,000 Harbors and Watercraft Revolving Fund for increased printing costs for boating safety and education publications.

Program Requirements	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Continuing program costs .....	16.2	16.4	16.4	\$5,843	\$6,944	\$6,992
Workload and administrative adjustments .....	—	—	—	—	—	61
Totals, Boating Operations .....	16.2	16.4	16.4	\$5,843	\$6,944	\$7,053
Harbors and Watercraft Revolving Fund <sup>c</sup> .....				4,648	5,204	5,313
Federal Trust Fund <sup>f</sup> .....				1,160	1,725	1,725
Reimbursements .....				35	15	15

## 20.10 Boating Safety

Work in boating safety includes identification of potential problem areas either through local contact or review of accident statistics, recommending changes in the law and regulations governing the marking or removing of boating hazards, helping local agencies warn boaters of hazardous conditions, and recommending improvements in boating equipment. Presentations on boating safety are given to schools, boating clubs, public service organizations, and others interested in boating. Safety literature is disseminated statewide. In addition new projects are reviewed for compliance with State laws, and local entities are assisted in proper zoning and marking of waterways. In spite of a continual increase in the number of boaters, the number of boat related deaths has declined both in raw numbers and accident rates in California.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	4.0	3.9	3.9	\$517	\$696	\$770
Harbors and Watercraft Revolving Fund <sup>c</sup> .....				380	470	544
Federal Trust Fund <sup>f</sup> .....				137	226	226

## 20.20 Boating Regulations

This element maintains liaison with appropriate federal, state, and local agencies promulgating boating regulations. Federal regulations and regulatory proposals are reviewed, and where appropriate, changes are made to State regulations. State and local boating regulations are reviewed to ensure consistency. In some instances, assistance is provided to local agencies in the development of boating ordinances. This element also reviews public notices of development projects affecting the State's waterways, and provides comments relative to safety and navigation. Where appropriate, State regulations are added, revised or deleted under authority provided in the Harbors and Navigation Code.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures (Harbors and Watercraft Revolving Fund <sup>c</sup> ) .....	2.6	2.5	2.5	\$245	\$302	\$310

## 20.30 Boating Education

The boating education element develops safety leaflets and posters; develops news releases, radio and television public service announcements; and coordinates the publicity of boating instruction with the State Department of Education, United States Coast Guard Auxiliary, United States Power Squadrons, and other boating organizations to promote better boating safety education. A public school boating course was developed by the Department and made available to schools throughout the state.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	3.0	2.9	2.9	\$688	\$976	\$985
Harbors and Watercraft Revolving Fund <sup>c</sup> .....				242	333	342
Federal Trust Fund <sup>f</sup> .....				411	628	628
Reimbursements .....				35	15	15

## 20.40 Boating Enforcement

This element administers the state and federal aid programs which provide funds to qualifying local agencies involved in boating safety and enforcement. Additionally, it monitors local programs for effectiveness. To ensure uniform law enforcement statewide, annual training is provided to enforcement officers. Local boating ordinances are reviewed to ensure conformity with State law.

Input	89-90	90-91	91-92	1989-90*	1990-91*	1991-92*
Expenditures .....	3.0	3.4	3.4	\$4,095	\$4,635	\$4,619
Harbors and Watercraft Revolving Fund <sup>c</sup> .....				3,483	3,764	3,748
Federal Trust Fund <sup>f</sup> .....				612	871	871

## 20.50 Yacht and Ship Brokers Licensing

The objectives of this program are to protect the public from fraudulent acts by persons engaged in the sale or resale of used vessels, and to provide a minimum level of competence among such brokers and their salespersons. To accomplish this, yacht brokers and salespersons are licensed, and complaints resolved through arbitration or legal action. In addition, for-hire vessel operators are licensed by this program.

## Authority

Expenditures ( <i>Harbors and Watercraft Re- volving Fund</i> ) .....	3.6	3.7	3.7	\$298	\$335	\$369

## 30 BEACH EROSION CONTROL

## Program Objectives Statement

The objective of the beach erosion control program is to mitigate coastal erosion and develop shoreline protection measures to preserve and enhance the beach and shoreline developments of the State. The Department is responsible for advising local, State, and federal governments on the need to protect critical areas from erosion, and for cooperating with all levels of government in programs to provide protection.

The program involves cooperative efforts with the federal government, state agencies, and local agencies to study and report on problems of beach erosion. Major beach erosion projects are constructed by the U.S. Corps of Engineers in cooperation with State and local agencies. Small beach erosion projects are constructed by local agencies with State cooperation.

California's marine shoreline was seriously damaged during the winters of 1978, 1980 and 1982, particularly the beaches in San Diego, Los Angeles, Santa Cruz, Marin and in San Francisco Counties. Mitigation of severe storm damage has been achieved, but remedial works are needed to protect coastal developments against future high energy storm waves. Corrective measures to preserve recreational beaches and to protect existing shoreline developments will require the cooperative participation of federal, State, local, and private agencies.

**3720 CALIFORNIA COASTAL COMMISSION**

In 1972, the voters of California passed Proposition 20, which established a temporary State Agency—the California Coastal Zone Conservation Commission—and required it to prepare a long-range plan for the conservation and development of the State's 1,100-mile coastline and to regulate virtually all development along the coast while the plan was being prepared. The California Coastal Zone Conservation Commission completed its plan in 1975 and, based on the recommendations contained in the plan, the Legislature enacted the California Coastal Act of 1976 to provide for the permanent State management of California's coastal resources. The 1976 Coastal Act established the California Coastal Commission to succeed the California Coastal Zone Conservation Commission, which expired at the end of 1976 under the provisions of Proposition 20. The Commission is composed of 15 members, 12 voting members and three nonvoting members. The Governor, the Senate Rules Committee, and the Speaker of the Assembly, each appoints two public members and two locally elected officials. The three nonvoting ex-officio members are the Secretary for Resources, the Secretary for Business, Transportation and Housing, and the Chairperson of the State Lands Commission. From 1977 through June 1981, six regional coastal commissions assisted the state coastal commission in carrying out its responsibilities. Under the provisions of the Coastal Act, the regional commissions were terminated on July 1, 1981.

The Coastal Act established policies with which "coastal zone" conservation and development decisions must comply. The "coastal zone" is defined on maps incorporated into the Coastal Act. The zone extends three miles seaward and generally about 1,000 yards inland. In particularly important and generally undeveloped areas where there can be a considerable impact on the coastline from inland development, the coastal zone extends as much as five miles inland. In developed urban areas, the coastal zone extends considerably less than 1,000 yards inland. The Commission's jurisdiction does not extend into or around San Francisco Bay, where development is regulated by the San Francisco Bay Conservation and Development Commission which is governed under a different State law.

The policies of the Coastal Act deal with public access to the coast, coastal recreation, the marine environment, coastal land resources, and coastal development of various types, including energy facilities and other industrial development. To carry out these policies, each local government within the coastal zone is required to prepare a local coastal program (LCP) that reflects the policies of the Coastal Act. An LCP is composed of a land use plan (LUP) and implementing ordinances. Each LCP must be submitted to the Commission for review and certification of its adequacy. Until the LCP has been certified, virtually all development within the coastal zone requires a coastal permit from the Commission as well as a local permit from the city or county in which the development would be located. After certification of an LCP, the Commission's regulatory authority over most types of development is delegated to the local government, subject to limited appeal to the Commission. In 1981, legislation was passed (Chapter 1173, Statutes of 1981) to modify the procedures for the preparation and certification of LCPs. Under these amendments, a local government can take over the authority for regulating most coastal development upon the certification of the LUP portion of its LCP. However, if a local government elects to use this early transfer option, all local decisions on coastal development permits are subject to appeal to the Commission.

The Coastal Commission is also the designated State coastal management agency for the purpose of administering the federal Coastal Zone Management Act in California. Under the federal law, California receives financial assistance to develop and implement the federally approved California Coastal Management Program, which is based on the policies of the California Coastal Act. The federal coastal act gives the Commission authority over federal activities that would not otherwise be subject to State control under California law.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

## 10 COASTAL MANAGEMENT PROGRAM

## Program Objectives Statement

The elements of this program implement the California Coastal Act and the California Coastal Management Program under the federal Coastal Zone Management Act. The objective of this program is to provide for the permanent management and protection of California's coastal resources. This objective is being accomplished by: the preparation and certification of local coastal programs (LCPs) to bring the general plans and implementing ordinances of coastal local governments into conformity with the policies of the California Coastal Act; the interim regulation of coastal zone development by the Commission while the LCPs are being prepared to ensure that all development is consistent with the policies of the Coastal Act; the permanent regulation by the Commission of development on tidelands, submerged lands, and public trust lands and the Commission's monitoring, enforcement, and handling of appeals of certain types of local regulatory decisions made under certified LCPs to protect State and national interests; the review of federal projects and activities to ensure that these activities are consistent with the California Coastal Management Program; the Commission's involvement in addressing those coastal issues that cannot be adequately handled by local governments alone; the operation of a program to protect and increase usable areas for public access to the coastline; and the provision of technical information and assistance to local governments in the implementation of their LCPs.

## Authority

Public Resources Code, Division 20, Sections 30000 et seq.

## Budget Adjustments

In 1991-92, the following adjustments are proposed:

- \$264,000 General Fund and 2.0 positions (1.9 personnel years) to establish a new Coastal Commission office in the "North Coast" area of the state.
- \$146,000 General Fund and 3.0 positions (2.9 personnel years) to augment the Coastal Commission's enforcement activities and process backlogged enforcement cases.
- \$49,000 General Fund and 1.0 positions (0.9 personnel years) to increase public awareness about the activities and responsibilities of the Coastal Commission.
- \$197,000 General Fund to replace existing equipment and augment the Coastal Commission's support budget for operating expenses and equipment.

## 10.10 Regulation of Coastal Development

## Program Element Statement

The California Coastal Act of 1976 requires all new development in the coastal zone to be consistent with the Coastal Act policies. To achieve this, the Commission is authorized to regulate new coastal development through the issuance of permits. This authority applies to all proposed development except for powerplants, electric transmission lines, and certain other specified uses which are excluded from the Commission's jurisdiction by the Coastal Act. The Commission's coastal permit authority can be delegated to local governments under one of three methods. First, a local government may elect at any time to take over the permit review authority for all coastal zone development. However, local decisions can be appealed to the Commission and development in certain areas (tidelands, submerged lands, estuaries, public trust lands, the area between the first public road and the sea, and the area within the first 300 feet inland from the sea) continue to be subject to direct regulation by the Commission.

The second method was provided by 1981 amendments to the Coastal Act. Under this method, a local government may take over the coastal permit authority when the land use plan (LUP) portion of its local coastal program (LCP) has been certified by the Commission as being in conformity with the policies of the Coastal Act. As with the first method, development offshore and along the immediate shoreline also requires a permit from the Commission and all local decisions on development within the coastal zone can be appealed to the Commission.

\* Dollars in thousands, excluding salary range.

## 3720 CALIFORNIA COASTAL COMMISSION—Continued

The third method covers areas where a local government does not choose to assume the coastal permit responsibility until it has completed its LCP. Here the Commission retains regulatory authority until the local government has completed its entire LCP (the LUP and its implementing ordinances) and the Commission has certified that the LCP complies with the requirements of the Coastal Act. During this interim period, the Commission may issue a permit only if a proposed development will be in conformity with the provisions of the Coastal Act and will not prejudice the ability of the local government to prepare its LCP. Upon certification of an LCP, the local government must take over the permit authority for the entire coastal zone within its jurisdiction. Development proposed in tidelands, submerged lands, or public trust lands continues to require a permit from the Commission. Local decisions or permits for development between the first public road and the sea and along the immediate shoreline can be appealed to the Commission.

The Commission carries out permit monitoring and enforcement activities to ensure that coastal development does not occur without a coastal development permit, that conditions placed upon coastal development permits are met, and that locally issued permits comply with the provisions of certified local coastal programs.

The Commission also administers the federally-approved California Coastal Management Program, which was established by the Coastal Act. Under the requirements of federal law, federal agencies are required to carry out their activities and programs in a manner generally consistent with the Coastal Act policies. To implement these requirements, federal agencies and applicants for federal permits, licenses, or local financial assistance must submit their proposals to the Commission for its review and approval.

## 10.20 Local Coastal Programs

## Program Element Statement

Each coastal city and county is required to prepare a local coastal program (LCP) for the portion of the local government's jurisdiction that is within the coastal zone, and to submit the LCP to the Commission for certification. An LCP includes a land use plan (LUP) which is the relevant portion of the local general plan, including any maps necessary to administer it, and the zoning ordinances, zoning district maps, and any other legal instruments necessary to implement the land use plan. The policies specified in the Coastal Act are the standards by which the LCPs are judged for their adequacy.

The entire LCP may be submitted at one time, or the land use plan can be submitted first and certified before work is begun on the implementing ordinances, which require a second separate certification by the Commission. Under 1981 amendments to the Coastal Act, all LUPs had to be submitted to the Commission by January 1, 1983 and all implementing ordinances by January 1, 1984. The 1981 amendments authorized the Commission to prepare LUPs for those local governments that failed to submit their LUPs on schedule; to waive the deadlines for processing ordinances if the LUP or implementing ordinances were not submitted, or submitted late; or report the matter to the Legislature and recommend appropriate action.

Certified LUPs and LCPs may be amended by local governments, but the amendments do not become effective until approved by the Commission. Additionally, the Commission is required to review each certified LCP every five years to ensure that LCPs are being properly implemented and are still in compliance with Coastal Act.

## 10.30 Planning and Support Studies

## Program Element Statement

The Commission requires legal and technical information for use in the regulation of coastal development and to assist in the preparation of local coastal programs. Moreover, as the LCPs are completed and regulatory responsibilities are delegated to local governments, the Commission is called upon to provide data, expertise, and advice to local governments in carrying out their Coastal Act responsibilities. Although the Commission has its own staff experts, it continues to rely heavily on other state agencies with specialized staff expertise to avoid duplicating the resources available from these agencies. The Commission's staff experts also assist with the Coastal Resources Information Center, ocean resources and coastal energy functions.

## 10.40 Federal Coastal Management Program

## Program Element Statement

In order for California to have an approved State coastal management program under the provisions of the federal Coastal Zone Management Act, it is necessary that the entire coastal zone—including San Francisco Bay and its shoreline—be covered by the program. Under State law, the San Francisco Bay segment of the coastal zone is under the jurisdiction of another State agency, the San Francisco Bay Conservation and Development Commission (SFBCDC). Furthermore, the federal law requires that only one State agency can be the primary recipient of federal coastal act funds even though several different State agencies have some responsibilities for the implementation of the federally-approved State coastal program. The California Coastal Act designates the Coastal Commission as the State agency responsible for receiving and administering these funds. As a result, any federal coastal management funds for SFBCDC, the State Coastal Conservancy, the Department of Parks and Recreation, or any other State or local agency must be received by the Commission, administered, and passed through to the other agencies.

## 10.50 Coastal Access Program

## Program Element Statement

One of the Commission's statutory responsibilities is to promote maximum public access to and along the coast. Under the California Coastal Act the Commission's primary means for meeting this responsibility is through access elements in LCPs and by including in coastal development permits conditions requiring that public access to the coast be allowed as part of the approved development. In addition, Chapter 868, Statutes of 1979 authorized the Coastal Commission to prepare and periodically update the *California Coastal Access Guide*, an atlas of coastal accessways, for distribution to the public.

## 10.60 Coastal Resource Information Center

## Program Element Statement

Chapter 1470, Statutes of 1982 directed the Commission to establish a Coastal Resource Information Center and an automated graphics and data storage and retrieval system, and to publish a "Guide to Coastal Resources". The automated data storage and retrieval system is to inventory permits, LCP information, relevant studies and data bases and to provide assistance to the Commission and to other federal and state agencies, local governments and the public.

20 COASTAL ENERGY PROGRAM<sup>1</sup>

## Program Objectives Statement

This program implements the energy planning and regulatory requirements of the California Coastal Act and the California Coastal Management Program under the federal Coastal Zone Management Act. The objective of this program is to provide for the permanent management and protection of California's coastal resources while at the same time ensuring that the State and national energy concerns, which are afforded special treatment in the Coastal Act, are addressed. This objective is being accomplished by including an energy component in the LCPs of local jurisdictions facing significant energy development; requiring the amendment of an LCP that would prevent a needed energy development if the development would otherwise conform with the Coastal Act; regulating coastal energy development under special conditions which allow approval even if a development would not meet other policies of the Act; regulating oil and gas drilling offshore California to ensure that drilling will be consistent with the California Coastal Management Program; and designating biennially areas where the location of thermal electric generating plants would conflict with the objectives of the Coastal Act.

## 3760 STATE COASTAL CONSERVANCY

## Program Objectives Statement

Chapter 1441, Statutes of 1976 established the State Coastal Conservancy within the Resources Agency. The State Coastal Conservancy was created to develop and implement programs to protect, restore and enhance resources in the coastal zone within the policies and guidelines established pursuant to the California Coastal Act of 1976.

Specifically, the State Coastal Conservancy is empowered to:

- acquire agricultural lands in order to prevent the loss of such lands to other uses and to assemble such lands into parcels of adequate size so as to permit continued agricultural production;
- provide grants to local agencies for, or undertake itself, projects designed to restore areas which may be adversely affecting the coastal environment or impeding orderly development due to poor lot layout, scattered ownerships, incompatible land uses, or other conditions;
- award grants to local or State public agencies for, or undertake itself, projects designed to enhance natural and scenic values threatened by dredging or filling, improper location of improvements and other conditions;

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 3760 STATE COASTAL CONSERVANCY—Continued

- d) undertake projects in the preservation of significant coastal resource areas until other public agencies are willing or able to acquire such sites;  
 e) award grants to the Department of Parks and Recreation or to local public agencies for the purpose of acquiring and developing public accessways to the coast; and  
 f) award grants and provide technical assistance to nonprofit organizations.

## 10 AGRICULTURAL LAND PRESERVATION

## Program Objectives Statement

The objective of Agricultural Land Preservation Program is to acquire interest in agricultural lands, provide necessary improvements and convey them back to private agricultural operators in order to conserve resources and prevent loss of productive agricultural lands to other uses. This objective is achieved through grants or direct acquisitions, provision of site improvements and resale of legally protected lands to private parties for continued agricultural use.

## Budget Adjustment

In 1991-92, the following budget adjustment is proposed:

- 1.0 position (0.9 personnel year) limited term until June 30, 1993, and \$50,000 from the California Wildlife, Coastal and Park Land Fund of 1988 to continue project work within the Agricultural Land Preservation Program pursuant to the California Wildlife, Coastal and Park Land Conservation Act (Proposition 70).

## Authority

## 20 COASTAL RESTORATION

## Program Objectives Statement

The objective of the Coastal Restoration Program is to assist local governments, landowners and developers in the design or redesign of subdivisions and to encourage appropriate private development while protecting coastal lands having high scenic, recreational, or habitat value. This objective is achieved by providing grants and loans to local governments and nonprofit organizations, and implementing approved restoration plans through acquisition and consolidation of substandard lots.

\* Dollars in thousands, excluding salary range.

## 30 PUBLIC ACCESS

## Program Objectives Statement

The objectives of the Public Access Program are to provide new, rehabilitated and improved public accessways to state tidelands in a manner which protects public safety, sensitive natural resources and private property rights. These objectives are achieved by funding construction grants and by providing technical assistance and public information to implement the State's coastal management policies.

## Budget Adjustment

In 1991-92, the following budget adjustment is proposed:

- \$125,000 from the Violation Remediation Account within the State Coastal Conservancy Fund of 1976 for grants to construct accessways in the area of Malibu, Los Angeles County.

## Authority

Public Resources Code Division 21, Chapter 9, Sections 31400–31405.

## 40 RESOURCE ENHANCEMENT

## Program Objectives Statement

The objective of the Resource Enhancement Program is to create new habitats in areas not currently providing functional habitat; restore watersheds to reduce long-term degradation of coastal wetland resources; enhance existing habitat areas to provide more productive habitat values and resolve land use conflicts in a manner where existing resources are preserved and restored and/or new habitats are created. These objectives are achieved through a program of technical assistance and grant funded project planning, development and implementation.

## Budget Adjustment

In 1991-92, the following budget adjustment is proposed:

- 1.0 position (0.9 personnel year) limited term until June 30, 1993, and \$50,000 from the California Wildlife, Coastal and Park Land Fund of 1988 to continue project work within the Resource Enhancement Program pursuant to the California Wildlife, Coastal and Park Land Conservation Act (Proposition 70).

## 60 URBAN WATERFRONT RESTORATION

## Program Objectives Statement

The objective of the Urban Waterfront Restoration Program is to assist local governments in redeveloping deteriorated and poorly planned waterfronts; provide enhanced visitor-service, recreational and public access opportunities; provide support for the commercial fishing industry and for coastal-dependent industries in general. This objective is achieved through an active program of technical assistance and grant funded project development and implementation.

## 70 NONPROFITS

## Program Objectives Statement

The objective of the Nonprofits Program is to provide technical assistance and support to nonprofit organizations in the areas of agricultural land preservation, coastal restoration, public access, resource enhancement, site reservation and urban waterfront restoration. This objective is achieved through a program of grants and technical assistance to increase non-profit capacity to carry out Conservancy projects.

## 80 TRANSFER PROGRAM

## Program Objectives Statement

The objective of this program is to provide technical accuracy by showing funds transferred from the Fish and Wildlife Habitat Enhancement Fund of 1984 and the California Wildlife, Coastal and Park Land Conservation Fund of 1988 to the Habitat Conservation Fund. These transfers were needed to fulfill the requirements of Proposition 117 (Section 2780, *et seq.*, of the Fish and Game Code).

## Authority
